A Useless Sewer.

"Editor Chieftain:—Can you, or is there a man, woman or child on earth who can give a plausible reason why the south sewer should have been located a half mile out of town, instead of on Canadian avenue, where it would have been of some use to the taxpayers who will have to pay for it? As at present located, this branch of the sewer is not worth thirty cents to those who are supposed to use it, and who will, ultimately, have to pay for it. No one can use this sewer and it would be cheaper to construct private sewers direct to the creek east of town. I will not state it as a fact, but I have heard it said that the building of this sewer out of town might make 'town lots in the corn fields south of Vinita valuable and of ready sale.' Why? "

The Best Health Culture.

No poor man can afford to bother with any of the experimental health fads. He is too busy making a living for himself and family, and when he is afflicted with a bad cough or cold, or develops catarrh as the direct result of a cold, he simply takes a few doses of Dr. Boschee's German Syrup. And if something more serious, say consumption, prostrates him or any member of his family, German Syrup can again be relied on to effect a cure. Trial bottle, 25c. Big bottle, 75c. At Wimer's drug store.

Try it and be convinced. At this time of the year you are probably thinking about a winter trip. I suggest the Gulf Coast of Texas, San Antonio, Old Mexico or California, as being about as nearly perfect as climate and environment can make them. I have some very attractive literature about these resorts that I'll like to send you. May I? I'd rather send you, but if this is impossible, drop me a line and I'll be pleased to give you all the desired information. There are some special inducements too in the way of rates and through rate sleepers that I'll like you to know about. Write today.
