

HOODLUM YOUTH GIVE MAXIMUM TERM IN PRISON

Judge Ashford Sends George Kealoha To Prison For Assault On Soldier

Warns Rowdy Gangs To Keep Out Of Court

'Uniform Should Have Brought You To His Assistance' Said His Honor

'Neither you nor your companions had any possible grievance against the man whom you assaulted,' Judge Ashford told George Kealoha...

George Kealoha, charged with assault and battery on Patrick McDonagh, an enlisted man at Fort Snafter, was roundly lectured by Judge Ashford after a jury found the man guilty.

Judge Ashford's lecture to Kealoha was intended to carry even beyond this particular case. The court made its position well known and defined.

'I consider this a cowardly and dastardly act on behalf of a crowd of hoodlums,' Judge Ashford told Kealoha.

'These soldiers are among us rightfully; they are wearing the uniform of our country, and they are here to protect us and the country's flag, and they must be respectfully treated.'

'It would have been a shame for any one of you to attack McDonagh, who is not a dusky man; every one of you is a far wicker man than he, and for him to be attacked by a gang of hoodlums shows the same to have been one of the most cowardly and brutal assaults of the kind that has ever come to my notice.'

'No Mercy For Hoodlum Gang' Judge Ashford said that the hoodlums in this case were who seek to interfere with the right of the United States soldiers to enjoy their liberty in a rational and reasonable way, all that I can say is that this court will do its utmost to break them up whenever they are brought before this court.'

Verdict In Three Minutes Judge Ashford for the government are Patrick McDonagh, A. McDuffie, and William Makikoa and those for the defense were George Kealoha, Ben Kukanui and James Kalaikini.

GOOD JURY TOLD BY JUDGE ASHFORD TO FILE REPORT

Jurist Would Have Inquirers Find Truth About Alleged Conspiracy Case

FOREMAN GILMAN SAYS MAIN WITNESS GONE

Inquirers Return Many Indictments Against Alleged Burglars and Others

A gentle reprimand was handed out to the members of the territorial grand jury yesterday after Foreman Joseph A. Gilman had filed a number of indictments with the court, these indictments being the result of the jury's labors at yesterday's session.

Rivenburgh has been superintendent for only eight or nine months, but in that time the improvements at Kapiolani Park have been many. To put it in brief, the park would go back to its former wretched condition, and the good done by Rivenburgh lost.

Strong support is centering behind Rivenburgh to continue him in office, on the ground that he has done splendid work there and is an exceptionally efficient for the place.

Within ten days three applications from municipal engineers of the mainland will be received here by the city clerk for the newly-elected supervisors and positions in connection with the city planning movement, and come from engineers who have had a great deal of experience and won a wide reputation in work of this kind.

Word has gone out to the mainland that Honolulu is about to be made over—re-planned—and these applications are the response. A cablegram was received in Honolulu yesterday by a private firm stating that the applications were on route. One comes from a Buffalo engineering firm, another from a Boston.

The influence of several civic organizations has been in favor of importing such an engineer, and they will doubtless watch with interest to see in what manner the supervisors will treat the applications when they become formally organized.

While several of them have expressed themselves in favor of the city planning scheme, there seems to be very strong opposition to bringing a man here for that purpose. The statement made by several of the supervisors is that Honolulu has engineers now who are well fitted to do the work, and can do it better than an outsider, being familiar with local conditions.

In connection with the city planning suggestions are made that something be done toward a realization of a 'city beautiful,' irrespective of whether the former plan is carried out. The city planning project is more far-reaching and its possible benefits probably more tangible, in a commercial sense, than the latter scheme when the two are considered separately.

There is strong feeling in favor of doing what is possible now in improving the parks, especially Kapiolani Park, that it may be converted into a real attraction, and in numerous other ways making the city more beautiful. This, say many, would not cost an impossible amount, and would be a great benefit to Honolulu.

It is expected that the annual teachers' convention will be held in January at Kapaun, and it is planned to assign an allotted time to each school, in which it will present its best ideas. To this end each school will make out a tentative program that will total up, say, four minutes to the teacher. It is not expected that every teacher will take part; the teachers chosen and the length of time of each exercise being a matter for principals to arrange.

The program should be ready and handed in by the first of December. It should specify the grade, nature of the exercise, give an idea of the method, the time it will take and the name of the teacher presenting it. The committees will then select from these programs a convention program, so as to have as little duplication as possible.

At a meeting of Aloha Temple, Mystic Shrine, in Masonic hall last night, sixteen novitiates were elected to membership and will be initiated at the ceremonial session of the order, which will be held on Saturday at the armory. Following are the novitiates who will take their final degrees: Charles R. Forbes, E. S. Barry, Frank T. Schmidt, James Davidson, George Chalmers Jr., Joseph Abble, S. T. Carr, Ed Tawre, A. Cooper, Charles McWayne, Charles McNally, Peter T. Phillips, Dr. Charles McLean, Charles Smythe and Joseph French Jr.

Berkeley November 19.—(Associated Press by Federal Wireless)—President Benjamin Ide Wheeler of the University of California has prohibited the use of the Greek theater for a benefit entertainment for the Belgian relief fund. His objection is based upon the ground that the structure cannot be used for a money raising scheme. Regent Grotzer cites a precedent in a similar case, when a benefit entertainment was given to raise funds for the relief of the Valparaiso earthquake sufferers.

MAYOR-ELECT LANE DROPS WISE'S NAME

Latter Prefers Superintendency of Park To Job As Secretary To Next Executive

John Wise's name may be dropped as a candidate for secretary to the mayor, for he is no longer after that job, and Mayor-elect John C. Lane has been notified. Wise confirmed the report published yesterday morning in The Advertiser that he had withdrawn as a candidate for the position, and was after the superintendency of Kapiolani Park.

This is the latest news received at political camp during the day, and it clears up one bad situation, though it may open up another. Wise makes 'no bones' of the fact that he wants the superintendency of the park, a place now held by R. G. Rivenburgh. Carl Widemann, mayor-elect job, too.

Strong support is centering behind Rivenburgh to continue him in office, on the ground that he has done splendid work there and is an exceptionally efficient for the place.

OCEAN SERVICE FROM NEW YORK CUT TO 28 DAYS

Arrival of Steamer Mexican Will Inaugurate New American-Hawaiian Schedule

GOODS BY THIS LINE GET ALL-WATER RATES

Will Arrive Here Five Days Earlier Than Via Rail To San Francisco

C. P. Morse, general freight agent at this port, made the important announcement yesterday that the American-Hawaiian Steamship Company would maintain, beginning with November 28, a ten-day service between New York and Honolulu.

'This service means much to the merchants of this city,' said Mr. Morse yesterday. 'Under the new schedule vessels leaving New York for Honolulu will arrive here in twenty-eight days, which is five days faster than if the same freight was sent overland to San Francisco and transhipped to a steamer here.'

'In addition to this the cost of freight by water is materially cheaper than by rail and there is no double handling, which insures merchandise arriving here in first-class condition.'

'There will be but one stop after the steamer leaves New York and passes through the canal. That will be at San Pedro, the seaport of Los Angeles. The steamer will proceed direct from there to Honolulu and will not touch at San Francisco.'

'The Mexican is on the way here now and is due to arrive on November 28. She has aboard New York west-bound 16,000 tons of goods and is due here on or about December 7.'

'The Washington will be the Christmas ship, as she is scheduled to arrive here on December 18.'

'When notified of this new schedule a number of Honolulu merchants tabled such orders to the East for consignments of freight to be shipped on these steamers, and I have every reason to believe that the incoming cargoes of these vessels will be large ones. The service will be continued until all of the 1915 sugar crop is shipped.'

The American-Hawaiian Steamship Company maintains a fleet of twenty-eight splendid steel cargo carriers, which have been built in recent years. The aggregate gross tonnage of this line is 300,000. The ships are constructed for the purpose of handling cargo with dispatch, and their hoisting gear is of the latest modern construction. The company will maintain a separate system between New York, San Francisco, Portland and Puget Sound ports.

Arguing that his clients had once before been tried and acquitted on the same charge, Attorney W. T. Rawlins yesterday asked Judge Dole to dismiss the case of the United States against Kichi Sakuma and Kin Sato, who are now on trial before a jury in the federal court.

The defense contends that the charge on which the Japanese man and woman are being tried is the same as the one on which they were once before acquitted, the only difference in the present from the former charge being that another date is mentioned.

The present case has been on trial since Tuesday. Judge Dole yesterday ordered the trial to be continued until Monday morning at half-past eight o'clock, in order that counsel might be given the opportunity of preparing authorities on the questions involved, which were brought out through Rawlins' motion. The jurors not on the panel hearing this case were excused until Monday morning at ten o'clock. Those hearing the case are: William Higgins, Samuel J. Lyle, W. G. Scott, George K. Ewald, Bernard Beaudreau, William J. Stone, Henry Gumpfer, Samuel S. Peck, Henry E. Abbey, John M. Ain, Richard C. Searle and John M. McCabe.

Hawaiian Gazette, Semi-Weekly. Editor, E. O. Matheson. Business Manager, C. S. Crane. Publishers: The Hawaiian Gazette Co., Ltd. Owners—Stockholders holding 1 per cent or more of total amount of stock: L. A. Thurston, Honolulu. C. S. Crane, Honolulu. Mrs. A. W. Pearson, Honolulu. Edwin Dekum, Honolulu. Bondholders: Mortgages and other security holders: None. CHARLES S. CRANE, Manager.

Sworn and subscribed to before me this 6th day of November, A. D. 1914. HYLIA B. COONLEY, Notary Public for the First Circuit, Territory of Hawaii. My commission expires June 30, 1915.

DISTRICT COURT ADMITS H. H. HOLT TO PRACTICE

Harry H. Holt—Lawyer.

Judge Ashford admitted Harry H. Holt yesterday to the growing list of attorneys allowed to practise law before all the district courts of the Territory. Shortly after being admitted to the district court bar, Holt took his oath of office, which was filed with Henry Smith, chief clerk of the first circuit court.

Emil C. Peters and George A. Davis, lawyers, signed Holt's petition for admission and vouched for the applicant's good character, morals and reputation. They also said that they believed Holt was well grounded in law.

In his petition, Attorney Holt said that he had studied law with George A. Davis, a member of the supreme court bar, for three years.

Mr. Holt was chief office deputy in the office of the United States marshal here for many years. On the death of the late Marshal Eugene B. Hendry, Mr. Holt was appointed marshal by Judge Dole and Clemens and acted in that capacity until President Wilson appointed Jerome J. Smiddy. When Mr. Smiddy took office as marshal Mr. Holt severed his connection with the department.

Ten thousand dollars' worth of opium went up in smoke yesterday afternoon at the Honolulu Planning Mill, when several hundred tons of the juice of the poppy were destroyed by order of Collector of the Port Malcolm A. Franklin.

Material for thousands of weird and fantastic dreams curled in smoke above the tall stack of the mill while customs officers stood by, seeing to it that each and every tin found its last resting place in the fiery furnace.

The opium destroyed was the product of a number of seizures made by Inspector-in-chief Roger J. Taylor and his men.

KAPIOLANI HOME WILL OPEN ANNEX

The public is invited by the trustees of the Kapiolani Maternity Home to visit that institution next Wednesday afternoon, when the new annex is to be formally opened.

The work of this institution has been growing so steadily that for some time the accommodations have not equalled the calls made upon the home and by a fortunate combination of circumstances the trustees have been able to acquire a favorable lease of the Drier, premises adjoining. The house has been refitted for hospital use and one very important addition, a clinic, has been prepared.

The home, as it stands, is now practically self-supporting, but even with the new annex the accommodations are not sufficient for all the work which the trustees hope to be able to accomplish. The new addition is a splendid advance, however, to see which the public is invited.

SIXTEEN NOVITIATES JOIN MYSTIC SHRINE

At a meeting of Aloha Temple, Mystic Shrine, in Masonic hall last night, sixteen novitiates were elected to membership and will be initiated at the ceremonial session of the order, which will be held on Saturday at the armory. Following are the novitiates who will take their final degrees: Charles R. Forbes, E. S. Barry, Frank T. Schmidt, James Davidson, George Chalmers Jr., Joseph Abble, S. T. Carr, Ed Tawre, A. Cooper, Charles McWayne, Charles McNally, Peter T. Phillips, Dr. Charles McLean, Charles Smythe and Joseph French Jr.
