

LOCAL AND GENERAL.

THE FATE OF HAWAIIANS.

Pay your dog tax or lose your dog. A case of leprosy has been discovered at Defiance, Iowa. Mr. Theo. H. Davies sails from England February 7th, for Honolulu. Hon. J. O. Carter has been elected Vice-President of the Board of Health. The Australia makes a trip before the Zealandia, leaving Honolulu February 7th for San Francisco. The Metropolitan Meat Market received the contract for supplying dressed beef for the Leper Settlement. The Board of Health are in receipt of nineteen bids for furnishing supplies for the Leper Settlement for a term of six months. The remains of Mrs. A. Young, Jr., were placed on board the Australia Wednesday forenoon, to be taken to Oakland, California, for interment here. The mother of the five Portuguese children that were drowned at Honolulu several weeks ago came down to Honolulu by the steamer Iwalani last week. The Australia took a mail of 6,000 letters and 1,978 papers. If no other mail leaves till February 2d, the Australia will have a good sized cargo of mail alone. A new industry has been started at Santa Monica, California. It is the canning of mussels in glass jars by a process that makes the mussels very palatable. The new rigging of the British barque Wm. Le Lachear has been completed by Mr. J. G. Hitchfield, being the heaviest work of its description effected in this port. On Tuesday, January 20, at 8 P.M., at the Y.M.C.A. Hall F. M. English, B.A., will read a paper on "Falstaff," illustrated by readings selected from Henry IV. (Parts 1 and 2). The prettiest of all the calendars ornaments our desk. It is of the "Art Gem Series," and is a regular gem, too, and comes from Messrs. Theo. H. Davies & Co., importers. The Australia sailed Wednesday at 12:15. She carried a number of prominent citizens and visitors. The scene of her parting presented a lively appearance. The band played appropriate airs on the wharf. The H. P. Brooks Uniform Rank, Division No. 1, K. of P., are making arrangements to have an anniversary ball February 19th. It is to be hoped the ball will be given, for when the K. of P. starts out to do something, it's going to be done. The British ship Calliope, of Samoa fame, is being fitted for another commission. The cost of her repairs is estimated at \$15,000. The vessel's bottom was in a bad condition, and it is said that while at Sydney she leaked like a sieve. Our athletic reporter has been asked if a ladies' class will be formed at the Honolulu Athletic Association, to receive athletic instructions from the teacher. Not being able to answer the query, we refer it to the members of the association. A young woman at Fall River, relates the Boston Herald, in going over some old letters ran across one from Honolulu bearing a stamp of a rare issue of 1852. A New York firm heard of her discovery, and after examining the stamp, paid her \$135 for it. New South Wales passed a new law, providing for the notification of cases of leprosy, for the detention and isolation of lepers, the appointment of lazarettos, etc. The Board of Health of the Hawaiian Islands is in receipt of a copy of the new law. Rabbi Levy of Oakland states that the universal greeting of the Hawaiians, "Aloha," is purely of Hebrew origin, and signifies, "The Lord greets you." He suggests that King Kalakaua try to solve the question how his people came in possession of it, and wonders if any of the ten lost tribes of Israel ever got shipwrecked on those islands. [S. F. Chronicle.] A member of the San Francisco Fire Department who has fought the fiery demon for many years, and who is now on a leave of absence, in speaking of Saturday's fire remarked that our Fire Department did as good work as was ever seen by him at a fire, considering the high wind that was blowing, the distance for the engines to travel and other drawbacks to be met with here. Purser A. C. Simmerson of the W. G. Hall reported that the weather on the windward ports had moderated. Smooth seas were had all the way from Kan to Lahaina. The news of good weather has been awaited by plantation agents with great interest, and now that fine weather has again set in, coasting steamers and schooners, sugar laden, may be expected to arrive in quick succession. Mr. D. H. Davis and Miss Lydia Cummins, eldest daughter of Mr. Theo. Cummins, were married Tuesday by His Lordship the Bishop of Oahu at the Catholic Cathedral vestry. They left on the Claudine in the evening for Maui. Both Mr. Davis, who is a partner in the Pantheon stables, and his bride are very popularly known and their many friends wish them a long, happy married life.

Unrelenting Wrath of King Malietoa of Samoa. There returned to this city by the steamship Zealandia on Saturday from King Malietoa's realm the following Hawaiians: Jim Kukona and wife, Kawela and wife, Kaolola, Kaluna, Moanulua and Kahinn. Their return passage was paid by the Hawaiian Government out of the appropriation for the return of Hawaiians abroad. They stated that the mode of living at Samoa was easy, and therefore very agreeable; but the decree of banishment of King Malietoa could not be averted, and they had to come home. There are several cases of leprosy at Samoa going at large, and the natives there as well as their neighbors here are indifferent to segregation. Hiram Kaumialihi and Mose, the latter an escaped seaman from the Kaimilos, have been married to Samoan women, but they could not, however, escape Malietoa's wrath! Kanana, another runaway seaman, has adopted the Samoan custom and tattooed himself. According to the Ko Hawaii Pae Aina the following Hawaiians are yet at Samoa and will return to Honolulu at an early date: Mose, Kaliko, Kanana, Kooti, A. B. Kaaukuu, Mrs. Maria; Lini, Mrs. Akahi, Luns, Miss Kalua, Mrs. Kaulahao, Kapaanoo, Kamaka, Kanahi, Meekue, and Hiram Kaumialihi. Mr. James Kean, a former member of the Hawaiian Legislature, and who left the Kingdom in 1886, is doing profitable business on one of the Tonga islands, and King Malietoa's proclamation does not affect him.

Fire Laddies. The Honolulu Engine Company No. 1, held its monthly meeting Wednesday evening. After various matters of business import was passed upon, the question of having a parade was discussed. It was finally decided to hold their annual parade on the third day of February. Instead of the usual banquet they will have only a light lunch to refresh them after the parade. A committee of five was appointed to make necessary arrangements. Mr. Chas. Auld was elected a member of the company. A large photograph of the California baseball club, which was presented to the company by that team, was accepted, and will in the future add to the many other pictures on the walls of their neatly furnished quarters. After the meeting adjourned the members present enjoyed themselves as fire boys can.

Athletic Association. At 7:30 Tuesday evening the Honolulu Athletic Association entered on its first class night under the instruction of Prof. Lobeide, about fifty members being present in the hall, twenty of whom formed the first class, and received instruction on the horizontal bar, parallel bars and in jumping, in which last there were some phenomenally high records made. The average running high jump of athletes, being 4 feet 8 inches, was made by the entire class as an average, three members, Charles Crane, A. W. Carter and James Spencer making 5 feet 2 inches, 5 feet 1 inch and 5 feet respectively. A class will be formed shortly of juveniles from the age of seven years upwards; parents wishing their children to attend may notify the secretary Mr. C. J. McCarthy who will notify them when arrangements are complete for the same.

The Rose Sparks Again in Harbor. The schooner Rose Sparks, Captain A. Brandt, and flying the American flag, entered this port Tuesday from Jaluit, Marshall Islands. The little schooner is now lying out in the stream near the Oahu Railway and Land Company's wharf. She brings 25 cords firewood, 2,000 pounds pearl shells and 200 pounds beach le mar. The Rose Sparks was here last year from San Francisco en route to the South Sea Islands, and she comes this time to have some necessary repairs effected, after which she will return and carry on her trading engagements among the South Sea Islands.

Installation of Officers. The Geo. W. de Long Post, No. 45, G. A. R., installed the following named officers Tuesday evening: P. C.—J. Ross, ex-U. S. N. S. V. C.—J. N. Wright. J. V. C.—W. H. Wagner. Adjutant.—J. Simonsen. Q. M.—R. J. Green. Surgeon.—N. B. Emerson. Chap.—F. Sherman. O. D.—S. McKeague. O. G.—J. D. Conn. Sergt.—Major.—L. Adler. Q. M. Sergt.—Duncan. After the installation, addresses were made by different members of the Post.

Much Coal. The advices received from the Colonies by the Zealandia and Monowai, as published in our paper of January 12th, state that ten vessels with aggregate tonnage of 8,194 tons, were loading coal at Newcastle or had sailed for the Hawaiian Islands. It is estimated that these ten vessels will bring upwards of 12,000 tons of coal, all due within 40 to 60 days.
