The Ku Klux trial drags its slow length along. The prosecution has well nigh broken down. The defense will commence about Thursday.

Among the distinguished visitors at the Capital, we are pleased to meet Col. Kinloch Fatoner of Holy Springs, the legally elected Lt. Governor in 1888.

Major Randall, of Meridian, Chairman of the Democratic Executive Committee of his county—whole-souled, generous and brave—in town. He is drawing a hitler by the Radical prosections, of course.

A GOOD SELECTION.—We have just been informed that the Democracy of Newton county yesterday nominated our friend Thomas Scanlan, for Circuit Clerk, to fill the unexpired term occasioned by the death of Mr. Jones, Democrat, who was elected in November last.

The Sunday School Concert at the Presbyterian Church last Friday night, is mentioned by the public to-day. It was enough to be present, as a decided success. The sum of \$175.00 was realized for the library fund—one gentleman present contributing fifty dollars.

"THE PATRONS OF HUSBANDRY."—This is the title of a new organization, the "ultimate object of which is mutual instruction and protection to lighten labor by diffusing a knowledge of the various occupations to be known by addressing Dr. R. Fowler, Delville, Lauderdale county, who is a special Deputy for this State.

Philip Phillips, the sacred song singer who wrote the affectionate letter to "Dear Brother Lynch," (our colored Secretary of State), and subsequently visited this city by invitation of the "Iro." Lynch, was in Selma last week. The Selma Times does not say he made a formal address, but it is reported that he did not speak for the deliciously intermingled audience of all colors and both sexes which he had to hear him when here?

OAKLAND COLLEGE TO BE RE-ESTABLISHED.—The plan which we published to-day from a committee of the Board of Trustees of Oakland College, will not fail to attract the attention of some of the public spirited communities of our State. It is the unanimous sentiment of the Board, and of the Synod, that the college be revived. The property in this county was sold mainly because of encumbrances in the way of mortgages and other claims, and because it is desirable to secure a more eligible and central location. The Trustees are now in funds to pay every obligation against the corporation, and a new building, with a balance still held in trust for the College, now unencumbered, together with the liberal cooperation anticipated, would seem to justify the hope that Oakland College may be re-established on an enlarged and permanent basis.

THE ECONOMY OF THE COUNTRY is at present flooded with cheap and inferior goods of every description, which are heralded to the public in flaming advertisements and which yet find a market among those who have yet to learn that "true economy" consists in buying a first-class article on an established and reliable basis. For example, plans of various makes are offered at about one-half the price of those of really first-class manufacturers. Among the latter none are more deserving of the encomium "really first-class" than those manufactured by Messrs. Wm. Ksman & Co., of Baltimore, a firm which, over a third of a century, and whose plans for excellence of workmanship, durability and sweetness of tone, stand absolutely unrivaled and containing many valuable patented improvements, to be found in no other instrument of the kind. The workmen and of strictly first-class and seasoned material.

The so-called "cheap" piano may present a fair exterior appearance, but it is made of inferior and often entirely unseasoned material, and soon becomes a wreck which defies the art of the tuner. We make special illustration of our remarks, which can be applied to almost every article we use in our families.

Another Outrage Committed on a White Girl by a Negro.—The Negro who was arrested for the interference of the Little Buckeye Governor.

A negro fellow named Isaac Curtis, in the employ of Mr. F. A. Goodyear, caught a white girl named Tillman, who was a part of this county, on Thursday last, as she was on her way to school, and committed a number of outrages on her person. He arrested her the same day, tried before Esquires Eames and Hasty, committed to jail, and was released on bond for the next day. The Constable of Stens Creek Beat, to bring to Brandon. The Constable summoned two other gentlemen to assist him, one of whom was Mr. David Tillman, and niece of the injured girl. On the way to Brandon the negro attempted to assault the white girl with a pistol from his hand, when Tillman shot and killed him. A brother of the same name was shot and killed on the way to Brandon, before the war, when a slave, for a similar offense. We are surprised that Mr. Tillman did not kill the negro on the spot. Instead of arresting him and having him tried, there is not one man out of five hundred who would not have been glad to start to jail under the circumstances. Immediate shooting, hanging or burning is the only remedy in such cases, and the negro before most of our present Judges is a mockery.

The best part of this case is the fact that the little Buckeye body, who occupies the gubernatorial chair of this State, is not a man who is fit to be in the office to report to, "Windy Jim" tried that game on one of his appointees in this county, but his appointee had the nerve to disregard his dictatorial orders, and to do his duty, as laid down in the Code. We know the Boofoe body, and he hears that retributive justice has overtaken one of his pets, as the result of his having caused the negroes to commit these damnable crimes, but he must grin and bear it, and not go outside of the law to protect his friends.

REPORTS FROM THE HOUSE COMMITTEES.

Extract from the Radical Report Admitting that the People of the South have been Outraged and Plundered by Carpet-Bag Adventurers.

The refusal of a large portion of the wealthy and educated men of the South to discharge their duties as citizens has brought upon them the same consequences which are being suffered in Northern cities and are being suffered from the neglect of their business obligations to participate in the movements of the people which are self-government. The citizen in either section who refuses to accept his duty as a citizen to take his part in self-government has learned that he must now suffer, and help to repair the wrongs of the past.

The whole country wants now to see what the action of the Liberal Republican Convention will be held in Missouri on the 24th instant.

How can this union in political action be maintained? It cannot be by a coalition of leaders who represent the interests of the masses of the people. There must be a union of the masses upon common ground, to effect a common and great patriotic purpose.

But in order to do so they must declare against centralization; against keeping the Federal Government in the hands of a few men; against using the Federal army to destroy the freedom of elections; against the suppression of the press; against the enforcement of the laws of the States; against the use of force to prevent their just and equal rights under the Constitution; against the principle of no taxation without representation; against the principle of no representation without taxation; against the principle of no taxation without representation; against the principle of no representation without taxation.
