

Are you easily tired? Is your work a burden? Do you often feel weak and faint? Is your appetite poor? Are you easily discouraged? If so, your nervous system is weakened, your blood is impure, and serious illness is not far away.

AYER'S Sarsaparilla was made for just such cases. When the blood is impure the whole nervous system becomes poisoned. It is impossible to throw off that terrible feeling of depression, and there is no ambition to work. Ayer's Sarsaparilla will purify, vitalize, and enrich your blood, and life will again be worth living.

As now made, Ayer's Sarsaparilla contains no alcohol.

There are many imitation Sarsaparillas. Be sure you get "Ayer's."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

60 YEARS' EXPERIENCE
PATENTS
TRADE MARKS
DESIGNS
COPYRIGHTS & C.
Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. We issue patents in all countries. Oldest agency for securing patents. Patents taken through MUNN & Co. receive special notice, without charge, in the Scientific American.
A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$3 a year; four months, \$1. Sold by all newsdealers.

HONOLULU IRON WORKS CO.—Machinery of every description made to order.

CHOICE SEED COFFEE.

We still have a few pounds left of that Choice Java Seed Coffee, lately imported. Coffee growers desiring to improve their coffees, and thus secure higher prices, will do well to plant this seed.
Price \$1.25 per pound postpaid (about 1200 seeds).
M'CHESNEY COFFEE CO., 16 Merchant street, Honolulu, 8442

ANCIENT LIQUOR CASE UP AGAIN

The old Peninsula liquor case was reopened yesterday morning when License Inspector Fennell placed Manuel de Ponte under arrest on a charge of selling liquor without a license. This is a case which fell through owing to conflicting testimony. Fennell did not lose heart, but started out for fresh evidence, and de Ponte's arrest is the first result of his activity.

The charge is that, during a picnic held some weeks ago by a Portuguese social club at the Peninsula, liquor was sold without any authority from the Territory. The case evidently hinges upon a technicality and when the matter last came up there seemed to be some doubt regarding the selling part. A ticket system was made use of, and Fennell claims to have witnesses who will prove that the tickets were hawked about promiscuously.
Though it was impossible to convict any of those brought up at the time of the first trial, either through faulty drawing of the complaints or from other causes, Judge Andrade made the observation that there had evidently been a violation of the law somewhere.

AFONG HEIRS NOW GET THEIR SHARES

Judge Robinson issued an order yesterday morning for the distribution of the Chun Afong estate. This includes the \$43,619.85 paid into court, and the other securities not enumerated but amounting to a considerably larger sum.
The order of distribution provides that one-third of the estate is to go to the widow, Mrs. Julia Afong, and the remaining two-thirds is to be divided equally among the other fifteen heirs, as follows: Emaline M. McGoon, Tony C. Afong, Nancy L. Ma-Strocker, Mary C. Afong, Julia H. Johnston, Marie K. Humphreys, Alice L. Hutchinson, Bessie H. Burns, Henrietta P. Whiting, Carrie H. Higgs, Helga G. Henshall, Albert T. Afong, Martha P. Dougherty, Matine J. Brewster and A. Henry Afong. The amount each receives is in excess of \$1000 is subject to the deduction of an inheritance tax of five per cent.

GRAND JURY EXPECTED TO INDICT WAIKIKI

The Territorial grand jury held a session yesterday and investigated the case of Waikiki, or Keahana, who is charged with complicity in the murder of Wetherill, the negro sailor who was found some months ago in a lumber yard with his skull crushed in. The grand jury was expected to return an indictment against the man, but adjourned without going before the presiding judge.

Several other cases were investigated, including the burglary of the residence of E. Faxon Bishop, of which crime Tony Belasco is accused. Another matter considered was the attempted carnal abuse of a little girl under ten years of age by Sheedata. Eugenio Dias, who is charged with burglary in the first degree was also under investigation. It is alleged that he robbed a Japanese of \$29.60.
An indictment may also be returned against Alo, a Hawaiian who is charged with having stolen thirty-five bunches of bananas at Wahiawa.
Deputy County Attorney Fred Milverton, assisted by detective Harry Lake, presented the cases to the grand jury.

MARRIED.

DAVIS-GERTZ.—In Honolulu, September 20, 1909, by the Rev. Doremas Scudder of Central Union Church, at the home of Mr. and Mrs. D. L. Withington, Miss Margaret Everett Davis and William Gertz.

BORN.

BERGER.—To the wife of H. J. Berger, Sept. 21, 1909, at Maternity Home, a girl.

MANY SPECIAL CLERKS ARE NEEDED

(Continued From Page One.)

1912. The average tenure of office will probably be about one year, but the general duration will range from six months to two years. Not one of these clerks will be eligible for transfer into the classified service.

The temporary positions with salaries of \$1200 and above, provided for by the thirteenth census law, will be filled for the most part by the transfer of persons already in the permanent census office, it being expected that the latter organization will supply all other classes of clerks except those mentioned below.

The work required of the 3000 temporary employes is, according to the circular, to consist of four classes: The operation of card punching and card tabulating machines; operation of typewriters, adding machines, and combined typewriter-adding machines; manuscript tabulation and other clerical work; sub-clerical work, such as that of messengers, messenger-boys, watchmen, and laborers. No one will be appointed who is unwilling to work at punching cards or tabulating cards; or to be compensated on a piece price basis. The salaries of sub-clerical employes will be at the rates customarily paid in the government service.

Appointments to the permanent census force will be made as heretofore by transfer from other government departments or by certification from the existing register of the Civil Service Commission.

The conditions governing the formal application and the special test examination require that the applicants must be citizens of the United States, between the ages of eighteen and fifty years, except persons entitled to preference under Section 1754 of the Revised Statutes may be examined without regard to age, and except boys over sixteen and under eighteen years of age, who, if passed, will be eligible for appointment as messenger boys only.

Exclusions from examination comprise persons who are habitually addicted to the use of intoxicants or guilty of infamous or notoriously disgraceful conduct, or who are physically or mentally disqualified. Excluded also are persons affected as follows: insanity, tuberculosis, paralysis, epilepsy, blindness; loss of both arms or legs; badly crippled hands, arms, feet or legs; heart disease, locomotor ataxia, cancer, Bright's disease, and diabetes.

Deaf mutes will be admitted to the examination and, if their names are reached on the register, will be offered employment wherever that action is possible.

Other physical defects may debar if the commission so decides. Each applicant must furnish a medical certificate as set forth in the application form, and, if appointed, may be subjected to a physical examination when he reports for duty. Appointments will be made from the eligible list in the order of rating, in accordance with the law of Civil Service appointment. Only one person can be appointed from one family. It is announced that few, if any, of the 60-day emergency appointments will be made, and none will be necessary before April, 1910.

Only one kind of examination will be given for the temporary force, and it will consist of the following subjects and weights:

Spelling (twenty words of average difficulty in common use), 10; arithmetic (consisting of vertical and cross addition, percentages, and a simple exercise in tabulation), 20; letter writing (a letter of not less than 125 words on some subject of general interest, competitors may select either of two subjects given), 20; penmanship, (the handwriting of the competitor in the subject of copying from plain copy will be considered with special reference to the elements of legibility, rapidity, neatness, general appearance, etc.), 15; copying from plain copy (a simple test in copying accurately in the competitor's handwriting a few printed lines, including tabular matter), 15; time (consumed in examination), 20.

The time for this examination is four and a half hours, and in rating it a credit of seventy will be given those who finish inside the time limit. Other minor credits are described in the circular. Upon completing the examination, competitors will be given an optional test in typewriting, consisting of an exercise in tabulation. The intention to submit to the latter examination must be stated in the application, and the applicant must bring his own typewriter to the examination room. Those rated at seventy or more will be made eligible.

As a result of the examination outlined above, five registers of eligibles will be prepared, and on each register the names of the successful competitors will be arranged in the order of rating. The general register will contain those of 18 years of age and over who pass. From this, another will be made up of the names of all who have had previous experience in operating card punching, card tabulating, or card sorting machines in census work. The third register will show those who make an average of seventy in the test in typewriter tabulation. The fourth will contain the names of those male eligibles who are willing to be watchmen, messengers, assistant messengers, and unskilled laborers. The last will contain the names of boys over sixteen and under eighteen years of age eligible as messenger boys. Separate registers for men and women will be maintained. Persons desiring to become enumerators, supervisor's clerks, or interpreters, should apply to the supervisor of the district in which employment is sought. The special agents' examination details will be announced later.

CHRONIC DIARRHOEA.

Many sufferers from chronic diarrhoea have obtained prompt relief by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Some of the worst cases of this disease have been permanently cured by it after other remedies had failed. Agents for the Hawaiian Islands, treatment and skilled physicians had failed. For sale by Brown, Smith & Co. Agents for Hawaii.

MANILA CIGARS AT LOW PRICES

The Philippine tariff bill will bring Manila cigars to the consumer at a rate about equal to what it was in the days of the Monarchy, although it is impossible to get any great amount at the present time.

In arranging the tariff on cigars and tobacco, the framers of the treaty safeguarded the interests of the smokers as well as the manufacturers of American cigars. Manila products of tobacco are not to be allowed absolute freedom of entry; a limit on the number of cigars to be exported has been placed by the commission, and beyond that number none may come duty free. Nor is "any old thing" in the shape of a cigar to pass as the genuine Manila. Every package is to be inspected and each must have the approval stamp of the customs inspector. He is to declare on a printed and stamped blank that the cigars are "Standard" or "Below Standard," for there are but two grades of quality in the Manila cigars coming to the United States under treaty. The certificate must bear witness to the fact that the cigars were made in a sanitary factory, approved by the Board of Health, and by clean labor.

Never from the day when Sir Walter Raleigh blew smoke into his servant's face, has tobacco had such attention by the government, with a view to furnishing the consumer the most healthful smoke it is possible to procure. Having such keen attention from the authorities, the tobacco business, in an export way in Manila, will be limited to those makers whose desire to furnish the best is above that for self. Another, and almost forgotten, condition of export under the treaty, is the one which demands that the best grades of cigars shall be made from leaf grown in Isabela and Casagayan provinces, sections of the archipelago which produce the best grades of tobacco as certain sections of Cuba grow better tobacco than others.

The S. S. Mongolia brought to Honolulu on Saturday a large shipment of cigars from Manila, each package bearing the government stamp as to prescribed conditions. A majority of the cigars are for Fitzpatrick Brothers. In view of the pending tariff changes, Messrs. Fitzpatrick made inquiry of persons passing through as to the most reliable and up-to-date manufacturer in Manila. Honolulu people, including Albert Judd, had no hesitancy in saying that the clubs, both Army and Navy and commercial in Manila, secured their supplies from Walter E. Olsen because he had unusual opportunities for securing the best leaf. His establishment complies with every regulation demanded by the Commission and the Board of Health besides he has inaugurated a few on his own account.

Messrs. Fitzpatrick decided that Mr. Olsen was the man to handle their business in the Philippines, and the result has proven most satisfactory for the packages received are all that the heart of the most particular smoker and the best judge of the good qualities of tobacco could ask. The goods, or most of them, are in the cases at Fitzpatrick Brothers' two stores ready for delivery by the box or the single smoke. They are absolutely fresh.

WORK ON DAM IS NEARLY PAU

The Nuuanu dam is going ahead, regardless of weather, according to Superintendent Marston Campbell. In fact, Mr. Campbell states that the dam is already virtually completed to the 1028-foot level, which was originally intended to be its limit, and most that now remains to be done is to fill in the added ten feet, which, at the present rate of work, will be done by November 15.

The only work that will then remain to be done will be the ripping of the interior of the reservoir wall and the clearing of the basin. As fast as this is completed, the water will be permitted to rise within the basin.
Mr. Campbell says that the work that has been done the past year has been eminently satisfactory. The drought has not affected the work, as the water for sluicing has been used over and over. An average of 20,000 yards of earth has been filled in each month.

Flats at Army Posts.

Modern flats are to be tried at military posts throughout the country. This has been decided upon by the army quartermasters who have charge of the construction of quarters occupied by army officers and their families. This new type of dwelling, they hope, will overcome the many objections which have been made to the large buildings which have hitherto been erected for members of the commissioned personnel. These dwellings have been increased in size until they are now so large in many cases that their maintenance entails great expense and much housekeeping labor. A suggestion was made some time ago that at the large posts there be erected a number of apartment houses. This is considered of doubtful practicability at army posts, where it is not certain that all the apartments will be taken, and where it is also believed some advantage would be taken of the permission to live in separate houses. It has been decided, therefore, to build houses which will accommodate four families each. There will be two flats on a floor. One advantage of this type of officer's quarters is that each flat will be suitable for use by a small family or can be utilized by two bachelor.

PERSONALS.

(From Wednesday's Advertiser.)
Dr. W. H. Schoening left yesterday for the Mauna Kea.
A. H. Hills arrived on the W. G. Hall yesterday from Kauai.
Miss N. E. Hassin arrived yesterday morning on the Mauna Kea.
Mrs. C. Levey arrived yesterday on the W. G. Hall from Kauai.
Father Charles came in from Kona on the Mauna Kea yesterday morning. H. Irwin and wife were departing passengers on the Mauna Kea yesterday.
The Misses von Tempky left for home yesterday noon on the Mauna Kea.
A. J. Williams was a departing passenger on the Mauna Kea yesterday noon.
H. T. Barclay and wife were incoming passengers on the Mauna Kea yesterday.
Mrs. F. J. Hare was an incoming passenger on the Mauna Kea yesterday morning.
Mrs. J. E. Dillon was an arriving passenger on the Mauna Kea yesterday morning.
G. R. Lindsay was an incoming passenger on the Mauna Kea yesterday morning.
B. Williams and wife were among those who arrived yesterday on the Mauna Kea.

Memo.

The Directors of Hawaiian Sugar Co. announce extra dividends on the stock of that corporation as follows: Sept. 30, 3 per cent; Dec. 15, 3 per cent. Regular dividend, 1 1/2 per cent on the 15th of each month.

WAIALUA DROPS BACK A NOTCH

Waialua yesterday slipped back a little from the lofty pedestal upon which it climbed Wednesday, and holders were offering to let go at 119. Two small sales were made at that price, but bidders in general declined to go above 118.75.

There was a little bidding for Hilo railway sixes yesterday, but the offer of par did not tempt the holders, so no transactions were recorded. In fact, holders did not make any selling quotation.

Oahu Sugar was very strong at 32.875 during the earlier part of the session. Once the price was forced up to 33, but only eleven shares brought that price. Two hundred shares sold at 32.875. The closing quotations were 32.875 bid, 33 asked.

There were two deals in Oahu Sugar five. In all, \$2000 worth of these securities changed hands, the price being 101.

Twenty shares of Hawaiian Commercial and Sugar sold during the session at the rate of 34.

Lutine in Tomorrow.

The Lutine will not arrive until tomorrow morning early according to latest wireless despatches received by the local agents, Castle & Cooke. As usually stated she is bringing so much but a full general cargo.
