

# R.R.R. PILLS.

**DR. RADWAY'S PILLS**—Dose—For Regulating the Liver, Stomach, Bowels, and Kidneys, One Pill at Night. For Obstructive Diseases and Chronic Complaints 4 to 6 every 24 hours. As a Dinner Pill, one Pill one hour before dining will ensure a good appetite, and healthy digestion.

**DR. RADWAY'S PILLS** are COMPOUNDED FROM VEGETABLE EXTRACTS, Coated with Sweet Gum, and are the best, quickest, and safest Purgative, Aperient, Anti-Bilious and Cathartic Medicine known to Medical Science.

One of Dr. Radway's Pills contains more of the active principle of cure, and will act quicker on the Liver, Bowels, Stomach, Kidneys, Bladder, Blood, &c., than four or six of the ordinary common Purgative Cathartic Pills sold under various names, or than ten grains of Blue Mass.

## TRUE COMFORT FOR THE AGED AND OTHERS AFFLICTED WITH COSTIVENESS AND PARALYSIS OF THE BOWELS.

ONE TO THREE OF RADWAY'S PILLS once in 24 hours will secure regular evacuations from the bowels. Persons who for 20 years have not enjoyed a natural stool, and have been compelled to use injections, have been cured by a few doses of Radway's Pills.

## READ THIS.

New Albany, Ind., March 12, 1867.

For forty years I have been afflicted with costiveness, and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses, my liver, stomach, and bowels were restored to their natural strength and action. I have now a regular movement once a day, and although 80 years of age, feel as hearty and strong as I did 40 years ago.

## MECHANICAL DISEASES.

Persons engaged in Palms, Minerals, Plumbers, Type Setters, Goldbeaters, Miners, as they advance in life, will be subject to paralysis of the bowels; to guard against this, take a dose of Radway's Pills once or twice a week as a Preventive.

## DR. RADWAY'S PILLS CURE ALL DISEASES

Of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous Diseases, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, Bilemias, Fever, Inflammation of the Bowels, Piles, and all derangements of the Internal Viscera. One to six boxes warranted to effect a positive cure. Purely vegetable, containing no mercury, minnera, or deleterious drugs.

## DR. RADWAY'S PILLS CURE ALL DISEASES

High Endorsement from the Medical College of Prussia.

## DR. RADWAY

Is in receipt of an important official document, signed by the Professor of the Medical College of Prussia, embodying the result of an analysis of

## RADWAY'S REGULATING PILLS.

"The Faculty of the College state in their report that after a careful and minute examination, they have the honor to state that the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favorably upon the nervous system, &c., &c. They state, further, that the injurious rumors set afloat by the Prussian apothecaries originated in a mean spirit of trade jealousy, excited by the great celebrity attained by the Pills within a very brief period."

## INDICATION!

In cases where natural evacuations are difficult to secure, and a quick discharge is essential, take six of Radway's Pills and pulverize them,—take the pill powder in water or preserve,—in an hour they will operate. We have known the most distressing pains of Gastritis, Bilious Cholera, Inflammation, Congestion, &c., stopped, and the retained irritating humors expelled from the bowels in thirty minutes by this treatment. It is however, better in chronic cases to take the pills as they are, and let them gradually dissolve in the stomach. These Pills possess in the highest degree cathartic, aperient, tonic, and diaphoretic properties. They do not weaken or debilitate the system or any of its organs, and will leave the bowels regular and healthy. They purify and equalize the circulation of the blood. No congestion or inflammation will occur while the system is under their influence. Price 25 cents per box, or 5 boxes for one dollar.

# CALIFORNIA CORRESPONDENCE.

ESPECIALLY TO THE HAWAIIAN GAZETTE.

## CALIFORNIA AFFAIRS.

A Labor Exchange.

The minds of our people have been sorely troubled for several years past—first, upon the best plan to secure population, and second, how to dispose of it after it had been secured. As a general thing, emigrating and migrating people are in the correct class—those who change their residence under a stress of circumstances to better their condition. Of these we had already a full proportion with a constant tendency to increase. Our public charitable institutions were overburdened with pecuniary weight. A scheme was devised some time ago, which I predicted in my correspondence to your paper at the time, could not succeed, to wit: the organization of an "Emigrant Aid Society," which proposed to invite hither, and feed for a certain length of time, (one month, I believe) all the paupers from Europe, and from Ireland especially. One or two meetings of the projectors of the institution were held, and it was ascertained that the projectors were entirely too magnanimous; so comprehensive, in fact, that the closer one looked, the more he failed to see it.

The right plan of attack upon last, A "Labor Exchange" has been opened. That is to say, several weeks ago a number of worthy and sensible gentlemen raised a liberal subscription, employed a Secretary, and opened an office on Battery street, where employers apply for hands, or send their orders; and workmen who are anxious to be employed go to procure situations. The experiment has proved a grand success. Farmers, contractors and others, residing in different and remote parts of the State, are in the habit of sending orders to the office, which is daily crowded with eager applicants.

The steamers for four or five months past have been emptying a vast number of our shores, and but for some such institution as this there must have been a vast amount of destitution and suffering among the new comers. Happily, however, but for more than one-half has been put in this year than usual, which makes the demand for labor much greater than it could otherwise possibly have been. The great number of railroads, and thousands of acres of mining ground yet to be explored and worked; tens of thousands of acres of agricultural lands to be tilled, so that the demand for men have come among us, all that remains for them to do, is to be industrious, observing and persevering, and they are bound ultimately to become prosperous.

## Banquet to the Chinese Embassy.

The Chinese Embassy, with Mr. Burlingame at its head, comprising—dignitaries, servants and all—some nineteen or twenty persons, arrived here in the last steamer from the Central Flowery Kingdom. They put up at the Occidental Hotel, over which building, during their stay, the Chinese flag of the flag of His Celestial Highness was kept flying. As near as I could make it out, it contained a large snake or dragon on a yellow mixed background, and also a "quite contrarywise." Many attentions and courtesies were shown to the Mongolians, such as escorting them to public places of amusement, to the theatre, to the races, to the drives, machine shops, to the different military fortifications in the bay, etc. The culminating honor extended to the Embassy was a grand banquet at the Occidental Hotel, on the evening of April 28th. Governor Haight presided. There was a French bill of fare, which, of course, but very few of the guests could read, and settlements enough drunk to have filled up a regular fourth of July celebration. Speeches were made by Governor Haight, Judge DeLoe, General Hall, Mr. Burlingame, Thatchler, Mr. Burlingame, Edward Tompkins, Newton Booth, British Consul, Booker, Rev. Wm. A. Hall, and Mr. Tjahn, one of the Embassy, which were marked by a good sense that I give it a place in this local sheet.

## Report of Committee on Education.

His Highness M. Kekuanana, President of the Assembly:

Sir: The Committee on Education beg leave to lay before you, and the honorable House, the following general report on matters pertaining to their department.

## REPORTS.

Various petitions in the interest of education have been referred to the Committee, and the objects petitioned for are:

First.—That parents and guardians be allowed a voice in the appointment of teachers to the district schools.

Second.—That the appointment of teachers to the district schools be vested in the local school boards.

Third.—That parents and guardians who may support children at select schools be freed from the school tax.

Your Committee regard these three petitions of the people as being reasonable. They have prepared a bill, herewith submitted, in reference to the first and second objects petitioned for. This bill has been discussed by your Committee, sitting in consultation with the Board of Education, and its provisions were mutually determined upon.

In regard to the third object, your Committee would recommend that the bill introduced by the member from Hana be favorably considered by the House. They think it is simply a matter of justice that, when a parent or guardian maintains his child at a select school for a regular course of instruction, he should be freed from the school tax.

## COMMON SCHOOLS.

Your Committee look upon the common schools of the kingdom as of vital importance to the nation, and consequently every measure tending to make them more effective must be regarded with favor by the honorable House. New school houses are to be built; destitute districts are to be supplied with funds to enable them to carry on the schools in an effective manner. Your Committee are in favor of a special appropriation for those districts. They are not in favor of taking the funds of one district to supply the wants in another, as they are of the opinion that any surplus in a district can be well applied in that district, in the shape of increased remuneration to deserving teachers, repairs on school houses, and the obtaining of school apparatus.

Your Committee would recommend the establishment of two or more grades for teachers; the payment to be apportioned according to the grade which the teacher may occupy. This, in the minds of your Committee, would act as an incentive to the teachers to qualify themselves for the higher grades, and thus tend to improve the schools generally.

Your Committee are also of opinion that the sessions of the Government schools should be shorter and more frequent. They would recommend to the Board of Education, through the honorable House, that there be four quarterly sessions of six weeks each; one long vacation of six weeks in summer, and three shorter vacations between the other sessions. Your Committee are of opinion that by so doing, the interest of the different schools will be better kept up, as too long and steady attention to any one subject, without relaxation, tends only to lull.

## THE REFORMATORY SCHOOL.

Your Committee have visited this school and noted its operations. They have also examined the records of the institution, and find the following facts in regard to commitments:

Number committed for leading an idle and dissolute life, ten boys, all from Oahu.

Committed for lewdness, twenty-six, two of whom are girls. Of the twenty-six, one was sent from Hawaii, three from Maui, nineteen from Oahu, and three from Kauai.

One case of commitment for assault and battery, from Oahu.

Habitual truancy, twenty-two; three of whom are girls. Of the twenty-two, eight are sent from Maui, three from Kauai, and eleven from Oahu.

Total commitments up to May 23, 1868, fifty-nine. Of these, one was sent from Hawaii, eleven from Maui, forty-one from Oahu, and six from Kauai. There are at present in the institution twenty-eight boys and three girls. There are fifteen two patches under cultivation, which will not, however, be ready for use until the grounds immediately around the institution do not bear the marks of careful

cultivation, rather the contrary; and your Committee see no reason why they should not be made more productive.

The school in connection with the institution appears to have a competent native teacher; but the room in which they are taught is miserably ventilated, and, on a hot day, resembles an oven, as does also the inclosure surrounded by a high, close board fence.

Your Committee are favorably disposed towards a Reformatory School, well conducted; but they do not think sufficient interest has been displayed in placing the present institution upon the right basis. The law providing for a correctional department does not seem to have been carried out, as all the boys appear to sleep, eat, study, recreate and work in common. Your Committee do not consider truancy a sufficient reason for consigning a child to this institution. They would recommend that the practice be discontinued. The laws provide sufficient penalty for truancy, and where the child is of such a tender age as some of those confined in the Reformatory School, it holds the parents responsible for the non-attendance at school.

At present, there appears to be no distinction made in the treatment of the classes of offenders sent to the institution, and, in the opinion of your Committee, unless a distinction can be made, and a broad one, between the thieves and truant, the object of reform can not be met, and the present institution will be an incubus.

The class of offenders at present gathered in the Reformatory School, are no worse than can be found in any common school in the land; and, unless the principles of reform can be brought to bear upon them in a greater degree than can be done in the common schools, they had better be discharged, to be held accountable to the common law, and thus save the Government and the people an expense greatly exceeding the expense of the first educational institution in the land: that of Lahainaluna. In the opinion of your Committee, the institution should have a strictly penal character. None but offenders against the penal laws of the land should be admitted within its precincts. The discipline should be such as would make the offenders feel that they are prisoners, and have transgressed the laws; while, at the same time, the road to reform should be clearly shown to them, and they be encouraged to walk thereon. The commitments should be for a stated time, as provided in the laws for all offenses. There should be no commitments during minority; as such punishment would greatly exceed the offense, and is contrary to the principles of true justice, which proportions the punishment to the offense. If, after serving out one term, an offender should be re-committed, let him be transferred to the common chain gang, where, undoubtedly, he belongs. Let the head of the Reformatory School be an educated man of the land, should be sympathetic with children, and one who can command their respect and obedience; one who has executive ability, and who can place such an institution on the high road to reform, and keep it there. For such an institution, your Committee stand ready to recommend an appropriation.

## HAWAIIAN FEMALE BOARDING SCHOOLS.

Your Committee would congratulate the honorable House upon the great interest which at present obtains among the friends of the nation in regard to the improvement and elevation of its future mothers, the present rising generation of Hawaiian females. It is a healthy sign of the times, when we see philanthropists, without respect to creed, earnestly engaged in promoting the cause of female education. All honor to them! Your Committee are disposed to extend a helping hand to all such schools, by recommending to the honorable House to place a liberal amount of funds in the hands of the Board of Education to be devoted to their maintenance.

## HAWAIIAN ENGLISH DAY SCHOOLS.

Your Committee consider that these schools, when well conducted, are of very great importance to the nation, inasmuch as they prepare the Hawaiian mind to come in contact with the outer world. It is needless to point out the good already done through their instrumentality. Your Committee favor a liberal assistance to the schools of this class.

## FOREIGN SELECT SCHOOLS.

Your Committee are not forgetful of the fact that a thrifty young growth of the foreign element is in our midst. The parents and guardians of these children are amongst the most respectable citizens, and are taxpayers to the government. They constitute our mercantile community, and help, perhaps more than any other class, the maintenance of our institutions. Your Committee see no reason why the children of this class should be excluded from the benefits of assistance from the Board of Education. On the contrary, your Committee are in favor of such an appropriation to the Board of Education, as shall free that body from any embarrassment which might arise from shortness of funds, thus compelling them to make a distinction in favor of certain classes of schools to the exclusion of others. Therefore, your Committee, deeming the subject of popular education to be of paramount importance, would respectfully recommend to the honorable House to pass the following appropriations under the Department of Public Instruction for the biennial period ending March 31, 1870.

Salary of Inspector General..... \$ 4,000

Salary of Clerk of Bureau..... 2,500

Salaries of Hawaiian and English Select and Boarding Schools..... 30,000

Support of Government Common Schools in destitute districts..... 17,000

Printing School Books..... 2,250

Stationery and Incidentals..... 600

Building new School Houses..... 3,200

Endowment of Scholarships..... 200

Interest on School Fund..... 6,125

Total..... \$ 67,975

The appropriation for the Reformatory School, as at present existing, your Committee do not feel called upon to recommend.
