

WAIHINES DEMAND THE BALLOT ARGUE FOR ALL "THEIR RIGHTS"

Large Crowd Turns Out to Big Mass Meeting.

Republican Speakers at the Democratic Gathering.

To the National Democratic Convention, Baltimore, Maryland.

We, the undersigned women, citizens of the United States in the Territory of Hawaii, respectfully and earnestly request that a declaration be made in the National Democratic platform favoring statehood for Hawaii and equal suffrage for men and women.

At least, favoring an amendment to the Organic Act of Hawaii by which the question of equal suffrage may be submitted to a vote of the qualified electors of the Territory at the general election to be held in the year 1914.

Forgetting that there was ever such a thing as party lines and quoting everything from Joan of Arc to Link McCandless, not to mention the Bible, women orators at the big massmeeting in Aala Park last night exhorted their sisters and their husbands, to get in and fight for equal suffrage in Hawaii. A thousand heard the impassioned appeals and extensive argument by which the leaders of the Women's Suffrage League hoped to capture the elusive ballot. Most of these women were not loath to declare themselves, as did Mrs. Kikaha, one of the speakers, "true Republicans, inside and out, upside down and rightside up."

Mrs. Kikaha made the telling speech of the evening. Standing before the crowd she moved one arm to an impressive semicircle above her and spake thusly:

"Here I am again. Mine is not a new face. I was here in the campaign of 1900 speaking to you from this platform. I am a Republican, inside and out, rightside up and upside down. Don't be scared of me."

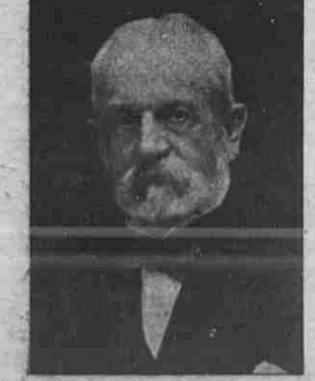

The audience wasn't. It roared its appreciation from the start. "Where," asked the speaker with horrible emphasis, "do we women come in? If it was not for us women, where would all the politicians be? Answer me that."

The audience couldn't. It merely gasped and cheered.

Mrs. Wainani spoke at considerable length and quoted two chapters from the Bible to prove that when God made

Jurist Celebrates for Seventy-Sixth Time

HON. ALFRED S. HARTWELL,
Born in Massachusetts, June 11, 1836.

TODAY'S SPORTS PROGRAM

Morning.
7:45—Start of Marathon race from Haleiwa Hotel, 33.3 miles, to Waikiki Inn, 18 entries.
8:30—Members of Hawaii Chapter No. 1, Order of Kamehameha, assemble at Kapiolani Building for the annual decorating of Kamehameha's statue.
9:15—Junior Bicycle race, Haleiwa to Waikiki Inn.
9:30—A. A. U. meet, Bishop Slip.
9:45—Senior Bicycle race, Haleiwa to Waikiki Inn.
10:00—Kamehameha Aquatic sports, Kalia Harbor.
Noon.
Luncheon, headquarters Kamehameha Aquatic Club, Kalia.
Afternoon.
1:30—P. A. C. vs. Hawaii, Athletic Park.
3:30—J. A. C. vs. Stars, same place.

CLEAN-UP DAY NOW CERTAIN

Acting Governor Declares Holiday—Workers Now Going Ahead Fast on Plans.

His aloha for Clean-up Day yesterday overcame the many obstacles in the way of declaring the twentieth of June a holiday and Acting Governor Mott-Smith affixed his signature to the proclamation to that effect as well within the time that the Clean-up committee had given him. As a result the plans that had been suspended pending his decision were taken up with renewed vigor and at two important meetings yesterday the whole machinery was put into motion again, headquarters will be opened tomorrow and further steps taken to make the Clean-up much more thorough than the last one.

The Governor for two days thought over the ultimatum in which the committee threatened to drop the plans for Clean-up Day if it was not declared a legal holiday. Yesterday morning he telephoned the committee as soon as he reached his office that the desired proclamation would be forthcoming if the supervisors would guarantee to come in.

The committee in turn got busy, rounded up the city fathers, received the required guarantees and within a few hours Chief Clerk Henry O'Sullivan pasted on the great seal of the Territory and pounded the likeness of the coat-of-arms into it. The deed was done.

A meeting for the district captains was called at once and took place in the Governor's office at four o'clock in the afternoon. The executive committee was also present, the meeting being presided over by President von Damm of the latter body. Mr. Mott-Smith did most of the talking as he is practically the executive officer of the day and gave the captains complete instructions as to what they must do and how they must do it.

The day this year is to be conducted on much more scientific lines than last year. There will be no haphazard, hit-and-miss method of getting the rubbish out at anybody's expense as was the case last year, effective though it happened to be.

As previously announced there will be an inspection day a few days before the big clean-up occurs. On this day all the captains and their inspectors will get busy on their routes armed with a special tabulated form designed by the committee and will visit every house and lot in the city. This form will tell, when filled out, everything possible about the sanitary or insanitary condition of all premises. The plumbing, yard, the streets around it, the ground underneath the house, the ventilation, and everything else will be duly tabulated. On the reverse side of the form the inspector will write down everything that he told the occupant was expected of him.

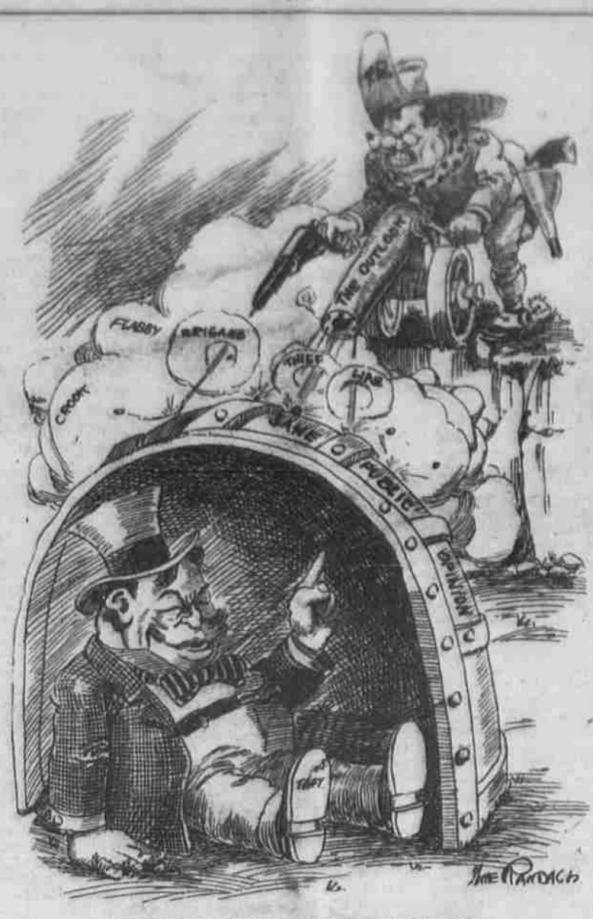

Under the Law.

The inspectors will have full authority and the instructions will be equivalent to orders. It must be remembered that the volunteer inspectors are working this year, as they were not last year, under laws which declare just how premises are to be kept and what the standard of sanitation is. So it is ten to one that if the inspector calls the householders' attention to anything wrong with his place, he is also calling attention to the breach of the law.

On Clean-up Day the same forms will be checked up. The inspector will observe just how much of the work the householder has done and how much more he was supposed to have done, if any.

The following notice, included in the official program of the day, gives a (Continued on Page Eight.)

The Bombproof Holds

PLENTY OF NOISE, BUT NO EXECUTION.

HAWAIIAN DEMOCRATS WILL FIGHT AGAINST ADOPTION OF FREE SUGAR PLANK

A strenuous fight is to be made by the Hawaiian delegation to the Democratic national convention against the adoption in the national platform of any plank favoring free sugar. In order that the delegation may have at least one member who is accustomed to making a fighting speech and who has at his tongue tip all the facts and figures necessary to defend the main industry of the Islands, a proxy has been secured for W. A. Kinney from Ewaliko, which proxy G. J. Waller has securely buttoned up in his breast pocket. It is not known, definitely, that any attempt at a free sugar plank will be made at the convention, but the Hawaiian delegation intends to take no chances.

The delegation which sails on the Sonoma tomorrow consists of John Edinger, M. C. Pacheco, G. J. Waller and Harry Irwin. On the mainland these will be joined by Allan Herbert and Mr. Kinney. It is probable that Mr. Waller, the present national committeeman, will be the chairman of the delegation. Johnny Wilson, who will be the national committeeman for the coming term, will also be in Baltimore to watch the wheels go round and get a line on his future duties. It is understood that Johnny is most ambitious for his term to begin, that he may show the Underwoods and the Bryans and the Champ Clarks just how a Democratic party should be run. Wilson bases his opinions of national affairs upon what he has been told in strictest confidence by Soapbox Barron.

CONVICTS' STRIKE SHUTS JUTE MILL IN CALIFORNIA PRISON

SAN QUENTIN, California, June 11.—The situation at the State prison here is proving of more serious character than at first expected. The guards and authorities are afraid to turn the prisoners loose in the jute mill and as a result that part of the prison plant is closed.

Details of a huge plot to set fire to the mill yesterday came to the ears of Warden Hoyle, who at once took steps to punish the ringleaders. It was learned yesterday that the convicts were pounding upon the doors of the cupboard where the kitchen knives were kept, when the guards turned the steam from the kitchen pipes upon the crowd, and drove it back into the mess-hall.

Warden Hoyle declares that he now has the situation pretty well in hand and does not anticipate any further trouble. He asserts that the cause of the outbreak is the propaganda which had been started and maintained by Fremont Older and others for a new parole law, which shall make it easier for prisoners to secure release upon parole. This agitation, he says, has stirred the prisoners up to demand easy parole laws and other changes in the existing system.

HOUSE TURNS DOWN SENATE AMENDMENT

WASHINGTON, June 10.—The house today voted 144 to 101 against the senate amendment to the metal tariff revision bill, repealing Canadian reci-

procity on metals and fixing a \$2 duty per ton on print paper.

**DOESN'T THINK ROOSEVELT
WILL BOLT IF DEFEATED**

LINCOLN, Nebraska, June 10.—Governor Aldrich declared today that he believes Roosevelt will not bolt.

TAFT WINS INDIANA DELEGATES CALIFORNIANS ARE PUT ON ROLL

FLAMING CROSS MAY MARK CATHEDRAL

When a ship steams up to the port of Honolulu after dark, passengers and crew may see above the city a gleaming cross—not the Southern Cross fixed in the heavens, but a cross outlined in electric lights above the St. Andrew's Cathedral buildings. Bishop Westarick contemplates the recommendation of such a cross, believing that it will be a symbol to those who sail the seas, and that it will have a far-reaching effect.

SURE DRYDOCK WORKERS' RIGHT

Famous English Engineer Visits Pearl Harbor—Says Troubles Will Be Overcome.

"There is no engineering difficulty in the Pearl Harbor naval drydock that cannot be overcome by the engineers. I think the dock occupies a good position from an engineering and marine standpoint and the mode of construction is right."

After going carefully over the entire drydock work at Pearl Harbor yesterday in company with W. F. Dillingham, president of the Hawaiian Dredging Company, T. J. Willis, well-known in the English engineering world, stated that the work was being prosecuted in the right way, the mode of construction was correct, and that the present difficulties encountered by the contractors could be overcome.

Committee Throws Out Affidavits From Teddy's Camp.

Leading Roosevelt Men Deny Report of Bolt.

CHICAGO, June 11.—Most sensational of all the developments in the most heated day of the hearings so far had before the Republican national committee, was the decision on the part of that body yesterday to throw out the affidavits prepared and presented by the Roosevelt followers on the contest over the delegates from the thirteenth district of Indiana. The fight of the day hinged upon that district and Taft won by a vote of 36 to 14.

According to the affidavits filed by the Roosevelt attorneys, and purporting to have been signed by a majority of the delegates to the district convention, the Roosevelt men were the legitimate delegates to the national convention. The committee heard the argument and read the affidavits, and then called for the statements from the other side. The Taft men presented verbal arguments, which carried weight with the committee, for the body gave the delegation to Mr. Taft.

Ten Indiana delegates, Taft men, were passed on, and four delegates at large from California and two each from the third and fourth districts of California. The contest over the second district was postponed until Wednesday after a debate, the vote being 38 to 13.

All of the California delegates were at once placed upon the temporary roll, except those from the second district. Rumors that if defeated, former President Roosevelt intends to bolt the convention and possibly run upon an independent ticket were emphatically denied by leading members of the Rough Rider's faction here last night. They declared that the report was circulated to damage the colonel.

Both Senator Cummins and Senator La Follette opened headquarters here last night and at once began to get down to hard work. Congressman Kenyon of Iowa raised the standard of Senator Cummins for President. He says a thousand boosters for Cummins are coming to the convention. Governor Johnson of California is coming East in response to a hurry-up call of the Roosevelt men.

GENERAL WOOD IS LOSING STEADILY

WASHINGTON, June 10.—After an extraordinarily bitter debate, the senate today voted 27 to 24 in sanction of the conference report on the army bill legislating General Leonard Wood, chief of staff, out of office.

CUBAN REBELS ATTACK U. S. MARINES

RELATIVE POSITION OF GUANTANAMO AND ATLANTIC PORTS.

SANTIAGO, Cuba, June 10.—The Cuban insurgents have attacked the United States marines guarding the mines near here.

There were no casualties among the marines. It is believed that many insurgents were killed in the firing by the Americans that followed the attack.

HAVANA, Cuba, June 10.—The battleship Rhode Island and the cruiser Washington have arrived here in command of Admiral Osterhaus. It is believed that, with the news of the attack on American marines, this means intervention.

NEW YORK, June 11.—The elaborate dinner given the visiting German officers here last night was disturbed and for a time interrupted by the attacks of the striking waiters upon the non-union men who were engaged in serving the banquet.

Riotous scenes followed and the police reserves had to be called out before quiet was restored. Several wagon loads of prisoners were taken to the station.

Many of the most prominent men in the city were present at the banquet table.
