

VICE-PRESIDENT CASTS VOTE THAT DECIDES FATE OF PHILIPPINE BILL

Administration Measure Guarantees Independence of the Islands in Four Years, Passes the Upper House of Congress

PARTY LINES SMASHED IN HOT FIGHT IN SENATE

Proposed Cummins' Amendment Giving People of Islands Right to Determine Their Fate Turned Down by Warring Solons

(Associated Press by Federal Wireles.)
WASHINGTON, February 3.—By the vote of Vice-President Marshall, presiding officer, the senate yesterday passed the Philippine Bill, as amended by Senator Clarke, which pledges the United States to grant independence to the Philippines not sooner than two years and not longer than four years, pending the negotiation of an international agreement guaranteeing the integrity of the Philippine Republic.

Opposition Fights To Last
The opposition fought to the last to defeat the administration measure, which, however, was not decided on partisan lines. Of the fifty six Democratic senators, forty-one voted for the bill and fifteen against. Of the forty Republican senators, seven voted for the measure and the Democratic majority and thirty-three opposed it.

Referendum Is Defeated
Senator Cummins introduced an amendment to the bill which provided that the question of independence be left to the people of the Philippines, to be decided by a plebiscite, at which all the varied races in the islands could vote on the question of whether or not they wanted to establish an independent Republic. This amendment was rejected.

UNCLE SAM REGRETS PANAMA REVOLUTION

Treaty with Columbia Deplores Part Taken By American Navy in Affair

(Associated Press by Federal Wireles.)
WASHINGTON, February 3.—The committee on foreign relations of the senate has reported on the ratification of the long delayed treaty with the Republic of Columbia, which contains an expression of regret on the part taken by the United States in the partition of that Republic which resulted in the establishment of the Republic of Panama.

The committee recommends favorable action on this treaty, with the proviso that the amount named in the treaty to be paid by the United States to Columbia as indemnity for the part played in the revolution by the United States navy and as payment for the rights acquired by the United States for the building of the Panama Canal be reduced from \$25,000,000 to \$15,000,000.

The committee also recommends the ratification of the Nicaragua Treaty, which proposes to pay to the Republic of Nicaragua the sum of \$3,000,000 for another canal strip and naval station rights on each ocean at the termini of the strip.

Brigadier-General Edwards, U. S. A., in command of the troops on the Panama Canal Zone, who is here to report to congress on the military situation at Panama, has recommended in his report that the United States acquire from the Republic of Panama additional territory at both the Atlantic and Pacific entrances to the canal, in order to increase the safety of that waterway and to permit of the adequate strengthening of the military defenses.

VILLA, GOLD LADEN, IS FLEEING TOWARD BORDER

(Associated Press by Federal Wireles.)
EL PASO, February 2.—Reports from Mexico declare that General Villa with several hundred men, and a pack train burdened with gold bullion, is moving toward the border from the direction of Chihuahua. Carranza troops are reported to be close on his trail and other columns are said to be closing in to shut him off from the boundary line, where a large force of American cavalry is on guard.

MICHAELOVITCH'S STAY IN JAPAN WAS PLEASANT

(Special Cablegram to Nippon Jiji.)
TOKYO, February 2.—The Russian foreign minister has forwarded his thanks to Baron Ishii, Japanese minister of foreign affairs, for his kindness in making the stay of Grand Duke Michaelovitch in Japan a pleasant one.

Lens Captured From Teutons By the French

Fall of City Breaks German Line and Opens Way Toward Life Base

(Associated Press by Federal Wireles.)
LONDON, February 3.—Lens has been captured in the last fierce French attack, the Germans who have been holding the city ever since early in the war having been forced out by the terrific bombardment and subsequent infantry attacks of their foes.

Save for this and the heavy bombardment in the Champagne region, and the artillery fighting in the region of St. Mihiel, there has been a comparative lull on most of the battle fronts, due in part to the severity of the weather.

Berlin reports that on the eastern front her troops have been successful in an engagement with the Russians between the rivers Styr and Stoboch. The Slavs are said to have been severely defeated by the Teutonic forces.

SUGAR BEET SEED PASSED BY BRITAIN

Austrian Cargoes Billed to American Importers Will Be Delivered From Rotterdam

(Associated Press by Federal Wireles.)
WASHINGTON, February 3.—It was announced by the state department last night that Great Britain has agreed with the United States to permit the prompt transportation from Rotterdam of a large quantity of sugar beet seed, which has been brought to that shipping point from Austria, billed to American importers. The British have agreed to put no obstacle in the way of this transshipment.

Reports from Denver, Colorado, yesterday, stated that the Great Western Sugar Company has been pressing upon the government for the past three months the necessity of securing Great Britain's sanction to the exportation from either Austria or Germany of sufficient beet seed to plant the American stands for the 1916 crop, the supply from the American mother beet fields being insufficient for the demand.

It is believed that the experiments which have been carried on by the Western Sugar Company in the cultivation of mother beets show that the United States will be able to meet its own demand for seed by the fall of 1916 and that the planters in 1917 will be independent of the foreign supply. Mother beet stands have been planted in Colorado, Nebraska, Montana and Utah and the yield of seed has been satisfactory.

GERMANY FINALLY CONSENTS

The British foreign office notified the state department some months ago that the exportation of beet seed from Germany would not be interfered with by the British naval blockaders, the seed to be paid for in gold. The German government, however, prohibited the exportation of beet seed unless it were to be paid for by the United States in food products, a condition to which the British refused to agree. According to the above despatch from Washington, Austrian exporters have stepped into the breach to meet the American demand and the shipments will be made, evidently, on the lines laid down by Great Britain.

STEAMER TAKATA MARU ABANDONED

American Tanker Silver Shell, Which Collided With Japanese, Takes On Crew

(Associated Press by Federal Wireles.)
NEW YORK, February 3.—Wireless reports from the American tanker Silver Shell, off Newfoundland, announce that the Japanese steamer Takata Maru, which collided with the tanker on Monday night, has been abandoned, being unsafe and beyond possibility of salvaging. The crew of the Takata Maru has been transferred to the Silver Shell. No details of the collision have as yet been received.

The Silver Shell is a new steamer belonging to the Shell Company of California, having been delivered to her owners in December last by the builders, Harlin & Hollingworth of Wilmington, Delaware. She is a steel steamer of 7600 cargo capacity, her net registered tonnage being 3422.

The Takata Maru was also a new steamer having just made her maiden run from Yokohama to London and being en route to New York. She was of 4320 tons.

AMERICAN SUGAR WORKERS STRIKE FOR SHORT HOURS

(Associated Press by Federal Wireles.)
NEW YORK, February 3.—A strike of workmen today tied up operations in the plant of the American Sugar Refining Company. The strikers demand the reinstatement of three of their number who have been discharged, and an eight-hour instead of a ten-hour day. Three thousand five hundred employees are affected by the strike.

RAID OF ZEPPELINS WAS NOT REPRISAL

Object of Attack Was Munition Industry of Britain

(Associated Press by Federal Wireles.)
BERLIN, February 3.—Official dispatches were made yesterday of the reports in circulation that the recent Zeppelin raid against the Midlands section of England was carried out by way of reprisal for the killing of members of a German submarine crew on the orders of the British commander of the British auxiliary Base. The raid, says an official report, was not made as a measure of reprisal but as a military measure. The Midlands section being attacked because it is the center of the British munition industry.

ANOTHER ZEPPELIN SIGHTED

LONDON, February 3.—A Zeppelin was sighted today off the coast of America. The coast guard force bombarded it with anti-aircraft guns and the big dirigible disappeared.

FOURTEEN PERSONS KILLED

SALAMANCA, February 3.—Two hundred soldiers, five refugees and seven workmen were killed today and fifty civilians injured in a raid by German Zeppelins, which dropped many bombs.

TURKISH CROWN PRINCE HAS COMMITTED SUICIDE

He Ends Life By Bleeding Himself To Death

(Associated Press by Federal Wireles.)
LONDON, February 3.—Prince Yusuf Izzeddin, heir-apparent to the Turkish throne, has committed suicide, according to a Reuter despatch from Constantinople, by way of Berlin. The effort killed himself by cutting one of his arteries and bleeding to death, the reason assigned being his continued ill health.

Yusuf Izzeddin Effendi was the son of the deposed Sultan Abdul-Aziz and nephew of the reigning Sultan. He was fifty-nine years old.

The succession to the Turkish throne according to seniority by the male descendants of Osman, sprung from the Imperial Harem. According to this rule, the heir-apparent is now the brother of the present Sultan, Wahid-Din Effendi, who is fifty-five years old.

PORTUGUESE CAPITAL IS SCENE OF RIOTING

Increase of Food Prices Causes Disorders in Lisbon

(Associated Press by Federal Wireles.)
LISBON, February 2.—Serious rioting and bomb-throwing is creating trouble in Lisbon today, the climax of several days of disorder.

The rioting began on Saturday night and is understood to be an account of the increased food prices. Large crowds of men, women and children gathered outside government buildings and before food shops and the disorders commenced.

Today one was killed and several wounded and street fighting assumed serious proportions. Bombs were thrown by the rioters and there were numerous conflicts between the crowds and the police and soldiers. The latter used bayonets and clubs.

CABINET MINISTER MORBID

PARIS, February 3.—A despatch from Madrid to the Havas News Agency declares that one of the Portuguese ministers was fired on by rioters today in Lisbon and defended himself by drawing a revolver and shooting into the crowd.

Fires have been discovered and extinguished at Belem Palace and at the President's residence. Bombs have been exploded in various parts of the city and quantities of dynamite and bombs have been discovered and seized by the police and soldiers.

J. P. MORGAN LEAVES ON SECRET MISSION ABROAD

(Associated Press by Federal Wireles.)
NEW YORK, February 3.—J. Pierpont Morgan, accompanied by Benjamin Strong, governor of the Federal reserve bank of New York, left here yesterday for England, on a secret mission. It is reported that the two financiers are going to Great Britain in connection with a new allied loan, reports of which have been bruited about Wall street and financial centers for some time past, but about which nothing official has been made public.

A FORTY YEARS' TEST.

Chamberlain's Cough Remedy has been curing coughs and colds for the past forty years and has gained in popularity every year. What better recommendation is required? For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

SHIP'S ARRIVAL CAUSES TROUBLE IN WASHINGTON

Official Uncertain Whether She Is Teuton War Craft Or Prize

Captain and Crew of Captured Steamer Await Decision On Status

(Associated Press by Federal Wireles.)
WASHINGTON, February 3.—State department officials last night wired to the post authorities at Parris, Monday, Feb. 2, instructing them to notify the passengers on board the British steamer Appam, captured off the Canary Islands by a German cruiser on her way to the United States, that they are at liberty to leave the ship whenever they please. There were 244 passengers on the Appam.

The crew of the captured steamer, including the captain, has been notified that they are to remain on board the Appam until the state department officials at Hampton Roads and Parris, Monday, have issued orders to keep passengers and crew of the captured steamer on board until the Appam is returned to her owners. Wire despatches from Virginia announced that no one but the commander of the prize crew, Lieutenant Berg, was allowed on shore.

Officials of the state department found a tangled problem on their hands with coming of the Appam to Hampton Roads, the question being whether the Appam was a prize of war or a captured German warship. By the treaty of 1825 with Germany, it is provided that prizes taken from the British shall not remain in American ports on account of the previous treaty between the United States and Great Britain. Britain asks for ship.

The British ambassador, Sir Cecil Spring-Rice, has formally asked the return of the Appam to the United States to her British owners. He claims that Article 21 of the Hague treaty supersedes the treaty of 1825 and anything else which would prevent the Appam from being returned to her owners.

If the Appam is adjudged a prize of war, it is reported that the Germans are likely to take her outside the three-mile limit and sink her. It is also reported today that the Appam carried half a million pounds sterling, which will be claimed as a prize. Britain is contendant.

BEET SUGAR FACTORY WILL BE CONSTRUCTED

(Associated Press by Federal Wireles.)
GRANTS PASS, Oregon, February 3.—With the assurance that there will be continued tariff protection upon domestic sugar, the Oregon and Utah Sugar Company has signed the contract for the construction of a beet sugar factory here, which is to be completed in time to handle the 1916 crop. Growing contracts with a large number of beet growers and farmers of the locality have already been effected. The factory will have a slicing capacity of between 600 and 800 tons of beets daily.

ATHENS FORECASTS EARLY CAMPAIGN IN SALONIKA

(Associated Press by Federal Wireles.)
LONDON, February 3.—A despatch from Athens forecasts an early campaign with large forces in Greece by the German-Bulgarian-Turkish Alliance. The reports say that the Germans and Bulgarians, with 150,000 troops, are likely to begin an attack on Salonika about the middle of February. The British and French are gathering large supplies at this point and throwing up extensive fortifications.

MANY POINTS SNOWBOUND

(Associated Press by Federal Wireles.)
PORTLAND, Oregon, February 3.—Many points in the north-west are snowbound today and railroads and street car lines forced to suspend operations. Wires poles and trees are breaking down under immense masses of snow and ice.

GRAVITY WATER SUPPLY FOR KANEHE DISTRICT

Kanehe district, on the windward side of the island, is to have a water supply built on gravity lines. William Henry, who is a large land owner in the district, has decided that wind power and water are not very satisfactory for a constant supply of the necessary fluid and although several hundred dollars have been spent in the erecting of a windmill to supply the neighborhood sometimes the wind refuses to help, and the water runs short in the big tanks set up to store it.

On the last of Kanaha, at an elevation of about 270 feet, Henry has tunneled into the side of the mountain about three hundred feet and obtained a flow of splendid pure water estimated to be about one hundred thousand gallons a day. This will be piped a distance of seven thousand feet to Kanehe and vicinity. The work will be begun in a short time.

Henry is looking up figures and experimenting with meters and it is probable that another year will see a complete little water system in operation along the coast. The residents who have been approached on the matter of taking water are greatly pleased at the prospect of a constant supply of good water.

WILLIAM HENRY HAS STRUCK FLOW AND WILL PIPE IT

(Associated Press by Federal Wireles.)
LONDON, February 3.—The Advertiser, a newspaper of Bucharest, declares today that Greece and Rumania have signed a dual neutrality convention, agreeing not to enter the war.

DUAL NEUTRALITY PACT REPORTED AT BUCHAREST

(Associated Press by Federal Wireles.)
LONDON, February 3.—The Advertiser, a newspaper of Bucharest, declares today that Greece and Rumania have signed a dual neutrality convention, agreeing not to enter the war.

TEUTON TEXTILES TAKEN BY GERMAN GOVERNMENT

(Associated Press by Federal Wireles.)
LONDON, February 3.—A Reuter despatch from Amsterdam announces that the German government has just ordered the confiscation of most of the products of the textile industry of that country for "military reasons."

FLOODS IN IOWA SERIOUS

(Associated Press by Federal Wireles.)
DAVENPORT, Iowa, February 2.—The floods are serious in this vicinity today.

ANCHOR MAN IS KILLED INSTANTLY AT MAHUKONA WHILE ATTENDING TO HIS WINCH

Sato Yamaguchi, Anchor Man on the Inter-island Steamer Sashoon, Was Instantly Killed on that Vessel While at Mahukona on January 29.

The accident occurred while he was attending the winch and sinking away the mainmast. It struck on him and he took two riding turns on the drum of the winch. On slacking away his arm was caught and he was carried around the trolley-head several times striking his head on the deck each time he was hurled around the machinery.

The fall was cut to clear his arm and he was taken ashore immediately after he was released from the winch. Dr. D. B. Bondy today announced to all the men, declared that he was dead and that death had been instantaneous. The body was brought to Honolulu in the Mauna Kea the same day. Dr. Bondy having signed the death certificate, there was no trouble about bringing the dead sailor to this city.

Yamaguchi was a Japanese, forty years and eleven months old, and had been in the employ of the Inter-island company for several years. His body was lodged over to relatives here. It was cremated.

GERMANY MAY SETTLE LUSITANIA QUESTION

(Special Cablegram to Hawaii Shipto.)
BERLIN, February 3.—The Overseas News Agency today announced the following semi-official information: "Instructions have been sent to the German Ambassador, Count von Bernstorff, at Washington of such a nature as to give reasonable hope that a positive understanding will be arrived at in the Lusitania affair."

It is believed that by this move Germany hopes to end the controversy over the sinking of the big liner last year. Germany has already agreed to pay indemnity for American lives lost but has declined to acknowledge that the torpedoing of the liner was an act of wrongdoing.

THE TEST CASE OF THE FRONTAGE TAX CITY ATTORNEY MAY UNDERTAKE TASK OF PROVING VALIDITY OF LAW

The test case of the frontage tax law, which it was stated should be brought before the bids for the Manoa improvement work were opened, will not be brought by that time. The work of proving the validity of the law, it is said, will be undertaken by the city attorney's office with the assistance of Smith, Warren & Sutton, while Frear, Prosser Anderson & Marx have been retained for the Bank of Hawaii and Bishop & Company, to contest the validity of the law.

There are several interesting points involved in the matter of the test case, and an actual trial will have to be made of it, as the supreme court has gone on record as refusing to pass on most questions. One of the questions involved in the issue of the bonds for the improvement is to decide if these bonds are obligations of the municipality. If they are, then the borrowing capacity of the city will be reduced by the amount of the improvement bond issue. The amount which the city may borrow in any one year is one per cent of the assessed value of the real and personal property therein, at the last assessment date.

It has been determined, since the postponement of the opening of the bids, that the successful bidder will not have to start work on the contract until fifteen days after the money for the work is assured. Under the recent ruling of the city attorney it would not be proper for the supervisors to contract for the work until the money from the sale of the bonds was available.

Prior to the selling of the bonds an assessment of the property affected will have to be made and this will take considerable time. There is also the necessity of ascertaining which of the property owners will exert their right of paying in installments and which of them are willing to pay cash. This will make a considerable difference in the amount of bonds issued.

Total of Bond Issue
While the work it is anticipated, will cost about two hundred and forty thousand dollars, it is thought that at least one hundred thousand dollars will be paid in as soon as the assessments are made, so the bond issue will have to be for the remaining portion of the amount only.

The banks have signified their intention of taking all the bonds issued. The bonds will be sold by bid, and it is expected that the bid of the banks will be for all of the issue of bonds. The supervisors have yet to fix the interest which the bonds will bear, and while six per cent is the rate commonly paid on like issues on the mainland, it is thought that these bonds will be issued at five per cent.

THUNDER HYMN STRAINS AS MASS MEETING CLOSES

Shout Affirmative To His Question Asking if Country Could Raise Half Million Men In Any State of Union At Present Time

(Associated Press by Federal Wireles.)
KANSAS CITY, February 3.—"I believe now, after what I have seen, that the United States need only call for volunteers to raise half a million men in almost any State," declared President Wilson, at the conclusion of an intensely enthusiastic meeting held here last night, at which he outlined the preparatory plans of the administration and, demanded, that steps be taken this very month, to back him up in his defense of American lives and American commerce abroad.

Refers To Affairs To U. S.
The President devoted the early portion of his address to outlining the inadequacy of the existing army and navy and in explaining the naval and military programs of secretary Garrison and Secretary Daniels. He referred in guarded sentences to the affronts which have already been offered to the American flag and then launched his demand that immediately taken to prepare a force upon which might rely for the parrying out of any eventuality and which would back up and make of weight whatever defense he might offer of the rights of Americans to travel in safety abroad on their legal business and the rights of Americans to carry on unimpeded and uninterfered with legal commerce with other neutral nations.

This demand was met with shouts of applause from the audience, numbering sixteen thousand persons, who cheered and waved thousands of American flags.

THOSE REPORTING MARRIAGES TOO LATE MAY LOSE LICENSES

(Associated Press by Federal Wireles.)
The heavy hand of the law is going to fall on a number of those who do the Honoluli marrying ministers—some of those who perform the marriage ceremony—and when it does their right to marry other people will be taken away. If this department has anything to do with it, declared Miss M. Hester Lemon, registrar-general of the department of vital statistics of the board of health, yesterday.

Miss Lemon was annoyed. She was more than that. She was angry and the cause of her annoyance and anger was a little slip of paper which had come to her quietly earlier in the day.

"The law requires that a minister performing a marriage shall report it to this department immediately, and here is one report of a wedding performed not a mile away from this building on January 4, last, making its appearance only today," the irate official went on to say.

"I've often heard the expression, 'Oh, wouldn't that jar you,' without thinking much of what it signified. Now I know. It is certainly anything to wait a whole month to get a report of this kind, which we will never be able to enter in its real and proper place."

The minister concerned in this particular case is an old offender, it is claimed, but there are a few others. Some months ago a minister performed a marriage ceremony on the eve of his departure for the mainland. He was away several months, visited the expedition, attended church conventions, did the country in various ways and when he returned he kindly sent in the report which was several months overdue.

"The Japanese ministers, whether Christian or otherwise, are very prompt in sending in their reports," Miss Lemon went on to say, "and they are to be commended for this. Now, really, this simply has got to stop, because—"

And then a Japanese minister arrived with a bunch of reports of marriages he had performed the day before, and Miss Lemon broke off her remarks to attend to the new arrival.

WEIGHT OF SNOW CRUSHES SEATTLE CATHEDRAL DOME

(Associated Press by Federal Wireles.)
SEATTLE, February 3.—The dome of St. James Cathedral, one of the largest Catholic churches on the Coast collapsed last night from the weight of snow which had accumulated, unmet, for several days. The dome is estimated to have been in the neighborhood of fifty thousand dollars. The roof of the West Seattle Christian church also collapsed under the accumulation of snow.
