MINER'S BOHEMIANS.

The attraction of the Grand Next Two particularly high class acts feature the second week's engagement of the advanced vaudeville and burlesque at the Grand, week commencing matinee tomorrow at 2:30, with afternoon performances daily. "Charmion," better known as "The Perfect Woman," who performs the rare feat of disrobing in mid-air, is one of the principal features. "Charmion" needs no introduction to the theatre goers, her numerous tours over the Orpheum circuit, as well as her success in New York and other large cities, have established for her a reputation of lasting strength.

The organization, headed by Andy

MISS FLOSSIE TAYLOR As the Suffragette.

Gardner as "Pasty Bolivar" and Ida Nicolin, has the reputation of being a good show every year, and from what can be learned in advance, it appears that this season's aggregation of performers is the strongest in the sense of talent that has ever appeared under the caption "Bohemians." Twenty rollicking, jovial show girls, some of whom have never appeared with burlesque show, are seen with this popular organization, whose unusual singing and dancing abilities will appeal to all lovers of high class burlesque and vaudeville.

Two rollicking farces, entitled "Patsy in the Wild and Woolly" and "The Bohemian Beauty," are presented which gives the high class company plenty of opportunities to exhibit their talents. A strong collection of vaudeville specialties are introduced between the first and second acts, the principal feature of which will be the great Charmion, who performs the rare feat of disrobing in mid-air.

TEMPLE TO RHODES

Empire Builder's Memorial Erected on Lion Preserve.

Table Mountain in South Africa is Where the Structure is Built—Beautiful View is Obtained From Spot—Made Road.

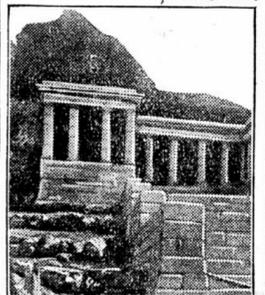

London.—The memorial erected to Cecil Rhodes on the slopes of Table Mountain is both magnificent and fitting. The site was always a favorite one with Rhodes, who believed that the view from the eastern spur of the mountain excelled any other prospect in the world for beauty. He made a broad road to it and placed a seat there. From it a very fine view is obtained of Table V in the Atlantic to the north and of Fake Bay in the Indian Ocean to the south, as well as the Cape Flats and the distant mountain ranges stretching for a hundred miles to the east and north.

Not far from this seat it was his intention at one time to build a great temple, as he called it, the object of which was twofold. He intended to make a huge enclosure for his lions, that they might be housed with the greatest possible freedom and amid natural and beautiful surroundings. The idea in his mind was that the lions, enjoying a large range of liberty and magnificently housed, would attract people to the mountainside, where art and nature together at their best must lift them out of themselves and inspire them with lofty thoughts.

Remembering that such had been Rhodes' imaginings on the mountain side, the memorial committee decided that the best form for the monument would be a temple dedicated to himself.

The monument has been built of the granite which forms the natural base of Table Mountain and has been worked to a texture which is not so fine as to be out of scale or harmony with its mountainous surroundings.

In front of the monument is the statue "Physical Energy," by F. Watts, R. A., representing a man reclining in his horse after some great deed and scanning the future for his next achievement. It was not designed by

Cecil Rhodes Memorial.

Watts especially for Rhodes or his monument, but was presented as a gift to South Africa out of admiration for the genius of Cecil Rhodes.

Suggestions were made to place it elsewhere. But it was Rhodes' dream to make the Cape Peninsula the center of art and beauty in South Africa. It seemed natural, therefore, that this gift of the greatest of English artists should be placed in Rhodes' monument on Table Mountain.

The eight lions, four on either side of the long flight of steps leading up to the portico, are the work of the late J. M. Swan, R. A.

LOSES BET; TAKE 45 ON TRIP

Oklahoma Farmer's Odd Wheat Wager With Sars and What Is to Come of It.

Wichita, Kan.—Col. William Holden of Amorita, Okla., his wife, his seven sons and daughters, their families and fifteen other relatives, forty-five in all, will take a vacation in California at the expense of Col. Holden, who lost a bet on his prospective wheat yield. The colonel has 23,000 bushels of wheat on his 800 acres near Amorita. Before it was thrashed he bet with his sons that it would not average twenty bushels to the acre. The average was twenty-eight.

The wager was a trip to California for the whole Holden family if the wheat went to twenty bushels. The extra eight bushels to the acre many times more than pays for the trip.

It will pass through Plainfield, Elizabeth, Newark, Hackensack, Jersey City, Bayonne and other cities. At each town there will be brief open air meetings with addresses by women leaders.

FINDS MONEY IN DRESSER

Widow Attends Household Goods Sale and Discovers \$3,000 Under Marble Top.

Memphis, Tenn.—Mrs. C. B. Blake attended the sale of household goods at the home of Mrs. Caroline Cloth, who died several days ago worth half a million. She brought an old fashioned walnut dresser with a marble top. Recently while cleaning the furniture she removed the top and hidden under it was three thousand dollars in paper bills. Mrs. Cloth was a widow and had lived here for years alone with pet birds and dogs.

THE SIN OF SILENCE

To sin by silence when we should protest makes cowards out of men. The human race has climbed on protest. Had no voice been raised against injustice, ignorance and lust, the inquisition yet would serve the law, and guillotines decide our least disputes. The few who dare must speak and speak again to right the wrongs of many.—Ella Wheeler Wilcox.

EYE DEFECTS AND SYMPTOMS.

Eye defects are few—symptoms many. There can be but two defects in the human eye. They may be too long in whole. Then we have the Myopic eye. Or too short in whole—the Hyperopic eye. Combine the two in one eye and we have Astigmatism. Properly adjusted glasses will correct these defects. Medicines or waiting, never.

Symptoms that spring from these two simple eye malformations are manifold; such as eye and headaches, Indigestion, Dyspepsia, Nervous Debility, Chorea, Epilepsy and other ailments having their origin in lack of nerve force. We correct all Defects of the human eye that glasses will remedy. Charges reasonable. Satisfaction guaranteed.
