What About Seed Wheat?

While many of our neighbors in
the surrounding towns, and some
of our more fortunate residents,
are busy harrowing and seeding,
the seed grain, which was to have
been furnished our people for their
Spring's seeding, has not yet been
secured. And, we learn, that in-
stead of the 3,000 bushels which
was to have been purchased, as
per previous estimate, and which
sum was little enough, has been
cut down to about 2,800 bushels.

The penuriousness of this allow-
ance of seed grain to the helpless
wards of the Government, is best
illustrated by a comparison of the
amount of bushels with which it is
proposed to furnish our people and
the amount of land to be seeded
this Spring. According to the
statistical (farmer's) report
for 1888, 266 persons cultivated
3,774 acres of wheat, the most of
which was destroyed by frost, and
13 other individuals having an
acreage of 207 acres were com-
pelled, from want of seed, to al-
low their farms to grow up in foul
weeds.

Out of a total of 5,773 acres of
tillable land, fit for actual culti-
vation the present Spring, 4,648
acres make up the grain fields of
the reservation and the source
from which its people look to for
the chief factor of their subsist-
ence. And to add to the gravity
of the situation, the last season's
wheat crop having been destroyed
by the frost, there is not, on this
reservation, to-day, a bushel of
wheat fit for seed purposes! While
the indigent circumstances of our
farmers in general makes it next
to impossible for them to purchase
seed grain. Verily, the outlook
for the White Earth farmers and
the people of the reservation, in
general, is deplorable indeed.

Goals to New Castle.

We understand that the sugges-
tion has been made that in the
event individuals, Indians, should
be called to serve in subordinate
capacities under the Commission,
to negotiate with our people, be
selected from some of the Wiscon-
sin reservations. How much truth
there is in this report we can not
say, but, we would respectfully
suggest, that, should there be any
appointments to be given to Indi-
ans or members of reservations, to
serve in subordinate positions
pending the negotiations, that
that patronage should be confined
to the people of the reservations
directly interested, as we believe
that sufficient qualified ability can
there be found to meet the general
demands requisite of such posi-
tions.

Deemed to Disappointment.

Some of the members of this,
and the Red Lake Reservation,
who are interested in the suits
that have been pending in the U.
S. Dist. court for four years past
regarding the down and fallen tim-
ber that was cut by the Indians
during the last year of agent
Luce's administration, are again
doomed to disappointment.

It was generally understood on
this reservation, that, finally, the
cases would be brought to trial at
St. Paul in April, but later ad-
vices state that these cases will not
be tried before next June, and it
is quite doubtful if they can be
reached even then.

THE PROGRESS.

White Earth, March 23d, 1889.

Published Every Saturday.

Subscription: \$2.00 per year, in Advance.

Entered in the Post Office at White Earth as
Second Class Matter.

To Subscribers.

Necessary material, for our
make-up, having failed to reach
us in time, we are obliged to fur-
nish our readers with only a half-
sheet of the Progress this week.

Local and Personal.

Signs of merry Spring.

Boom, boom, the gallant pheas-
cock, at rosy sunset and early
dawn, doth sound his reveille.

And the frisky frog, from his
mirey bed slowly creeps and once
more pipes his three, t-r-r-e-e-e.

Caw, Caw, the dingy crow
chimes a welcome ring to the sun-
ny smiles of returning Spring.

And the pesky flea, with hawk-
like beak, incessantly some tender
spot doth seek.

There is a hurrying up mani-
festly perceptible among sugar-
makers just now.

Ben Fairbanks had several teams
hauling lumber for him from Rice
River this week.

Miss Jennie Boney, one of
Richwood's charming young lad-
ies, was a guest of Mrs. W. T.
Warren the early part of this
week.

Owing to the warm weather of
the past week the ice on the lakes
and ponds has become honey-
combed and dangerous for one to
venture on.

We learn that a vacancy will
probably occur in the government
blacksmith shop at this agency at
an early day. Should this take
place we would suggest that some
of our Indian blacksmiths, who
are equally capable and worthy,
and who, by law, have a right to
preference, be employed.

Why Not?

The idea would seem consistent
and in keeping with the progress-
ive views manifested by the gener-
al Government towards the Indi-
ans of this reservation if the old
unoccupied government school
building, which is standing idle
and rapidly going to decay, could
be utilized and made to serve a
good purpose and for the general
interest of the public. It could
be converted into a recreative re-
sort and a place of amusement for
public and social gathering, or
fitted up for the agency office and
thus vacate the Industrial and so-
cial hall building now occupied as
the agency office and headquar-
ters, and which was especially
erected for the purposes of an In-
dustrial hall and a place for recre-
ative amusement. It certainly
seems unjust for the authorities to
insist in the occupancy of the
people's only place of gathering
and amusement while other build-
ings, equally convenient, are per-
mitted to remain unoccupied and
become the prey of desuetude, and
whose locked doors, closed even
to the most innocent enjoyment,
are sealed with the onerous mesh-
es of red-tapeism and so-called de-
partmental orders, but more os-
tensible, to those best acquainted,
to predominating malevolent in-
fluences. We would further suggest
that if the old school building can
not be utilized to advantage under

present auspices why not turn it
over to some one of the religious
denominations established here,
and for the purposes of education.
The proposed new mission school,
the princely gift of benign philan-
thropists, to be erected here the
coming summer, could conven-
iently be placed on the site of the
former school boarding house,
which was destroyed by fire two
years ago, and the present unoccu-
pied building could then readily
be converted into a school room.

OF VITAL IMPORT.

There has been much discussion
of late, on this reservation, rela-
tive to the "Nelson bill." There
seems to be a unanimity of feeling
against some of its provisions,
viz:

The insufficiency of land as
proposed to be allotted to each in-
dividual.

The "common fund" plan,
The unreasonable restrictions
as proposed regarding the allot-
ment of land to agricultural lands
only, etc.

We would suggest that a meet-
ing, to discuss these questions, be
called at an early day, in order
that a thorough understanding of
the desires of the people living on
this reservation may become
known regarding these matters,
so that the representatives of the
tribe may be better prepared to
convey, to the Commission ap-
pointed to negotiate with the
Chippewas, any modification of
the bill as will best meet the ap-
proval of the tribe.

AN UNENVIABLE RECORD.

Four years ago, the first day of
April next, T. J. Sheehan took
charge of the White Earth agen-
cy as U. S. Indian agent, conse-
quently his term of office expires
the last day of this month.

Taking even an impartial view
of his administration there seems
nothing sufficiently creditable or
praiseworthy, progressively speak-
ing, to commend it to the pub-
lic service, much less the welfare
of the Indians. On the other hand
the general tendency of his course
has been one of aggression and
arrogance and one which has sub-
jected him to almost continuous
censure by the people under his
charge. The one predominating
feature of his administrative re-
cord, as Indian agent, and which
has made itself pitifully para-
mount, on any and all occasions,
has been his ridiculous pedantry
and avidity to impress upon our
people and the public the lofty im-
portance of his position, and this,
with a seeming indifference to
consequences and the feelings of
others and worthy only ardent
demagoguism. His bearing to-
wards some of the members of this
reservation has been malevolent,
vindictive and unjust; and to all
he has been the arrogant tyrant
whenever the opportunity present-
ed itself. He will leave this res-
ervation with the unenviable rep-
utation of being the most unpop-
ular and untruthful man that ever
came to White Earth in any ca-
pacity. For the purpose of ad-
vancing his own interests he has
sacrificed friend and foe alike.
We learn that he is endeavoring
to secure a re-appointment but
we sincerely hope that his efforts
in this direction will prove futile;
for no greater calamity could be-
fall this reservation and the gen-
eral interest of civilization towards
the Indian than four years more
of his rule.
