ISLAM ENTERS WAR ARENA BY ATTACKING RUSSIA WITH TURCO-GERMAN CRUISER IN BLACK SEA

LONDON, October 30.—(Associated Press by Federal Wireless)—Turkey has openly begun war upon Russia as an ally of Germany, the first shot being fired in the Black Sea yesterday by the Turco-German cruiser Breslau, flying the Turkish flag, which bombarded the Crimean city of Theodosia. ¶ The Russian embassy has been officially informed of Turkey's open war on Russia. ¶ A despatch from the Petrograd correspondent of the Times states that the former German battle cruiser Goeben has also fought a successful action, sinking the Russian Yalta, while the Kazbek, which came to the rescue of the Yalta, was torpedoed and destroyed. ¶ The report of the Goeben's activities came to Petrograd from Kiortch.

SOME HARD FIGHTING HAS TAKEN PLACE IN GERMAN WEST AFRICA

General Botha Routs Commandos Led By Boer Rebel—British Battleship Venerable Sinks Teuton Submarine, While Monitors Shell Kaiser's Troops

LONDON, October 30.—(Associated Press by Federal Wireless)—There has been some sharp fighting in Africa, according to the reports received officially and through the press agencies yesterday.

In West Africa, in the Kamerun Protectorate, where a Franco-British force has been operating, the railroad town of Edea has been occupied. The German garrison made a vigorous resistance.

BEYERS' COMMANDOS ARE ROUTED

A Reuter's despatch from Capetown says that General Botha has reported the complete defeat of the commandos led by Beyers, who holds a general's commission from the Germans and who had armed his men with German rifles. General Beyers reports Botha, has fled to some unknown destination, while his men are scattered.

GERMAN SUBMARINE IS SUNK

Press reports last night state that the German submarine which had attacked the British battleship Venerable, has been sunk by the smaller guns of the Britisher.

MONITORS PLAYED BIG PART

An official report from the admiralty of the recent fighting in Belgium, in which the British fleet took a part, says that the monitors proved to be of great service. These ships, with their big guns, were able to get within a short distance of the shore and throw their shells into the German ranks. As soon as the Germans brought their heavy artillery into position to respond to the fire of the monitors, these would move on out of range. The participation of the fleet was without the cost of a single bluejacket and not a ship was struck.

PARLIAMENT SOON TO MEET

Parliament has been summoned to meet again in extraordinary session on November 11. It is understood that Premier Asquith will move the appropriation of another five hundred million dollars for the expenses of the war.

A despatch to the London Times from Copenhagen says that in response to orders to take Calais at all costs, German troops are rushing into Belgium from all portions of the east and west battle-fronts.

CAPTURE OF CALAIS DEEMED IMPORTANT

It is semi-officially announced in Berlin that the capture of Calais will give Germany control of the southern portion of the North Sea.

The great White Star liner Olympic, bound from New York for Glasgow, was warned of the presence of German mines off Torry Island and put into Lough Swilly. Her passengers were sent to Londonderry by special train.

Seafront Around Ostend Vacated

WASHINGTON, October 30.—(Associated Press by Federal Wireless)—American Consul Johnson at Ostend has notified the state department that all Germans have been ordered by the German military commander to vacate the seafront in and around Ostend.

RUSSIANS STILL ADVANCING

PETROGRAD, October 30.—(Associated Press by Federal Wireless)—The resistance of the enemy north of the Pivicia River has been broken and the Austro-German forces are retreating along their whole front beyond the Vistula, says an official statement.

The Russians now occupy Strykow, Leschow and Nowemiaste on their way towards the Silesian border.

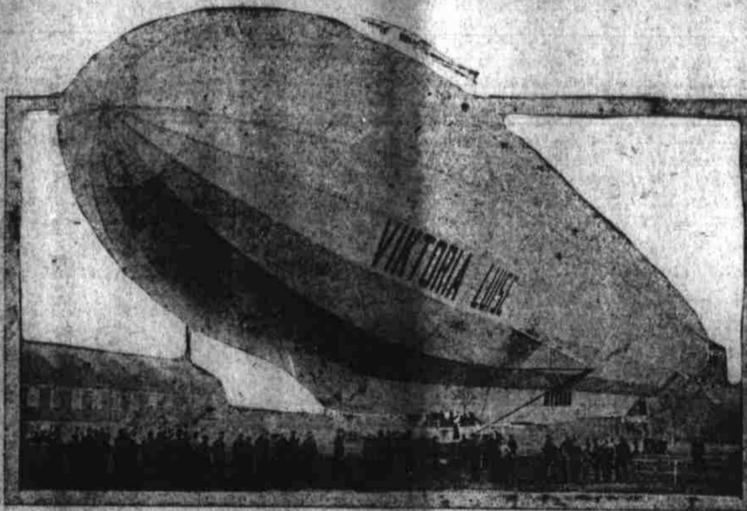

Towards the south, the Russian cavalry has driven the Austrians from Radom.

In Galicia the situation is unchanged, with the Russians on the offensive along the San River.

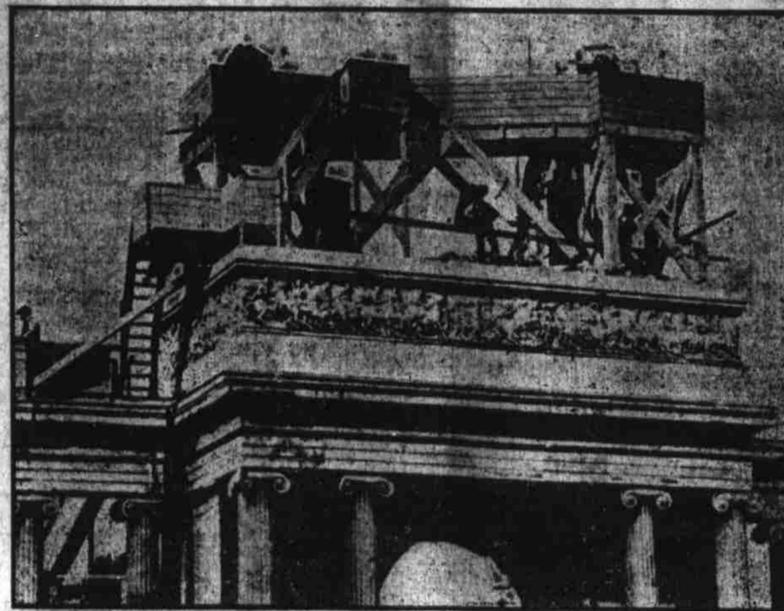

In East Prussia the Germans are continuing their attacks against the Russian lines at Bakalargevo.

SEARCHLIGHT ATOP GATEWAY OF LONDON PARK, SHOWING HOW CITY IS GUARDED FROM AN AERIAL INVASION

FALL OF TSINGTAU SEEMS IMMINENT

TOKIO, October 30.—(Special by Cable to the Hawaii Shinpo)—The news of the fall of Tsingtau may be expected within the next ten days, according to an authorized statement. The Japanese guns have reduced the principal fortifications and the fall of the city is now only a matter of very short time.

The Imperial Household has sent a representative to Tsingtau to inquire into the condition of the wounded and sick there, representatives of the various political parties accompanying this delegate.

FIRST SEA LORD OF BRITAIN RESIGNS

LONDON, October 30.—(Associated Press by Federal Wireless)—Vice Admiral, Prince Louis of Battenberg, first sea lord of the admiralty since 1912 and personal aide de camp to King George, his cousin by marriage, has resigned from the navy. This action is said to be due to a newspaper campaign against him because of his Austrian birth and German connections.

KING GEORGE RECOGNIZES MERIT

King George, immediately upon being informed of the contemplated resignation of Prince Louis, appointed him one of his privy councillors, thus demonstrating his complete faith in the vice admiral.

Winston Churchill, first lord of the admiralty, in accepting the resignation of his chief lieutenant, wrote a letter expressing his deep regret and stating his appreciation of the services rendered to the navy by Prince Louis.

SUCCESSOR IS ADMIRAL FISHER

The London Times states that it is understood that Baron Sir John Fisher, Baron of Kilverstone, admiral of the fleet, will succeed Prince Louis as first sea lord.

Prince Louis was born in Gratz, Austria, his father being Prince Alexander of Hesse. He married his cousin, Princess Victoria, granddaughter of Queen Victoria, having previously become a naturalized British subject. He entered the British navy as a cadet in 1868 and has had a brilliant naval career.

Prince Louis is the father of Prince George of Battenberg, who visited Honolulu as a sub-lieutenant aboard the battle cruiser New Zealand. Prince George is now on active service with the fleet.

TURCO-GERMAN SHIP BOMBARDS THEODOSIA AND QUICKLY RETIRES

Occupation of Southern Albania By Greece Presumed to Have Furnished Sublime Porte With Excuse to Break Into Conflict, Without Any Warning

PARIS, October 30.—(Associated Press by Federal Wireless)—Turkey, without declaration of war or notification, entered into the fighting yesterday, her cruisers appearing off the Black Sea entrance to the Sea of Azov and one Crimean port being bombarded for an hour.

Greece has landed a force of twelve hundred men in Southern Albania, announcing that this force had invaded the new principality for police duty only, but this action has startled the Near East and presumably has furnished Turkey with a casus belli.

TURKEY IS AUSTRO-GERMAN ALLY

The first intimation of the decision of the Turkish government to engage actively as an ally of Germany and Austria came in the appearance yesterday of the Turkish protected cruiser Hamidieh, formerly the Abdul Hamid, off the Caucasian port of Novorossusk, on the eastern side of the Kertch Strait, leading to the Sea of Azov, with a demand for the surrender of the town.

The commander of the Hamidieh threatened a bombardment unless the government property in the shape of cash be handed over to him and the city be surrendered.

The reply of the Russians was to place the Turkish consul under arrest, with the members of his consular staff.

The cruiser withdrew without carrying out its threat of firing upon the city.

TURCO-GERMAN CRUISER BOMBARDS

Simultaneously, a Turkish cruiser arrived at Theodosia (Kaf-fa), a Crimean port on the western side of the entrance to the Sea of Azov, and demanded the surrender of the city.

This being refused, the guns of the cruiser were trained upon the principal buildings of the place and a bombardment was maintained for an hour.

The railroad station, the city hall, the cathedral and the Greek church building and the piers were damaged by the shells, but there was no loss of life, one Russian soldier only being wounded.

After the bombardment the cruiser withdrew.

GERMANY CLAIMS BIG GAINS

BERLIN, October 30.—(Associated Press by Federal Wireless)—An official report of the operations in France and Belgium says that the German attacks south of Nieuport, in West Flanders, are proceeding slowly, with the Germans gradually gaining ground.

West of Lille, in Northern France, several fortified positions have been captured from the British, with sixteen British officers, three hundred men and four cannons taken.

The French counter attacks have been everywhere repulsed. Southwest of Verdun, says the statement, the French have been driven back, the German troops succeeding in piercing the French lines to their main positions, which have been occupied.

Paris Version of Campaign

Paris, October 30.—(Associated Press by Federal Wireless)—An official bulletin from the war ministry reports steady progress on the part of the French in Upper Alsace, despite the recent snowstorm, which has covered the country, making operations difficult.

The statement continues:

"We progressed yesterday around Ypres and south of Arras. There is nothing new between Nieuport and Dixmude.

"Between the River Aisne and the forests of Argonne we have captured several trenches and repulsed all attacks.

"In front of Apremont, near St. Mihiel, we have also advanced."

It is believed that the cessation of German attacks in Flanders is merely temporary, and that the Germans will strike again when the reinforcements arrive. It is expected that the next assaults will probably be made farther inland, where the British warships cannot reach the German forces with their bombardment.

A Havas News Agency despatch from Barcelona says that the British flotilla of torpedo-boat destroyers in the Adriatic has sunk a German steamer which was converted into a cruiser.
