POLICEMAN SHOT BY COLORED MAN DIES IN HOSPITAL

PATROLMAN STEGNER AND BORDEN WOUNDED IN ATTEMPT TO QUELL DISTURBANCE ON STATE STREET

Three Women, One White, and Four Men Held as Material Witnesses in Affray

Motorcycle Patrolman George Stegner who was shot by William Smith, colored, while attempting to quell a disturbance in a shack in the rear of 146 State street Wednesday night died at the City hospital at 3:30 A. M. Thursday. Smith, who was arrested shortly after midnight, has confessed to shooting Stegner and also Patrolman William Borden, who was not seriously wounded.

Smith was arrested by Detectives John McGowan, Edward Hughes and Paul Meyers at "Steve's" rooming house, 319 East Seventh street at 1:30 A. M. He had taken off his clothes and was in bed when the detectives found him, but he had his revolver, loaded with fresh cartridges under the covers. He made no resistance, however, and was taken to Central station where yesterday morning he signed a confession for Chief Sommer detailing the entire affair.

Three Women, Four Men Held
Three women, one of them white, and four men are being held at Central station on hearing the disturbance called the police. Patrolman Borden, knowing the shack was a "tough hangout" asked Duca's station to send some assistance, then started for the scene of the brawl. He threw open the shack door, yelled "stick them up," and was greeted by a volley of shots. One bullet struck him in the chest and he fell.

Stegner Mortally Wounded
Stegner had just come up at this time. Stepping over Borden's body he attempted to enter the shack, but he also was greeted with a volley of pistol shots, and fell beside his fellow officer, mortally wounded. A riot squad was then sent to the shack, but the inmates had fled through another door and the reserves found only the two wounded officers. Both were taken to the City hospital, where Stegner died at 3:30 A. M., after an operation lasting more than an hour. He had been shot in the abdomen. The bullet which struck Borden hit a rib and was deflected around his body, making a long, ugly surface wound, but not penetrating a vital organ. The shock of the bullet fired at close range, striking his body, caused temporary numbness and paralysis of the upper part of the body.

After the shooting Smith told Chief Sommer that he went to his home at 170 Eatin street, then to Cagney's place on Wabasha near Fourth street. He then went to Seventh and Wabasha streets and boarded a street car, getting off near the rooming house where he was arrested.

Said He Killed Two Cops
His confession omitted a visit to the home of William Wilson, a colored officer and friend of Smith who lives at 149 Chicago avenue. Police learned that he visited the Wilson home, and in the presence of Mrs. Wilson and Dave Brody, a student, extracted six empty shells from his pistol and reloaded it, saying: "I've just killed two cops and I'm leaving."

Smith was not the only person armed or using firearms. Police also are holding another colored man who is reported to have shot a half dozen times, at nothing in particular, apparently just to be in on the shooting party.

Funeral arrangements for Stegner have not been completed, but members of the police force will act as bearers and as man police and firemen as can be off duty at the time will attend the services.

Praised by Chief Sommer
Stegner was born in St. Paul 27 years ago. He became a member of the police department in April, 1919, and has been one of the best motorcycle officers on the force since, according to Chief Sommer.

Stegner is survived by his widow, a bride of three weeks, his mother, Mrs. Anna L. Stegner, 1600 Laurel avenue, a brother, W. E. Stegner of Albert Lea, and a sister, Mrs. John Smith of Alaska. He also is survived by a 6-year-old daughter, Dorothy, by a former marriage.

You Needed It Then; You Need It Now
That government life insurance, to which only veterans of the World War are eligible, is the best and cheapest protection is generally conceded. Insurance companies do not compete for the veterans' business and almost without exception are wholeheartedly co-operating with the government in advising the boys of opportunities open to them as a result of their war service. Listen to what the secretary of one of the largest life insurance companies in the world says of Government War Term Insurance: "Of course life insurance companies cannot grant insurance at less than cost, but the government offers insurance to the soldiers at less than it would cost the government to grant that insurance. (That is because the government bears all expenses of management, etc.) The government is justified in this liberality in consideration of the fact that these veterans have risked their lives, or have been willing to risk their lives for the benefit of the nation. All this being so, it is obviously expedient for these boys to take all the government insurance possible at the low rate charged." The company whose secretary

made the above statement has instructed all of its agents to refuse to take applications from ex-service men until they have taken the full amount of government insurance to which they are entitled. The U. S. Veterans' Bureau is handling the insurance business for the federal government.

HOW TO REMOVE SOOT

Large numbers of shingle roof and defective flue fires are being reported, due to the increasing use of soft coal. The accumulations of soot on heating surfaces reduce the value of the fuel, and frequently clog the flues and start fires. The Federal Fuel Administration Board suggests the following plan for removal of soot: The fire is put into good condition with a substantial body of hot fuel. Common salt, thoroughly dried, is then thrown or sprinkled onto the incandescent fuel bed in a quantity depending entirely on the size of the furnace. In the case of a house heating furnace, one pound at a time is ample; in the case of a large power plant boiler, four or five scoopsful may be required. The dampers are kept open so as to maintain the furnace temperature and the salt is allowed to remain until the fumes have entirely disappeared.

Immediately upon charging the salt, the furnace becomes filled with dense white fumes which may require as much as half an hour to entirely disappear. If results are not secured on the first application, it should be repeated as many times as necessary.

Once the heating surface is thoroughly cleaned a small application every few days is usually sufficient to keep it so.

Everyone using soft coal is urged by the administration to use this remarkably simple and cheap process for getting rid of the soot, cleaning and heating surfaces of boilers, thus saving large amounts of coal, preventing fires from chimneys and generally conserving all along the line of heating and the production of power.

FROM WITHIN

By E. W. Gilles
A great deal of growth is from within. This is true intellectually as well as otherwise. Benny Brooks had the foolish idea that in some way or other the school was going to pour education into him without much effort on his part. We honor "self made" men, but vitally every man is self made if he is really made at all.

Vitality is growth from within, and growth that is worth while means planting and cultivating and then more planting and cultivating and then some more of the same kind. Spiritual growth is from within, enlargement, expansion, development, vitalization, all from within. The securing of a better job and bigger pay is vitally a matter from within, more education, more devotion, more ability, more reliability, more efficiency. Neither education or religion nor

position can be vitally secured from without. They are matters vitally to be developed from within.

Club Takes "Trip"

The Get-Together Club of Memorial Baptist Church gave a hiking party, a trip in the old country, on Thursday evening. Beginning at "Oyster Bay," the home of Mr. and Mrs. G. Bush, 639 W. Central Ave., the party journeyed to "Italy," the home of Mr. and Mrs. E. Bridges, 702 Carroll avenue, then to "Germany," the home of Mr. and Mrs. S. W. Williams, 318 N. Grotto, then to "France," the home of Mr. and Mrs. E. Roberson, 790 Carroll avenue, then to "Sweden," the home of Mr. and Mrs. A. W. Jordan, 791 Rondo, then to "Russia," the home of Mr. and Mrs. C. D. Milligan, 1008 Rondo, then to "Africa," the home of Mr. and Mrs. Pleasant, 1020 Rondo, the destination of the hiking party. The evening was beautiful for the occasion and about 50 persons participated in the fun. At each of the "countries" a light lunch was served and everyone had a most enjoyable time.
