WHOLE NUMBER 4144

KRUPP WORKS ARE MENAGED WITH STRIKE BY WORKMEN

Great Essen Plant Which Furnishes German Armies With Munitions On Verge of Being Crippled By Labor Troubles

LLOYD-GEORGE ARRIVES AMONG WELSH STRIKERS

Washington Government Will Investigate Alleged Teutonic Plots Against Allies in U. S.—Remington Situation Unsettled

(Associated Press by Federal Wireless.)
AMSTERDAM, July 20.—Strong measures are being taken by the German military authorities to suppress what threatens to become a general strike at the great Krupp armament works in Essen.

In spite of a rigid censorship, it has become known that widespread dissatisfaction among the Krupp workmen finally took form in a set of demands served upon the management.

Concessions Not Accepted

Rather than curtail the output of munitions of war or provoke a strike, which, though it undoubtedly would be crushed in short order, might have far reaching political consequences, the directors decided to grant some of the demands; but these partial concessions did not satisfy the men, and it is reported that many of them laid down their tools and quit work. One hundred thousand workers are indirectly affected.

Government Gives Warning

Thereupon the military authorities issued a proclamation warning the strikers that the government was prepared to undertake the most drastic measures, if necessary, to keep the factory up to its full capacity.

LLOYD-GEORGE WILL END WELSH STRIKE

(Associated Press by Federal Wireless.)
CARDIFF, Wales, July 20.—David Lloyd-George, the minister of munitions arrived here early today, in an effort to settle the strike of Welsh coal miners. Lloyd-George is himself a Welshman and expressed himself as confident, on his arrival, that he could easily persuade his fellow countrymen, once he had their ear, that the position of the government is essentially reasonable and necessary. It is understood that the strikers have proposed a basis for settlement, but its terms are not yet known.

WILSON TO PROBE AGITATORS' WORK

(Associated Press by Federal Wireless.)
WASHINGTON, July 20.—At the request of Great Britain, the government of the United States will investigate the alleged activities of Germans and German sympathizers in the United States, who, it is charged have been employing unlawful means to injure Great Britain and her allies.

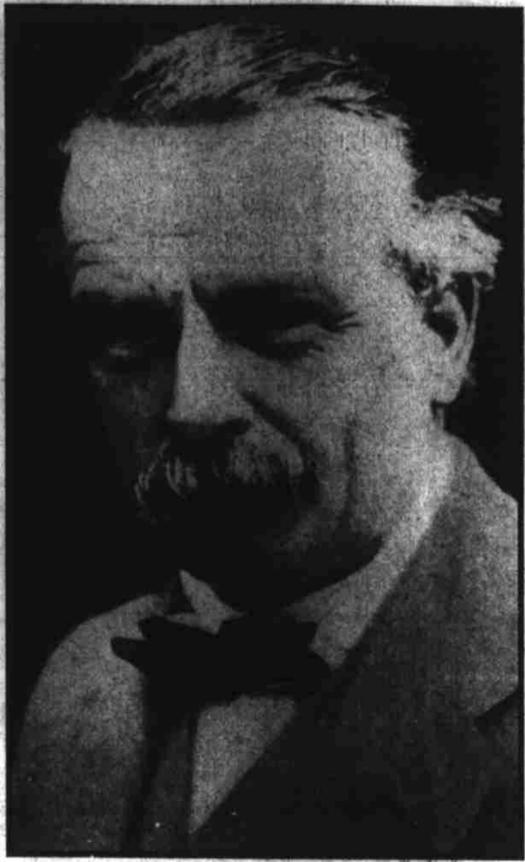

The complaint recites that plots have been hatched in the United States and attempts subsequently executed in Canada to wreck trains carrying Canadian troops, to destroy bridges, and to blow up ammunition works, and that on this side of the border, pro-German agitators have attempted to foment strikes in factories engaged on contracts for the Allies.

Situation Now Serious

Negotiations at Bridgeport Connecticut, between the management of the Remington Arms Company, which is filling large orders for the Allies, and its employees, failed yesterday and it

DAVID LLOYD-GEORGE, British Minister of Munitions, Who Has Arrived in Wales To Settle Pending Coal Strike.

GERMANS IMPRESS AMERICAN CITIZEN

Despite Vised Passport and Birth Certificate Auto Expert Is Held Prisoner

(Associated Press by Federal Wireless.)
LONDON, July 19.—Charles Pray, an American, whose home is in Flint, Michigan, reached here yesterday after having been held a prisoner in a German detention camp at Mauernfeld from the beginning of the war until May 11, when he effected his escape.

Pray, despite the fact that he backed up his claim to American citizenship by exhibiting his passport, properly vised, and his birth certificate, was denounced as an Englishman and ordered to the concentration camp.

He has submitted to the American consul general here an affidavit describing his experiences. In this he states that he was denied the right of appealing to the American consul at Mauernfeld and his attempts to have work taken to that official were frustrated.

Pray is an automobile expert and when this fact became known to his German jailers they ordered him to work in a repair shop, where military automobiles were being made ready for the field. He refused to do this work, whereupon he was set at manual labor and compelled to work.

He escaped from the prison camp in May and managed to work his way, from village to village, out of Germany and into a neutral country, where he obtained funds for his passage to England.

CONDITION OF FRANK REPORTED AS CRITICAL

(Associated Press by Federal Wireless.)
MILLEDGEVILLE, Georgia, July 20.—The condition of Leo M. Frank, who was stabbed in the throat by a fellow convict here last Saturday, took a turn for the worse yesterday and is critical today. Symptoms of blood poisoning have appeared. Green, the convict who stabbed him, expresses no remorse. "I was called from on high to kill Frank," he said in an interview with the warden of the penitentiary.

PACIFIC LANDS WILL HOLD BIG CONGRESS HERE

Asiatic and Historical Associations Name Honolulu For Great Convention In 1916

PEACE OF WORLD IS OBJECT SOUGHT

Delegates Will Come From All Shores Washed By Mightiest of Oceans

(Associated Press by Federal Wireless.)
SAN FRANCISCO, July 19.—A Pan-Pacific Congress, attended by delegates from all the lands washed by the greatest of oceans, and backed by the Asiatic Institute of America and the American Historical Association, is to be held in Honolulu in 1916, if the plans adopted at a joint conference of the Asiatic and Historical associations yesterday are fulfilled.

World's Peace Is Object
The suggestion that such a conference would be a great step towards the realization of the world's peace movement, was made at the joint meeting yesterday by President Eliot of Harvard, who later presented a resolution that such a Pan-Pacific Congress be called for next year in Honolulu. The resolution carried and a joint committee to elaborate plans and issue the invitations to the delegates was named.

William Jennings Bryan was to have spoken at the morning session of the institute, but when it was announced that his train had been delayed, almost all the audience walked out.

Bryan Flays 'Jingoism'
Arriving later, the former secretary of state devoted a large part of his talk to a discussion of American-Japanese relations.
"The Pacific should be the connecting link and not a barrier between the white and the yellow races," he said. He deprecated jingoism, declaring "it should be eliminated here before we criticize Japan. America is the friend of these countries and must so remain. I believe this feeling is fully reciprocated across the Pacific. Those warning us against Japan are doing so because of ignorance."

SINKING OF CRUISER GARIBALDI ADMITTED

(Associated Press by Federal Wireless.)
ROME, July 20.—It is officially admitted that the Italian cruiser Giuseppe Garibaldi was torpedoed by an Austrian submarine yesterday off Ragusa, on the Dalmatian coast, and sank, but the official bulletin states that the majority of the crew was saved.

The Giuseppe Garibaldi was a vessel of 7400 tons, built in 1899, and had a speed of twenty knots. She carried a complement of 550 men, and mounted one ten-inch, two eight-inch and fourteen six-inch guns.

LONDON HAS RECEIVED ORDER-IN-COUNCIL NOTE

(Associated Press by Federal Wireless.)
LONDON, July 19.—The American note respecting the conveyance of articles placed by the British order-in-council on the contraband and conditional contraband list through the blockade zone to neutral from American ports, was received by the foreign office yesterday. Its contents have not as yet been made public.

THAW SLEEPS IN OLD HOME AFTER 9 YEARS

(Associated Press by Federal Wireless.)
PITTSBURGH, July 20.—Harry Kendall Thaw, the slayer of Stanford White, slept in his old home here last night for the first time in nine years. A jury declared him sane last week and, the judge concurring, he was freed.

MARIE VON PERY-BOGNAR, Girl Volunteer In Austrian Army, Raised To Rank of Corporal For Bravery At Front

MEXICAN CAPITAL AGAIN EVACUATED

General Gonzales Marches Away To Meet New Army Headed By Villa

(Associated Press by Federal Wireless.)
WASHINGTON, July 20.—The hour glass of Mexican politics has been turned upside down once more and the sands are now running the other way. After occupying Mexico City just one week, General Gonzales, the Carranza commander, evacuated it yesterday, turning the government over to the civilian authorities, and marched out to meet a new army led by Villa, who has captured Pachuca, and is only forty miles away.

The situation in the capital is again grave and renewed suffering for the famished and impoverished population is feared. Communication with the outside world is once more at a standstill and relief work has become impossible for the present.

Villa Heads Strong Column
Villa's sudden appearance in the south, at the head of a strong column, explains in part the reverses he has been suffering in the north, supposed to be his stronghold. He has been willing to neglect his campaign there for the present, believing that whatever gain he loses there, he can regain later, in order to concentrate on the capital.

A series of defeats and retirements for his northern commanders is reported in the border despatches. General Cabel at Agua Prieta sends word that the Villistas are retreating on Nogales to make their last stand. He has burned one hundred bridges to cut off the arrival of possible reinforcements. Yesterday he occupied Cananea and drove the Villistas toward Nogales in a sharp six-hour battle. Naco fell almost without resistance.

Famine Again Imminent

Despatches to the state department yesterday show that famine throughout Mexico is imminent as a result of the depression of the currency, the great number of unemployed and the lack of crops. In Mexico City the supplies of bread tickets are utterly insufficient and the hunger is so great that the people have crowded the abattoirs, where meat is being dressed, begging for the blood.

Cosul general Arnold Shanklin has been recalled from Mexico City because of friction with the Brazilian

WILSON DISCUSSES REPLY TO GERMANY

President and Secretary of State Agree Next Note Must Be Emphatic

(Associated Press by Federal Wireless.)
WASHINGTON, July 19.—President Wilson, who has returned from his summer home at Cornish, New Hampshire, and Secretary of State Lansing today discussed the draft of the note to Germany in reply to the latest German missive upon submarine warfare. It is understood that they have agreed that the next communication must be of an explicit and definite character, making it unmistakably clear that America cannot be expected to remain passive in the event of another attack upon an unarmed ship and the resultant loss of American lives.

It is virtually agreed that the note will announce the intention of the United States to assert her rights upon the seas in accordance with international law. The note will be laid before the cabinet tomorrow for consideration and possible changes. It is not yet certain whether this statement will contain a reference to the submarine attack upon the liner Orduna, which was assailed with twenty-one Americans on board bound from Liverpool to New York.

SIXTEEN SCIENTISTS FOR INVENTION BOARD

(Associated Press by Federal Wireless.)
WASHINGTON, July 19.—Secretary Daniels announced last night that the advisory board of the bureau of inventions for the navy department, over which Thomas A. Edison will preside as chairman, will be composed of sixteen scientists. The members will be named by eight scientific societies, which on the invitation of Secretary Daniels, will each name two of their members for the board.

minister and methods of working at cross purposes in Mexico. The differences are said not to be serious.

HUGE LOSSES SOLE RESULT OF THOUSAND MILE BATTLE

Russians Have Brought Up Heavy Reinforcements, and, Though Staggered in Spots, Elsewhere Have Thrust Foe Back

OFFENSIVE STRONGEST IN NORTHERN POLAND

Unofficial Reports Current in Petrograd That Evacuation of Warsaw Has Been Ordered To Minimize Possible Retreat

(Associated Press by Federal Wireless.)
LONDON, July 19.—Along the thousand-mile battle-front of the eastern theater, extending from the Baltic to Bessarabia, the supreme effort of the Austro-Germans is being made to crush the Russian defensive, and a score of great battles, unprecedented in extent and fury, are raging.

The Russians have brought up huge reinforcements and are stubbornly contesting every inch of ground, in some sections being driven back, or their lines pierced, in others hurling back the Teutons and holding the gained ground.

Neither Side Has Advantage

While the fighting has been in progress without cessation for forty-eight hours, neither side has gained any decided advantage and the heaps of slain and the many thousands of wounded on both sides represent the sole results of the conflicts.

It is estimated that in Russian Poland alone, exclusive of the forces opposed in the Baltic provinces and along the Galician line of the Dnieper, there are several millions at each others' throats. Along the northern portion of this Russian-Polish line, the Germans are making a most determined effort to smash a road open to Warsaw.

Russians Pressed Back

Von Hindenburg and von Mackensen, are cooperating in a determined advance, pressing back the Russians in a number of points.

A report is current in Petrograd that a gradual evacuation of Warsaw has been ordered and that the Russians are removing all stores and munitions in order that nothing of military value may fall into the hands of the enemy in the event of the success of the drive for the Polish capital.

Slav Lines Holding Well

The official statements from Petrograd are that the Russian lines are holding well and that no fear is felt that this offensive against Warsaw will be any more successful than previous ones.

An afternoon report stated that the Teutons had concentrated a great force along the Vistula-Bug line, south of Lublin, and that a series of heavy attacks upon the Russian defenses was under way there.

TORPEDO FLOTILLA EN ROUTE TO ALASKA

(Associated Press by Federal Wireless.)
SEATTLE, July 20.—The destroyers Paul Jones, Preble, Perry and Stewart of the Pacific flotilla arrived here yesterday on the first leg of their summer cruise to Alaska, where they will hold maneuvers. The Whipple has been delayed by rough weather.
