MCKINLEY MEMORIAL

Active Canvass to Be Inaugurated at Once.

(From Thursday's daily.)

The McKinley Memorial Committee held a meeting yesterday afternoon in the office of C. M. Cooke, at which were present Governor Dole, presiding; C. M. Cooke, Rev. W. D. Westervelt, Roy H. Chamberlain, W. R. Farrington, J. S. McCandless, T. Clive Davies, and A. G. Hawes. The result of the meeting indicated that there was a desire to begin active work in Oahu to collect money for the memorial fund, in return for which the souvenir certificates will be issued. It is expected of the members of the committee that they will make an early canvass of the city. They will post sample certificates in the school houses as an incentive to the young Americans to aid the fund. Certificates will also be placed in the banks and in other gathering places, and the attention of the public drawn to them in every possible way. It was also requested of the newspapers that they publish the lists of subscribers from day to day as received, from all parts of the Islands, to give the public an idea of the accumulation of the desired fund.

It was also suggested that the newspapers take up the matter strongly and advocate accumulation of fund and ask suggestions as to the form the memorial should take. Subscription lists are to be placed in the hands of the committee-men, and the newspapers will also receive subscriptions to the fund, passing the money and names so received over to Treasurer C. M. Cooke, by whom the souvenir certificates will be issued. When the meeting opened W. O. Smith spoke to the committee on behalf of the National McKinley Memorial Committee, relative to the letters he had received from Washington, and which were published in the Advertiser on Tuesday. A resolution was presented by T. Clive Davies, favoring the plan already adopted by the local committee, but no action was taken. It is generally understood that the committee is in favor of applying whatever fund is raised in the Hawaiian Islands only to the object first settled upon—that of a memorial to be located in Honolulu.

Letters from various committees and treasurer's statement were read. The latter showed that there had already been accumulated the sum of \$5,915, mostly from Hawaii. Roy H. Chamberlain suggested a plan of action to stimulate interest in the proposed memorial. He said he had had conversations with several persons on the subject of the form which the memorial should take. One said he would contribute if a monument were erected. The next one said he would contribute if a public playground were established, and for no other object. One made the same specification for his donation for a fine fountain. Mr. Chamberlain said this gauged the public feeling, and he thought that each person subscribing to the fund and receiving a certificate should designate their idea of the memorial. This suggestion was favorably considered by the committee. Mr. Chamberlain said one man had offered to give \$500 if it was decided to establish a playground.

Mr. McCandless said he personally favored a public recreation ground for football, baseball, and other sports of the kind, with space set apart from the larger area for children only. Mr. Farrington personally advocated a public playground. He suggested that for active and telling work in swelling the fund, there should be additions to the personnel of the committee. Governor Dole said he would be glad to have this done. Mr. Osborne, a sculptor and modeler, was called into the meeting to speak of certain drawings he had made for the memorial. He stated that he had made three sketches which he would exhibit at the next meeting. One of them represented a figure of President McKinley in bronze, mounted on a pedestal, which was elevated on a series of about a dozen steps. Around the pedestal were several allegorical figures representing Hawaii, Porto Rico, the Philippines and Cuba, all supposed to represent the awakening of civilization.

Another took the same figure of the president, with the pedestal on three steps, around which were groups of five or six figures representing the advance of the Territories. Still a third sketch was of a group of figures about the pedestal, representing the history of the Union in the past few years. Mr. Osborne was asked to make an estimate of the cost of such a memorial. The sculptor could not give a rough estimate of the cost here, but if it was made in New York, the cost would probably be somewhere in the neighborhood of \$25,000 or \$30,000. The statue would be of bronze, the remainder of stone.

Another meeting will be held next Saturday at the office of Henry Waterhouse. Acknowledgment was made to the Hawaiian Gazette Company for \$10.00 of the souvenir certificates, the company's donation to the memorial fund, and to Alan Burn for his gratuitous work in designing the certificate. The following lists of subscribers have already been received by Treasurer Cooke: Contributions to the McKinley Memorial Fund: MAHUKONA, Hawaii Railway Co., \$10.00; E. A. Fraser, 10.00; J. TESIS PATIENCE.

The Most Patient People Must Show Annoyance at Times. Nothing spoils a good disposition quicker. Nothing taxes a man's patience like an itchiness of the skin. Itching piles most drive you crazy. All day it makes you miserable. All night it keeps you awake. Itch! Itch! Itch! with no relief. Just the same with eczema. Can hardly keep from scratching it. You would do so but you know it makes it worse. Such miseries are daily decreasing. People are learning they can be cured.

Learning the merit of Doan's Ointment. Plenty of cure that Doan's Ointment will cure eczema or any itchiness of the skin. Read the testimony of a St. Albans, U. S. citizen.

Mr. DeForrest D. Judd, of Georgia St., says: "You can put down my name as one who is a firm believer in Doan's Ointment in cases of itching hemorrhoids. I have suffered from that for twenty years and during this time I doctored and used nearly all the salves and ointments I ever heard of but could not get any permanent relief. In the winter of 1896 I was so bad that I could hardly do my work, and lost many hours sleep on account of it. It was at this time that I saw Doan's Ointment advertised and got a box. The application relieved me. It never entered my mind that I could get cured entirely, but I did not then know the virtues of Doan's Ointment. It is the best thing I have ever used and I will speak well of Doan's Ointment." Doan's Ointment for sale by all dealers. Price 50 cents. Mailed by the Hoilster Drug Co., Ltd., agents for the Hawaiian Islands. Remember the name Doan's and take no substitute.

Railroad Wharf Will Be Fumigated.

The fumigating barge went over to the Railroad wharf yesterday and the fumigating of the longest of the two Railroad wharves will begin this morning. Everything that could be thought of has been done to make the wharf airtight. In the main, the same methods have been followed as those used at the Oceanic wharf, but there have been several important alterations made in the way they were executed. While the greater part of the work, namely, the caulking of the flooring and the building of a planking extending down below the surface of the water on the sides of the wharf, has been done for some time, yet the railroad people waited with finishing touches in order that they could profit by the results of the experiment on the Oceanic wharf. They have profited from this so far that they have inserted the pipes into the fumigating hose, to be attached into the sides of the wharf, instead of putting them through the flooring. The reason for this alteration is that when the Oceanic wharf was fumigated Wednesday afternoon it was found that the fumes were lost by being forced into the water. At the Oceanic wharf this had to be remedied by providing the pipes already inserted with elbows lying on a horizontal way in order to economize the use of the disinfectant. All this has been avoided at the Railroad wharf by putting the pipes into the side of the structure. Another alteration is the insertion of bulkheads at the Railroad wharf. While the whole space under the Oceanic wharf is undivided, it was thought best to subdivide the space under the Railroad wharf into four divisions, on account of the great length of the wharf, which is 325 feet; consequently, three solid bulkheads have been built. Each division is furnished with a pipe to which the hose leading from the fumigating apparatus can be attached by means of a clamp. The bulkheads have also been furnished with doors, in order to allow workmen to pass under the whole length of the wharf when repairs are needed. The work of the construction of all these alterations has been exceedingly thorough. Not alone have the grooves of the tongue and groove boards which have been used for the boarding, been tarred before being put together, but after the whole of the construction had been finished all the cracks were carefully caulked, and finally filled with tar and pitch. The last of this work was finished yesterday afternoon. Mr. McVeigh, who is in charge of the

NICKEUS-HAWKSHURST. Daughter of the Late Attorney Weds Very Nicely. Miss Elsie Burrell Nickeus and Robert Hawkshurst, Jr. were married last evening at the residence of Dr. C. B. Cooper. The ceremony was performed by the Rev. William Morris Kincaid, and the only persons present were Dr. and Mrs. Cooper. The young bride was on her way here to join her father, the late Johnson Nickeus, when she heard, while at Lahaina, of his sudden death. She was thus left alone, as her mother and sister are in New York. Dr. Cooper, the ex-ally ruler of the Elks, of which order Mr. Nickeus had been a member, took her to his house, and she remained with the family since her arrival. The couple were to have been married in June next, but the bereavement of his fiancée caused Mr. Hawkshurst to insist upon an immediate marriage. The groom is a civil engineer, and is now engaged upon the Kona railroad enterprise.
