

WORK ON VOLCANO ROAD IS HELD UP BY A PETTY ROW

Employees of Hawaii County Refuse To Obey Orders of Territorial Jailer

CONVICT LABOR LIKELY TO BE TAKEN OFF JOB

Attorney General and High Sheriff Going To Scene To Settle Trouble

Insubordination on the part of guards and others to the orders of A. MacAul-ton, jailer of the Kau road jail on Ha-waii, is to receive the immediate at-tention of Attorney General Ingram M. Stainback and High Sheriff William F. Jarrett, who will leave for Hilo in the Mauna Kea this morning. They expect to return in the same steamer next Saturday morning.

It is understood that the guards and others at the Kau jail have refused to obey the orders issued by Jailer MacAul-ton. The jailer is ap-pointed by the territorial authorities while the luna, guards and truck driv-ers are appointed by the county.

Furthermore, the Hawaii supervisors recently passed a resolution leaving en-tirely in the hands of Samuel Kaunane, chairman and executive officer of the board, the say of whether or not work on the road will continue. We have no words, it means that the county has thrown down the gauntlet to the Ter-ritory and it is now the move of the latter to say what will be done.

Prisoners Kept By Territory

The Volcano Road prisoners are fur-nished food and clothing at the expense of the Territory. The jailer's salary is also paid by the Territory. All that the County of Hawaii has to stand for is the pay of the road luna, four guards and two truck drivers. The result of the hostilities between the Territory and the County of Ha-waii likely will be the withdrawal of the territorial prisoners now at the Volcano jail, their transfer to Maui, where they may be used on the Haleakala scenic road, or return to Hono-lulu.

"The Territory will make short work of the dispute," said Attorney Gen-eral Stainback yesterday. "Either the County of Hawaii will have to adhere to its agreement with the Territory and the orders of the jailer be obeyed, or, in case the prisoners are to remain, the guards and others in charge will be ap-pointed by the territorial authorities so that there will be no conflict in respect to orders issued by the jailer. As a last resource, the prisoners will be withdrawn."

Plenty of Work Here

Asked as to whether the prisoners would be returned to Honolulu or sent over to Maui to work on the Haleakala road, High Sheriff Jarrett said yester-day:

"It is more likely that they will be brought back to Honolulu. We have an abundance of work to be done here. None of our prisoners are idle or loaf-ing. We have plenty for them to oc-cupy their time with here.

"There is the new territorial peni-tentiary work, most of which is being done by prison labor. We have plenty of work on the Makiki Roundtop road and we will be able to use more men there; and there is a lot of work else-where which is not being done because the supply of prison labor is not ade-quate."

The whole trouble on the Big Island, say some persons conversant with con-ditions down there, is politics. There are a number of "peasant" politicians on the Big Island—speci-ally in Hilo—who cannot see beyond the point of their noses," said a former Hilo man. "The county is practi-cally 'ruined,' as far as finances go; it cannot keep up with the work of re-pairing its roads, let alone build new ones, and yet these little politicians insist that road work should not be done by prison labor when so many citizens are available and willing to work—and talk politics while doing so. This is the whole case in a nut shell. We have the same class of 'patriots' right here in Honolulu."

HONOLULU MAY ENTER FLOWER SHOW IN OHIO

Hawaiian Pineapples To Be Shown At Cleveland Fete

Cleveland is a long way from King street, but not too far for the Hawaii Promotion Committee to avail itself of an invitation yesterday to send a dis-play to the Ohio city's flower show No-vember 10 to 14, inclusive.

Secretary Taylor said the committee would at least send a display of pine-apples. He will take up the sending of flowers with florists and may send a display of them along with the pine-apples.

"The invitation said a shipment of flowers could be delayed at San Fran-cisco for several days in order that the flowers might be unpacked, watered and re-again their freshness before being sent on the long overland journey.

ITALY PUTS COTTON ON CONTRABAND LIST

PARIS (Special by Federal Wireles.)—Italy has placed the lead of Great Britain in placing cotton on the contraband list.

Craps Is Latest Craze In Gaming With Celestials

CHE-FA appears to have gone into the discard for the time being and craps is all the rage. Only a few months ago pai-kau was the favorite game of chance among the Chinamen. When the police closed the pai-kau games the Chinese turned their specula-tive attention to che-fa.

Since the police have been tread-ing on the heels of the che-fa spe-cialists the game has been recov-ering less play and "seven-eleven" has come right bang into its own. This curious state of affairs may be explained by a conversation be-tween two Celestials which was overheard in Nuuanu street yester-day.

"Pehea policeman no more like evely man gamble?" asked Ah Lee of A. L.

"No pilikia policeman," replied the guileless-looking Ah Li. "Policeman no like che-fa; any other kind gamble allee lite. Claps allee lite. You like shootem claps? Spose you like, you came my house toside, too muchee Chinaman play claps that place. Policeman no pilikia."

FOUR SKELETONS REMAIN IN HULK

Seventeen Have Been Removed From Submarine F-4 But Only Four Identified

Two more skeletons of members of the crew of the submarine F-4 were taken from the third compartment yester-day, making a total of seventeen. Four more remain to be got out. That should be done today, and it is prob-able that all the excavating that will be done will have been completed this afternoon.

Only four of the seventeen have been identified, and, of the seventeen, only six skulls have been found, ex-cept that a piece of one skull was tak-en out yesterday. There virtually is no hope that any of the thirteen un-identified will be identified, and, from the experience with them, there is little that the four that still remain within the submarine will be known. Hulk May Be Sunk Again

A decision on the disposition of the F-4, to be announced by the navy de-partment in Washington, may be ex-pected soon. No inkling is to be had here, but there is reason to believe that she will be sunk again, after the board of investigation, headed by Ad-miral Clifford J. Boush, has finished with her.

There were meetings of two boards yesterday. In the morning and after-noon, the body named by Admiral Boush to investigate the ramming of the three F-class submarines Sunday by the Supply held meetings, and, later, the board to investigate the F-4 met at the naval station.

Board Takes Testimony

Meetings of the board investigating the collision were held on the gunboat Princeton, Lieut. Comdr. Mark St. C. Ellis, commander of the Princeton, led the senior member. Other mem-bers are Lieut. R. Crittenden, com-mander of the submarine Fotilla, and Lieut. Ellis Lanch, aide to Admiral Boush.

This board took all testimony yester-day morning and afternoon, and the evidence was being formulated after the last meeting to be incorporated in the report to Admiral Boush, to be made today.

The Princeton and Nanshan are due to sail today for San Francisco, and the Supply will depart tomorrow for Bremerton via San Francisco. All took bunnies yesterday, but the Nan-shan did not finish, and will continue coaling today.

SOLDIERS IN CONTROL OF AMERICAN BORDER

(Associated Press by Federal Wireles.)—Practically all territory on the American side of the border contain-ing guns to the Rio Grande is in the hands of the military as a result of an order given yesterday by Maj-Gen-eral Funston.

Pedras Negras has fallen to the Car-ruzza general, Gonzalez Garza, former provisional president, according to re-ports from Eagle Pass. The VII Corps are reported to have evacuated the town and moved to El Paso. It is said to have assigned at least 1200 men. The Villistas are reported to have fled to the hills.

DOCTOR GOODHUE'S POEM RECEIVES HIGH PRAISE

"Let me tell you that the best thing you have at the Hawaii Building is Mr. Goodhue's magnificent poem, 'The Cycle of History,' and many other vis-itors here agree with me."

This note, which has been received by the Hawaii Promotion Committee was signed Mabel B. Herrington.

The Mr. Goodhue she refers to is Dr. E. S. Goodhue of Roma, Hawaii.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

PARIS MEDICINE CO., St. Louis, U.S.A.

GERMAN POSITIONS IN BELGIUM RAIDED

With Artillery, Aerial Bombs and Channel Monitors Allies Rake Coast Defenses

(Associated Press by Federal Wireles.)—PARIS, September 8.—With heavy artillery, bombs from dirigibles and aeroplanes, and the guns of the British Channel monitors the German lines were subjected to a series of vigorous assaults yesterday, while a French air squadron invaded Germany and inflicted heavy damages against the military works at Freiburg, in Baden.

In Flanders the French artillery co-operated with the British monitor squadron to bombard the German positions at Westende, while the Brit-ish naval guns extended their work along the Belgian coast as far north as Ostend, the German coast guns making an ineffective reply.

French Hold Gained Ground

In the Argonne and the Woeyre dis-tricts the French are holding the ad-vantages gained by their superiority of artillery and have occupied a large part of the German trenches from which the heavy bombardment of the past few days has driven the defenders.

In the Lorraine district the German batteries have been practically all sil-enced, but there has been no infantry advance on the part of the French except in Argonne and Woeyre fronts.

Along the Armentieres-Roye front there have been a series of heavy ar-tillery duels, with the Allies showing a preponderance of big gun strength at Souchez, Neuveville and Roye.

German Bases Bombaraded

French dirigibles delivered an attack with bombs against the railroad junc-tion at Peronne, an important point in the German line of communica-tions, while a French air squadron in-flicted material damage on the railroad station and the military establish-ments at Freiburg. All the aviators taking part in this raid returned in safety to their own lines.

A report from Basel, Switzerland, states that the Monday air raid made by forty French aviators against the ammunition plants and railroad station at Saarbruecken, forty miles east of Metz, resulted in doing much damage. There were many casualties among the recruits in station there.

TEMBLOR SWEEPS CENTRAL AMERICA

Guatemala Is Visited and Several Cities of Salvador Are Badly Damaged

(Associated Press by Federal Wireles.)—LA LIBERTAD, Guatemala, Septem-ber 8.—Guatemala was shaken yester-day by a strong earthquake shock, which extended into Salvador, doing a large amount of damage but inflicting few casualties, so far as the reports have come in. The city of Jutiapa, of thirteen thousand people, is seriously damaged, as is also the city of Son-zonate, Salvador, of seventeen thou-sand. The cathedral in this latter city is in ruins, as are also the churches in a large number of villages. The fam-ous church of Santa Ana is reported shaken down.

EFFECT ON CANAL TRIVIAL

(Associated Press by Federal Wireles.)—WASHINGTON, September 8.—No important damage has been done to the Panama canal by the Guatemalan earthquake. The recent slides are be-ing checked and passage probably will be uninterrupted after two days more.

SHOCK RECORDED AT YALE

(Associated Press by Federal Wireles.)—NEW HAVEN, September 7.—An earthquake has been recorded on the seismograph at Yale. From the fact that cable lines connecting with Costa Rica have been interrupted in service it is concluded that the quake occurred somewhere along these lines.

HARRISON NOT ANNOYED BY TAFT'S UTTERANCES

(Associated Press by Federal Wireles.)—MANILA, September 8.—"I attach no importance to the speech of Mr. Taft," when in the Philippines he advocated independence. In the states he is the leader of the retentionists."

This was the comment yesterday of Governor General Harrison in answer to the attack upon his fitness to rule the islands by William Howard Taft in San Francisco.

ENGLISH EAST COAST RAIDED BY ZEPPELIN

(Associated Press by Federal Wireles.)—LONDON, September 8.—Ger-man Zeppelins said was carried out last night against the English east coast, the bombs causing a number of fires and casualties. The number killed and wounded has not yet been ascertained.

NORTH CAROLINA PARTY MAY VISIT TERRITORY

A party of tourists from North Carolina may visit the islands soon. The Hawaii Promotion Committee has received a letter from Hattie Hill Backus, secretary of the Chamber of Commerce of Raleigh, saying she was trying to persuade a party of her friends to abandon a trip they had planned for the Thousand Islands and Nova Scotia, and go to Hawaii in-stead.

VETERANS TO GET GOVERNMENT PAY ON G. A. R. JOURNEY

Those In Federal Service May Draw Salaries Except On Encampment Dates

UNITED STATES MARSHAL RECEIVES COPY OF ORDER

Exhibit of Many War Relics Feature of Coming Meeting At Capital

Civil War veterans who are employes of the government may attend the forty-ninth annual encampment of the Grand Army of the Republic at Wash-ington, September 27 to October 2, on leaves of absence as long as necessary, while en route to and from their homes, but not on the six encampment days, under the order just signed by President Wilson and promulgated by Attorney-General Gregory.

The order, an official copy of which was received here yesterday by United States Marshal Smiddy, is as follows:

"It is hereby ordered that all veterans of the Civil War in the service of the government of the United States who desire to at-tend the Grand Army encampment to be held in Washington, D. C., September 27 to October 2, 1915, shall be granted leaves of absence without pay, in addition to the annual leave provided for by statute, from September 26 to October 3, in-clusive, that they may have the opportunity to attend the encampment, and that they be granted such leaves, plans to install an underground system as soon as the patronage is sufficiently large to war-rant it."

Some difficulty exists between the Hawaii Telephone and the Kohala Tele-phone companies on rates, said the chairman, but he had discussed the question with officials of both parties and believes it will be settled satis-factorily soon.

WORKERS MAY DEPOSIT WAGE SATURDAY NIGHT

The savings department of Bishop & Co., bankers, will hereafter, except on legal holidays, be open on Saturday evenings from seven to nine, to receive deposits only. This step was decided on after many working men had spoken of the fact that they were paid on Saturday afternoons, usually later than the closing time of the banks, money not deposited over Sunday is easy to spend, and many men would like to add to their savings accounts as soon as possible after receiving the pay envelope or paycheck. So Bishop & Co., to accommodate these earnest workers who are trying to get ahead financially, decided to make it possible for them to deposit their savings on Saturday evenings. The innovation will be continued as long as folk are interested. No payments will be made dur-ing these hours.

MUSEUM TO HAVE EXHIBIT

And there will be another thing that will recall to these "boys in blue" the old days. The National Museum has prepared an exhibit of flags, weap-ons, uniforms and other relics of the great war that is expected to be seen by every veteran who attends.

From Sumpter to Appomattox the museum sketches the war by means of maps, records, the most unusual of things, a bullet riddled stump, which tells the story of Spotsylvania Court-house.

To the old soldier who had his share in that battle, the stump means some-thing more than so much dead wood. He sees it a giant oak, spreading its shade over Confederate intrenchments. But he can see it now as it was when cut down by musket balls during an at-tack to capture the works.

Biographies of George Grant will be shown, shoulder straps, buttons, hat or namens and epaulettes, grouped in the order in which they were earned. There is a water-tight uniform which looks as if it had gone through more than enough to earn the "gold-fringed epaulettes of the general of the army," which blazed in a gorgeous heap nearby.

When Her Back Aches

Honolulu women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pain, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Backache Kidney Pills are for the kid-neys only. They attack kidney disease by striking at the cause.

Can Honolulu sufferers desire stronger proof than this woman's word?

Mrs. R. E. Scott, 302 Main street, S. Baker, Oregon, says: "For twelve or fifteen years I was a constant sufferer from kidney complaint. My back ached terribly, and my right side ached. I kept getting worse all the time and finally I was sick abed. I had to be lifted in and out of bed. The sensations from my kidneys were in terrible shape. The doctor didn't seem to understand my case, so at last I tried Doan's Backache Kidney Pills. They soon helped me, and two boxes completely cured me. The backache left, I gained in weight and my kidneys were normal. I give Doan's Backache Kidney Pills the credit for saving my life. The cure has been permanent. There is nothing I can add to the endorsement I gave several years ago."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Wal-luter Drug Co., Honolulu wholesale agents for the Hawaiian Is-lands.

Remember the name—Doan's—and take no substitute.

TERRITORY WINS TAX CASE AGAINST C. BREWER & CO.

A decision in favor of the Territory was given by the tax appeal court yesterday in the case of C. Brewer & Company. The company had returned its taxable income for the year ended December 31, 1914, at \$110,000, but Tax Assessor Charles T. Wilder raised the assessment to \$129,000 and the company appealed on the increase, which was \$19,000, representing taxes in the amount of \$380.

When Her Back Aches

A Woman Finds All Her Energy and Attention Slipping Away

Honolulu women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pain, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Backache Kidney Pills are for the kid-neys only. They attack kidney disease by striking at the cause.

Can Honolulu sufferers desire stronger proof than this woman's word?

Mrs. R. E. Scott, 302 Main street, S. Baker, Oregon, says: "For twelve or fifteen years I was a constant sufferer from kidney complaint. My back ached terribly, and my right side ached. I kept getting worse all the time and finally I was sick abed. I had to be lifted in and out of bed. The sensations from my kidneys were in terrible shape. The doctor didn't seem to understand my case, so at last I tried Doan's Backache Kidney Pills. They soon helped me, and two boxes completely cured me. WOOZY JOY RIDER COMES THROUGH WITH THE COIN

A chauffeur brought a very woozy gentleman into the station about five o'clock last night and complained that he had been driving him around town and the woozy one refused to pay anything for his services. "I told him to go to Hana," exclaimed the bossy one. "Hanaah who?" queried the ser-geant of the watch. "Hana, where George Cooper lives," replied the joy rider, "or Cooper will fix him up." It seems that the man had for the time being lost all sense of location and thought that he was somewhere on Maui. Later on he came to, made in-factory arrangements with the chauffeur, and all was forgiven if not forgotten.

UTILITY COMPANIES TO HAVE A CHANCE

New Telephone Rates and Meter Lighting System Will Get Trial On Hawaii

Six months' test of the proposed new rates of the Hawaii Telephone Company will be permitted and the meter system of the Hawaii Telephone Light Com-pany is approved. This action was taken by the public utilities commission yesterday on the recommendation of Chairman Charles R. Forbes, who re-turned Sunday from Hilo following in-vestigations of both corporations at the Crescent City.

This finishes the investigations pend-ing before the public utilities board, nothing remaining for its consideration now beyond routine business. The board was informed yesterday that six public utility corporations have sent in their semi-annual fees, due this month, amounting to \$2245.

Twenty-two concerns liable for a total of twenty-two such firms must pay fees to the board before the end of the month, the aggregate sum reaching approximately \$5500.

Chairman Forbes reported the public hearing held in Hilo on the telephone rate matter developed the fact that opposition to the corporation on the Big Island seems to be dwindling, and that a better understanding is growing between the citizens of the county and the telephone and electric light com-panies.

The telephone company will be per-mitted to try its new rate through the month of September 15 and ending March 15. At the end of that time its officers are to submit a report to the commission concerning conditions. Lighting Company Reasonable

Mr. Forbes said the electric light company had proven reasonable, ac-quiescing in all the suggestions advanced by him concerning repairs, replace-ments and improvements. That cor-poration, he added, plans to install an underground system as soon as the patronage is sufficiently large to war-rant it.

Some difficulty exists between the Hawaii Telephone and the Kohala Tele-phone companies on rates, said the chairman, but he had discussed the question with officials of both parties and believes it will be settled satis-factorily soon.

GOVERNOR OF OREGON MAY VISIT HONOLULU

He and Portland's Mayor To Accompany Royal Rosarians

Oregon's Governor and Portland's mayor probably will come to Honolulu with the Royal Rosarians.

This became known yesterday when Mayor Lane received the following let-ter from Dean Vincent, prime minister of the Royal Rosarians, who wrote to acknowledge Mayor Lane's invitation to visit Honolulu:

"Your most cordial invitation of August 10, extended to the Royal Ro-sarians, received," the letter ran.

"The members have instructed me to express to you our appreciation for this invitation and assure you that we are looking forward with a great deal of pleasure to visiting your beautiful city and islands."

"We hope to have Portland's mayor, who is a good Rosarian, with us on this trip, as well as the Governor of the State and other officials."

MAN SENT TO PRISON BOTHERED ABOUT AUTO

For opening another man's mail and taking two checks aggregating \$275 from one envelope, C. R. Morrissey was sentenced by Judge Clemens in the federal court yesterday to one year and nine months in prison, at hard labor, and to pay the costs of court, amount-ing to forty seven dollars and fifty-five cents. Morrissey at first told the court that he had \$300 of the stolen money in possession of J. W. Kershner. The latter being called yesterday denied having any of Morrissey's money. Morrissey has an automobile and he wanted Judge Clemens to tell him what he could do with the machine while he was in prison. Judge Clemens' sig-nature stated that the defendant might appoint an agent to look after the gas-tine burner.

CHAMBERLAIN'S PAIN BALM

A touch of rheumatism, or a twinge of neuralgia, whether the trouble is Chamberlain's Pain Balm drives away the pain of sore and aches the com-plaint quickly. First apply a few drops. When a bottle of it is kept in the house the pain of rheumatism and headaches quickly healed and swollen joints promptly reduced. In fact, for the household it is just what an embur-sation as every family should be pro-vided with. For sale by all druggists, Benson, Smith & Co., Ltd., agents for Hawaii.

Customs Inspector Arrests a Chinese and Finds Jewels

AN attempt to smuggle dia-monds into Honolulu was frustrated Monday by Customs Inspector Robello on wat-h at the gangplank of the Siberia, Pier 7.

Lee Tai, a Chinese waiter, came ashore at four o'clock Monday afternoon. He was searched by Robello, who felt something in his coat breast pocket. Asked what this was, Lee replied that it was his money, and Robello asked him to show it.

The Chinese brought out a handful of coins, but Robello was not satisfied, and searched the pocket himself. He found four diamond rings, one a solitaire, and the other three clusters, smaller diamonds set about a larger one in the center. The value of the four rings was about \$400, which in-cludes wholesale price plus the duty.

Lee was arrested and turned over to the United States district at-torney's office. Inspectors Robello and McNicoll testified before the federal grand jury yesterday.

MOUNTAIN KING MINING COMPANY IN GOOD SHAPE

Treasurer of Gold Bearing Prop-erty Gives Hawaii Investors Some Encouraging Facts

FINAL ASSESSMENT PROBABLY IS MADE

Lode Produced \$15,400 of Ore In July At Cost of About \$800

An optimistic report of the financial condition of the Mountain King Mining Company is brought to Honolulu by H. T. Harper, treasurer and member of the board of directors of the California corporation, who arrived in the Ventura yesterday. Nearly fifty per cent of the stock in the company is held by Hawaii investors.

Mr. Harper came to Honolulu in his capacity as sales manager of the Stand-ard Oil Company, to assist in the in-vestigation of the recent explosion of a distillate tank owned by that com-pany in Iwilei.

Supervisors on an Auto-Buying Orgie

Trucks, Tractors and Motor Cars Being Appropriated For At Every Meeting

Everybody's doing it. Doing what? Why getting automobiles at the city's expense, of course.

The automobiles and trucks which have been ordered for the use of vari-ous departments and officials of the city government during the past six months would make an impressive array. They are of the latest and most expensive make in many cases, and, with few exceptions, the appropriations covering their purchase have been passed without a murmur.

A week or so ago the sheriff and deputy sheriff were given a couple of new Overlands.

At last night's meeting an appropriation of \$550 was introduced for the purchase of a Ford car for the build-ing inspector. Supervisor Hallinger quibbled about the price and the mat-ter was referred to Supervisor Logan, chairman of the ways and means com-mittee, to see if the price could not be shaved.

Then an appropriation for a magnifi-cent Pierce-Arrow truck, costing be-tween \$5000 and \$6000, for the use of the city, was passed.

Not very long ago several thousand dollars was appropriated for a Knox tractor for the use of the road depart-ment.

Supervisor Logan, to whom was re-ferred the matter of calling for tenders for an up-to-date ambulance for the city, the need of which is increasingly felt, stated last night that he would call for bids at once. He is of the opinion that if thousands of dollars at a which can be expended on trucks, automobiles and tractors, now is the time to secure an ambulance for the city.

ORE IS FREE MILLING

"As the stockholders all know, ours is a free milling ore, averaging six to eight dollars a ton. But the body as we have found it is twenty two by ten feet in size, extending upward and downward, in the latter direction to an unknown depth. At present the operations are confined to the drift overhead. The body is exceptionally large, of course.

"But I am not a mining man myself and cannot judge this phase of the business as intelligently perhaps as John Watt of Honolulu. He and D. P. K. Isenberg also are members of the board of directors. Financially, how-ever, the proposition is thoroughly sound at the present time, with every prospect that it will become better as the work is extended.

"As you know, every successful in-dustry must go through three periods: first, the initial outlay, which sometimes amounts to a boom; second, the slow, steady building up sometimes encountering obstacles which threaten or bring disaster; third, the final cumu-lative effect of the years of struggle, bringing their reward. I honestly be-lieve the Mountain King Mining Com-pany has attained the third phase of its career."

MAN SENT TO PRISON BOTHERED ABOUT AUTO

For opening another man's mail and taking two checks aggregating \$275 from one envelope, C. R. Morrissey was sentenced by Judge Clemens in the federal court yesterday to one year and nine months in prison, at hard labor, and to pay the costs of court, amount-ing to forty seven dollars and fifty-five cents. TURKISH TRANSPORT IS SENT TO BOTTOM

(Associated Press by Federal Wireles.)—LONDON, September 8.—A Turkish transport carrying cannon to Gallipoli Peninsula has been torpedoed and sunk by a British submarine, according to a despatch from Athens.

The British have bombarded An-fata and Seddul-Bahr, but without an- appreciable damage, according to an official report of the war office from Con-stantinople.

Which Anafarta is referred to here is in doubt. Last week Gen. Sir Ian Hamilton, commander-in-chief of the Allied forces on the peninsula, reported that he had taken an important posi-tion commanding the valley of Buvaik Anafarta, and it is presumed that the "Constantinople report refers to the "oven in this region and not the region of Kyuch Anafarta.
