

OROZCO NOW HEADS A REVOLT

Defies Carranza and Declares He Will Enter City of Mexico at Head of Avenging Army, to Execute All Who Had Any Part in the Assassination of President Madero.

CITY OF MEXICO, July 19.—(Associated Press by Federal Wireless)—Sooner than anyone had expected, the inevitable has happened and the peace which the resignation of Huerta and the provisional presidency of Carranza had been expected to bring about is seriously threatened. This time it is General Pascual Orozco who has announced himself the leader of the avengers of the assassinated Madero, who will make no armistice with any successor of Huerta and who will lead his troops against this city for its capture.

Orozco issued his statement yesterday, defying General Carranza to blind him by any terms of peace with the Federals and stating that he proposed to enter Mexico to take a bloody revenge on everyone who had been connected in any way with the murder of his former chief, Francisco Madero.

Carranza Joins Him. When the announcement was made it was closely followed by another to the effect that General Carranza, at the head of four thousand men, had marched to join Orozco.

General Zapata is also active near this city and it is believed that he too will join in the movement against Provisional President Carranza, which would make the first organized revolt against the present administration a very serious one.

Carbajal Anxious. The new administration is anxious, President Carbajal being alarmed at the uncertainty which prevails here and uneasy at the reports being made that the populace might riot in a demonstration against his design to turn the city and the government over to General Carranza. All the government troops in the vicinity of the city have been called in and are being distributed throughout the city at various strategic points. In all, seven thousand men are in the city under arms.

HUERTA STUCK AT SEA COAST

PUERTO MEXICO, July 19.—(Associated Press by Federal Wireless)—President Huerta and General Blanquet are still here and will probably remain ashore for several days, there being no vessel here to take the former dictator and his former secretary of war away. A request has been made to Carbajal to order one of the Federal gunboats to the port to carry Huerta and Blanquet to a point of safety, but the request has been denied.

Carbajal has answered that he will pay the expense of sending some commercial vessel here for the Huerta party.

MINOR HEARS ABOUT ALL IS LOVELY

WASHINGTON, July 19.—(Associated Press by Federal Wireless)—Word has been received here from the south that the armistice arranged between Provisional President Carbajal and General Carranza is in effect generally throughout Mexico. Official reports from the City of Mexico state that Carbajal has ordered his generals to evacuate those cities where the Constitutionalists have agreed to the terms of the armistice and entered into the confederation outlined in the correspondence between himself and General Carranza.

CHOLERA GETTING A HOLD IN RUSSIA

ST. PETERSBURG, July 19.—(Associated Press by Federal Wireless)—Cholera is prevalent throughout the province of Potosi. So far there have been fourteen deaths reported.

NEW ORLEANS, July 19.—(Associated Press by Federal Wireless)—With the discovery yesterday of the sixth case of plague in the city, the women of New Orleans organized themselves into a sanitary corps and have begun a systematic clean-up campaign. Every house and yard in the city is to be gone over, rat-breeding spots are to be cleaned out, and all possible sources of contagion are to be removed. The women have named their inspectors and an executive committee, among the members of which are many of the leading society women of the city.

EIGHT THOUSAND PINEAPPLES WILL ROT

That Quantity of Pineapples Cannot Be Taken by Packers, Says Manager Dole.

Declaring that the pineapple packers of Hawaii are carrying every ounce of load they care carry for the present season, and that even with the exceedingly low price of fruit prevailing they will not know whether or not they are to get out whole before late next fall, James D. Dole, president of the Hawaiian Pineapple Company of Oahu and of the Hainu Company, presented the packers' side of the present situation to a large gathering of homesteaders and other pineapple growers at the Kula schoolhouse, on Thursday night, reports the Maui News.

Mr. Dole stated that at the present time there are at least 6000 to 8000 tons of fruit ripening on Oahu which no packer will accept at any price, for the reason that he dare not spend the additional \$40 to \$50 per ton required to put it into cases. That fruit, he stated, has been offered as low as 85 cents per ton, but that the price has nothing to do with it. Hundreds of thousands of dollars, he said, which has been borrowed to put up the pack, must be repaid whether or not the fruit is marketed or not, else the companies must go to the wall.

To give an idea of the tremendous growth of the pineapple business, Mr. Dole stated that this year's pack of 2,250,000 or more cases equals half as much as that of all the varieties of fruit put in cans in the State of California, this development being reached in but eleven years, against the many years of growth of the Coast canning industry.

Mr. Dole admitted that the cost of growing pineapples in about \$15 per ton, and that the homesteaders with contracts, who get this year \$11.25 per ton, and those without contracts still less, if they sell their fruit at all, have a heavy loss to face. He stated that he had been a homestead himself and that he wished to see the Hainu settlement succeed, and that the Hainu Packing Company will do everything it can to help them make good.

Mr. Dole went at length into the history of the pineapple development in these islands. He claimed that every effort is being made to extend the market, and declared from personal observation, made during his recent trip to the mainland, that Hawaiian pineapples are being sold for less in retail stores all over the United States than almost any other fruit, and that unquestionably this fact, together with the quality of the product, is creating a greater demand than ever before.

Murder and Highway Robbery at Maalea—Try at Murder at Punnece.

During the past week the island of Maui has been disturbed by some serious crimes. They were all of the most heinous nature, and in all of the cases the perpetrators are at large. The most serious crime of the week was the murder of Lee Ton Duck, an aged Chinese peddler. He was found dead in the bushes near the trail to the mainland, that Hawaiian pineapple landing, Wednesday afternoon. His head had been beaten to a pulp with a heavy knife club, and he had been robbed.

The dead man had lived at Kooloa, Kula. He was sixty-seven years of age. At the time of the murder he was returning from a business trip to Lahaina, where he had gone to dispose of a load of produce. He was known to have collected about \$50 or more at Lahaina, and as his empty wallet was found near the scene of the murder, there is no doubt that robbery was the cause of the crime.

A lonely spot on the trail was selected by the murderer, and when the old man drove through, riding upon one of his three pack burros, he was set upon and killed. The ground showed that the murderer had dragged the body some distance into the bushes after the deed, which is supposed to have been committed shortly after the noon hour. The pack animals belonging to the Chinaman proceeded on their way to Kibi. Ah Sin, the storekeeper at that place, became uneasy at the sight of the animals, and rode back along the trail, finding the body. The police are at work on the case.

Shot Sleeping Man.

A deadly assault was committed last Sunday night at Punnece upon a Forta Rican laborer known as Adolfo, when some unknown person fired three shots into him as he lay asleep. The assault took place in the Spanish camp at the Punnece plantation.

The assailant entered the room about midnight and in the darkness fired three shots, all of which struck Adolfo. One inflicted a scalp wound, another grazed his abdomen for about twelve inches, while another passed through his left shoulder. He is in the Punnece hospital and will recover.

There was a woman in the case who is said to have recently left another Porto Rican to live with Adolfo. She was with him at the time of the shooting and some of the shots may have been intended for her. The assailant left in a hurry after the shooting, jumping through the window and carrying the body in his arms, but left his gun behind.

TELLS HILO WHAT HE WILL NOT DO

Governor's Reply to Waterfront Ideas Inclined to Be Negative—Will Not Alienate Land.

(Mail Special to The Advertiser) HILO, July 17.—After hearing a communication from Governor Pinkham last Tuesday, on the subject of waterfront development, the Hilo Board of Trade continued in office the committee which presented the subject to the executive during his recent visit. The committee consists of Doctor Elliot, John Scott and Wm. McKay. At least one member of the committee was already booked to leave for Honolulu in connection with graft commission matters, and will confer with Pinkham about the waterfront. This member is Doctor Elliot.

Some of Governor Pinkham's remarks in his communication were regarded as somewhat pessimistic in tone, and as to the general intentions of the administration, it was decided to seek to obtain a more definite proposition regarding what the executive will do. The Governor was very emphatic about some things he would not do, and one of them is not to allow the permanent alienation of any part of the waterfront owned by the Territory. His letter to the Board is in part as follows:

Rail Delivery. "It would seem to be the privilege and right of the business men of Hilo to indicate their preference as to a warehouse district for your city before the government shall open up the Waialua tract.

"The locations of some private warehouses situated up town have been pointed out.

"It is not improbable that delivery to warehouses from Kuluhi wharf will be made by means of rail communication, as this would save expense in handling.

"As the crossing of Front street is and must be at grade, your organization should try to concentrate so there should be but one or at most two grade crossings reaching uptown warehouses.

"You should very carefully study any district you may select in the Waialua section for warehouse and business sites.

Look Before the Leap. "The locations are practically unobstructive now. This administration prefers a long look ahead should be taken that no changes or regrets may be had in the future and relies on your representative body to carefully and deliberately advise.

"In the matter of a cooling station and coal wharf, I would call your attention to the fact that the total amount of coal now used through the port of Hilo is not less than two thousand (2000) tons per annum, which is all coal handled in Honolulu comes by steamer and averages a trade over five thousand (5000) tons per year, hence one steamer cargo would fill the requirements of Hilo and the coast for over two years.

Time to Figure. "You must estimate for yourselves where the future increase will come from. You would carefully estimate the cost of the plant necessary to rapidly and economically handle the coal stores and deliver. You should also make calculations as to your ability to furnish coal to Pacific commerce at relatively competitive prices. What I have remarked as to coal also applies to oil.

"This administration will not favor the government furnishing these facilities.

"Owing to the character of the business, fuel wharves should be restricted to the fuel business and should be so situated as to be of the least disadvantage to the public as to coal dust, etc.

"The storage should be upon land so situated the coal can be easily transferred. It is quite presumable the loading of steamers would be by barge. Up to Cavallita.

HUSTLED THE WOMEN AWAY

First Thought of Welsh and Pal Was to Get Rid of Companions After Accident—Let Victim Lie While First Machine Summoned Carried Undesirables Away—Third Man in Machine Located.

(From Sunday Advertiser.) The fact that there was a fifth person in the car with William Welsh, which crashed into Police Officer Manuel Morasha on Kalakaua avenue on Thursday morning and sent the policeman to the hospital with probably fatal injuries, and the fact that after the accident the first thought of Welsh and McKeon was to get rid of the women, letting the injured man lie until the women were on their way into town in the first machine telephoned for, were brought out by investigation of the part of The Advertiser yesterday.

The fifth person is George Geramos, an employe of the Union Grill, who had been picked up by the Welsh party on the understanding that they were to take him to his home, but who had been persuaded to take a little ride before turning in. Geramos yesterday freely admitted being with the party at the time of the accident.

White Slave Charge. Yesterday Welsh and his companion on the ill-fated joyride, Charles Reynolds, were arrested on a charge of white slavery, on a warrant sworn out by United States District Attorney McCarr, failure of the city police to take any action at all having induced him to bring the power of the federal statute to bear. The men will appear for a preliminary hearing tomorrow morning at ten o'clock before Commissioner Davis.

The two women in the case, Mabel Guest and Dolly Gordon, were brought into police headquarters yesterday and cross-examined. They are also summoned to appear at the Welsh-Reynolds hearing tomorrow.

Geramos' Story. Geramos explains that the party of four came to the Grill and had a late supper. Being the last patrons of the place for the business day, they were in the machine when he locked the Grill and started for home, inviting him to get in and ride and they would take him home, an offer which he accepted, being tired. Instead of going straight home, however, they persuaded him to go for a preliminary hearing tomorrow morning at ten o'clock before Commissioner Davis.

"The two women in the case, Mabel Guest and Dolly Gordon, were brought into police headquarters yesterday and cross-examined. They are also summoned to appear at the Welsh-Reynolds hearing tomorrow.

'Come Wide Open.' Thomas F. Kennedy, who lives at 1923 Kalakaua avenue, whose phone Reynolds used immediately after the accident, states that Reynolds went to the phone, called a number and said: "Is Jim there?" Then, after a minute's wait, he said: "Jimmy, come; bring your machine out to Kalakaua and John Ema road, and come wide open." That was his only message.

"Jimmy" proved to be James Pierce, in whose machine the women were bundled. They were far away when another machine came to pick up the unconscious form of the victim of either speed or carelessness.

MANY ANGELENOS COMING TO HAWAII LOS ANGELES, July 19.—A party of Angelenos will leave Friday for San Francisco, sailing from that city the following day for Honolulu, Japan, China and the Philippines, returning to this city September 15. They will be under the direction of D. F. Robertson. Among those comprising the party are: Dr. M. E. Spinks, Harlan E. Durant, John W. Spinks, Mr. and Mrs. G. H. Johnson, Mr. M. L. Lewis, Jack Forbes, Dr. and Mrs. Peter Mason, Mr. and Mrs. P. M. Kerr, Mr. and Mrs. O. H. Lanometer, Mr. and Mrs. O. G. Edwards, Miss Lillian Edger, Miss Kathleen Holdridge, W. H. Cole, Waldo F. Chase and Dr. and Mrs. O. L. Norsworthy.

BEAN NAMED AFTER GOETHALS. PANAMA, June 29.—Prof. Henry Pettier of the Panama department of agriculture, has discovered a new species belonging to the natural order of leguminosae, or the bean family, on which he has conferred the name Goethalsia isthmica, to perpetuate the name of the canal builder in botany. Colonel Goethals has had a number of children named after him, but this is his first honor of the botanical order. The leguminosae family, incidentally, knows no limit. Before Professor Pettier's identification of this new member, it already had upwards of 7000 species.

WASHINGTON, July 19.—(Associated Press by Federal Wireless)—The New Haven railroad corporation will be given another opportunity to avoid having to become a defendant in a suit brought against it by the government under the Anti-trust Law. Attorney General McReynolds has agreed to meet the directors of the allied lines in conference tomorrow, when he will outline to them the ideas of the government and give the directors the chance to make new arrangements, whereby competition among the steam and interurban trolley lines of New England may be reestablished.

Link Agumaldo's Name With New Filipino Plot

WHILE THE WAR DEPARTMENT DENIES THAT MAJOR-GENERAL BARRY HAS ASKED FOR MORE TROOPS TO DEAL WITH THE SITUATION, GOVERNOR-GENERAL HARRISON ACCENTUATES THE NEED OF PRUDENCE AND GREAT CALMNESS.

WASHINGTON, July 7.—A wide spread and formidable insurrection against American authority is on the point of breaking out in the Philippines, according to information received today from a high authority. Dissatisfied with the vagueness of Democratic promises of independence and aided by the relaxation of surveillance resulting from President Wilson's policy, the old insurgent leaders, according to this intelligence, have perfected a plot to attack American settlements on a prearranged date in all parts of the islands.

Features of the Plot. The plan is said to involve these principal features: The landing of arms, imported principally from Japan, at points in Luzon remote from the American Army garrisons. The cutting of the cable on the eve of the insurrection. The assassination of Americans in Manila at the hour of the concert on the Luneta at midnight, and of Americans in other parts of the islands at the same hour.

Garrison Informed. This information was submitted to Secretary of War Garrison, to a number of Army officers who have been serving in the Philippines and to members of the senate committee on the Philippines and the house committee on insular affairs. Secretary Garrison and Gen. Frank McIntyre, chief of the bureau of insular affairs in the war department, said their reports from the Philippines contain no inkling of any insurrectionary plot. The war department, however, will take immediate steps to have the report investigated by Governor General Harrison.

Some other Army officers and Republican senators and representatives, who are in close touch with affairs in the Philippines, said they were inclined to place credence in the report. They asserted that the war department knows less about what is going on in the Philippines now than ever before.

The activity of the enemies of American rule has been constantly increasing during the last year, they say, and within the last month the situation has become exceedingly critical. It is reported that Maj. Gen. Thomas H. Barry, who is in command of the Department of the Philippines, has asked for the dispatch of additional troops, supposedly for the purpose of dealing with insurrection, but this is denied by the war department.

Lack of Surveillance. The change in the government of the Philippines effected by the Wilson administration has resulted in abolishing the system of surveillance of the native population. Under previous administrations a large army secret service was maintained, by means of which the American authorities were enabled to watch closely all the movements of the native leaders.

The appointments made by President Wilson have given the Filipinos a majority of the Philippine commission, and the acts of this body and of the Philippine assembly, when in harmony, can be vetoed only by the United States congress. This Filipino control of the commission, it is alleged, has resulted in abolishing all methods of surveillance previously in vogue. For these reasons, it is contended, an insurrectionary plot could ripen without the knowledge of the American authorities.

Agumaldo Involved. The information is to the effect that the insurrectionary plot has been hatched by the leaders of the Katipunan, a secret society, organized in all parts of the islands, and that Agumaldo is deeply involved in the conspiracy. The American government once tried unsuccessfully to suppress the Katipunan, but concluded that more could be accomplished by close surveillance of the leaders. This society, the members of which sign its oath in their own blood, has a deep-seated hold on the native population.

Although Agumaldo is described in the reports to the war department as spending his days quietly cultivating his acres in Cavite province, other reports depict him as receiving mysterious visits from Mascardo, one of the old insurgent generals, and other leaders of the radical party which is demanding immediate independence.

With the Filipinos in control of the local government it would be easy for them to obtain ample funds for the financing of an insurrection, according to one of the officials interviewed today. These funds could be secretly employed for the purchase and importation of arms.

The war department is confident that no arms have been imported so far by any Filipino faction, although it admits it cannot be certain of this fact. There are several points on the east and on the northwest coast of Luzon where it would be possible for large shipments of arms to be landed without the knowledge of the Army officers.

In previous insurrectionary outbreaks of war have been smuggled into Luzon at these remote points, and in one or two instances it was discovered the supplies came from Japanese arms. Some authorities believe Japan would like to stir up trouble for the United States in the Philippines and the Hawaiian Islands, while this country is occupied with the Mexican affair, and then seize the opportunity to press a settlement of the California land dispute. There are thousands of Japanese in the Philippines.

Troops in the Philippines. There are 12,000 regular United States soldiers now in the islands. The Philippine scouts number 5000, and the constabulary 5000. All Army officers agree that the scouts would be loyal to the United States in the event of an uprising, but there is a difference of opinion regarding the constabulary. Also there are the reserves, numbering 30,000, composed of nearly all the American residents and many of the English and Germans in the islands.

Of the regular troops, 4000 are quartered at Fort McKinley, a short distance from Manila, with trolley car connection. These troops could be rushed into Manila within half an hour, sixty miles distant, at Fort Stotsenburg, are 4000 more regulars. The department considers these forces sufficient to put down any uprising in Manila and other parts of Luzon. There are twenty-four field guns in Manila, but the artillery equipment in the islands as a whole is regarded as insufficient. Many Army officers say that at least 30,000 regulars should be maintained in the Philippines, but the insular affairs bureau recently recommended a reduction of the existing force of 12,000.

READY TO ACT WHEN PARLIAMENT MEETS BELFAST, Ireland, July 19.—(Associated Press by Federal Wireless)—Everything is being done in readiness to declare a Provisional Government in Ulster, the claim is again made by Captain James Craig, speaking, he says, for Sir Edward Carson, the leader in the movement, that nothing will be done to alter the status quo until a parliament is set up in Dublin under the terms of the Home Rule Bill. This will be Ulster's signal to revolt, unless the terms of the Amending Act are altered and made much more far reaching than the bill originally introduced into the house of Lords.

BRITISH WAR SHIP WABS YACHT

American Vessel Carrying Arms for Home Rulers Seized Off Donegal—Rifles and Cartridges Had Been Purchased and Shipped from the United States.

DONEGAL, Ireland, July 19.—(Associated Press by Federal Wireless)—Government officials have made another seizure of rifles and ammunition which were to have been landed here for the National Volunteers, yesterday's capture being made on the coast by a British cruiser. The arms and ammunition were aboard an American yacht and the cargo of contraband had been brought across the Pacific from the United States.

The precautions being taken by the government against the importation of arms by either of the contending factions in Ireland have been redoubled since the Ulsterites succeeded a few days ago in landing two hundred thousand rounds of ammunition on the County Down coast, the shipment having been brought in by a collier, which had the cartridges concealed in her cargo bunkers. The ammunition was taken off the collier by a number of Ulster volunteers, masquerading as stevedores.

This cargo was imported from Germany, from whence much of the munitions of the Ulsterites is being brought. The arming of the Nationalist Volunteers is being done principally with supplies from the United States. To prevent each side from further activities, cruiser fleets have been stationed in both the Irish Sea and the Atlantic, off the Irish coast.

READY TO ACT WHEN PARLIAMENT MEETS BELFAST, Ireland, July 19.—(Associated Press by Federal Wireless)—Everything is being done in readiness to declare a Provisional Government in Ulster, the claim is again made by Captain James Craig, speaking, he says, for Sir Edward Carson, the leader in the movement, that nothing will be done to alter the status quo until a parliament is set up in Dublin under the terms of the Home Rule Bill. This will be Ulster's signal to revolt, unless the terms of the Amending Act are altered and made much more far reaching than the bill originally introduced into the house of Lords.

Even should matters reach their worst stage, says Captain Craig, the people of the Empire must remember that the Ulsterites intend only to hold the province for the British Empire.

KING GEORGE NOW TAKING A HAND LONDON, England, July 18.—King George IV is taking an active interest in the dispute between Ulster and the balance of Ireland over the Home Rule measure. The king, also, is interesting himself with the divided members of Parliament in an effort to bring about an amicable settlement of the question which has divided the country for several decades.

It is the belief of many authorities that a settlement is near at hand and that the king will deserve great credit for bringing the question to a satisfactory termination.

KING NOT TO GO AROUND THE WORLD LONDON, June 29.—Col. Sir Frederick Ponsonby, assistant private secretary to the King, authorizes me to contradict a report published in Canadian journals, apparently on New York authority, that the King and Queen intend to visit South Africa and Australia, returning via Canada in the autumn or early winter of next year, Colonel Ponsonby says.

"The question of a royal visit to the dominions has often been discussed by the King, but up to the present no decision has been arrived at."

HILO FEDERAL WORK ALL READY TO START HILO, July 17.—The last obstacle in the way of continuous work on Hilo's federal building has been removed with the completion of the necessary contracts and the arrival in Hawaii of the treasury department inspector who is to supervise the work. He is Herbert Cohen, who arrived in Honolulu by the transport Sheridan and is expected in Hilo next Sunday. It is thought that the job can be finished in a little over a year, giving Hilo a fine federal building a long time before Honolulu gets hers.

MAUI CANNERIES ARE WORKING FULL BLAST The pineapple canneries on Maui are reported to be working at about their full capacity, the crop having ripened early. The homesteaders are suffering hardships through the excessive rains having made the country roads almost impassable. It is hard on men and teams getting the ripe fruit to the factories.

GRAMP COLIC. No one is suffering from cramps in the stomach, or intestinal pains, Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails to relieve the most severe cases. Get it today, there will be no time to send for it after the attack comes on. For sale by all dealers. Danco, Smith & Co., Ltd., agents for Hawaii.

AUTO PASSED OVER BODY OF BABE Chang Wah Iek, a five-year-old Chinese boy, was run over by automobile 1236, driven by a Japanese named Nishimura, at one-thirty o'clock yesterday afternoon. The child is seriously injured, but there is hope for his recovery, according to a statement given out at the Queen's Hospital last night.

According to Motorcycle Officer Perry, who made a thorough examination of the case, the injured child was playing about the Tainho garage, at King street and Desha lane, yesterday afternoon when the car driven by Nishimura was being backed in. One of the employees of the garage warned the child of the approaching car, and it is thought that in his endeavor to get out of the way the child tripped on an empty bucket lying on the floor and fell.

The right hind wheel of the car passed over the child's body. Nishimura immediately took little Chang Wah Iek to the Queen's Hospital, and then drove to the police station and notified Sheriff Rose of the accident. Nishimura and several Japanese witnesses were given a rigid examination at the police station by Sheriff Rose and Officer Perry to determine the facts in the case.

COL. GOETHALS SUGGESTS CANAL OPENING DATE WASHINGTON, July 18.—(Associated Press by Federal Wireless)—Col. George W. Goethals, following the receipt of lengthy reports regarding conditions in the Canal Zone, has suggested tentatively that July 31 be set as the date on which the Panama Canal shall be officially opened.

It is stated, however, at the war department that it is impossible at the present time to fix any definite date for the big event.

Elaborate plans for the opening are under way, and it is believed that July 31 will be too early, for the reason that more time will be necessary to allow for the carrying out of the proposed plans.

MORE JAPANESE ARE CONVICTED OF GRAFT TOKIO, Japan, July 18.—(Associated Press by Federal Wireless)—Four more high government officials, convicted of complicity in the navy frauds in connection with battleship building, were today sentenced to jail for varying terms. The government prosecutors are still following the trail laid bare with the fall of the Yamamoto cabinet.

CONKLING CONFERS WITH HIS OLD FRIEND, SECRETARY OF THE INTERIOR WASHINGTON, July 19.—(Associated Press by Federal Wireless)—D. L. Conkling, treasurer of the Territory of Hawaii, had a conference yesterday with Secretary of the Interior Lane, taking up with him the question of the issuance of a territorial bond issue of a million and a half dollars, seven hundred and fifty thousand dollars worth of which is to be put on the market at once. It is necessary that the issue be approved by Secretary Lane and by President Wilson. Secretary Conkling has not yet seen the President in the matter.

The treasurer had a long conference with Secretary Lane, with whom he is a personal friend. The two became acquainted in California, where also they have many mutual friends.

The secretary took much interest in the financial status of Hawaii, as explained to him by the territorial treasurer.
