THE FIRE "LADDIES."

Nominations Become the Order of the Day.

At this season of the year it has been usually dull in the matters appertaining to the business connected with the Fire Department but a change in the period for the nomination of engineers for the Department for the next term (which now commences in January against June) formerly has resulted in quite a ripple perceptible upon the face of affairs within this province. Three meetings were held Wednesday evening and all were well attended; at

ENGINE CO. NO. 1. The pennant which had surmounted this company's flag-pole during the day seemed to have served to induce a large attendance.

On the meeting being called to order, Mr. B. Ordenstein, the assistant foreman, in the chair, no preliminaries were indulged in and a communication from Mr. Robert More was read and in which he tendered his resignation both as foreman and as a member of the company. On motion the communication was laid on the table. Nominations were then declared in order for engineers of the Department for 1890 and with little difference of voting the following were declared the nominees of No. 1 for 1890: Chief Engineer, Julius Asche; First Assistant, Robert More; Second Assistant, J. K. Naone.

ENGINE CO. NO. 2. The meeting of this company was a regular monthly one, Foreman Ryan in the chair. Although there was not a very large attendance yet the spirit of nomination was plainly apparent. On motion and after a little debate the nominations for engineers for the Department for 1890 were again brought forward and on vote the following nominations were again approved; for Chief Engineer, Chas. B. Wilson; for First Assistant, Geo. Norton; for Second Assistant, Jas. H. Boyd.

HOKA AND LADDER CO. HAWAII'S PROSPECT.

Projected Connection with the Society Islands.

Mons. Joseph Touissant Cognet, Hawaiian Consul for the Society Group, is on a visit of business and pleasure to these islands. Monsieur Cognet arrived here by the steamer Australia on the 18th of last October and paid his respects to the Minister of Foreign Affairs on the next day. He visited the ADVERTISER office on Thursday last. Mons. Cognet is endeavoring to forward a scheme which must result in benefit to Hawaii.

The object of his visit to this kingdom is to establish a company with a capital of \$200,000 in 4,000 shares at \$50 each, to run a line of steamers under the Hawaiian flag between the French settlements in Oceania and the Hawaiian kingdom, for the purpose of carrying mail, passengers and freight, and commerce in general. The gentleman believes that the company would realize profits and that the two countries joined by a monthly or semi-monthly steamship service would find a considerable reciprocal advantage from every point of view. He thinks the company could obtain from the Hawaiian and Tahitian Governments an annual subsidy and privileges with regard to the rights of vessels at the ports of entry. Should there be any delay in forwarding the scheme here, Mr. Cognet feels satisfied that he can obtain ample assistance in San Francisco.

A fourth minor child, Henry, having died here after the issuance of the will, did not participate in the benefits. The \$4,000 policy in the Knights of Pythias fund has shrunk to \$351 from lapse of the testator's membership, and the latter amount was paid to Mrs. Hart, \$3,000 from insurance policy in Pacific Co., being payable to the testator went directly into the estate. The total receipts of the estate were \$9,078.97, and disbursements \$8,047.50. Legacies were paid by the estate, of \$500 each to Edmund H., and Edwin, the two eldest sons. The sum of \$611.82 went to expenses of educating four of the children.

A Trip by Rail.

Joseph Touissant Cognet, Hawaiian Consul for the Society Group, took passage Thursday afternoon by the Oahu Land and Railway Co.'s train, drawn by the engine Kaala, for the limit of the road as now graded. A busy moving throng greeted the eye of the visitor to the apron sale, and as the latch-string was out, no admission being charged, there was nothing to deter entrance. Once inside there was offered in the shape of fancy articles, flowers, and refreshments, with earnest advocates to each department, sufficient inducements to cause a purchase and contribution to the treasury of a very worthy organization. The apron table was in charge of Miss Parke, the flower bower in care of Miss Severance and Miss Dora Dowsett, the dandy table waited on by Misses Helen Dickson and Agnes Judd and the general supervision of refreshments was undertaken by Mrs. Howard and Mrs. Eddie Damon. Miss Nellie Lowrey paid attention to the comfort of stranger callers and her duties were well performed. The efforts of these earnest workers in a good cause have met with success, the financial harvest garnered, summing up a total of about \$175.

The Mechanics Meeting.

The disagreeable weather prevalent did not prevent a large attendance at the meeting of the Mechanics and Workingmen's Political Protective Union held Friday evening at Knights of Pythias Hall, Fort street.

The meeting was called to order by president, John Phillips, after the minutes of the previous meeting had been read and approved the secretary presented an additional list of names, forty-seven in number, for election to membership. John Sheldon was appointed to the office of interpreter and he accepted the same.

The special business of the evening was the debate which ensued in the attempt to obtain the sense of the meeting relative to the plank proposed by the Executive Committee as to be one of the principal in the platform of the party at the coming election and which is "that there be no property qualification in obtaining the right to vote for nobles." Messrs. T. R. Lucas, Bowler, Crowley, Kaulahea, Gibbs, and several other engaged in the debate. Mr. W. R. Simms the acting secretary reported that the total membership to date was 525. A voluntary contribution was taken up after which the meeting adjourned until next Friday evening at the same place.

It is now the property of Mr. N. Omsted of Hamakuaopoko, having been presented to his father, then the French Consul at Christiania. Misses Crook and Torbert sang a duet with guitar, very sweetly. The entertainment closed with a "conversation" on the subject of ghosts, mountains, and things which most thoroughly broke the ice.

The next social will be held at Mr. Baldwin's, at Haiku, next full moon. Fine rains on Maui, ditches full, and planters in good humor.

The Japanese Emperor's Birthday at Kilauea.

Last Saturday the 2d inst. being the commemoration of the Emperor of Japan's birthday, the Japanese gave a splendid feast in the fine house recently built for them at Kilauea. Wrestling was carried on in the afternoon at which they showed their usual strength and agility, the chief of the day being Matsumi, a powerfully built man. Dinner was announced at 6 p. m. and all the guests were shown into the vestibule where a long table groined beneath the weight of many fine dishes. What added a greater zest to the dinner was that the guests were waited upon by Japanese ladies in their native costume. At the close of the dinner the health of the Emperor was drunk amidst cheers, and some songs were well rendered, after which the company broke up at a suitable time and thanked the Japanese for their courteous entertainment. Kilauea, Kauai, Nov. 5.
