Chinese Labor.

IMPORTANT TO PLANTERS.

The completion of the Pacific Railroad, notwithstanding its Northern locality, is a great thing for the South...

Without any other reward than the gratification of a desire to do the public a service, we have transferred to our columns a circular of the Chinese Immigration Company...

The letter which we published from a Californian a short time since, recommending him as suited to the necessities of the South...

Of Chinamen, there are not less than a hundred thousand in California. There are hundreds of millions in the Celestial Empire...

But will they answer her purposes?—Our opinion is that they will. On this subject, in connection with the circular of the St. Louis Company...

The Mongolians are coming to stay.—They are also coming to work. For that matter, indeed, we are told between forty and fifty thousand of them are already hard at work on and along the line of the Great Pacific Railroad...

We have spoken of the multiplication of the Chinese on the Pacific. From San Diego to Sitka, and back to Montana, Idaho, Nevada, Arizona and throughout all that continent...

A Wretched Pretense.

The Carpet-baggers in a Melting Mood.—The Affecting Appeal.

What little faith was left among the colored folks in the professions of the carpet-baggers, must soon pass away. They now boast that the appointing power is exclusively in their interest...

The excuse which the carpet-baggers' organ, the Pilot, gives for this wholesale grabbing of the leaves and fishes by its people to the exclusion of the colored brethren...

One wonders that the South does not rebel anew when he considers the miserable terms which have been sent down there as officials. Mr. Medill, the leading Radical editor in the North-west, writes as follows:

They, (the Southern people) philosophically endure all the other stings of "outrageous tortures" except the CARPET-BAGGERS—the strolling, pilfering, political black-legs of the North whom they cannot bear, and they cry for exemption from this "infliction."

This is the letter of credit which these professional spoliators bring from the leaders of the party to which they profess to have belonged at the North, and yet as a pretext for appropriating all the offices of profit and distinction, they have set themselves up as superior in the essentials of qualification to our native colored population!

We publish in another column an article from Major Wofford in the Corinth News, in which, planting himself on the doctrine of the equal rights, civil and political of all men, in contradiction to the heresy of disfranchisement, he mildly notifies the agents of strife between the races...

It will not be said that he who gives this wholesome counsel is not a Republican in good standing. His republicanism has been recognized by Gen. Grant, who put under his heel the carpet-baggers' programme of November, 1868, as urged by Congress by Eggleston, Gibbs, Fisher & Co.

Referring to the decision in the Chancellor's Court of England, that Colin J. McKee, the financial agent of the United States for the funds in his possession, or supposed to be in his possession at the close of the war, the Montgomery Advertiser makes this comment:

The ground of the Chancellor's decision is this: that the United States failed to show in what character they claimed the funds in the hands, whether by original right in the United States, or as successor to the de facto government of the Confederate States...

The Pilot takes particular care to exclude from its list of probable candidates of the Eggleston party for Governor, Wofford, Fisk, and Jeffords, who were instrumental in defeating the scheme of the Radical Convention of November last...

Our friend of the Brandon Republican.

"The Contempt of Congress."

Our friend of the Brandon Republican, in introducing for graceful and generous comment, our proposition to the carpet-baggers to solve the whole problem of reconstruction by nominating a joint ticket of Old Line Union Whigs...

Thus does this Radical leader endorse precisely what all conservatives have said in reference to the judgment of Congress and even the "loyal" radical nation on the carpet-baggers' policy.

REMOVAL OF DR. CATCHINGS.—We share the general surprise which is expressed at the removal of Dr. Catchings from the office of Probate Judge of Rankin county. Having been a consistent member of the Union party in former political divisions...

From what we know of public sentiment in Rankin county, we do not hesitate to say that for any office of public trust of the people, he would receive nine-tenths of the votes of that county. Still, with all his consistency as a Union man...

Our old time Union Whig friend of the Brandon Republican, referring to the proposition which we have made in regard to the Pilot, to nominate a straight ticket of Old Line Union Whigs on the Grant platform for State and Congressional offices at the approaching election...

THE PUBLICAN PARTY.—We have studied the reconstruction acts closely, and have not been able to find any provision whatever which requires that in order to re-establish relations with the Union, it is necessary to do so under any particular political organization.

THE CLARION'S PLEDGE.—The Democracy to the support of such a ticket, and it now rests with the Pilot to say whether or not the Radical party is willing to have peace on these terms, and thus avoid a heated canvass during cropping time.

THE ORDER OF THE PRESIDENT FOR THE VIRGINIA ELECTION, names the 6th day of July. Separate votes are to be taken on the disfranchising clauses of the proposed constitution. It is a reasonable inference that the same course will be pursued in regard to Mississippi.

Remarkable Chalybeate Well Near Summit.

LYNCH VS. FISHER.

We are indebted to Mr. G. P. Goddard, proprietor of a valuable well of Chalybeate water near Summit, for a supply which he has been kind enough to send us as a specimen for trial.

THE WATER IS STRONGLY IMPREGNATED with the most valuable tonics. A letter from Dr. Smythe, Surgeon of the New Orleans Charity Hospital, after thoroughly testing it with his patients, writes strongly of its wonderfully useful properties.

THE NATIONAL REPUBLICAN.

THE NATIONAL REPUBLICAN.

The National Republican, the leading Radical organ at Washington, believes that the proscription clause of the constitution framed by the carpet-baggers for Virginia, and marked on Gen. Grant, "are founded in wisdom," and that the best good of the country "wealth requires just these restrictions."

A resolution was offered in the Memphis Convention by Gen. W. S. Patterson, and referred to the Committee on Railroads, instructing the Committee enquire into, and report upon, the expediency of constructing a Railroad from Canton or Jackson, to Mississippi City or the Gulf coast.
