The new brick yard has suspended

### Big Deal in Oil.

Dr. Howard Weber has bought con-  
trol of the Coon Creek Oil Co., which  
holds leases on the Coon land and  
other land in the Weber pool north of  
the township 26 line. Barnsdall &  
Weber developed the Coon Creek com-  
pany property under a drilling con-  
tract. Differences arising between  
Doctor Weber and Mr. Barnsdall as to  
the manner in which the terms of the  
drilling contract were to be carried out,  
Doctor Weber bought the company  
and declared the drilling contract ab-  
rogated.—Bartlesville Examiner.

This is the property that Morris  
Knight recently sold to Dr. Weber for  
the handsome sum of \$45,000 spot cash.  
The people of this place are glad to  
note this progressive young Vinitian's  
rapid rise in the financial world. He  
has figured in a number of successful  
deals of late, which have brought in  
good returns, but with all the prosper-  
ity that has come to him he is the  
same old Morris—plain as an old shoe  
and everybody's friend.

Hon. T. P. Gore, the coming senator  
of Oklahoma, who has just completed  
a speaking tour of the territory, says  
Haskell will be elected by 30,000 plu-  
rality. Senator Gore says all the places  
where he has spoken are for C. N.  
Haskell for governor, the farmers and  
labor union people especially putting  
forth every effort to elect the Musko-  
gee man.

An exchange says: Frank James is  
living quietly on the old Samuel home-  
stead near Kearney, Mo. On one cor-  
ner of the old place which has been  
the scene of so much sanguinary strife,  
he has erected a small cottage. The  
house stands in the center of a two-  
acre lot, laid off from the homestead  
proper, and nowhere in all of the  
neighborhood is there another parcel  
of ground so well kept. Here lives  
Frank James and his wife, and the  
man who once made war on all of his  
kind now finds occupation in fighting  
weeds. With him are his son and  
daughter-in-law, and nowhere in all  
Missouri is there a happier family.

## Home Comforts

IN THE HOME ELECTRICITY has  
Revolutionized the work, greatly  
lightening the labor of the Housekeeper.  
She may have an Electric Fan near the  
Ironing board with no fear of cooling  
the iron. The current which keeps her  
cool, keeps the iron hot. She may work  
away all day, sitting down if she chooses,  
with no journeyings to the hot stove  
to change irons. One iron will do it  
all, from a lace collar to a damask table  
cloth. A steady, even heat, and no  
scorching of delicate fabrics with too  
hot an implement. Ask for one on  
trial. We will do the rest.

**Iron, \$4.00**  
Operating Expense, 2½¢ per hour.
