

the rate of... meal. A... which... in a... qual... all heard the story... so that when he went to... together, he blew... over his brother clergy... and how he exclaimed: "Brothers, I have served the Lord thirty years, and in that time have never uttered a profane word, but I'll be d—d if I can't whip the man that soaped that horn!"

Our readers, we say, have heard all this, but have perhaps never heard the sequel, as given to us by a gentleman present. Some two days after, a tall, swarthy, villainous looking desperado strolled on the ground and leaned against a tree, listening to the eloquent exhortation to repent which was being made by the preacher. After awhile he became interested, finally affected, and taking a seat on the anxious bench, commenced groaning in "the very bitterness" of his sorrow. The clergyman walked down and endeavored to console him. No consolation—he was too great a sinner, he said. Oh, no,—there was no pardon for the vilest. No, he was too wicked—there was no mercy for him.

"Why, what crime have you committed?" said the preacher, "have you stolen." "Oh, worse than that!" "What? have you by violence robbed female innocence of its virtue?" "Worse than that,—worse than that!" "Murder? is it?" gasped the horrified minister. "Worse than that!" groaned the smitten sinner. "The excited preacher commenced "peeling off" his outer garments "Here, brother Cole!" shouted he, hold my coat; I've found the man that soaped that horn."

ANCIENT ENGLISH RECORDS.—A London letter says a large number of very ancient records have been removed from the Chader House in Westminster Abbey, to the new record House in Chancery Lane; and among them were the following:

The Domesday Book of William the Conqueror; the deed of resignation of the Scottish Crown to Edward II; the charter granted by Alphonso of Castile to Edward I on his marriage with Eleanor of Castile; the wills of Richard II, Henry V, Henry VII and Henry VIII; the treaty of peace between the last named king and Francis I of France with its golden seal, the workmanship of Bevenuto Cellini; and the bull of Pope Clement VII, conferring the title of "Defender of the Faith" on Henry VIII for his celebrated reply to Luther.

We take the following two paragraphs from the Vicksburg *Whig* of the 13th instant.

SUDDEN DEATH.—Andreas Jenne, the keeper of a bar-room on the levee, was found dead in his bed on yesterday morning.

SEICIDE.—Floriano Gusio, the well known keeper of a bar room near the market house, in this city, committed suicide on Saturday morning last, by blowing out his brains with a pistol.

Among the premiums awarded at the State Fair, we find the following under the head of "Morgan Horses"—4th class:

Best Stallion, open to the world—Sim: Orr, Noxubee. Mr. Orr afterwards sold him for \$4,500.

The wisest man is generally he who thinks himself the least so.

PURE OHIO CATAWBA BRANDY, For Invalids, Travellers and Culinary purposes.

THE OHIO CATAWBA BRANDY is manufactured from the pure juice of the American Catawba Grape. It has obtained a rare popularity wherever introduced for Medicinal and family purposes, as it well competes with the choicest of Imported Brandy, both for purity and richness of flavor, in which qualities it is unequalled. The value of a Pure Article of Brandy in case of sickness, has long been admitted by the medical profession, as well as by all who have had occasion to use a healthful stimulant. The introduction of the Brandy now offered may therefore be esteemed truly a public benefit, which is testified to by the success it has met with. While undoubtedly some reliable Brandy is imported, the uncertainty of obtaining such precludes many persons from purchasing even from those who would not intentionally deceive their customers, being often themselves deceived. Lyon's Catawba Brandy not only possesses all the merits of the genuine French Brandy, but also it has the advantage of being much softer and more delicate to the taste, aside from its claims as being of American production. Besides that its Perfect Purity is guaranteed, not only by certificates but also any one may submit it to special analysis at the charge of the proprietors for their own satisfaction. This article is most delicious; nutritive and invigorating to the system, and is invaluable in all cases of Dyspepsia or Indigestion, Cramp, Colic, or Wind in the Stomach, Lacer Complaint, Nervousness, Lowness of Spirits, General Weakness, and all other Diseases of the Chest or Digestive Organs, being most recuperative in its action. FOR SUMMER COMPLAINT with children a cure is guaranteed, as it will effectually relieve that affliction as well as Diarrhea and Bowel Complaint. It is prescribed by Physicians in place of Paregoric not having the deadening effect of that medicine upon the brain. Dose for infants a few weeks old is one teaspoonful diluted with two tablespoonful of water and administered by the teaspoonful every fifteen minutes until relief is effected. Especially it is recommended for the sick chamber, as a tonic draught, when it may be considerably diluted if desirable, each bottle being equal in strength to nearly a gallon of the wines usually administered, such as Madeira, Sherry and Teneriffe, and more agreeable than the various bitters. For other purposes judgement will dictate the proper quantity to be used. CERTIFICATES

ANALYSIS BY DR. A. A. HAYES, M. D. GENERAL CHARACTER.—A light yellowish brown color of spirit, having a fragrant odor; when evaporated from clean linen, it left no offensive matter. Analyzed for volatile and fixed deleterious oils and other drugs, traces were found. Its color is proved to be due to a colored resin, an extract derived from wood. In every respect it is a pure spirituous liquor. The fragrance or bouquet which it possesses can be isolated, and it then appears unlike that of Cognac Brandy or Wine, being a fruity essence resulting from a peculiar fermentation of Catawba and Isabella grapes. CHEMICAL CHARACTER.—1000 parts in volume of this spirit at 60 deg. F., 401.2 parts of pure alcohol, besides the fragrant oil. 1000 parts of the spirit afford 23 parts of a strong solution of the oil which characterizes this Brandy; the spirit left after removing the oil, is pure and odorless, and in all its qualities a perfect spirit not subject to change.—One U. S. gallon of this Brandy at 60 deg. F., contains, besides the spirit and oil, only 229 grs. of matter composed of extract of fruit, gum and colored resin from wood. A. A. HAYES, Boston, Jan. 25, '59. Assayer to S. of Mass.

CHEMICAL INSPECTOR'S Office, 26th sixth st., Cincinnati. This will certify that I have this day inspected two separate lots of Catawba Brandy, one in barrels and one in bottle, manufactured by LAUREN LYON, and find them both pure and free from all poisonous or deleterious drugs, and as such have marked the same, as the law directs. Given under my hand at my office, HIRAM C. X., MD March, 1857. Inspector of Alcohol Liquors. MASS. STATE ASSAYER'S Office, G. P. BURKHAN, Esq. Somerville (near a state Comm'r) S. of Mass. DEAR SIR.—I have this day analyzed the sample you's OHIO CATAWBA BRANDY received of you. I find that it contains 47 per cent pure alcohol, and that 4 fluid oz of it con 6 grains of saccharine and coloring matter. The spirit is entirely free from fusel oil of strain, and has a peculiar aromatic odor and flavor, derived chiefly from the American Catawba Grape. It is free from any injurious ingredients, and is suitable for medicinal and other uses. Respectfully your obedient, (signed) C. T. May, 12, 1859. S. Assayer of Mass. From Jas. R. CHILTON, Chemist N. Y. City. DEAR SIR.—I have received a bottle of Lyon's Pure Ohio Catawba Brandy, for analysis, and I find it to contain only 47 per cent of alcohol, and 6 grains of saccharine and coloring matter, which exist in pure Brandy in proportion of alcohol obtained from it is 47 per cent. I believe this sample to be pure Brandy without adulteration. The flavor of it is delicate and peculiar. J. R. CHILTON, N. Y., July 26, '57. 93 Prince st.

From JAMES R. OIS, M. D., Chemist. I have made chemical examination of a specimen of Lyon's Catawba Brandy, and find it to be 2 parts per cent, possessing all the characteristics of Brandy—the product of wine distillation. It is free from all organic and inorganic poisons, and it is in every respect fit for the use of invalids and families. In the specimen examined I find 47 per cent. of pure alcohol. JAMES R. NICHOLS, Chemist, April 30, '58. 41 Tremont St., Boston. These are a few of the many other testimonials that have been given, all certifying to the value of Lyon's Catawba Brandy. This article is manufactured only at Cincinnati, Ohio. To be had at DENT'S drug store, store, Macon, Miss. July 27, 1859. Pure White Lead. TO all responsible and prompt paying men TEN CENTS per pound is all that will be charged for Pure White Lead at the Drug Store of SAMPLE & McLELLAND
