BERLIN, June 26.—The question of peace was debated yesterday in the Prussian diet, with Doctor Libknecht, the Socialist leader, taking an active part in the discussion and declaring that he spoke for the masses of the Prussian people, who desire an early termination of the war.

Herr Braun, a Socialist member, declared that "the people must stand together against the common enemy."

Victory Should Be Complete

Doctor Delbrueck, minister of the interior, summed up the situation by stating that peace should only be sought when German arms have secured such victory that there need never be another such war.

"One thought must prevail," he said, "and it is that the war shall be terminated in such a way as to make a repetition of it impossible."

Doctor Libknecht announced that he was for peace and that the Socialists of Germany were for peace.

"The masses are with us," he declared, "in our desire to see the war brought to an end."

DON'T NEGLECT YOUR FAMILY

When you fail to provide your family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at this season of the year, you are neglecting them, as bowel complaint is sure to be prevalent, and it is too dangerous a malady to be trifled with. This is especially true if there are children in the family. A dose or two of this remedy will place the trouble within control and perhaps save a life, or at least a doctor's bill. LOCAL BEQUESTS IN C. R. BISHOP'S WILL

(Associated Press by Federal Wireless.)

Honolulu Associated Charities \$1,000; Leahi Home, Honolulu, 5,000; Kamehameha Alumnae Association, 2,000; Trustees of Punahou Academy, 10,000; With proceeds from twenty-five West Sacramento Company bonds, to improve Bishop Hall of Science at the college; Mrs. Helen K. Kinney, 2,000; E. Faxon Bishop, 15,000.

(From Saturday Advertiser.)

Details of the provisions contained in the will of the late Charles R. Bishop, whose ashes were placed in the Royal Mausoleum in Nuuanu Valley on Wednesday, were received from San Francisco in the Shinyo Maru mail yesterday morning. According to the inventory received, special bequests totaling \$33,000, were left local people and educational and charitable institutions, as shown above. The proceeds of twenty-five West Sacramento Company bonds will go, in addition to a special bequest of \$10,000, to improve the Bishop Hall of Science at Punahou Academy.

Honolulu Relative Gets Big Slice E. Faxon Bishop of Honolulu, president of Brewer & Co., a pioneer business house of this city, and treasurer of the Hawaiian-Ferdinand Academy, and a cousin of the late Mr. Bishop, was left a one-sixth interest in three-fifths of the estate. As a whole the estate is estimated at ten million dollars, this one-sixth of three-fifths is worth \$1,000,000.

The \$500,000 bequest to the Leahi Home is a particularly timely one and will be of great benefit to that institution. The Associated Charities of Honolulu will get \$100,000, while the organization of former students of the Kamehameha school for girls comes in for \$200,000.

Mr. Bishop's will, it is also made a further beneficiary of his philanthropy to a goodly extent. Remembered Child Protege Mrs. Helen K. Kinney, who was left a bequest of \$2000, is the wife of Henry Wainwright Kinney, territorial superintendent of schools. Mrs. Kinney and the Kinney children have been in Hawaii for the past few months, but will return to Honolulu on Tuesday morning's steamer from the Big Island. Mrs. Kinney, who is a child, was brought up by Mr. Bishop and his wife, the Princess Bernice Pauahi Paki. Mrs. Kinney's grandmother, Kahakuaiki, was Mrs. Bishop's first cousin. Mr. Kinney was informed last night by The Advertiser of the mention made of his wife in Mr. Bishop's will. It was the first information he had on the subject.

The following facts giving the disposition of Mr. Bishop's estate were received by the Shinyo Maru mail yesterday morning: Ten Million Dollar Estate George L. Bishop and Mrs. Emma Bernice Dunham of Oakland are heirs to millions, according to the will of the late Charles R. Bishop, Hawaiian millionaire, filed in the probate division of the superior court of Alameda county, California, on June 18 by Irving L. Moulton, George L. Bishop, B. Dunham and Leland Dunham, who ask for letters of administration, as provided for in the will.

The Bishop estate is valued at between \$9,000,000 and \$10,000,000, and the Oakland heirs, his nephew, and niece respectively, receive one-fifth of the estate apiece, or a total of about \$4,000,000 between them. Bishop lives at 1551 Harrison street, and Mrs. Dunham at 248 Grand avenue, Oakland.

Charles Reed Bishop died at the Shattuck Hotel, Berkeley, at the age of 94, on June 7. He had had an adventurous life, and amassed his great fortune in Hawaii. His wife was Princess Bernice Pauahi Paki, who once rejected the Hawaiian throne. She died on October 16, 1884, in Honolulu, and in his will Bishop asks that his body be cremated and his ashes mingled with hers in Hawaii.

Bequests To Friends There are twenty-two bequests in the will to friends and minor relatives, whose totals equal \$150,000, and there is \$19,400 bequeathed to charities. Then Charles Bishop and Mrs. Dunham get their one-fifth piece after these are deducted after which the remainder is divided equally among Edgar Bishop of Oakland, a cousin; Corey Brayton of Berkeley, a cousin; E. M. Coffey, a grand niece; Charles B. and Leland Dunham, grandnephews, and E. Faxon Bishop of Honolulu, a cousin. There also get smaller specific bequests. Although Bishop had no direct heirs,

RUSSIANS KEPT THEIR RETREAT FROM GALICIA WELL COVERED

Withdrawal of Muscovite Forces Has Been Another Stubborn, Dogged Incident of Military History of Slavonic Empire

(Associated Press by Federal Wireless.)

LONDON, June 26.—Despatches to the morning papers from their correspondents at Petrograd, giving fuller details of the Russian withdrawal from Galicia, shows that it has been another of those stubborn, dogged retreats, with which for more than a hundred years history has associated the name of the Russian soldier.

During the last six weeks, or since the time when the flow of ammunition to the front was interrupted and it became necessary to retire, the Russians have taken 120,000 prisoners, three hundred machine guns and sixty cannon. Fighting Quality Strong

At no time has the army been thrown into confusion or lost its fighting quality. Assertions from Vienna that the Russian front has been broken south of Lemberg, and the left wing put in serious peril of being cut off, are denied. The general staff says that both flanks are holding firm, but it is conceded that they will evacuate still other positions, if it seems necessary for them to do so in order to rectify the alignment.

Yesterday the hottest engagement on the eastern front was in progress between Hainc and Zurawa, with both sides claiming progress. Vienna asserted that the Russian counter-attacks on the north bank of the Dniester had been repulsed, and the occupation of Chodorow was recorded.

German Massing Again North of Lemberg, German troops are again massing for another attack against Russian Poland and, in preparation to meet it, more and more troops are being withdrawn by the Russian commanders from Galicia.

It is admitted by British strategists that the Russian reverses in the East have eliminated the possibility this summer of any further decisive actions in that theater of the war. Germany may make another drive against Warsaw and might even win the city without greatly altering the situation. No invasion of Russian territory to any depth is contemplated by the German plan of campaign, and it is not believed that Russian can reorganize her forces for another assault on the Carpathians before winter sets in.

The only chance of a battle that might bring far reaching results is thought now to be in the West. Just at present, the French objective appears to be Lille, an important industrial center and railroad junction north of the R. Bansee, toward which the slow offensive of the Allies has been eating its way.

Italy is finding the secondary defenses of Austria, guarding Trieste and the Trentino, a hard nut to crack. Despatches from both Rome and Vienna describe artillery duels at the principal activity on both fronts, but Vienna tells of two Italian infantry attacks which are said to have broken down under fire.
