David Mays, Beef Creek, Chic'asaw N. Ind. Ter. WS left side and hip.

ANADARKO ITEMS.

Mrs. H. Kuhn celebrated the 50th anniversary of her birth, on the 3d of this month.

Mr. T. F. Woodard has been quite ill for the last few days, but at present is feeling much better.

Lieut. Powell, of Fort Sill, made Anadarko a visit of a few days; and while here he was the guest of Mr. F. L. Fred.

Dr. L. L. McCabe, for a long time Agency Physician at this place, returned to his home in St. Louis, where he will reside permanently.

Mr. C. F. Reynolds, who had been on a short visit to his brother A. J. Reynolds, at this place, started on the 6th for Leavenworth, where he for the present residing.

W. H. Doty left for Caldwell last Monday, where he will meet his wife, on her way to join him in his life in the Territory. They expect to reach here about the 12th instant.

The men who are here buying horses of the Indians have purchased nearly two hundred head, and still the Indians seem to have plenty left.

Mr. H. Kuhn is confined to his house by quite a severe cut on his knee, which makes it impossible for him to use his leg in walking, however he expects to be able to be out again shortly.

The Rev. J. B. Wicks returned to this place about the 1st of the month, after a long visit at Darlington, and left for Fort Sill on the morning of the 4th instant, to look after his interests there.

Mr. P. A. Romick has received a very fine carriage and harness, and now nearly every fine Saturday you may see him starting out over the prairie for a ride, which we think he enjoys very much.

Much credit is due Miss M. M. Meline for the success of the Friday evening dancing entertainment that is in vogue here, for the entertainment of the Indian children. The gathering last Friday evening showed that that sort of instruction was much enjoyed both by the Indian children and the white folks who were present. We hope that all future attempts will prove equally successful.

PROSPECT PARK.

Among the breeders who are making efforts to improve the cattle of the West is Walter Treadwell, of Anthony, Kansas. He now has over 300 head of high grade and thoroughbred Short-horn and Hereford cattle at Prospect Park. Of these 175 are high grade and thorough Short-horn cows, which are dropping calves that are simply "daisies" and can't be beat. It has been but a short time since Mr. Treadwell added a number of thor'obred cows and four thoroughbred Short-horn bulls from the celebrated herd of Albert Crane, of Durham Park, Kan.

At the head of his fine herd, Mr. Treadwell has "Uncle Ben" a pure bred Hereford, whose value as a breeder has been fully established. He gives as his opinion that the Herefords are much the best cattle for the West, being splendid "rustlers" and capable of making a good living on the prairies of this country. He will keep one Short-horn bull, to maintain his herd of that breed, the others, and they are first class animals, are for sale. He informed us that in the spring of 1883 he will have a number of young Herefords and Short-horns of his own breeding, for sale to ranchmen. He is putting forth every effort to produce such breeding animals as are needed by Western ranchmen, and we mistake if he is not well paid for his trouble. There never was a time when Western stockmen were so anxious to improve their cattle as at present, and this desire will increase as the benefits become more apparent. This will make a ready market for all the good animals that can be produced.

The prairie fire that burned over a part of Sheridan and Rawlins counties last week, finally drifted into Colorado, and was still burning when the snow and sleet came, which latter had a dampening effect upon it. Many miles of territory were burned over, but fortunately there were no settlements to be harmed by it. It was the largest prairie fire that ever occurred in the State, beyond a doubt, and is said to have originated from a spark from a Kansas Pacific locomotive. —[Dodge City Times.
