Cotton Seed

I will be at my old stand at the Macon Depot this fall to buy seed for the Union Seed & Fertilizer Co. of Meridian.

These people are large purchasers and manufacturers of cotton seed and cotton seed products and famous for their liberal prices paid. Last year they were the largest buyers in Noxubee and established the record for high prices in this market.

They have instructed me that they are prepared to pay the highest prices available for cotton seed the coming season. Don't sell or tie up your cotton seed until you have learned the prices we will pay.

I appreciate the business formerly given me and can make it to your interest to give me more.

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of \$100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employees, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employees for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railroads be disposed of by one of the following methods:

- 1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railroads, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or

- 2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employees are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence. The rates the railroads may charge the public for transportation are now largely fixed by this Government board. Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employees as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.

The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employees, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employees, now highly paid and constituting only one-fifth of all the employees, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.
