

KAMEHAMEHA DAY IS THE NEXT

(From Wednesday's Advertiser.)

What shall be done to celebrate June 7—Kamehameha Day? This is a question asked of the Hawaii Promotion Committee yesterday afternoon at its regular weekly meeting, by Edgar Henriquez. The Promotion Committee replied that a celebration had been contemplated for that day by the two boat clubs, Myrtle and Heolani, partly to honor the name of the founder of the Kamehameha dynasty, and in particular to entertain the visiting yachtsmen from the mainland, should they be here on that date.

Mr. Henriquez said that the day should be appropriately celebrated in some way, and if the Promotion Committee had nothing to suggest, he had in mind a form of celebration which he would submit to the board the following week.

WANT JIM HILL'S BOATS.

It was stated at the meeting that the ball had been set rolling to get Jim Hill's big steamships Dakota and Minnesota to call here, by having resolutions adopted to that effect by the Development League of Oregon and the Commercial Club of Portland. Rumors have reached Honolulu to the effect that Mr. Hill contemplated having his big steamers call at Honolulu, at least on the homeward trip.

MRS. WEATHERED'S REMARKS.

On the invitation of Secretary Wood, Mrs. Edith Tozier Weathered, who is chaperoning the Oregon Journal's party of ten young ladies during their Hawaiian trip, was present and made some remarks concerning the promotion work conducted by the State of Oregon. Mrs. Weathered seemed fitted to make suggestions of this character as she has represented Oregon at several big expositions held on the mainland, including those held at Buffalo, Charleston and St. Louis fairs. She is also a newspaper woman and a member of the executive board of the National Editorial Association. The latter organization is to meet in annual session at Indianapolis in June, and when asked by Chairman McCandless whether she would care to represent Hawaii at that meeting, Mrs. Weathered replied that it would give her much pleasure to do so, and she would do what she could to establish Honolulu's claims to have one of the annual conventions held here.

"I have never been so full of admiration for my own state," said Mrs. Weathered, "that I could not see good in others, and so I say that I find everything that is good and pleasing and attractive in Hawaii. I have been greatly impressed with the opportunities you have here. You have the goods, which you advertise to deliver. I believe there is a microbe which attacks all visitors here so that they are so charmed with the islands that they do not want to leave them."

GREAT PLACE FOR HONEYMOON.

"Also, I think it's just the place for a honeymoon couple to come to, for its ideal for them. However, aside from the moonshine, there is the social side of life in the islands which appeals to the stranger. I came here expecting to find a few foreigners and some Americans, of course, and whom I naturally expected to find engaged mostly in politics. (Laughter). But you can not imagine my surprise to find such an up-to-date American city with large, substantial buildings and so many hospitable people here of all races. You should let the world know more and more of what you have."

"I have suggested to Secretary Wood that the Promotion Committee invite the National Editorial Association to convene in Hawaii, and I will be glad to carry your message."

SPEND MONEY TO GET RESULTS.

"To get results you have got to spend money. California and Washington got ahead of Oregon, until we found that money had to be spent, and now Oregon is forging ahead and the results from judicious advertising are being noticed. You must advertise your up-to-dateness to attract. Oregon put up an old log cabin, representing Lewis and Clarke's fort, at the St. Louis Exposition. Many people thought that was the best kind of building that could be found in Oregon today. I hope you will discourage people getting up advertising features which show the old instead of the new. Show the modern and not that which relates to the dark ages of Hawaii. People want to know what you have today. When you advertise the Hawaiian Islands as a winter resort, advertise the modern hotel accommodations you have, the fine roads for automobiles, and the climate and natural attractions. If you do advertise what is old in Hawaii, advertise also what is new, side by side."

SCHOOL CHILDREN SHOULD WRITE.

"School children could do a whole lot to advertise the islands. In Oregon we arranged with the principals of schools in Boston and elsewhere to have letters sent by our school children to be distributed among the scholars in the East. We sent out not less than 10,000 letters. Some were written about agriculture, others of horticulture, the fisheries and in general about matters of interest in Oregon. Eastern people don't realize the extent of the industries of the west, or the attractiveness of the west. Letters written by your school children, could deal with the sugar industry, fisheries, your forests, towns, schools, flowers and life in general. These letters generally end their way into the newspapers and you get all that free advertising for only the cost of the postage. People

who read those letters will believe the children, for they know they are not backing some real estate or other scheme. (Laughter).

ADVERTISE FLORAL PARADE.

"I never saw a prettier celebration than your floral parade on Washington's birthday. Let alone the feature of my ten Oregon girls—and I think they are an attractive lot of girls too—it was a beautiful parade. Of course, I have seen larger ones, but the effect of the parade riders was certainly something to appeal to strangers. Advertise this parade, begin now to prepare for the next one, advertise all the year and you will have 100 people, then to every ten you had this year. Make it as important to the people of the mainland as the mardi-gras or the flower festivals of Southern California."

Mrs. Weathered said that Hawaii should establish a headquarters in San Francisco while the National Educational Association is in convention there this summer, where literature could be widely distributed. Letters written by school children could be distributed there and from these she believed excellent results would obtain, as teachers would naturally take interest in student-written letters and they would take them home and eventually to their classrooms to read to their own pupils.

Mrs. Weathered was thanked by the members of the committee for her valuable suggestions.

DINNER FOR OREGON GIRLS.

After the departure of Mrs. Weathered the committee decided to tender a complimentary dinner to the Oregon Journal party of young ladies at the Moana Hotel on Thursday evening. Outside the members of the Journal party, eleven in number, the members of the Promotion Committee will be present.

TELEPHONE BOOKS WANTED.

Secretary Wood said it was his intention to secure a large number of new telephone directory booklets to send to various organizations in the East. In return for books received by him from various cities. These were extremely valuable to him in sending out literature.

ROCK ISLAND HELPS.

The new edition of the Rock Island folder contains half a page of matter devoted to "Hawaii, the Island Paradise." This is the result of the promise of Mr. Sebastian that he would do all he could to divert travel to California and to Hawaii, and he has kept his word. The matter is conspicuously displayed.

Mr. Day, editor of "The Rudder," advises Mr. Wood that he will be glad to advertise the coming ocean yacht race from San Francisco to Honolulu in May.

Letters from San Francisco indicate that the growing pineapples in sake tubs, which have been placed in railroad and hotel offices there, have attracted much attention, as few people have ever seen pineapples growing.

Adjutant Allison Coe of the Salvation Army, who was formerly stationed in Honolulu, sent a sample of posters which he issued in Frankfort, Ky., announcing a lecture on "Hawaii, the Beautiful." The poster was a fine advertisement for Hawaii as it was illustrated with numerous cuts of Hawaiian scenes, and replete with descriptive matter concerning the islands.

AMATEURS ATTENTION!

The Promotion Committee is still after amateur photographers who were out with cameras on Washington's birthday and took pictures of the Floral Parade. The Promotion Committee recently offered substantial prizes for pictures of the parade, taken by amateur photographers. The prizes are \$10, \$7.50, \$5 and \$2.50. The photographs for which prizes may be awarded will in time adorn the pages of a booklet to be issued by the committee.

Mr. Gartley was appointed a committee to supervise the selection of stereopticon slides, which from time to time, are issued by the committee.

HAD ITS "PICTURE TOOK."

During the course of the meeting the members of the committee posed for their joint photograph, taken by Mr. Perkins. The members assumed dignified positions and looked well.

A letter from the Merchants' Association indicated that directors of that organization heartily approve of the progress made by the committee.

A Honolulu Case

Many More Like It in Honolulu. The following case is but one of many similar occurring daily in Honolulu. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such a conclusive evidence.

Jürgen Walter of this city tells us as follows: "My age is 79—well past the ordinary span of life—and I am the parent of eight children. Being so far advanced in years, I regard the relief obtained from Doan's Backache Kidney Pills.

I suffered from a lame back for years, but after taking some of the pills (procured at Hollister's drug store) was greatly benefited, and I am satisfied the pills did me much good."

Our kidneys filter our blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorder, eyesight and hearing, diabetes, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 10 cents per box, or will be mailed on receipt of price by the Hollister Drug Co., wholesale agents for the Hawaiian Islands.

Two Rapid Transit cars came into collision at Waikiki early yesterday morning, with the result that both of them had running boards and hand rails smashed. The accident was caused by one car not going far enough on the side track to clear the switch for the car outgoing from town to pass.

THE EWA AND KEALIA FOREST RESERVES APPROVED

Acting Governor Atkinson gave his official sanction yesterday to the setting aside of the Ewa and Kealia forest reserves, the public hearings of those interested having been held in the afternoon at the Bureau of Agriculture and Forestry. The proclamations to this effect will be issued as soon as the papers are prepared.

There were present at the meetings the Governor, W. W. Giffard, G. P. Wilder, C. S. Holloway, L. A. Thurston, W. F. Dillingham, District Forester R. S. Hosmer, superintendent of forestry; J. A. Low, manager of the Honolulu plantation; Geo. Renton, manager of the Ewa plantation; F. S. Hoogs, agent for the Bishop estate; F. E. Harvey, government surveyor, and D. L. Van Dine of the Federal Experiment Station.

The reading of the By Authority notices opened the session, and the scope of the proposed Ewa reserve was outlined by R. S. Hosmer. Arguments for and against were called for by the Governor. A letter from the Dowsett Company was read stating that the company ranged 800 head of stock on their leased land included in the reserve and on that account were opposed to including their land, a proposition being later made that the rights of the cattle men could be secured by the plantations interested and through the removal of the cattle do away with the necessity of fencing. All other expressions of opinion were favorable to the setting aside of the reserve. L. A. Thurston reported favorably for Mr. Dole, one of the persons interested, the representative of the Bishop estate and the plantation managers each speaking strongly in favor of the proposition.

There was no dissension whatever respecting the Kealia reserve, the Governor being assured that the land of the Molokan was not included. Mr. Thurston said that part of the Molokan agreement with the government was the fencing along this reserve and the favorable attitude of Col. Spalding was also reported. The agent of the Bishop estate was called on, who reported that the estate had no holdings in that neighborhood.

"Well, that is worthy of being noted," said the Governor, "for it is an astonishing thing to hear."

The Ewa reserve contains 28,550 acres, extending from the lower edge of the existing forest back to the crest of the Koolau Mountains and including all the district between and the lands of Halawa and Wahiawa.

The Kealia reserve is on the Island of Kauai and takes in 9035 acres of the mooka part of the district of Puna, the lower line being the existing forest edge above the Anahola, Kamatamalo, Kealia and Kapaa lands.

These reserves were as yet only on the map, explained Mr. Hosmer, but he hoped that work on them would soon commence. This idea was supported by Mr. Giffard, who said that the reason some did not want to include their holdings in the reserves was because they thought that they could best look after them themselves. Mr. Hosmer further added that unless something was done in the way of protecting the reserves the creating of them had better be stopped.

"This is the same story we get from every department," said the Governor. "The same cry, we can do more work if we have more money. There are lots of ways of spending money but only one way of raising it. If there are no further objections I hereby declare those portions, etc."

JUDGE HUMPHREYS AND SODA STAND PRESCRIPTIONS

"Every drug store in Honolulu is violating section 1005 of the Revised Laws of Hawaii for 1905 in permitting Chinese boys to serve their soda-water stands from which bromo seltzer is dispensed," said Judge A. S. Humphreys yesterday. "I know this because I have ascertained by personal observation that the Chinese boys, who are not licensed, are dispensing a dangerous drug to the patrons of these stores."

This is one of the laws which was passed by the Legislature at the instance of a well-known druggist, who, it is said, wished to keep a competitor from engaging in similar business on a corner opposite his own.

The law as passed by the Legislature providing only for licensed pharmacists to dispense drugs is as follows:

"Section 1005. License Required. It shall be unlawful for any person not licensed as a pharmacist within the meaning of this chapter to conduct or manage any pharmacy, drug or chemical store, apothecary shop, or other place of business for the retailing, compounding or dispensing of any drugs, chemicals or poisons, or for ANY PERSON NOT LICENSED AS A PHARMACIST OR ASSISTANT PHARMACIST, WITHIN THE MEANING OF THIS CHAPTER TO COMPOUND, DISPENSE OR SELL AT RETAIL ANY DRUG, CHEMICAL OR POISON upon the prescription of a physician, OR OTHERWISE * * * except as an aid to or under the immediate supervision of a person licensed as a pharmacist under this chapter. And it shall be unlawful for any owner or manager of a pharmacy, or drug store, or other place of business, to cause or permit any other than a person licensed as a pharmacist or assistant pharmacist to compound, dispense or sell, at retail, any drug, medicine or poison, etc."

The penalty provided for a violation of this section is a fine, upon conviction, of not more than five hundred dollars, or imprisonment at hard labor for not more than three months. The section requiring the pharmacist to be a graduate of a pharmacy school, is 1103.

Judge Humphreys points to bromo seltzer and bromo caffeine as two of the drugs which druggists permit their Chinese soda-water fountain attendants to dispense to whomsoever calls for them. Both are an acetanilid compound, and acetanilid is a deadly poison.

"On the bottle of each of these nostrums," says Judge Humphreys, "the dose is prescribed, but the Chinese boys at the various soda fountains never take the time or the trouble to measure out the dose indicated. They simply pour out from the bottle into the glass what they guess is 'about right.' To illustrate: I dropped into a drug store the other day and asked the Chinese boy at the fountain for a dose of bromo seltzer. He seized the bottle and poured into a glass what I, by actual measurement, found to contain a little more than four teaspoonfuls—enough to have laid me out in ten minutes. I have had similar experiences at other fountains.

"Collier's Weekly says: The full dose of this preparation (as prescribed on the bottle is a 'heaping teaspoonful.' A heaping teaspoonful of bromo seltzer means about one grain of acetanilid. The United States Pharmacopoeia dose is four grains; five grains have been known to produce fatal results. The prescribed dose of bromo seltzer is dangerous and has been known to produce sudden collapse.

"What right have the druggists to leave the administration of these poisons to the haphazard guesswork of the boy at the fountain?"

Collier's Weekly has been making a strong crusade against certain nostrums under the title of "The Great American Fraud," and acetanilid has been one of the poisons against which it has directed some of its attacks.

While the Board of Health has been directing its efforts to have certain of the drug and druggist laws enforced upon Asiatic dealers, this law with reference to other dealers has been overlooked.

WILL TEST THE LAW

There will be a consultation at the office of Attorney General Peters on Friday afternoon between the Attorney General, Park Commissioner L. A. Thurston and County Attorney Douthitt to arrange for the submission to the Supreme Court upon an agreed statement of facts of the question of whether the county has the right to make appropriations for Kapiolani Park or, if that is not done, then to decide upon what course shall be taken to get the matter into court.

"Mr. Thurston called upon me this morning with reference to the matter," said Attorney General Peters yesterday, "and I told him that I would be glad to place my office at the disposal of the Park Commissioners in the case or the services of myself individually as an attorney without charge. And I am sorry that the question of county aid for the schools is not to be taken up at the same time."

County Attorney Douthitt, as everybody knows, has given the Board of Supervisors an opinion to the effect that the board has no power to appropriate money for the maintenance of Kapiolani Park, notwithstanding the fact that the Legislature as good as handed the park over to Oahu County, so far as its maintenance is concerned. It is a point that has not heretofore been brought out in connection with the Douthitt opinion, but that is worthy of note just the same, that the opinion is given, not at the request of the Board of Supervisors, made officially in a resolution of the body as is the custom with legislative bodies, but at the request of one member of the board, acting as chairman in the absence of that official from the Territory. And this same condition exists with reference to the Douthitt opinion in the school matters. It is all right, of course, a mere informality doubtless overlooked by the County Attorney—but it is somewhat remarkable.

The Board of Supervisors, by the way, did not agree with the Douthitt opinion in the park matter, but the County Auditor felt obliged upon to follow it, or to make a test matter of it, and yesterday held up the warrant for the park appropriation made at the Supervisors' meeting on Tuesday night. The amount called for is \$634.05. The Park Commission, Messrs. S. Cleghorn, L. A. Thurston, W. M. Giffard, E. S. Cunha and James McInerney, will hold a meeting this afternoon at four and take up the consideration of the matter. There was a consultation yesterday also between Supervisors Adams and Lucas, and Park Commissioner Thurston.

OUT OF COURT BY THREE WAYS

Embert M. Brown must realize by now that the temple of justice has just as many exits as entrances. George A. Davis brought a case for him in three different ways and Judge Lindsay threw it out in that number of pieces. The suit wanted to obtain custody of their infant child from his former wife, Christina N. Brown, to whom it was awarded a year ago in a decree of divorce against him.

First he presented a petition for his own appointment as guardian of the child. Next he had a writ of habeas corpus served on the mother requiring her to bring the infant, Cleo N. Brown,

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief, as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as

WAMPOLE'S PREPARATION

is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in Insomnia, Anemia, Weakness and lack of Nervous Tone, Poor Digestion, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dufe, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. "One bottle convinces." At chemists.

Samborn-Bremen Fire Insurance Co

The undersigned having been appointed agents of the above company are prepared to insure risks against fire on Stone and Brick Buildings and Merchandise stored therein on the most favorable terms. For particulars apply at the office of

F. A. SCHAEFER & CO., AGTS.

North German Marine Insur'ee Co. OF BERLIN.

Fortuna General Insurance Co. OF BERLIN.

The above Insurance Companies have established a general agency here, and the undersigned, general agents, are authorized to take risks against the dangers of the sea at the most reasonable rates and on the most favorable terms.

F. A. SCHAEFER & CO., General Agents.

General Insurance Co. for Sea River and Land Transport of Dresden.

Having established an agency at Honolulu and the Hawaiian Islands, the undersigned general agents are authorized to take risks against the dangers of the sea at the most reasonable rates and on the most favorable terms.

F. A. SCHAEFER & CO., Agents for the Hawaiian Islands.

into court. Lastly, he brought a petition to amend the decree of divorce, so as to transfer the custody of the child to himself.

A. G. M. Robertson appeared for Mrs. Brown and there were several hearings of the different matters last week. Rulings adverse to the complainant were followed by amended pleadings. Mother and child, the one cheerful and the other happy in looks, appeared in court.

Yesterday Judge Lindsay in three separate rulings handled the composite case out of court. The motion to quash the writ of habeas corpus was granted. A demurrer to the amended petition for appointment of guardian was sustained. A motion to strike from the files the petition to amend the decree of divorce was granted.

Attorney General Peters has examined a lot of Palio Valley witnesses and made a trip into the valley in connection with the water right controversy. There will be a hearing of the matter before Mrs. Nakuna, commissioner of water rights, on Monday.

Several Japanese fishing craft off Waianae were caught in the heavy surf yesterday forenoon and capsized. The occupants were thrown into the water but most of them managed to swim ashore. Some Japanese went out in sampans yesterday forenoon to aid another sampan which was in distress off the entrance to the channel. They succeeded in bringing the boat inside.
