

HOUSE GETS DOWN TO WORK

(Continued from page 5.)

In the Appropriation bill of an item of \$10,000 for repairs to Kinan street. To be considered with the bill. Senator Crabbe introduced a bill providing for the appointment by the Treasurer of a deputy registrar of public accounts. Passed first reading. Senator Baldwin introduced a bill to authorize foreclosure and sale and forced lien of shipping companies and other common carriers. Passed first reading.

WINSTON FRANCHISE KILLED.

The Winston franchise bill was killed on third reading. Senator McCandless waived his privilege in favor of Senator Kalaupapa, who previously had caused the bill to go back to committee because of the objections of Dillingham. He spoke now in favor of the Queen street route but still said this should not be done if it interfered with the rights of the Oahu Railway. He said however that he intended to vote for the bill and all Senators should do the same.

Senator C. Brown said the Senate was anxious to grant the privilege and the only question was as to the route. He did not believe in the Queen street route because the extension of that road would make a second Kewalo. Then again the Queen street extension would not be made in time to allow the building of the road within two years as required by the franchise. The land also was private property and would have to first be condemned.

Senator Achi replied that the argument of Senator Brown didn't amount to a row of pins; that the government did not own the land for the Vineyard street extension either. On Queen street the Bishop Estate and Achi were willing to give the right of way for nothing. There was no reason to delay because the government didn't own streets; the Oahu Railway had to condemn its right of way too. Senator Brown, he said, talked like a baby. He favored giving a franchise to any one having money. If this franchise was given, in five years, small farmers out Kailhi way would be raising cabbages and onions and everything needed for the whole country.

"Raising them now and can't sell them," interrupted Iseberg. Senator Baldwin said he wasn't an advocate of the Oahu Railway and had opposed the company asking for what rights. But the legislature had granted yards and terminals and it wasn't right to permit another company to go through these depot grounds. "What kind of a state of things would we have if we granted one company a privilege that had already been given to some one else. It's wrong I say," said Baldwin. "I don't see why they press so strongly this going into the Oahu Railway's yards."

ONLY WANT CROSSINGS.

Senator McCandless replied that the Winston railroad had to get to the waterfront if there was to be any benefit to the people. The company would go 300 feet from the Oahu Railway depot and intended to cross the tracks only three times on the way to the wharves. The Oahu Railway with a subsidy of \$500 a mile had refused to build this extension. Senator McCandless said there should be a law anyway requiring all railroads to come to a full stop when crossing another railway's tracks. Senator Kalue as a member of the committee said he did not believe in infringing on rights already granted. He suggested that Winston advocate another route in order to avoid law suits.

Senator McCandless moved that a vote on the report, which was against the Queen street route, be taken. Ayes and noes were called as follows: Ayes—Baldwin, Brown, J. T. Brown, Dickey, Iseberg, Paris, Kalue, Nakapahu, Wilcox, Woods, 10. Noes—Achi, Kalaupapa, McCandless, Kaohi and Crabbe. 5. Senator McCandless then moved that the bill be tabled, refusing to accept the franchise in the amended form. Carried.

AFTERNOON SESSION.

Senate Bill 46, enlarging the powers of banks, was taken up in the afternoon. Senator Brown defended the bill as against the adverse report of the Public Expenditures Committee. He said he had amendments ready to cure the defects complained of by the committee. He proposed to prohibit banks from engaging in agricultural or manufacturing business. On motion of Senator Brown the bill was considered section by section.

Section 1 was stricken out altogether. In Section 2 Senator Brown moved to strike out the portion prohibiting banks from holding real estate for a longer period than five years. Carried. Senator Brown moved the insertion of a clause to permit the holding of real estate. Senator McCandless opposed this as allowing the banks to engage in the real estate business—a speculative trade. He argued that a depositor should be protected in every way. Senator Baldwin said it simply allowed the holding of real property as security. Senator Brown stated that banks all over the United States were given the privilege now asked. Senator Achi said that the banks now could speculate in stocks. The amendment carried.

Senator Brown stated that the present banking act was drawn by Judge Preston and had been taken from the English law and National Banking act. Senator Dickey moved to strike out the section giving banks power to act as trustees, administrators, guardians, executors and on powers of attorney. Senator Brown opposed this saying that corporations should be given these powers as they existed always. He said the country should progress, and ideas from the mainland be adopted. Senator Dickey replied that he was opposed to banks doing a trust business. He also was against the idea of plantations doing other business, running stores, blacksmith shops, etc. The amendment was lost.

Senator Brown proposed an amendment prohibiting the carrying on of an agricultural, commercial, common carrier or manufacturing business. Adopted. The bill passed second reading—to be read a third time Wednesday.

NEW FOOD LAW.

The bill providing against the adulteration of food and drugs passed third reading with an amendment reducing the minimum fine of \$25 or 30 days imprisonment to \$10 and making the maximum \$200. Senator Dickey stated there might be cases where the seller might be innocent. Senator Achi was against a change and said many babies had been killed by watered milk. Senator Iseberg said it was due to formalin. Senator McCandless wanted the prison penalty cut out. Senator Brown remarked that three of the Senators were in the milk business—Iseberg, Achi and McCandless. There was no second to McCandless' motion. There were fifteen ayes on the final passage of the bill.

BILLS REFERRED. Senate bills on second reading were referred as follows: Settling exceptions by circuit judges; to Judiciary; militia reorganization; to Miscellaneous; 159 relating to explosives, 138 repealing the law on liquid explosives, and 139 inspection of explosives, were all referred to the Miscellaneous Committee; No. 160 providing for inspection of electrical installation, to Public Lands; No. 137 exempting street railways in process of construction, to Ways and Means; No. 157 redemption of taxes, to Ways and Means.

MORE BILLS PASS.

Senate Bill No. 118 making a change in the partnership laws passed with fifteen ayes. Senate Bill No. 121 providing for the publication of the U. S. Court reports passed third reading unanimously. Senate Bill No. 110 providing for a commission to settle the British claims of 1855 passed third reading; Kalaupapa and Kaohi voting against it. Senate Bill No. 110 amending the taxation laws relating to poll tax was called up on third reading. Senator Baldwin moved the striking out of Sections 2 and 3. Carried. Section 4 was also stricken out. Senator Baldwin proposed an amendment making any personal property of a poll-tax delinquent liable to seizure by the assessor. Thirty per cent may be added to the amount due for poll tax and the seized property can be sold on three hours' notice. The amendment was not pressed and the bill went back to the enrollment committee for revision, being in a rather mixed up condition. Senate Bill No. 140, providing for the quarantine of animals, passed third reading unanimously. Senate Bill No. 142, amending the law relating to the sale of kerosene, passed for the third time with 15 ayes. Senate Bill No. 148, amending the law relating to the Hilo Fire Department, passed; J. T. Brown voted "no" and Achi then changed his vote to "no," saying if a Hilo man didn't want it he didn't either. Then Brown changed his vote to "yes" and Achi changed back. The bill passed with fifteen ayes. The bill repealing the law for the importation of foreign goods marked as Hawaiian passed with the same vote. Senate Bill No. 152, amending the law for the protection of birds, also passed unanimously. House Bill No. 157, providing for the acquisition of the Paioa Valley springs, passed first reading.

LIMIT BOND ISSUE.

Senator McCandless introduced a joint resolution providing that the total amount of bonds to be issued within the coming biennial period shall be limited to \$1,000,000. The introducer said there should not be an issue of \$2,500,000, for as shown by the plantations twenty-five per cent of the money would be wasted, because of the hurry of officials to spend it all within the two years. Better results could be obtained by the judicious expenditure of one million dollars. Senator Baldwin agreed with McCandless, but said that it should be borne in mind that the bonds were for four years' improvements and not for two years, and that the improvements were urgently needed. Senator Achi wanted the resolution considered with the loan bill. Senator McCandless replied that there was a disposition on the part of business men to oppose the loan of \$3,000,000 and he had been told that if the law was passed there would be a fight at Washington to prevent the President from signing it. The motion to lay on the table carried, 14 to 1. Adjourned.

Shipping on Hawaii.

[Special by Wireless Telegraph.] HILO, Hawaii, April 4.—The Defender will leave Honolulu, Kohala, Monday with a full load of sugar. The Santiago sails tomorrow. The Rhoderick Dhu arrived here at noon, eighteen days out from San Francisco. The weather is very warm and the indications are for rain at Honokaa.

Sugar Made and Shipped.

[Special by Wireless Telegraph.] HILO, Hawaii, April 4.—The following is a statement of the sugar milled and shipped so far from the local plantations: Olaa, 14,076 tons, shipped 9,927; Waialakea, 3,700 tons, shipped 2,150; Pepeekeo, 3,250 tons, shipped 2,832; Paialoa has made 3,150 tons.

A native who lives in the Kailhi Camp, by name Keka Kahlepehu, had a disagreement with his wife in the early hours of yesterday morning, and as a result of this little domestic difficulty went after the lady with a razor and, catching her by the hair, proceeded to cut her in the neck, inflicting a serious though not fatal wound. He swore, however, that he would kill her, and when the woman, not being subdued by his heroic treatment, broke away from him and continued the conjugal quarrel, he started for her again, razor in hand, this time with the declared purpose of finishing her. At this point some of his neighbors in the camp interfered, facilitating the woman's escape from the infuriated man and Keka was turned over to the police and taken to the station, where a charge of assault with a deadly weapon was made against him.

A VITAL DIFFERENCE.

When caught in heavy gales at sea the fishermen of Norway often used cod liver oil to break the force of the waves. They do this by squeezing the cod livers over the raging water. For this purpose the oil in its natural state is perfectly adapted. But when you come to think of it as a remedy for consumption and other wasting complaints it is quite a different matter. To eat fat does not prevent the loss of fat, or flesh; much less does it put flesh on. That is why there is no foundation whatever for the faith some badly informed persons have in plain cod liver oil as a remedy. Any starchy food, such as rice, is more fattening than any oil, but all starchy foods are horribly indigestible, and so is plain cod liver oil; and good digestion is of all things necessary to invalids. On the other hand pure cod liver oil contains medicinal principles of a high order, but to be of use to the sick they must first be extracted from the abominable grease and scientifically blended with other curative and nutrient substances of equal value. This has always been successfully accomplished in WAMPOLE'S PREPARATION which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In this scientific union of ingredients we have the perfect flesh-maker and life-giver, with a successful record in Anemia, Scrofula, Throat and Lung Troubles, and all diseases of the blood. Contains the gold of cod liver oil freed from its base metals. One bottle convinces. Begins its good work with the first dose. Sold by all chemists here and everywhere throughout the world.
