

# GARDEN CONTINUES TO HOLD TWO JOBS DESPITE HOLLINGER

## Second Deputy City Attorney and Utilities Commissioner Subject of 'Hard Panning'

### BUT HE CANNOT BE OUSTED FROM OFFICE

### Some Supervisors Are Inclined To Let Dual Duties Go and Drop Whole Matter

Why W. T. Garden, second deputy city attorney, answered only with a grin when asked whether he intended to comply with Supervisor Hollinger's demand that he resign from either the public utility commission or his municipal job, became clear at the meeting of the supervisors' last night.

He simply does not have to quit either position for the present, and perhaps at no time in the future unless he feels so inclined.

What Mayor Lane thinks about it was not disclosed, because he was not at the session, but all the other members except Hollinger and Larsen indicated they do not disapprove of the attorney's membership on the territorial board.

In fact, several, including Logan and Hatah, are inclined to approve any of the added distinction Garden has achieved in the community.

Hollinger, as promised, came hotly to the attack against the deputy city attorney. He read excerpts from letters given to the board a year ago by City Attorney Brown, wherein both Brown and Garden pledged the latter to devote all their time to the city's interests and certainly to eschew private practice.

Hollinger then asserted that it is impossible for a man to carry water on two shoulders, to serve two masters, at one and the same time, and anyone trying such impossibilities should be forced to see the error of his ways.

Garden should resign his commission on the utilities board or give up his job in the city office, said the supervisor. The time might come when the interests of the city and utilities commission would conflict.

Hollinger then asserted that it is impossible for a man to carry water on two shoulders, to serve two masters, at one and the same time, and anyone trying such impossibilities should be forced to see the error of his ways.

# ANOTHER WHARF NEEDED IN HILO

## Superintendent of Public Works Recommends Big Structure For Crescent City

Hilo needs another large wharf, for the commerce of that city is growing by leaps and bounds, declared Charles R. Forbes, chairman of the board of harbor commissioners, at the board's meeting yesterday afternoon. Realizing this, Forbes urged that the board recommend that the legislature appropriate \$200,000 for the work of constructing such a wharf as the chairman outlined in his talk.

Forbes thinks that the structure should be of concrete, about 600 feet long by 150 wide, and should be roofed over and equipped with the latest and most efficient machinery for handling sugar and other freight.

In connection with the wharf, Forbes recommended to the board that contracts be let as soon as possible for the dredging of Kaho bay, at Hilo, so as to make the maneuvering of vessels of larger draft than those now using the bay for the most part, both safer and easier.

"For some time I have realized that Hilo was going ahead rapidly," said Forbes, "but I have been investigating a little for myself and I have discovered that the increase in the tonnage there, and the activity of the port has been wonderful.

Present Facilities Falling "Leading business men of the community have called my attention to this and to other facts showing that the present wharf facilities at Hilo will soon be outgrown, and that the city will then need others and larger wharfs.

"My idea is to construct a concrete wharf near the site of the present wharf, so that when the time comes other wharves can be constructed in the same neighborhood so as to form a comprehensive and efficient system of docks for the city.

"In this connection the work of dredging the harbor to a proper depth to accommodate vessels of the size of the Matsushima and the Great Northern, should begin."

# Professor Bryan Breaks Mountain Climbing Records

## He Makes Hikeback Trips To Summits of Three Great Peaks Within One Week

(Special By Mutual Wireless.)

HILO, Hawaii, August 28.—Prof. William Allison Bryan of the College of Hawaii has broken all Hawaiian records in mountain climbing. Within a week he made hikeback trips to the summits of Mauna Kea, Mauna Loa and Mount Hualalai, the three great big island mountains.

Inasmuch as Mauna Kea is 13,809 feet high, Mauna Loa 13,675 and Hualalai 8,273, the total altitude reached by Professor Bryan on his triple climbs was 35,757 feet.

Professor Bryan made a special study and investigation of the known glacial fields on Mauna Kea and Mauna Loa, particularly. He was accompanied by expert guides and had no difficulty in making the great ascents. He left at ten o'clock this morning in the Mauna Kea on his return to Honolulu.

# HARMONY IS URGED BY BOURBON CHIEFS

With harmony as the keynote and condemning party dissension, the Democratic territorial committee will lead the various precincts toward their intentions to "bury the national hatchet" at a get-together meeting held in Phoenix Hall last night.

W. H. McClellan, chairman of the county committee, presided. Immediately following the call of order it was discovered that Governor Cushman, who had been invited to help settle the turbulent waters, was absent. Some said that he had written a letter to the committee which, the committee said, was not received.

"Let's continue without the Governor," yelled a factionist from the rear of the hall. It was explained that, owing to the Governor's illness, he could not be present.

L. L. McClellan, the first speaker, had stressed upon the fact that the Democratic party in Hawaii "is not working together and has never cooperated in party movements.

"We must forget party dissension and cling to the Democratic party as a whole," said Prof. W. A. Bryan, chairman of the central committee.

In fact, we must forget the Governor," yelled a factionist from the rear of the hall. It was explained that, owing to the Governor's illness, he could not be present.

# DEATH CALLS WELL KNOWN POLICEMAN

## Antonio George Gomes Dies From Heart Failure While On His Beat

Stricken with heart failure while on duty Antonio George Gomes, a well known mounted patrolman with the city police force, died at four o'clock yesterday morning. He had been on his beat in the Iwilei district, apparently well, when he was taken suddenly ill. Although Police Surgeon Ayer responded immediately to the call for medical assistance, Gomes died before reaching the Queen's Hospital, to where he was being rushed.

Funeral services will be held at four-thirty this afternoon at the late residence, 915 Mokuaua street, Kalihi, the interment to be in the Kalihiwaena Catholic cemetery.

Gomes was born in Kalihiwai, Kauai, on June 11, 1864, and was fifty-two years, two months and eighteen days old. His father was George Oou, a native of Kauai, and his mother Nahaia, of Hilo, both Hawaiians. Gomes was adopted, however, while a young boy by a Kauai Portuguese family, whose name he bore until his death. He spoke Portuguese fluently and in demonstrative and mannerisms was thoroughly one of this race.

The deceased had been with the Honolulu police force for a number of years and was held in high esteem both by his superior and fellow-officers. He was known as an able, efficient and painstaking officer. As a cowboy he was one of the best in Hawaii. Gomes fractured two ribs some time ago. This injury, believes Doctor Ayer, affected Gomes' heart.

The deceased is survived by the widow, a Portuguese daughter of Kauai, by whom there are three sons and a daughter. Two of the sons are connected with the Waialeale Electric Company of Kauai and will arrive this morning in the Maui from the Garden Island to attend the funeral. One other son and the daughter, Mrs. Fris, wife of Joseph Fris, bookkeeper of the Honolulu Branch, this island, are here.

Gomes was a member of the recently formed Widows and Orphans Relief Association, containing about two hundred members connected with the police force on this island, which will pay death benefits to the family of the deceased.

Mr. McClellan and Mr. Baumgartner of San Francisco, who is connected with the Hawaiian Steamship Company, have had an extended hearing before the suspension board of the Interstate Commerce Commission regarding the proposed increase of thirty-eight per cent on the rates for pineapples to the East. Mr. McClellan said today he was quite confident the proposed increase of from sixty-two cents a hundred to eighty-five cents would be suspended by the commission till January 1 next. There was quite a sharp set to between the opposing sides at the hearing.

# HAWAIIAN LECTURES ARRANGED FOR EAST

## Series of Illustrated Talks On Islands Planned For New England States

W. C. Seward, general agent for the Great Northern Railway in Boston, has written to H. A. Jackson, general traffic agent for the Great Northern Pacific Steamship Company, suggesting that during October, November and December arrangements be made for a number of lectures on Hawaii throughout the New England states, and that they would undoubtedly prove of vast benefit to these islands.

The matter has been referred to the promotion committee here, and A. P. Taylor, the secretary, has written Mr. Jackson, saying that the committee has already started the ball rolling in the East. A number of prominent lecturers have already made arrangements for talks on the Islands in Boston and other New England cities, and there are more to come.

The Beekman Tourist Agency is putting on a series of illustrated lectures in that section of the country, and H. F. Wichman of Honolulu is going to give a number of illustrated talks on Hawaiian life during his stay in Boston. Pictures for these have been given to him by the promotion committee.

Miss Alice Capten, a well known lecturer, is going to talk about the wonders of the Territory and E. M. Newman, another well known travel-talker, has also collected data for a new lecture about Hawaii.

"All told this district is going to be mightily well covered during the coming autumn," said Taylor yesterday.

# SUPERVISORS GIVE PEARL CITY SCHOOL

## After much argument and over the protest of Acting City Attorney Cristy, the supervisors passed on third and final reading a resolution appropriating \$500 for construction of a schoolhouse at Pearl City.

Cristy objected because the money is to come from the balance of the \$300,000 appropriation set aside by the legislature for the new building at Central Grammar School. That edifice cost only \$26,000, but the attorney contends the city is prohibited by law from taking money from a legislative appropriation for a specific project, and transferring it to a project somewhere else.

Cristy gave warning that he would quip the city auditor and treasurer not to issue warrants or money from the balance. The building project will be blocked, but Arnold suggested that Superintendent Kinney, who wants the building at Pearl City, may take up the subject with the attorney-general and get an opinion from him which would place a different construction on the territorial statute.

This, Arnold said, would enable the board to spend the money as it and the board of education desire.

# FUND FOR MILITARY ROAD SURVEY FAILS

## Bill For Retirement Pay To Certain Federal Judges Hangs Fire In House

(By Ernest G. Walker.) (Mail Special to The Advertiser.)

WASHINGTON August 14.—A few stray items of Hawaiian interest stand out in the later summer activity here. One is the failure in the army appropriation bill of the \$10,000 item for an investigation and survey of a military road in the Island of Oahu.

George McK. McClellan, who had a promise from Chairman Hay of the house military affairs committee, witnessed by General Macomb of the war college, that if the provision was put in by the senate it would be retained in conference, is greatly surprised and says it is the most "disappointing turn-down I have ever received during my career in Washington."

Apparently Mr. Hay encountered objections somewhere he could not overcome or experienced a change of heart. However, the fight will be resumed at the next session of congress.

# Judges' Pensions Held Up

The bill for retirement pay to certain federal judges, which would make former Judge Dale a beneficiary, hangs in the house and, perhaps, will not get much farther at this session. It came up recently for unanimous consent consideration. Representative Fitzgerald of New York, who is opposed to it, abstained from objection, but Minority Leader Mann climbed the water tower. He was willing the bill should be passed over without prejudice but that was the utmost he would concede. Consequently the bill remains on the calendar awaiting the call of committees.

Mr. McClellan and Mr. Baumgartner of San Francisco, who is connected with the Hawaiian Steamship Company, have had an extended hearing before the suspension board of the Interstate Commerce Commission regarding the proposed increase of thirty-eight per cent on the rates for pineapples to the East. Mr. McClellan said today he was quite confident the proposed increase of from sixty-two cents a hundred to eighty-five cents would be suspended by the commission till January 1 next. There was quite a sharp set to between the opposing sides at the hearing.

# Desha Goes To Boston

John R. Desha has gone to Boston to join his family and have a vacation. Mr. McClellan is planning to leave shortly for his home in Seattle. The treasury department has asked him to aid in getting an appropriation of \$10,000 from Congress for removing the old quarantine wharf at Honolulu. This far Company of Kauai, and will arrive this morning in the Maui from the Garden Island to attend the funeral. One other son and the daughter, Mrs. Fris, wife of Joseph Fris, bookkeeper of the Honolulu Branch, this island, are here.

Gomes was a member of the recently formed Widows and Orphans Relief Association, containing about two hundred members connected with the police force on this island, which will pay death benefits to the family of the deceased.

Mr. McClellan and Mr. Baumgartner of San Francisco, who is connected with the Hawaiian Steamship Company, have had an extended hearing before the suspension board of the Interstate Commerce Commission regarding the proposed increase of thirty-eight per cent on the rates for pineapples to the East. Mr. McClellan said today he was quite confident the proposed increase of from sixty-two cents a hundred to eighty-five cents would be suspended by the commission till January 1 next. There was quite a sharp set to between the opposing sides at the hearing.

# PEARL HARBOR HAS GREAT FUTURE

## Peninsula Promises To Become Most Worth-While Suburb of Greater Honolulu

Pearl Harbor is going to be one of the biggest and most worth-while suburbs of Greater Honolulu in the days to come, if John F. Colburn is right. Colburn called at the promotion committee rooms yesterday morning to offer the use of his new residence on the Peninsula as an additional tourist attraction.

The Colburn place has been made into a charming pleasure garden, with bits of old Japan transplanted and improved by the mingling of Hawaiian scenery.

They were charmed with the offer made by Mr. Colburn," said A. P. Taylor, secretary of the promotion committee yesterday. "It is a sign of the growing general interest in the committee's plan of providing new attractions for the tourist after he gets to Honolulu."

The growth of the residential quarters in the vicinity of Pearl City is going to be a marvel. The opening of the naval station there will mean the employment of hundreds of civilian employees, who will want homes in the immediate neighborhood, and there are already plans afoot for the establishment of a ferry from the navy yard to Pearl City. Other development plans are also under consideration.

# CONSUL-GENERAL MOROI ENDS INSPECTION HERE

## Later He Will Visit Kauai, Maui and Hawaii

Consul General Rokuro Moroi, who has finished the inspection of Japanese conditions in this island, will go on an inspection trip to other islands the middle of next month.

He said yesterday afternoon that he is planning to go to Kauai on September 12.

He will spend about two weeks on the various plantations. Some time in October he will go to Maui and Hawaii, where he will spend about one month inspecting the condition of his countrymen.

# SEE AMERICA FIRST, TO BE HOTEL MOTO

## James Woods of St. Francis Hotel Starts Movement To Hold Tourists

James Woods, manager of the St. Francis Hotel in San Francisco, has written to the promotion committee outlining a plan for a general promotion and publicity campaign of all the large American hotels. Mr. Woods frankly admits that the wonders of Hawaii, some of which he saw during his recent visit to these islands, gave him the germ idea of his scheme.

In his letter, which is addressed to A. P. Taylor, secretary of the promotion committee, Mr. Woods returns thanks "for all the wonderful hospitality received while I was in Hawaii," and encloses a copy of a letter to George Wright, the president of the Canada Hotel Association.

Rare Possibilities At Home "In this letter Mr. Woods declares that after his visit here he is more impressed than ever with the possibility of diverting to interesting sections of this country the tourist traffic that has been in the habit of going to Europe.

The chief lack of present Mr. Woods believes, is proper publicity for the tourist attractions of the nation. In the past, he adds, the advertising has been sporadic instead of continuous and attractive. Mr. Woods' letter to Mr. Wright follows:

"I have just returned from Honolulu and am more impressed than ever with the possibilities of diverting to the interesting sections of the American continent and the Pacific a very material volume of the travel that has heretofore gone to Europe.

Hawaii Is Wonder Spot "For example, Hawaii, from which I have just returned, has innumerable scenic and recreational allurements that are virtually unknown to the East. It is equally true that the grandeur of the Canadian Northwest and the kaleidoscopic beauty of California and its adjacent states to the north are not half well enough known, however much they may be admired by the enthusiasts who are familiar with their marvelous aspects of nature.

"Briefly, it is plain that hotels throughout America suffer through lack of sufficient publicity for the tourist attractions of the Territory in which they are situated. I think this is attributable to the fact that whatever advertising is received by interesting American territory is sporadic or occasional in character, instead of being continuous and logically persistent and attractive.

Cooperation Is Urged "It seems to me that the remedy for this is a concerted and closely cooperative effort on the part of all important hotels in North America, which really possess extraordinary advantages for educational promotion. It is surely better for us to try collectively to stimulate travel through America in general and thus gain a considerable part of the immense tourist patronage of Europe than to try individually the cream of the travel that comes our way on its own initiative.

"Since, while traveling through all parts of the country recently, I have found a fine though latent spirit of cooperation, it has occurred to me that I might use the office of president of the A. H. P. A. to aid in some measure the crystallization of this spirit. I am therefore writing to men like yourself who represent different important hotel groups and soliciting an exchange of views."

# DEATH OF GALBRAITH DUE TO OWN NEGLIGENCE

That carelessness on the part of John Galbraith caused his death when he fell from a timber to the ground at Pearl Harbor, Saturday morning, was in part the verdict of a coroner's jury which heard the statements of the accident yesterday afternoon.

Officials of the Hawaiian Dredging Company, employer of Galbraith, testified that he, Robert Knau and William Noeua, the latter two being injured, were warned to secure themselves with ropes before they mounted the timber which fell. They alleged, the workmen failed to do.

Knau and Noeua, who were taken to the Queen's Hospital following the accident are recovering from their injuries.

# OLD WATER RIGHTS CASE REACHES SUPREME COURT

Transcripts of evidence and all the documents in the water rights case of the Hilo Boarding School against the Territory, the County of Hawaii and others, embracing about 1000 pages of typewritten matter and containing in the neighborhood of 300,000 words, were received in the supreme court yesterday. The case is now on appeal to the higher tribunal. It was begun many years ago, was tried by Judge Parsons last year, decided by Judge Quinn last June in favor of the plaintiff and appealed shortly afterwards by the Territory, through Arthur G. Smith, deputy attorney general, to the supreme court. The case is to determine water rights in the Hilo district.

# YOUNG HONOLULUAN TO MARRY ON LABOR DAY

James Thomas Carey, a former Honolulu young business man, and Miss Mary Margaret Kehoe will be married on Monday of next week in St. Patrick's Church, Bisbee, Arizona, according to cards received by friends of Mr. Carey in Honolulu. The young couple will be at home after October 1. Miss Carey is a daughter of Mr. and Mrs. M. J. Kehoe of Bisbee. Mr. Carey is now manager of the Bisbee Review.

# LIGHTNING KILLS FORMER ISLANDER

## Hugh M. Coke, One-time Maui Editor, Dies in California Thunder Storm

Struck by lightning during a thunderstorm which raged in Mendocino County, California, Hugh M. Coke, brother of Senator James L. Coke of this city, was killed on Monday near his home in Covelo, Bond Valley, according to wireless news received here yesterday morning.

A message to Honolulu Lodge No. 616, B. P. O. E., of which he was a member, received early yesterday morning from the widow, Mrs. Mary E. Coke, said: "My husband was killed by lightning yesterday. No particulars were given, and, up to a late hour last night Senator Coke had received no further news in regard to his brother's death.

"I have learned that a big thunderstorm was raging in Mendocino County on Monday," said Senator Coke last night. "Hugh must have been out and about his ranch in Covelo and fell a victim to the fury of the elements. My other brother, P. S. Coke, who lives in Oakland, must have gone to Covelo as soon as he learned of Hugh's death and I expect to hear from him shortly."

Hugh M. Coke was born in Morris-town, East Tennessee, on June 11, 1870, and was forty-six years, two months and eighteen days old. He came to these islands in 1897 and for some years was a government school teacher and principal of the school in Waiehu, Maui. For four years he was editor and manager of the Maui News of Waiehu. Having acquired some mining interests in California, he removed there about six years ago and was lately established on his ranch in Covelo, where his death occurred on Monday.

The deceased was well and favorably known throughout Hawaii, particularly in Maui, where he made his residence for some years. About two years ago Mr. Coke visited the Islands, remaining about three months, during which time he traveled extensively throughout the group.

He is survived by the widow and their five children, the eldest son being thirteen years old.

As a mark of respect to the late Mr. Coke the public utilities commission adjourned its weekly meeting yesterday afternoon after transacting only a small amount of business, Senator Coke attorney for the commission, being a brother of the deceased. Senator Coke was not present at yesterday's session.

Mr. Bergman comes to Punahou with a long record of excellent experience. He is a man of rare ability in many lines; a brilliant student in college, a successful man in business, a proved teacher, brilliant soloist of Colgate University Glee Club, a versatile athlete and a pleasing personality. He is to be the head of the boarding department, and his services and talents will be a great asset to the school. He brings with him his wife and his two boys and his sister. Mr. Bergman comes from Chicago.

In Miss Jane Winne Punahou has a teacher of English who has already proved her ability and worth to Honolulu. Miss Winne has been studying music the past year in Chicago.

Miss Berkeley of Seattle is to teach in the grades. Both Miss Berkeley and Miss Vere Snyder—taking the place of Miss Clara Brawther as teacher of typewriting—come most highly recommended.

H. E. Marsh, University of California, B.S. is to teach English in place of Mr. O. P. Jump. Mr. Marsh is also an athlete and will assist in training Punahou's tennis this season.

# GIGANTIC EXCURSION PLANNED FOR HAWAII

John S. Mitchell, head of the Holtenberg Hotel Company of Los Angeles, president of the chamber of commerce of that city, has been the promotion committee and the chamber of commerce here to lend a hand in the organization of a gigantic excursion from Los Angeles to Honolulu on the first trip of the Great Northern this fall.

In a letter to A. P. Taylor, secretary of the promotion committee, Mitchell says that he has taken the matter up with H. A. Jackson, general traffic agent of the steamship company, and that the traffic man is doing all he can to boost the game.

Taylor will write to Mitchell by the first mail assuring him of the hearty and active support of the plan, which indeed originated with the committee here.

# SAN FRANCISCO POLICE NAB SAKAN ON ARRIVAL

Hidetazo Sakan was arrested in San Francisco yesterday morning on the arrival of the Matsushima from Honolulu, according to advices received here from the police of the Coast city. The man's arrest was made at the instance of the Honolulu police. As told in yesterday's Advertiser, extradition papers are being returned to San Francisco to secure the return of Sakan, who is being indicted by the territorial grand jury with K. Hirata, on a charge of criminal conspiracy. The San Francisco Dispatch referred to Sakan as an accomplice in the recent Hiroki Emoto murder case at Waikiki. This, of course, was erroneous.

# WHY THAT LAMB BACK?

That morning lameness, those sharp twinges when bending over, and that dull, all-day backache, are enough reason to suspect kidney trouble. Get right after the cause. Help the kidneys.

Kidney weakness is about the most common ailment known. We work too hard, we worry, we eat too much (especially meat), we drink strong drinks, and we neglect our outdoor exercise, rest and sleep.

This sort of a life fills the blood with poisonous wastes and the kidneys weakened from the overwork of purifying heavy blood.

Of course such habits must be given up if the sufferer wants to be rid of kidney trouble for good.

But the kidneys need outside help, too, and that is just what Doan's Backache Kidney Pills are for. People all over the world recommend Doan's. If your trouble is like that, get a box of Doan's and try them.</
