Eminent Domain Bill Killed in the House-A Tie Vote and an Appeal.

SENATE.

One hundred-sixteenth day, July 1 Notification was received from the House of the passage of several bills, including the adoption of the conference amendments to the appropriation bills. The loan appropriation bill came to the Senate in amended form. The Senate failed to concur in the amendments and the bill went to Conference committee.

The Finance Committee reported on the examination of the books of the Finance Department. They found the books in excellent condition. Several seeming differences in totals of accounts as made by the expert and as found in the books were satisfactorily explained. The Committee found the surplus in the treasury correct as accounted for in the report of the Finance Department. They also found old issue silver certificates to the amount of \$272,500. The committee presented a joint resolution, which was adopted, providing that a commission be appointed to count and verify the issue and destroy the bills by fire.

The bill of which notice was given yesterday by Minister Cooper, passed first reading, was read by title and reto the Commerce Committee. The bill provides for making Palaau on Molokal, a port of entry. M nister Cooper explained that the Executive saw no reason why Palaau should not be made a port of entry. The new plantation at that point on the island promised to be one of the largest enterprises in the Islands. It had machinery on the way and could not be landed unless it went through a port Lahaina was the nearest and it would be no greater expense to the Government were there a port of entry at Palaau, for inspection of cargoes.

The House bill to amend the opium laws by eliminating the provision for payment of one-half the fines to informers, was laid on the table on moto secure information against the smugglers and dealers in opium. Now that the House had killed the oplum bill the fines system would be of great

nated at least two miles from a high license saloon. The Senate concurred in the amendments.

It was expected that the Rapid Transit bill would come up for third reading, as the Printing Committee re ported it. The interpreter had the official copy in his possession for trans-lation, it was explained, and the bill could not legally be passed until both English and Hawaiian versions were

HOUSE.

The House has cleared up the busiss on the Clerk's desk, and now there remains such matters as are in Committees and to be reported on. The reports from the Joint Confer-

ence Committees, announcing an agree ment on the salaries and the current account appropriation bills,

A substitute to the Walluku water works bill passed third reading and went to the Senate.

The principal work of the morning was the disposition of the bill granting the right to acquire property by eminent domain. The bill was introduced by Representative Gear and confers the right upon private parties to condemn water privileges, and absorb them, for the purpose of generating electr city. The author of the measure supported it and addressed the House at some length. The vote on the passage of the bill stood 7 in the affirmative and 6 in the negative. According to constitutional provision, on the final passage of a bill there must Day, P 8 votes. The Speaker so interpreted it and declared the bill indefinitely postponed. An appeal was made from the decision and the vote stood a tie. The Speaker voted to sustain and the bill was killed.

Claims He Was Illegally Held in Oahu Prison.

Asks for Damages-The Case-Man Was Once Committed for Trial. In for Seventy-four Days.

A suit against Jas. A. Low as jailor of Oahu prison was instituted yesterday. It is a claim for damages in the Stannton, Mr (2) sum of \$5,000. This amount is asked for by Kauakaki, a native. The allegation is false imprisonment, or something akin to that indictment. Kauakaki says that he was unlawfully held in the prison for seventy-four days.

This is entirely a matter between an individual and an official of the Government and does not touch Mr. Low personally. The native was arrested months ago on a warrant charging him with assaulting a young Hawaiian girl. The prosecution before the District Magistrate was conducted by Deputy Marshal Hitchcock. The result of this hearing was that the defendant was committed for jury trial at the next term of the Circuit Court for this Island.

Before the criminal calendar was reached at the term for which Kauakaki had been held, the Deputy Marshal had investigated the case more fully and had come to the conclusion that the outcome of a jury trial would at least be doubtful. The Deputy Attorney-General was advised that the prosecution against Kauakaki had best be dropped. This was done. It is claimed that the man should have been liberated at once. He had gone up to the Judiciary building in charge of a policeman. The officer brought tion of Senator Brown, who objected his man back to the police station. to the bill on the ground that it would Kauakaki was "below" for several deprive the Government of the ability days and then somehow was sent to the "reef," where it was understood that he was to be held for trial at the next term, or something of that sort.
