

RUSSIANS CLAIM THAT THEY HAVE NOT HAD REVERSES IN THEIR CAMPAIGN

Petrograd Announces That Slavs Are Holding Prussian Ground

PETROGRAD, October 14. — (Associated Press by Federal Wireless)—The general situation along the battlefield, as outlined in an official notice yesterday, is that the Russians are holding their line into East Prussia and have cleared the Province of Suwalkia and Lomza of the Prussians. Here, since the important victory at Augustovo, the Russian advance against the East Prussians has ceased for the time being.

RUSSIANS HAVE GREAT ADVANTAGE

The Russian line to the south is formed from before Warsaw along the Vistula and the San River to Przemysl and south to the Dnieper. This gives the Russians all the advantage of position, while the attack upon Przemysl is proceeding. With the fall of this fortress the southern wing will be advanced against Cracow.

SIEGE OF PRZEMYSL NOT LIFTED

Despite previous reports that the siege of Przemysl had been lifted and the Russians forced back from Lemberg, official announcement was made here last night that the bombardment of the Austrian defenses at Przemysl is still vigorously proceeding and the forts are being rapidly destroyed, despite the vigorous defense maintained.

So far from the garrison being strengthened, the official reports from the front indicate that there are fewer than thirty thousand men maintaining the defense, whose capture is now imminent.

PALLADA STRUCK BACK, SINKING SUBMARINES

It was officially reported last night that the commander of the naval forces in the Baltic announces that two German submarines were sunk during the attack made upon the armored cruiser Pallada, which was torpedoed and sunk, with all her crew on Sunday.

Prince Oleg Dies On Battlefield

PETROGRAD, October 14. — (Associated Press by Federal Wireless)—Prince Oleg, son of the Grand Duke Constantine, died on the battlefield from wounds. This announcement was made here yesterday.

WHAT LONDON HEARS

LONDON, October 14. — (Associated Press by Federal Wireless)—Reports from Petrograd tell of the clearing out of northern Poland of the Germans, but the aggressive campaign of the Russians there seems to be making little progress.

Reports from Russian sources say the Germans are suffering from cold and lack heavy clothing.

The opposing armies in this theater appear to be awaiting the results of fighting in the south.

Germans Claim All of West Poland

BERLIN, October 14. — (Associated Press by Federal Wireless)—Official announcement via Amsterdam says the Germans hold all of Poland west of the Vistula River except Cracow.

Evidence is coming out that the menace of a strong German invasion through southern Poland forced Russia to lift the siege of Przemysl, enabling the Austrians to relieve the beleaguered stronghold.

An earlier unofficial statement says it was reported but unconfirmed that the Austrians had recaptured Lemberg, the Austrian stronghold taken by the Russians several weeks ago.

Warsaw May Fall To Teutons

WASHINGTON, October 14. — (Associated Press by Federal Wireless)—The American consul at Warsaw reports that the occupation of that city by the Germans is momentarily expected.

TITANIC SIEGE GUNS

NEW YORK, October 14. — (Associated Press by Federal Wireless)—Adolph Galk, an engineer in the Edison Laboratories, who arrived here yesterday from Europe, says he is reliably informed that Germany is building siege guns with a caliber of nineteen and one-half inches and twenty-one and forty-five hundredths inches. He says these guns are expected to have ranges of twenty-one and twenty-five miles respectively.

KING ALBERT STAYS

BORDEAUX, October 14. — (Associated Press by Federal Wireless)—It is officially announced that the Belgian government will be transferred to France.

Several Belgian ministers left Ostend this morning for Havre. King Albert remains with the army.

Germans March On Ostend

AMSTERDAM, October 14. — (Associated Press by Federal Wireless)—Reports received here yesterday said the Germans were marching on Ostend. Bicycle scouts were reported in the outskirts of the city. Ghent was occupied Monday by a strong German force.

WASHINGTON, October 14. — (Associated Press by Federal Wireless)—The Bryan peace commission treaties between the United States and China, and between the United States and Russia, were ratified yesterday by the senate.

NO NAVAL BASE AT ANTWERP

BERLIN, October 14. — (Associated Press by Federal Wireless)—Germany will respect the neutrality of Holland and will make no attempt to establish a naval base at Antwerp. This was made plain yesterday when it was officially announced that notification had been sent to The Hague that the status of the River Scheldt would be regarded as heretofore and that Germany would make no attempt to use it for any purpose not sanctioned by existing treaties.

LONDON, October 14. — (Associated Press by Federal Wireless)—A despatch from Cettigne says that the Montenegrin army of invasion has met and routed an Austrian force of sixteen thousand men, supported by six batteries of field artillery, which had taken up a position north-east of Sarajevo.

The battle terminated in a four-hour hand-to-hand melee, in which the bayonet was freely used, at the conclusion of which the Austrians broke and ran.

CARTER REPLIES TO M'GANDLESS

Progressive Candidate For Delegate Denies That He Ever Abused President Wilson

(From Wednesday Advertiser.) "Democrats have lots of excuses to offer about this tariff," said George H. Carter, Progressive candidate for delegate, whom L. L. McGandless, in an interview published in The Advertiser yesterday, blamed for the reduction in the tariff of sugar.

"They have lots of excuses to offer, and they must blame somebody," he continued. "It reminds me of when my father came back from the mainland in 1884, and reported that the treaty could be extended if Pearl Harbor were surrendered. The people got excited, and wanted to withdraw his passport. But he lived through it."

Carter Explains Attitude

"I do not understand the basis of the criticisms made of my efforts in Washington to preserve the sugar tariff. I do not know that I ever spoke in abusive terms of the President. I have looked over the interviews I gave on the mainland after leaving Washington, and I do not find in any of them that I spoke abusively of the President. I did say he had cancelled my interview, but it was only a statement of fact."

"I believe Senator Cole and others have confused my attitude toward the President with my attitude toward the senate committee. For the President we always showed the greatest respect. We all did. As the President of the United States—put in office by the vote of the people—we owed him our respect."

"With the senate committee the situation was different. When one of the members wished to prevent us from appearing before the committee until the tariff measure was passed, it was our duty as citizens and American citizens to criticize him as we did."

Takes Dig at Kulis

"I went to Washington for the chamber of commerce. When I got there the fight was well under way. The plans for it were already laid, and I did what I could to help. Delegate Kulis cancelled my appointment with the President, so he did what he could to hurt me."

"However, it is a late time now to bring all this out again. I wish only to reply to the statement that I antagonized the President. I never met him, nor did I call him abusive names. Must Blame Somebody

"As I said in the beginning, the Democrats have to find someone to blame. We have a reduced tariff on sugar now with the threat over our heads that in 1916 the tariff will be taken off entirely. Certainly, they must blame somebody. And as Democrats are still running for office, they do not wish to blame themselves."

Two English Merchantmen Sunk by Emden—Had Big Burlap Cargoes

By the sinking of the British ships in the Bay of Bengal the burlap supply of the United States has been hard hit. On the Diplomat, which was sunk by the German cruiser Emden, were between 2,000,000 and 3,000,000 yards of burlap consigned to New Orleans.

The Indus, also sunk, has a large consignment for Cuban sugar planters and for the United States. Other steamers which had started are reported back at Calcutta, which they were ordered by the British Admiralty. The United States received only 13,000,000 yards of burlap from the East in August, a fraction only of the demand.

CHAMBERLAIN'S COUGH REMEDY

This remedy has no superior as a cure for colds, croup and whooping cough. It has been a favorite with the mothers of young children for almost forty years. Chamberlain's Cough Remedy can always be depended upon and is pleasant to take.

It not only cures colds and grip, but prevents their resulting in pneumonia. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

HONOLULANS HONOR CAPITALIST'S BRIDE

They Combine To Make Morris Rosenblat 'Solid' With Wife When Matsonia Arrives

(From Wednesday Advertiser.) Morris Rosenblat, accompanied by a charming and radiant bride, stepped off the steamer Matsonia yesterday morning, and was greeted by a large delegation of Wall-street brokers, Shriners and Elks, and few ordinary persons.

As Morris was patted on the back, wrung by the hand and passed from man to man for a greeting such as was due a friend who had gone away to get married, and was acclaimed with joyful shouts from those who couldn't get to him in the crowd, the pretty bride's eyes grew bigger and bigger and her face was wreathed in smiles.

Bride Was 'Long-Lost' Sister

All these strange men who were making such a fuss over her big husband also welcomed the bride like a long-lost sister, and she couldn't help but see that Morris was either the mayor of the town, or somebody equally prominent. At any rate the new Mrs. Rosenblat had no fault to find with her first impression of Honolulu and the folk who live here.

After the greetings were over, the couple were escorted to a waiting automobile which was backed up against the shed, and they climbed in the machine accompanied by a few friends. When the auto started down the street a very gorgeous sign—emblazoned "The Newlyweds"—in large handsome characters, together with a dozen yards of cord dragging the customary collection of old shoes, and the overflow of rice spilled from the machine, duly advised the public as to the nature of the celebration.

Big Times Uptown

When the auto stopped in front of Lavy's store in King street, and Morris started in making his round of calls, the usual breakfast crowd from the Union Grill rushed out to get in on whatever was taking place.

Morris gave them all the glad hand and presented his bride, whose good opinion of her husband kept rising all the remainder of the day. Morris improved the opportunity by remaining downtown most of the afternoon so as to give all his friends an opportunity to see him and help make him "solid" with his charming wife.

SAN DIEGAN WANTS TRIANGULAR SERVICE

Kenneth Croft, here in the interests of the San Diego exposition in celebration of the opening of the Panama Canal, will appear before the chamber of commerce and urge that it cooperate with him in carrying out his plans for a "Hawaii Day" at the fair.

One of the features of this plan is to have a Matson ship sail from here direct to San Diego.

Mr. Croft says that this should not work a hardship on the navigation company as the sugar shipping season is over, and the run from here to San Diego and from San Diego to San Francisco can be made without interfering with the regular San Francisco-Honolulu schedule.

The date of this "Hawaii day" has not been set.

Mr. Croft is here preparing for a Hawaiian exhibit at the fair. This exhibit will be so arranged as to represent a Hawaiian village, showing scenes in the daily life of the Hawaiian as he lived some time ago.

MRS. SMART ON COAST

Mrs. Henry Gaillard Smart of Honolulu has arrived in San Francisco with her health shattered by the experience of fleeing from Europe as a refugee, which cost the life of her infant daughter, according to the San Francisco papers. Upon arrival in San Francisco Mrs. Smart placed his wife in the care of her mother, Mrs. Fred Knight, and the Smarts will remain in the Bay city until Mrs. Smart recovers.

COLLECTOR OF PORT BACK FROM STATES

Says That Treasury Department Will Not Consider Raise In Customs Salaries

(From Wednesday Advertiser.) Bringing the news that the treasury department would not consider any raise in salary at this time for the inspectors of the local customs force, owing to the marked falling off of the revenues of the United States, Collector of the Port Malcolm A. Franklin returned from New York and Washington yesterday on the Matsonia.

On September 14 Collector Franklin attended a convention of customs collectors, who were summoned for much parts of the United States. It is the purpose of these conventions for collectors to get together and discuss measures for the betterment of the service and to submit them to the secretary of the treasury. Among other things Mr. Franklin strongly advocated that employees of the service be paid the same rate of wage as that paid in other parts. This suggestion came at an inopportune time as the department will not listen to anything that sounds like a raise in salary.

Mr. Franklin succeeded, however, in getting the laborers' pay in the custom house raised from forty to seventy dollars a month.

At the conclusion of the convention, which lasted five days, a banquet was held in the Astor House in New York. Among the three speakers chosen to address the gathering, Mr. Franklin had the distinction of dividing honors with Collector Hamilton of Norfolk, Va., and Collector Dudley Field Malone of New York. Collector Franklin devoted the time allotted to him to extolling Hawaii and its people and made a decided hit when he described the beauties of the Paradise of the Pacific.

Mr. Franklin had an interview with Secretary McAdoo regarding the needs of a new custom house and federal building at this port. He secured the entire support of the Mississippi delegation in congress for this measure.

Mr. Franklin stated that he made a strong personal endorsement for the retention of Federal Judge Charles F. Clemens in office here. At one time, he said, Judge A. S. Humphreys could have had the position for the asking. This Judge Humphreys declined, and Mr. Franklin then strongly advocated that the demand for Judge Clemens' resignation be recinded.

Mr. Franklin said that business conditions in the South where he has large financial interests, have been badly crippled owing to the war in Europe. Mr. Franklin was accompanied by his nephew C. S. Franklin, who will enter the law firm of Thompson, Wilder, Lymer and Milverton.

Act Quickly

Delay Has Been Dangerous in Honolulu.

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Backache Kidney Pills are most effective.

Plenty of evidence of their worth. Mrs. B. Halverson, 555 Santa Cruz St., San Pedro, Cal., says: "I was bothered for quite a while by kidney trouble and pains in my back. Doan's Backache Kidney Pills gave me the quickest relief I had ever found from any medicine. We keep Doan's Backache Kidney Pills on hand all the time. If I begin to have pain in my back or my kidneys show signs of being disordered, I at once take them. They soon check the attack. My little son was severely afflicted with kidney trouble. He was swollen from his head to his feet. He had severe pains in his back, and his kidneys were weak and disordered. The doctor said the trouble was bordering on Bright's disease. We began giving him Doan's Backache Kidney Pills and they cured him. That happened when he was six years old, and since he has been cured there has been no sign of trouble. One other in our family has used Doan's Backache Kidney Pills with good benefit."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no substitute.

TEUTONS ATTEMPT TO BREAK THROUGH ENEMY'S LINES BUT MEET DISASTER

Stand Now Is Being Made By Forces of the Kaiser In Valley of Meuse

LONDON, October 14. — (Associated Press by Federal Wireless)—Terrific fighting has been raging in Belgium since Sunday, with the results in favor of the Allies, according to advices from Ostend by the Central News Agency.

An Ostend despatch to the Times reports that General Von Kluk has made a great effort to cut the line of the Allies from France into Belgium and that he has failed.

PIERCED BATTLE ON THE TRIANGLE

A fierce battle still is raging on the triangle between Dunkirk, Dixmuiden, twenty miles east in Belgium, and Ypres, twelve miles south of Dixmuiden.

Von Kluk is trying to fight his way through to the coast and out the Allies' line.

At Throuit, ten miles east of Dixmuiden, and fifteen miles south of Ostend, a heavy engagement has been in progress since Monday.

ALLIES HOLD LINE ALMOST TO ANTWERP

The Allies are holding a line from Throuit, through Ghent to the vicinity of Lokeren, and northeast almost as far as Antwerp to the border of Holland.

The operations around Ghent have been favorable to the Allies. The Germans advanced against the supposed remnant of the retreating Belgians and were caught in ambush, where they met with frightful slaughter, and retreated southeast to Alost.

ARMISTICE TO BURY DEAD REFUSED

The Germans asked for an armistice to bury the dead, which was refused.

A strongly fortified line is being prepared in Belgium by the Germans to check the advance of the Allied armies, should the German right be defeated and Von Kluk forced to retreat.

The German positions in Belgium will be equal to those now held on the Aisne river in France.

In addition to the fortifications being prepared at Antwerp, a line defended by heavy guns, mounted on concrete works, is being extended from east of Louvain, passing north of Vilvorde, on west through Alost. From Alost the line swings south, then back east, south of Brussels.

VALLEY OF MEUSE ALSO FORTIFIED

The valley of the River Meuse is being fortified in a similar manner, the line extending from Liege, through Namur and Mons, to Valenciennes.

Unless this line should be forced beforehand by the Allies, it would protect the retreat of Von Kluk's army in case of defeat.

A despatch to the Daily Mail from Rotterdam reports heavy fighting Sunday along the Dutch frontier, where the Germans were successful. This evidently refers to operations west of Antwerp.

ALLIES PROGRESSING

PARIS, October 14. — (Associated Press by Federal Wireless)—An official announcement yesterday says:

"We have resumed the offensive near Bazerbrouck and Botherne against the enemy's cavalry drawn from the front along Bailleul, Estecas and La Bassée.

"The Germans occupy Lille.

"Between Arras and Albert we have notably progressed.

"On the center and near Verdun we have also advanced.

"Summing up the situation, we have progressed perceptibly at various points."

LONDON, October 14. — (Associated Press by Federal Wireless)—An epidemic of dysentery and pneumonia is threatening the troops of the belligerents in the trenches, and many are stricken, according to statements by Louis Seaman, former major of the medical reserve corps of the United States Army, who has just arrived from the battleground.

WASHINGTON, October 14. — (Associated Press by Federal Wireless)—Yesterday the British consul in Ostend placed his interests in the hands of the American consulate.

LONDON, October 14. — (Associated Press by Federal Wireless)—Advices from Berlin say that De Guise, the Belgian commandant at Antwerp is reported to have been sent to Cologne as a prisoner of war.

PHILIPPINES AVERT PERIL OF FAMINE

MANILA, September 28. — Danger of a coal famine here through the threatened refusal of Great Britain and Japan to permit the import of coal without guarantees against its re-exportation has been averted. Japan has instructed local merchants not to sell coal without exacting a bond for twice its value and also insists upon consular inspection.

The suspicion that German vessels load here to supply warships at sea still exists. Today the steamer Elms horn, carrying 6000 tons of coal, put back from Corregidor Island, having sighted a British cruiser outside.

The meat situation presented a similar problem. Most of the supply comes from Australia, and there were threats that it would be suspended unless guarantees were given. Governor General Harrison has relieved the situation by promising that the government will guarantee that there will be no export of this article of food.

BRITISH WOUNDED IN GERMAN HOSPITALS

LONDON, September 26. — A Mrs. Montfries, who worked with the German Red Cross in a hospital at Potsdam, returned here yesterday. Speaking of the German treatment of British wounded, she says:

"The British wounded all speak gratefully of their treatment on the battlefield and in the hospitals, after being taken prisoner by the Germans. They said nothing about the shooting or wounding of wounded.

"They could not be better treated if they were Germans. The Empress visits them and the German officers' wives send English magazines and books.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. — Made by PARIS MEDICINE CO., Saint Louis U. S. of A.
