We all appreciate a joke, especially an "April Fool," but some of the world's happenings are of a times too deep for common sense, especially if one forgets the month and lets the silly freaks of April pass by unnoticed.

A number of Tulsans went out to Cole creek Saturday afternoon to amuse the misses who were supposed to be bound in the depths of the silvery stream, but it seems from reports the fish were not inclined to bite, so the disappointed Tulsans, after loitering along the way to gather flowers, etc., returned home tired but not all declaring they were disappointed.

Delaware boy from Cooweescoowee by the name of Dennis Willis, attending Mr. Miller's school here, has been very sick but is now better.

Some months ago there lived in one of the southern counties of Missouri, some families by name of Keeter, who do people, having good farms and comfortable houses, were claimed to be part Mohawk Indians. There came along an itinerant Methodist preacher who carried a magnifying glass with which he examined the highest and the lowest of the people, and established beyond any question, their Indian origin. He showed them a letter which he said was written and signed by Chief Bushyhead himself, telling of the grand opening here, and in return of what was to come, to come in and get free homes. The Keeters were so "keen" they sold out all their possessions—excepting the "old man" who was a little suspicious and reserved a portion of his home—and came here, three families of them, with three or four good teams. Among them was a mother with twins a few months old. The whole outfit camped out by Bob Hill's spring. From exposure one of the twins died on March 21, and the same day the mother sickened and on the following Monday she died. The colony found out their delusion and have gone on towards the Cherokee country or Texas.

One night last week a boy by the name of Charles Lampkins stole a horse from Charlie Willie at Fort Gibson. He was found near this place, with the horse and taken back to Fort Gibson, and turned over to a deputy marshal but got away and passed through Tahlequah Monday morning. Deputy Sheriff Thorn followed and overtook him, and turned him over to a posse who started right on with him for Fort Gibson.

Special Deputy Dave Trainer started Monday morning for the Creek Nation after an escaped convict from the national jail here, who is under arrest and awaiting requisition from the proper authorities here.

Prospective New Churches—A Minister and a Wife Cal-Leaver and Lovers—Left Their Homes and Their All—Cher. Law John's Has a Class Call—Other Notes.

The colored brethren and sisters of the Baptist persuasion gave a festival on last Thursday night to aid their building fund. As the Methodists already have their house completed, the Baptists are determined to "get there" too, in the near future. Their supper netted them about \$50.00. In imitation of the S. and C. I. Society, they had five large, beautiful cakes which were sold by five-cent votes, to be given to the "poorest girls in town." The bidding was animated and the best cake was given to Miss Carrie, daughter of the well known "Black" Ross. The five cakes realize \$100.00. They now have a fund of nearly or quite \$500 and will push the erection of their house on a nice lot already secured just below W. P. Boutwell's handsome residence.

As the regular M. E. Church South have never yet had a comfortable, commodious building of their own, they too are stirred up to do better things. Their church erection fund is being added to by great contributions from the liberal souls, and they now have nearly \$1,000 with which to commence. When completed this will give Tahlequah six large church buildings, which surely will speak well for a town of not yet 1,000. And still among all these there is no one hall large enough to accommodate the frequent needs.

On Saturday at Parson Shanks was returning to town from a rural visit out a mile or two, his team was frightened—and it is thought the reverend brother was himself somewhat frightened, too—by a genuine apparition in the bodily shape of a 1.25 wild cat which suddenly jumped into the path of him, and did not run away, but stood, apparently nearly exhausted from long running. Harry Covel, who, with his family followed Brother Shanks half an hour later, saw the cat lying dead by the roadside.

A little orphan boy by the name of Woodward, about ten years old, was brought here a few days ago from the orphan asylum and left at Henry Correll's. The little fellow has been afflicted with partial paralysis, and his mind somewhat unimpaired. He was taken to the insane asylum but ran away and was found at the very stable in this town and returned. Speaking of the insane asylum brings to mind a singular case. Mr. Hugh Holland, well known around Tahlequah, is now an inmate of that institution. His wife died two years ago leaving some children, and a few of them were growing slightly. Hugh has been very anxious to be licensed to preach, having seen visions at different times, and plainly, urgently "called" to preach, but Brother Rogers has not been as well satisfied as to the nature of the "call" as Hugh was, and the aspiring brother had to be satisfied to exercise his gift in exhortation. He became smitten on the daughter of Wm. Triplett, a citizen of our town, and his situation grew so persistent that everybody was disgusted. The girl would have nothing to do with him and to avoid his presence she left home a few days ago. Hugh is now an occupant of the insane asylum, and his situation is so persistent that everybody was disgusted. The girl would have nothing to do with him and to avoid his presence she left home a few days ago. Hugh is now an occupant of the insane asylum, and his situation is so persistent that everybody was disgusted.
