Editorial Notes.

A dispatch from London says the Irish nationalist papers scoff at the Government's threatened interference with the land league.

The Red River Chronicle says the towns of Las Vegas and Albuquerque will each ship 10,000,000 lbs of wool this year.

Hunnewell is on the rise of late. A large three story hotel has been completed and dedicated with a rousing dance.

Gen. Albert Pike, Grand Sovereign of the Supreme Lodge of the world, of Scottish Rite Masons, is visiting lodges of that order in Kansas.

The cashier of the treasury is shipping to different parts of the country, principally south and west, about \$25,000 of fractional silver daily.

Douglass Williams, a nephew of Gov. Williams, was killed in a bagnio by Ed. Hogan, at Vincennes, Indiana, on the 24th ult. Hogan fled and has not been captured.

The first railway mail service in Arizona commenced on the 20th ult. over the Southern Pacific between Yuma and Benson, a distance of 300 miles.

The Independent, published at Ft. Smith, Arkansas, is a newsy, well edited eight column folio, which is a credit to the town and country in which it is published. We welcome it to our exchange list.

Agent Whiting, of the Poncas, has secured an appropriation of \$10,000, with which he will build an Industrial school building for the education of the Indian youth under his care. We wish him success and that his most sanguine hopes may be realized.

Number five of volume one of the Red River Chronicle is before us. It is published at San Lorenzo, San Miguel county, New Mexico, and displays that enterprise and vim for which the far west is noted. Mr. Hommel, its editor, goes about his work as though he understood his business and no doubt will succeed.

The news of the Indian trouble here on the 27th of August has at last reached the St. Louis papers through a special dispatch from Denison, Texas. We are unable to understand why a leading daily should keep such a stupid reporter, for, in writing a twelve line dispatch he only got in half a dozen falsehoods. Such neglect of duty when talking about the Indian is inexcusable in any reporter and ought to cause his immediate discharge.

A K. C. Journal special says: all the leading wholesale dealers of Chicago last year did a business of \$50,000,000, which was considered very good, but the indications are that it will more than double this year.

Silas M. Waite, the defaulting president of the First National Bank of Brattleboro, Vt., was arrested at Omaha on the 21 ult. The defalcation was discovered June 16th and amounted to \$250,000, caused mainly by forgeries.

The Traveler says that cattle in the Territory, we presume it means the northern part, are dying at a rapid rate. Messrs. Warren, Green, and the Dean Bros. have already lost heavily and contemplate moving their stock.

The Sultan has of late assumed a most defiant air. For several days he has refused to listen to any objections made by his ministers to the policy he had adopted, and has issued an order that any official who shall be heard expressing a contrary opinion shall be discharged and exiled.

The main features of Mr. Parnell's programme are unanimity of action among the Irish members, independence of all English political parties, refusal to pay more than what the tenants consider a fair rent, and social excommunication of any person taking a farm from which another has been evicted.

Cowley county, Kansas, people are much excited over the discovery of coal within the limits of the county. Fuel is entirely too high in Southern Kansas, and if it be a fact that coal has been discovered in any considerable quantity, a great burden will be lifted from the people who live near enough to reach the mines.

A forfeit has been deposited for a rather novel race, near Chicago, the stake being \$500 on a side. John Walpole will back the Arizona Indians who ran in that city recently, against Daniel O'Leary's mare, the mare to be ridden by O'Leary for a distance of thirty miles, while four of the Indians run twenty-four miles, six miles each.

Cattle men cannot spend the money it costs to better advantage than in advertising their brands in the TRANSPORTER. By this means quick and easy communication is established between stockmen, stray stock is easily recovered and stealing rendered impossible. The cost is comparatively nothing when compared to the benefits derived from having ones brand generally known among stockmen.

The French have a new ministry, the new members being Jules Ferry, Premier and ad interim Minister of Foreign Affairs; Vice Admiral Dupre, Minister of Marine; M. Carnot, Minister of Public Works. The other Ministers remain unchanged. The new Ministry will probably be changed as soon as the Chambers meets.

While the advertiser eats and sleeps, printers, steam engines and printing presses are at work for him, trains are bearing his word to thousands of towns and hundreds of thousands of readers, all glancing with more or less interest at the message prepared for them in the solitude of his office. No preacher ever spoke to so large an audience, or with so little effort or so eloquently, as you, gentle reader, may do, with the newspaper man's assistance.

THAT "HORRID" NEWSPAPER REPORTER.

It is interesting to observe the frequency with which the incredulous and unsophisticated, or more properly, "untraveled" are imposed upon by the newspaper fraternity. Confidence men, lightning rod peddlers and keno men are content to "beat" the verdant country fellow who may come in their way, but this must not be said of the industrious newspaper fiend. We have just learned of an instance wherein some young ladies who reside within the limits of this Reservation were, per force of circumstances, placed upon the "roll of honor" assigned to that class know and recognized everywhere as "Innocents Abroad", and all through the scheming of a St. Louis reporter. The ladies aforementioned were, through the most abominable and shameless strategy, inveigled into giving a dissertation of a column length upon the pleasures, hardships and dangers of life among the Red Men. This they did in all simplicity and truthfulness never suspecting that the innocent looking gentleman would hasten to tell all they said, and perhaps more, through the column of a daily newspaper, but that such was his mission they learned, much to their chagrin, a short time afterward. The moral status of the newspaper fraternity must be at an exceedingly low ebb when one of its members, and that member on the staff of one of the leading dailies of the nation, resorts to such base deceit as representing himself to be a staid and saintly Quaker "after the strictest sect"—and all this for the sake of a local item. Surely St. Louis reporters are the cheekiest set of impostors on earth.
