

The acting Governor continues to treat with contemptuous silence the respectful inquiry of the House of Representatives concerning the disposition of the Secret Service Fund.

The One Hundred Thousand Dollars all Gone!

The public will see by reference to the Auditor's communication to the Legislature, that the one hundred thousand dollars appropriated in January for the payment of officers and employees of the Legislature, have all been expended.

Groups of an Organ.

A late Pilot intimates that if the full measure of reduction in the printing rates advocated by the Democrats in the House, succeeds, it will be the death of that concern.

The Inquisition.

The Pilot has a dreadful story of what the Radical Inquisition is doing with the Ku Klux at Oxford.

Letter from Hon. A. G. Brown.

The letter published elsewhere from a statesman so well known, sagacious, and vital so true to the people of his State, under all circumstances, as Hon. A. G. Brown, will not fail to be received with the consideration to which its eminent scribe entitles it.

Port Gibson, Miss., March 23, 1872.

TO THE PRESIDENT AND SENATE: GENTLEMEN—I am requested by the Board of Aldermen to beg of you to pass an act...

Jefferson Davis and the Line of the 32 Parallel to the Pacific.

The Radicals are an exciting clan of proscriptions. They never cease calumniating Hon. Jefferson Davis; and when he ventures to deny their slanders, they assail him for not keeping silent!

Judge Morris on Peace and his Co-workers.

We have looked in vain for a response to the Attorney General's exhaustive and perfectly conclusive and overwhelming review of the amendments to the school bill proposed by the Superintendent.

The Labor Reform Candidate for the Presidency.

In reply to various reports which have appeared in the newspapers, the friends of Judge Davis have published by authority, in the New York evening Post, the following statement of his position before the public, and of the principles to which he is committed as a Presidential nominee:

Relief with a Vengeance.

The House has passed the Salary Bill fixing the pay of the Secretary of State, Treasurer, Auditor and Attorney General at three thousand dollars each per annum.

A New Iniquity.

The Pilot of Wednesday last informs its readers, in a half column leader, of "a Democratic swindle" which has been perpetrated by the Kentucky Legislature upon the voters of Lexington.

The New York Tribune on the Grant Convention.

We have obtained second-hand through the Washington Chronicle, the personal organ of Gen. Grant, the following comments on the N. Y. Tribune upon a scheme which has been agitated in Administration circles to pack the Convention of the Liberal Republicans with adherents of the Administration charged with the mission of breaking it up.

And now, when a quarter of the year 1872 has passed, there are still in this State municipal corporations that have not been permitted since 1867 to elect their officers.

One of these corporations, a beautiful little city, is referred to in the following communication, which we take from the same issue of the Pilot that contains the account of the Kentucky "iniquity."

The Federal office-holders have called this convention to meet at Philadelphia in June. No one purposes to disturb or interfere with them.

Why?

If the Superintendent of Public Education be allowed a subsidy in the shape of a law authorizing him to order himself to execute the printing for his Department and to approve his own accounts, in the interest of his wondrous work, literature and science, why may not similar perquisites be bestowed on the heads of the other departments? Why may not the Back-Eye Governor be voted a subsidy for a printing concern whereby to proclaim what he knows about the Darwinian theory? Why may not Musgrove receive special emoluments to publish a gazette devoted to Finance or to deprive cities and towns of the right to elect their Boards of Councilmen or Aldermen.
