

That Little Hacking Cough

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a history of weak lungs in the family.

What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral.

GOVERNOR OUT FOR F. M. HATCH

(Continued from Page One.) for Cooper to the highest judicial position in the Territory.

Whatever there may be in the report, certain it is that Judge Cooper accepted the circuit court position under the impression that it was a way toward the position about to be vacated by the chief justice.

Governor for Hatch. Governor Frear lost no time yesterday in suggesting Judge Hatch as the successor to Chief Justice Hartwell.

Republican Committee Acts. A meeting of the Republican central committee was held yesterday morning, those present being Chairman Cooper, who withdrew after the meeting was called to order.

Bar Association Canvass. An active canvass of the bar association members was made yesterday, both Cooperites and Hatch backers being at work.

Meeting of the association has been called as yet, but it is expected that the call will be made at once, possibly today, and the meeting date made an early one.

The retiring chief justice desires to have his successor named and qualified by the end of the month.

Mention of the name of Judge Hatch has started the circulation of a number of stories to the effect that he is personally at odds with the President, having crossed the path of the Chief Executive in his capacity as representative of the planters' association, particularly in regard to lobbying against the admission of Philippine sugar, which the President had set his heart upon.

NEW MAN APPOINTED TO MOUNTED PATROL

At last the vacancy on the mounted police patrol has been filled, and the new man to take office is A. G. Gomez, who some time ago, was on the force in a like position. The billet taken by Gomez is the one that was offered by Joseph Love, and which was not accepted by that individual, on account of his obtaining a plantation job.

The new officer, A. G. Gomez, is a plantation man, and was for some time employed at Paunoi, Maui. He is an expert rider, and has the best of credentials. The man who worked under a former administration with Gomez, was glad to see him back again on the mounted patrol.

BEACHY TAKES BIG MILL TO PHILIPPINES

Locally Built Sugar Mill Starts—Columbian Picking Up a Sugar Cargo.

The British steamship Beachy left last night for Manila with a sugar mill built by the Honolulu Iron Works. The mill is one of the largest ever turned out by the iron works and it will be the first of the modern machinery to be set up in the Philippines to take care of coming crops. The Beachy had a big load of lumber which was taken on at Tacoma, which is intended for the same consignees.

The Columbian of the A. H. line also left yesterday afternoon for island ports to complete her cargo of sugar for Salina Cruz.

The Matson steamship Lurline is scheduled to leave San Francisco for Honolulu tomorrow and will arrive the following Saturday.

The Oceanic liner Sierra is scheduled to leave San Francisco tomorrow, also, and will arrive here Friday, February 10. The Sierra, it is anticipated, will bring a very large crowd, which will include a number of Shriners who were unable to get accommodations on the Wilhelmina.

SUPERINTENDENT OF ROADS KICKS

(Continued from Page One.) impossible for the road committee to have the work carried out with efficiency and if any notice is to be taken of Wilson then the board might just as well not exist.

The committee had looked into the garbage department, and he had also gone into the matter himself, and they had found that the only thing Wilson had done, to make any saving, was to combine the two statutes.

"Wilson," he ended up, "is far too independent for the road committee to make any success of its work."

Wilson's Letter.

The letter, which Wilson sent, read: "Your communication of the 31st ultimo received. In reply thereto I beg to inform you that I was appointed by the mayor and confirmed by the late board of supervisors of the city and county of Honolulu as road supervisor and superintendent of garbage at a salary of \$250 per month upon the express condition that I was to make the garbage department self-supporting and was to be continued at that figure so long as the said garbage department yielded surplus above expenses."

"The garbage department has, during the entire term it has been under my control, yielded a surplus as will fully appear by my report now on file with the board of supervisors."

"I shall therefore expect the said sum of \$250 per month during my term of office. The bond furnished by me and my acceptance of said office was predicated upon the supposition that I was to have an adequate and efficient clerical force to receive and disburse the large sums of money coming into my office and properly keeping the books and accounts of this department. My present clerical force is now reduced to the minimum and as I feel it incumbent upon me that the office work be properly and efficiently performed, I must respectfully decline to dispense with the services of either Mr. Cathcart or Mr. Lawlawe."

More Appointments.

Mayor Fern handed out another bunch of appointments all of them being road superintendents, but the matter of their ratification was left over until the next meeting. He has picked out James Gibb for the Twa district, Frederick Myer for Waianae, H. H. Plemer for Waihua and L. L. McCandless for the Koolau-poko district.

The general business part through was very light and in every case it was only a matter of referring the matter over to a committee.

The Alewa Improvement Club asked that the necessary steps be taken to have their streets and sidewalks properly graded and other things attended to that will go towards improving and beautifying their district. This matter the road committee is to handle.

Its Good Showing.

The fire department sent in a report for the month of December. During that time they were called out six times. The loss to property was \$380, and the risks incurred had been \$111,000.

The board agreed to William A. Kane acting as substitute for A. S. Kaliopu, as the latter wished to have time to prepare for the coming legislature.

Mrs. F. W. Carter, principal of the Central Grammar School, wrote asking that certain matters at the school be attended to. This was referred to the ways and means committee.

Two petitions were handed in and referred over to the road committee to deal with. One was from the landholders, under right of purchase in the Palolo Valley, who asked that the roads be put in such a state that they could take material over them to improve their place. The other was from residents living along Kumu street who asked that the side of the street, which is now in a very bad state, should be attended to.

Routine Business.

The police committee was left to deal with the matter of enlarging the bath at the prison as at present it is far too small.

Another matter which was referred to the same committee was brought up by Judge Lymer as a previous meeting, and had to do with the roof of his court. This is now to have temporary repairs made to it.

Murray announced that he had resigned from the chairmanship of the ways and means committee and proposed Eben Low to fill the vacancy. This was put to the meeting and carried.

The meeting adjourned until Tuesday evening next at seven-thirty o'clock.

WILL TRY TO HOLD THE LURLINE HERE

Scheduled to Sail Before Floral Parade—Only Boat for Twelve Days.

An effort will probably be made to induce the shippers of sugar by the next Lurline, scheduled to sail on February 21, to consent to the postponing of the sailing hour until after the Floral Parade on the twenty-second. It is thought that if the shippers will agree to having the vessel held here, the Matson management will raise no objection.

It happens that, because of the dropping of one trip of the Honolulu and the charter of the Wilhelmina by the Shriners, that the Lurline will be the only passenger boat able to carry passengers to the Coast from the sixteenth to the twenty-seventh of the month. The Japanese liner Chiyo Maru and the British steamer Asia both sail, but the coastwise laws forbid them taking anyone aboard here. As a consequence there will undoubtedly be a big run on the Lurline accommodations, as she is a popular boat in any event.

It is thought that it would be unfortunate if the only boat leaving for twelve days should have to go on the eve of the annual fete and the effort to have her held for twenty-four hours will be made. It is thought that if the shippers of sugar at this end would agree, Captain Matson would be glad to help out. It is known that he has taken a great personal interest in the charter of the Wilhelmina by the Shriners, who are making the trip to the Islands for the Parade, and if the holding back of the Lurline to enable the fifty or sixty people, who are likely to be leaving by her, can be arranged without loss to anyone, it is believed that the Matson Navigation Company, as well as Castle & Cooke will readily agree to the change in schedule.

TO REMEMBER THE GENEROUS GIVERS

Interesting Ceremonies in Connection With Presentation of Castle Memorial.

The exercises of the formal presentation of the Castle memorial will take place at Paunoi hall, Oahu College, next Wednesday afternoon, February 8, at half-past three. This memorial is presented to the college by the trustees in appreciation of the service to the school of Mr. and Mrs. S. N. Castle. Mr. Castle was the college treasurer for forty years and Mrs. Castle, in interest and generous giving, was always one of the school's best friends. The memorial is in the form of a bas-relief, sculptured by Gordon Osborne, and represents Mr. and Mrs. Castle sitting in a garden. As a work of art and as a likeness, it has been much commended. Judge A. S. Hartwell, a long-time friend, will speak reminiscently of his acquaintance with Father and Mother Castle. Judge Dole will present the memorial in the name of the corporation and Leithian Williams, president of the senior class, will accept it for the school. A pretty ceremony of decoration will be performed by the senior class, led by Laura Atherton and Cyril Damon. The college glee clubs will sing. The exercises will interest all the old friends of the family, and friends of the family and of the school of the younger generation as well. Weather permitting, the program will be given out of doors in front of Paunoi hall.

COST OF ROADS TO TAXPAYERS

(Continued from Page One.) saving can be made by the city and county by contracting the major portion of the construction work, leaving the maintenance to be looked after by the forces of the city and county; also the desirability of treating the macadam roads in the outside districts with oil as rapidly as possible. The deterioration of dry macadam under motor traffic can be prevented in no other way.

There is more than one firm of contractors in this city who would be glad to bid on this road-making job, practically guaranteeing to build better roads for approximately half what the taxpayers now disburse, and then make a reasonable profit.

Just at present the taxpayers certainly do not profit.

HAWAII-MANILA MAY JOIN FORCES

(Continued from Page One.) to the San Francisco fair are expected to come over here and look over the "levelled feet of islands that lie anchored in any ocean," as the immortal Mark Twain wrote of the Hawaiian Islands.

Secretary Wood expects to follow up the initiative taken by the committee by getting the chamber of commerce and merchants' association together on the same proposition, putting their shoulders to the wheel and working in the same aggressive way San Francisco did, and he expects to accomplish what he is going after.

RUSSIAN BOY IS KILLED ON FRONT

Explodes Gasoline Tank With a Firecracker—Left Leg Is Torn Off.

Playing with firecrackers given him by a Chinaman to help celebrate Kono, thirteen-year-old Dometki Zazilov yesterday exploded a large tank partially full of gasoline, the end of the drum almost tearing his leg from his body. The tragedy was witnessed by a large number of people, stevedores and workmen on the wharves, and the police ambulance rushed the boy to the Queen's Hospital as fast as possible.

Doctor Cooper amputated the leg and endeavored to save the boy's life, but the hemorrhage and shock were too much for him, and he died a few hours after the accident.

An inquest was held last night, resulting in a verdict of accidental death. Dometki lived with his parents, Russians, in the Iwilei stockade, and was playing with a number of other Russian children along the waterfront. At the foot of the Hackfeld wharf the Hawaiian Fisheries Company has a number of gasoline iron tanks drawn up on the shore, from which the sump engines are provided. A number are empty, and other are filled with distillate.

After throwing around the firecrackers for some time, Dometki threw one under one of these tanks. He was seen to watch it expectantly for some time, and then, as it did not go off, he walked toward it.

Just as he neared it there was a terrific explosion, and the cork shot high in the air. The force of the explosion, while going away from the boy, blew out the end of the drum, which caught him on the left leg just below the hip. When his mangled and bloody body was picked up there was little left of the leg but a split bone and torn muscles.

DISTRICT CAUCUS MAY NOT BE CONVENED

Republican Platform Bills May Await Action of All Legislators.

While there may not be a caucus of members of the house of representatives before the 15th or 16th of this month, yet the Oahu members, numbering six from each of the two districts, may cause in the bills which the legislative committee is preparing to meet the Oahu members of the Oahu caucus could be presented to them, and probably much time saved in going over the bills in a lengthy discussion.

An international convention of inventors will be held at St. Louis the second week in April.

Dated at Lihue, Kauai, January 9th, 1911.

(Seal) (Signed.) JACOB HARDY, Judge of the Circuit Court of the Fifth Circuit.

Attest: (Signed.) PHILIP L. ROSE, Clerk of the Circuit Court of the Fifth Circuit.

3238—Jan. 13, 20, 27, Feb. 3, 1911.

Important bills to come before the legislature and grinding out bills, and a large part of the promises have been checked off, but there still remain a few planks to be covered by bills.

Members of the Oahu delegation for the house state that they do not expect to enter a caucus meeting until all the house members are here from the other islands, and in that caucus all measures will be taken up for consideration, as the measures are of a territorial nature and not specifically to be carried out or acted upon by one or two districts.

On the other hand, A. D. Cooper, chairman of the territorial central committee, states that a caucus of the Oahu delegation would serve to advance the measures, in that the twelve members here could go over them, and the result of their inspection would show whether the bills have been drawn up in a manner which would meet requirements and precedents, and when the remainder of the house delegations arrives from the other islands the results of the Oahu caucus could be presented to them, and probably much time saved in going over the bills in a lengthy discussion.

An international convention of inventors will be held at St. Louis the second week in April.
