A letter from Hilo to the Bulletin is as hard on the police establishment of that district as the correspondent who treated the same subject in Tuesday's GAZETTE.

All the talk about town Saturday night was on military matters. The bare mention of a possibility of the Honolulu Rifles being disbanded aroused the most bitter indignation.

It is said that an offer reached the late Hon. A. Forannder, of \$6,000 for his papers and manuscripts from the New Zealand Government, but which he declined. If these documents, under any circumstances, should be disposed of by the heirs of deceased estate, would it not be in order for the Hawaiian Government to open negotiations with a view to securing them for national and educational purposes?

About 8:30 Friday night the telephone announced a fire among some native homes at Waikiki. The glare was visible from all parts of the city. No alarm was sounded. An hour later a gentleman arrived in town from the spot, reporting that two large houses, occupied by natives, adjoining the residence of Princess Lilikoukahi, had been burned. The fire caught in one by some means undetermined, and spreading to the other consumed both.

In today's paper appears the programme for the regatta with which the King's birthday will be chiefly celebrated. There are no less than nineteen events, four for sails. Williams is well and favorably known here, and Mr. Fuller has many friends and acquaintances on the Islands. Island people visiting at San Francisco will do well to give them a call. Williams holds the important office of Treasurer of the Association which has its headquarters in San Francisco.

Many people who appreciate home comforts away from home will be delighted to see that Mrs. J. T. White has entered upon a new tenure of the management of the Eagle House. Under her careful and matronly charge, that attractive and convenient hotel has, during the year that it has been open, given a most satisfactory and profitable business and transient guests. For those staying in town who wish a quiet, homelike retreat, or for travelers who like such a resting place at the end of a journey, the Eagle House may confidently be recommended. See advertisement for particulars.

The Riddle Solved.

"Who fired the big guns on Puncchibowl, Friday night?"

"I fired those big guns," shouted Guy Fawkes; "I fired them off in honor of November 5th Gunpowder Plot."

Rev. E. C. Oggel.

This gentleman, lately pastor of the Bethel Union Church of this city, has received a call from a Presbyterian Church in Brisbane, Queensland, which he has accepted. The Queenland, which he has accepted, and is awaiting Mr. Oggel's arrival to be opened for public service. The salary offered to the new pastor is a very liberal one—four thousand dollars a year. Mr. and Mrs. Oggel will be passengers on the Zealandia, which is due here on the 25th inst., en route for Australia.

Personal.

Mr. E. H. Walker, for many years statistical editor of the New York Produce Exchange, has joined the editorial staff of Bradstreet's, the well known commercial and financial newspaper published in New York, to which he will give his exclusive services. Mr. Walker is perhaps the best informed man on the statistics of grain, food, provisions, live stock and kindred lines. He is the author of the only complete records of this kind, and the inventor of the "visible" grain supply statement. With his aid, in addition to the original work in that direction which Bradstreet's has done and has projected, that journal must become indispensable to all interested in those subjects.

Arrest of an Editor.

On Saturday evening Mr. F. J. Testa, better known as "the fat boy of the Foreign Office," editor of the new native paper, Muzon, was arrested on a warrant sworn out before Police Justice Dayton by Lieut. Col. Ashford. The information charges Testa with criminal libel in an account of proceedings that purported to have taken place at the Army of the Honolulu Rifles on Friday night. Bail in \$500 was given by Hon. A. Kama'i upon which the accused was released. A reference to the same story of speech making at the Army which appeared in the Advertiser was hotly assailed by a correspondent of the Bulletin as being untrue in every particular. Creditable persons present at Friday night's drill of the Rifles state that nothing of the kind reported in the papers took place on that occasion.

Waialuku News.

EDITOR GAZETTE: Would you be kind enough to correct a little paragraph that appeared in the local column of your last issue of GAZETTE, reflecting on the conduct of several hoodlums at a house where a dead person lay, by executing a miserable serenade, also saying a white man was king-ender. Your correspondent, whoever he is, was wrongly informed; moreover, these persons alluded to in the paragraph are not any of them hoodlums, and no such disgraceful scene occurred as stated. As for the white man alluded to, he is a well known member of the party to such an occurrence, even if it did really happen.

Glorious weather is the prevailing feature of Waialuku at late.

The skating rink, after being thoroughly renovated and enlarged, was opened to the public on Saturday night last, when there was a large attendance, and everyone spoke highly of the rink.

Race-horses are in active training for the forthcoming races on the 16th instant, and there is every indication of the different events having plenty of competitors.

Waialuku can boast of a fine tailoring establishment, owned by Mr. D. M. Crowley, having opened up lately on Main street, where suits are made to suit the most fastidious.

The plantations will all shortly commence grinding and that will tend to relieve the dullness of the present time. Business is dull, but we have hopes of the future.

Yours Respectfully,
A. W. ROBERTS.

KAMEHAMEHA SCHOOL.

Interesting Opening Exercises.

Kamehameha School for Boys at Palama was opened Friday with interesting exercises, in presence of a large audience. Among those present were the King and Queen, Princesses Liliuokalani and Kaiulani, Princes David and Jonas, Rev. C. M. Hyde, D. D., and Rev. S. E. Bishop, and wife, Rev. W. C. Merritt and wife, Prof. Van Slyke, Prof. W. D. Alexander and wife; Hones, H. M. Whitney and wife, W. C. Parke, W. F. Allen, S. M. Damon and wife, W. Jas. Smith, Sec'y of Education, Geo. N. Wilcox, W. H. Rice and wife, A. S. Wilcox, H. S. Townsend and Francis Gay; Messrs. C. M. Cooke, J. O. Carter, H. S. Crabbe, C. J. Lyons, F. A. Schaefer, Julius Hotting and F. S. Dodge; Mrs. A. F. Judd, Mrs. J. M. Damon, Mrs. Reed, Miss Helen Judd, Mrs. Dr. Whitney, Mrs. E. C. Jones, Mrs. J. T. Waterhouse, sr., and many other ladies.

Some forty pupils, who have already entered the school, were assembled in the class room where the exercises were held.

Dr. Hyde, of the Board of Trustees, presided over the exercises. After the arrival of their Majesties, who were received with the singing of "Hawaii Pono!" by the school boys, the chairman said that the buildings being uncompleted, it was not deemed best to invite the friends to a celebration in a formal way. He called upon the boys to sing the hymn, "How Glad God's Commands," which they did in clear-toned English.

Rev. S. E. Bishop by request offered prayer in Hawaiian.

Rev. Dr. Hyde then read an opening address, in which he referred to the beneficent wisdom of the lamented Princess Bernice Pauahi Bishop, in devising such an institution as this for the perpetual benefit of Hawaiian youth. He emphasized the importance of character building in education, and the desirability of having youth trained to manual as well as mental work. This country had indeed been in advance of other civilized nations in the latter respect.

The pupils sang another gospel hymn in English, "He Ledeth Me."

Hon. S. M. Damon, of the Board of Trustees, was called upon, but excused himself on the ground that he was not prepared to speak as a legislator, but he was not there to speak in that capacity. He could, however, speak for a great many friends of the school on the Island of Hawaii, who looked forward with much hope to the future of this school.

The people of Hilo were especially interested so well that there was great interest felt in that district for the school and its prosperity.

Prof. Alexander, on being asked for remarks, expressed his regret that Hon. C. H. Bishop, who had such an interest in the school as based on the Constitution, and the institution of a technical school had often been discussed in Honolulu. He rejoiced that the wishes of the noble lady fondress had been so successfully carried out. Founded upon a rock, the institution he hoped would long stand on the rock, and it would keep the memory of its fondress green, until generations yet unborn should call her blessed. It had been said by a native of a very rugged country, that it was a country of rocks, but it raised men. He trusted that Mr. Olsson would raise men, who would always be true to truth and righteousness. All who loved the Hawaiian race would say, "God speed the ship that is launched this day."

Hon. W. H. Rice delivered a brief address in Hawaiian.

Mr. Schnelzer was asked for a speech, as a representative of the community, but pleaded inexperience in that line and was let off.

Hon. H. M. Whitney was asked to speak, as a representative of the press. He rejoiced at the sight before him of the opening of this institution, and of the progress that had been made in the betterment of the native race. It is an institution for educating Hawaiian children in the English language and manual training. This was the only solid way to improve the race. He referred to an idea that had received currency that the missionaries had not done much in the way of practical training of Hawaiian youth. This was shown to be an error by the examples of Hilo and Lahainalua schools, where industrial training was part of the course, and those institutions were established by the missionaries. He trusted that the school would have several helpers and presses employed in a lucrative business. In conclusion, Mr. Whitney promised to give a prize of twenty dollars to the pupil who should make the best progress in acquiring manual skill during the year. He also spoke of printing as an art that is single handed, and he had no doubt, as those who learned it could obtain abundance of employment in Honolulu.

Rev. W. C. Merritt was requested to speak as Principal of a kindred institution. He remarked that the interests of Oahu College and Kamehameha School were closely related in the fact that three of the trustees on each board were the same. Founded as this institution was by a woman of high character and integrity in its pupils. An education that neglected character was not of much account.

His Majesty was asked to give the crowning remarks of the occasion. After he had concluded an address in native, the chairman interpreted the substance in English. The King said that the name of the school bears the name of one who was famous first of all for his valor, and then for his wisdom. He became famous as a warrior. Intelligence in doing their work well was the main thing to be striven after by the pupils.

Rev. W. B. Olsson, Principal of the School, invited all present after the exercises to go over the buildings that are now ready for occupancy.

The meeting was dispersed with the singing of the hymn, "Nearer My God to Thee," by the school and audience standing. Then the whole company gave a thorough inspection of dormitories, carpenter shop, kitchen, etc. Admiration was generally expressed at the completeness, convenience and comfort of all the appointments of the institution. As the buildings and grounds were thoroughly described in the GAZETTE a few days ago, it is not necessary to repeat the description on this occasion.

The Fire Department.

The monthly meeting of the Board of Representatives of the Fire Department was held at the Bell Tower last week, Chief Engineer Wilson presiding. There was little business of importance to be considered. A communication was received from the Fire Company No. 4, relating proceedings had with it with regard to the removal of Peter Souza from the foremanship. As the removed foreman appealed from the decision of his company, a committee headed by Secretary Henry Smith was appointed to investigate the matter.

Funeral of Judge Forannder.

A large and highly representative company met at Captain J. H. Brown's residence, Thursday, to pay the last tribute of respect to the memory of the late Justice Abraham Forannder. The burial services were conducted at the house, by the Rev. Alexander Mackintosh. The funeral was in charge of Marshal Kauikou. The pall-bearers were Messrs. H. A. Wilson, S. B. Dole, W. Jas. Smith, A. J. Cartwright, sr., W. F. Allen, W. C. Parke and S. S. Savige.

Hilo Letter.

EDITOR GAZETTE:—An enjoyable dancing party was given by Mr. Tucker at his residence at Paikaa on Saturday evening. All the young folks of the town were there and kept the fun going until the midnight hour forced further pleasure.

The monthly social of the Foreign Church was held at the Kittridge house, presided over by Mrs. Baker. A short programme was gone through with and the party broke up quite early.

The Brig Larline arrived in port on Sunday the 30th of October, 13 days from San Francisco with full cargo of merchandise and one passenger, Mr. C. Gibson.

Mr. Howard Hitchcock leaves to-day for the Volcano on a two weeks' sketching tour. He takes with him a complete camping outfit and will pitch his tent in the crater. We expect to see him return with some fine sketches from new and as yet unsketched points. The crater continues very active, and all tourists are loath to visit it.

Many of the mills are making hasty preparations to commence grinding the large crop to come off, and several throughout this district will be started during the present month. The crop of 1887 will be a little larger in Hilo than that of 1887.
