

THE OREGON TREATY RATIFIED—The Oregon Treaty has been ratified by the Senate, by a vote of forty-one to fourteen. The injunction of secrecy has not been, nor will not be removed, until the Treaty is ratified by the British Government. Its provisions are understood to embody the exact proposition of the British minister, submitted to the Senate for their advisement, and which were published in our last.

FOREIGN NEWS—The Caledonia brings news of a pacific character. The Oregon question was regarded as settled.

Mr. Pakenham has received instructions to offer the mediation of the British Government between the United States and Mexico.

The French are despatching vessels to the Gulf of Mexico to look after their interests there.

The democrats have not yet announced a candidate for the Legislature. A correspondent of the News calls on Mr. C. F. Jackson not to forsake them in this, their hour of trouble, reminding him that when they were in the majority, he was their first choice.

Let not the whigs be lulled to inactivity, by the backwardness of our opponents.—They are setting the triggers to take a "running shoot."

THE TROOPS—At the latest advices from Fort Leavenworth, the troops under Col. Kearney had commenced leaving, in detachments of two companies. We presume by this time they are all on the road.

WAR—There is no news of importance from the army. Gen. Taylor is still in the vicinity of Matamoros. Another small town has been taken, without resistance. Orders have been dispatched to him from Washington, but their contents are not known.

The House of Representatives are engaged in discussing the new tariff bill.

The Native Americans of St. Louis have a full ticket in the field. Uriel Wright is their candidate for Congress, and Wm. Campbell, of the New Era, for the State Senate. They are two able men, and will make good representatives. Our old friend, Oliver Harris, of the American, is their candidate for Clerk of the Criminal Court—and if any man in the State deserves a good office, he does.

The "Ladies' Tea Party" on Thursday evening was numerously attended, and afforded general satisfaction. The arrangements were highly creditable to those who "bore the brunt of battle" in making them. We are not informed as to the amount of the proceeds—but we should judge from the immense crowd, that a considerable sum was raised.

We are requested by the Ladies to return their sincere thanks to the young gentlemen composing the band, for their invaluable services on the occasion—to the Ladies in the town and vicinity who assisted, personally or otherwise—and to all who attended, or assisted them in any way, by word or deed.

The editor of the N. Y. Tribune, writing from Washington, tells the following anecdote, which has been heretofore referred to, but not with such minuteness:

Speaking of 54 40, an anecdote is current in political circles here which is not so well told in the newspaper version, and which can only be appreciated by those who know the ardent and intrepid subject of it. As the unwritten story goes Senator H—, who is among the most resolute and honest of the 54 40s, hearing ugly rumors that Mr. Polk was "caving in" on the Oregon question, resolved to go up and tell him plainly that he must stand straight up to the line of 54 40 or he would be put where "the hand of resurrection" could never reach him. So resolved, he walked up to and into the palace, and deeming all formalities needless, strode straight to the President's private room. As he stepped familiarly in, what was his amazement to see there the President in close consultation with Messrs. Calhoun, D. H. Lewis, Haywood, of N. C., and two or three members of the cabinet. The 54 40 Senator stood transfixed a moment, and at length found voice to exclaim, "The country's sold, by—!" Without further salutation or waiting to receive any, he whirled on his heel, and was off in an instant. I think he has not been at the White House since.

Col. Benton is a wit in addition to everything else. The Washington correspondent of the Philadelphia North American writes:

A capital thing was said by Col. Benton, a few days since, to a distinguished Whig Senator, which should not be allowed to perish. They were discussing the effect of the Oregon compromise upon the fifty-four forties, and the policy which that division of the Democratic party had pursued. "Sir," said Col. Benton, "when you were a boy, your mother made you read the good book. I fear both of us have not paid that attention to it we ought, since we have been left to our own guidance. But, you will remember a passage of a man being delivered of certain devils—seven I believe. They were cast into swine and the swine ran to the sea and were drowned.—There is no account that the devils were drowned and the last time they appeared was in the shape of these fifty four forties. Now, though they have been killed off, the devils still survive, and at some future period they will develop themselves in a new party."

MARRIED—On last Tuesday morning, by the Rev. Thos. Johnson, JOHN W. AMMONS, Esq., to Miss JULIA FRANKLIN, all of this county. Our thanks are due the happy couple for the delicious Cake which accompanied the above notice—may they live a long and happy life, and verify the lines of the poet, who says:

NEW ORLEANS MARKET, June 30.

There has been a great want of animation in the market generally since our last report. The dullness and depression are more particularly manifest in western produce, nearly all the varieties of which exhibit a declining tendency, in consequence of unusually heavy supplies, while at the same time there is a want of export demand, to give relief to the market.

Tobacco—Inferior 1 1/2 a 2, common 2 1/2 a 3, fair 3 1/2 a 4, fine 4 1/2 a 5, choice and selections 4 1/2 a 5 1/2, sugar leaf 2 a 10 cents per lb. The stock of leaf tobacco now actually on sale in first hands is estimated not to exceed 5,000 to 6,000 hhd. and the market evidently presents an upward tendency.

Flour—Ohio, \$3 30 a \$3 37 1/2, favorite country brands of Illinois and Missouri, \$3 50 a \$3 75, St. Louis City Mills \$4 a \$4 25 per bbl.

Pork—Limited sales are now making at \$9 a \$9 12 1/2 for Mess and \$7 a \$7 12 1/2 for Prime, and some round lots could probably be bought at a further reduction.

Bacon—There has been rather an improved demand for Bacon within the past day or two, particularly for sides, and sales have been effected to a fair extent, though without any advance in prices, the range being for uncured Hams \$3 a 5, canvassed do. and extra sugar cured 6 a 9; sides 4 1/2 a 5; shoulders 2 a 2 1/2 cis. per lb.

Hemp—There is but a light stock in market, and the only sale we have heard of since our last report was 70 tons superior quality dew rotted, at \$60 per ton.

Grain—Wheat 55 cents per bushel for prime quality. Oats have declined to 35 to 37 1/2 cents per bushel in sacks. Corn 25 a 26 cents per bushel.

SMITH'S TONIC SYRUP OR VEGETABLE FEBRIFUGE SPEEDY SAFE & CERTAIN CURE FOR AGUE & FEVER

Chill Fever, Dumb Ague, INTERMITTENT FEVERS, AND ALL THE VARIOUS FORMS OF BILIOUS DISEASES.

THIS VALUABLE MEDICINE is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the chill, but removes the cause from which the disease originates. Its operation is both GENERAL and SPECIAL. While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it at the same time exerts a specific influence upon the liver, digestive organs and lymphatic and glandular systems; exciting them to healthful activity, removing all morbid matter, equalizing the circulation, restoring their proper and necessary secretion, thus accomplishing a complete renovation from disease, and restoration to sound and permanent health.

Those who are suffering with the prostrating AGUE and FEVERS common to the West and South—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies—should resort at once to the use of this VALUABLE MEDICINE. It has cured and will cure the most obstinate cases. Travelling with the circulation, it pours its healing current through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change: Even the mind partakes of the healthful process, and life, that before appeared one dreary waste, begins again to seem worth possessing.

Pamphlets respecting this Valuable Medicine, can be obtained of the Agents gratis.

CAUTION. As there are many spurious preparations of similar name hawked about the country and sold on the reputation of the genuine

SMITH'S TONIC SYRUP. We therefore beg leave to caution the public against imposition, as we cannot hold ourselves responsible for the effects which may result from the use of spurious articles.

WISTAR'S BALSAM OF Wild Cherry. CONSUMPTION OF THE LUNGS. THE GREAT REMEDY FOR

Affections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Pleurisy, Hemorrhage of the Lungs, and all the Affections of the Pulmonary Organs. NATURE'S OWN PRESCRIPTION.

The Moss of Iceland, the Wild Cherry Bark and Pine of our northern latitudes, are the principal ingredients in the compound. The great secret in its efficacy consists in the method by which they are prepared. Such in fact is the nature and simplicity of this medicine, so powerful in action, yet so mild, safe and pleasant in its operation, that it must be partly termed "Nature's own Prescription;" and although but two years ago it was first made public, we can proudly say, it has acquired a celebrity unprecedented by any medicine in use, and is evidently destined to become the most popular and valuable medicine ever discovered.

The great remedy for all diseases of the Lungs continues to send joy and happiness to many a cheerful fire-side, and still there is room to diffuse its kindly health-giving magical wand. Whoever is afflicted, let him come and be cured.

ANOTHER INVALID RESTORED TO HEALTH. [Read the following statement of facts from Mr. Eli Bep, a highly respected merchant of Vienna, Johnson county, Illinois.]

Messrs. Phelps & Blakely, St. Louis, Mo. Gentlemen:—A desire to benefit the afflicted throughout the land has induced me to make the following statement of facts respecting one of the most astonishing cures ever recorded. My son, now seventeen years old, has been afflicted during his whole life with a constant cough, pain in the side and chest, accompanied with night sweats and hectic fever, which produced great emaciation and debility; and at intervals during the night his expectation would become so great as to endanger his life from strangulation. During this time he was attended by many physicians of the highest repute, whose prescriptions gave but temporary relief, in fact, so alarming were the symptoms, and so inveterate was his disease, that I was compelled to believe him beyond the reach of medical aid.

All our neighbors and friends who saw him, regarded him as one who was rapidly approaching an early and premature grave. After having thus exhausted the skill of our best physicians without obtaining relief, I was prevailed upon by the advice of a friend to make use of Wistar's Balsam of Wild Cherry.

He commenced its use about the 30th of December, 1844, the first bottle of which gave astonishing relief, and I began again to indulge in the hope that he might yet be restored to health.

After having continued the use of it until three bottles had been taken, the disease was entirely overcome, and his shattered constitution and emaciated form restored to sound and permanent health, which he continues to enjoy up to the present time.

I believe the genuine Dr. Wistar's Balsam of Wild Cherry to be one of the most valuable medicines ever discovered—second only to the one which above cure was effected solely by its use.

I am, gentlemen, very respectfully, Your most obedient servant, ELI BAILY.

April 9, 1846. We might publish a thousand certificates, but do not deem it necessary, knowing that a single trial will do more to establish its efficacy, than a volume of testimonials. There are hundreds of Balmers recommended as positive specifics for pulmonary diseases, but where is the evidence of these purveyors curing an aggravated case like the one mentioned above.

BE NOT DECEIVED. If you would have the true article, and that which will cure, if a cure be possible, then remember that "King" of all other medicines, WISTAR'S BALSAM OF WILD CHERRY.

Such is the unprecedented success of this Balsam, nature's favorite preservative, its prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our land for wise purposes—that many who know nothing of the mode of its preparation, are endeavoring to reap pecuniary benefits by selling an article similar in name, or its appearance, or by representing their own trash as superior to this Balsam, or by putting up a mixture and solemnly asserting that it is imported from a foreign country.

WHICH IS NOT THE CASE. All these deceptive arts go to show that Wistar's Balsam is known to the world to be the GREAT remedy; and to sell any mixture must be like this in name or purport to be like it in substance.

Believe not in the cunningly wrought fabrications, and take only the original and genuine WISTAR'S BALSAM OF WILD CHERRY; no other can be like it.

Beware of counterfeits and base imitations. Be sure to get the genuine medicine, and be careful to buy of a regular agent. Price only One Dollar per bottle.

The true and genuine Wistar's Balsam of Wild Cherry is sold, wholesale and retail, by PHELPS & BLAKSLY, corner of Third and Chestnut streets, St. Louis, Mo., General Agents for the Western States and Territories. And for sale by their agents in the following places: Dr. Snelson, Fayette; R. P. Hanenkamp & Co., Glasgow; McCampbell & Coates, Huntsville; W. C. Hill & Co., Keytesville. June 27th, 1846.

Dr. Smith's (Sugar Coated) "Improved Indian Vegetable Pills." The palace and the poor-house alike echo with their virtues in all climates, under all temperatures, they still retain their wonderful powers, and exert them unaltered by age or situation. They are simple in all their operations, and unrivalled in their results. They are anti-bilious, anti-dyspeptic, and anti-menstrual; they are peculiarly beneficial in the following complaints: Fever and ague, yellow and bilious fevers, dyspepsia, cramp, liver complaint, sick headache, jaundice, asthma, dropsy, spleen, piles, colic, obstructions, heartburn, furred tongue and foul stomach, nausea, diarrhoea, costiveness, loss of appetite, sallow complexion, colds, and in all cases of torpor of the bowels where a cathartic or an aperient is needed.

BY THE QUEEN'S PATENT. TRIUMPHANT SUCCESS OF Buchan's Hungarian Balm of Life.

The Great English Remedy for COLDS, COUGHS, ASTHMA, AND CONSUMPTION!

The most celebrated and infallible remedy for Colds, Coughs, Asthma, or any form of pulmonary consumption, is the HUNGARIAN BALM OF LIFE, discovered by Dr. Buchan of London, England, tested for upwards of seven years in Great Britain and on the Continent of Europe, and introduced into the United States, under the immediate superintendence of the inventor.

The astonishing success of the Hungarian Balm, in the cure of every form of consumption, warrants the American Agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as CONFIRMED and INCURABLE. The Hungarian Balm has cured, and will cure, the most desperate of cases. It is no quack nostrum, but a standard English Medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balm of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hoarse Cough, and Croup.

In cases of actual disease of the Lungs, or seated Consumption, it is the ONLY SOURCE OF HOPE.
