

PRESIDENT GIVES CHANNEL WHARF TO TERRITORY AGAIN

Harbor Board Takes Instant Advantage of Receipt of Executive Order

WILL DRAW UP TENTATIVE PLANS FOR BIG BULKHEAD

Forbes Proposes Enlargement of Kuhio Wharf to Hold Six Steamers

The long fight of the harbor board to secure possession of the site of the Channel Wharf for the Territory has been won.

Immediately after the reading of the executive order by which President Wilson authorized the transfer of the land to the control of the Territory, Col. C. J. McCarthy, territorial treasurer, and a member of the board moved that the board authorize the drafting of plans for a bulkhead 925 feet long.

The bulkhead will stretch from the present location of the mine planter to Pier 2. The construction of a great wharf by the Territory will mean that the whole face of the harbor will be changed in that section.

The land, totaling about four and one-half acres, has been held by the navy department since 1898, when it was taken from the Territory by a joint resolution of congress.

Commissioners Pleased "This is the best piece of work for the city that the board of harbor commissioners has carried through in a long time," said Mr. Forbes, yesterday.

"We feel more than pleased with the outcome of our labors, and the citizens of Honolulu will ultimately reap the benefit. The port is growing rapidly and we are going to need this space badly for wharves.

"It is planned to construct a concrete retaining wall around the entire wharf, which is to have a concrete deck. Incidentally we hope to install a lumber conveyor at the same time.

"The executive order giving the Territory the ground reserves a certain portion of it for the use of the army, approximately 26,000 square feet. This will be used as a road way and landing stage for the quartermaster barges and other purposes.

"After adopting the motion of Colonel McCarthy the board took up the question of the moorings in Hana harbor as proposed by Capt. John R. Macaulay, territorial pilot.

Word comes from San Diego that the occupants of the Pan Pacific Building have set an example to the whole Exposition of peace and cooperation.

Word comes from San Diego that the occupants of the Pan Pacific Building have set an example to the whole Exposition of peace and cooperation.

Charles R. Forbes, the chairman of the board submitted a plan for enlarging Kuhio wharf, so as to enable six steamers to dock at a time.

The plans also include the straightening of the shore line of Kuhio Bay opposite the wharf over a distance of approximately 2400 feet and the construction of a bulkhead along this improved lead.

Charged with selling booze to a drunken man, Ohoy Lee, proprietor of the Pacific Saloon, was found guilty of the charge by the liquor license commission at a meeting held yesterday afternoon.

On Tuesday Mayor John C. Lane signed an ordinance reducing the price of water from six cents to five cents per thousand gallons.

A cable to the Hawaii Shippo last night stated that the baseball game between the St. Louis nine of Honolulu and the nine of the Meiji University, scheduled for yesterday, was postponed on account of rain.

HILLO RAILROAD SHOWS A PROFIT

Operations For First Six Months Net Gain For Company of Fifty Thousand

The following is an official statement by the treasurer to the president, of the financial status of the Hawaii Consolidated Railway, the successor to the Hilo Railroad Company, and its operations for the five months from April 1 when the new company took possession to August 31, 1916.

It shows that for the five months the company made a profit over and above all expenses and fixed charges, of \$50,345.08.

"J. R. Galt, Esq., President, Hawaii Consolidated Railway, Ltd. Dear Sir: I beg to hand you here with report of the financial condition of the Company from April 1, 1916, (the date on which the new company started) to August 31, 1916.

"The profit for the five months, after charging off the proper proportion of all overhead expenses, such as bond interest, rents and taxes, amounted to \$50,345.08, the profits by months being as follows:

April \$12,720.16 May 8,564.20 June 9,162.59 July 11,947.72 August 15,000.00 Total \$50,345.08 Average per month \$10,069.01

"It should be noted, however, that these returns include profit from sugar hauling which cannot be counted on for more than about eight months out of the twelve.

"During the five months the amount expended for additions to the property has been \$21,048.12. These additions consist mainly of a new oil tank at Kahoia Bay, tank cars and various spurs for hauling plantation molasses.

BALANCE SHEET DATED AUGUST 31, 1916. Assets: Cash on Hand and in Bank \$6,126,388.65

"A. W. T. BOTTOMLEY, Treasurer, Hawaii Consolidated Railway, Ltd.

JAY GOULD IS TO BUILD HOME HERE

So He Tells a San Francisco Paper, Praising Hawaii As Paradise For Sportsmen

Three months of life in Honolulu have convinced Jay Gould, millionaire sportsman of New York, that the Hawaiian Islands are wonderful as a summer resort, a fisherman's paradise and an ideal place for polo, according to what he told a reporter for the San Francisco Chronicle, which says in its issue of October 11:

"Gould, accompanied by his wife and their two little daughters, Eleanor and Anne, arrived yesterday on the Wilhelmina, and will be at the Fairmont a few days before returning to New York.

"Mrs. Gould, who was Miss Anne Douglas Graham, is a native of the island, and this was her first visit home since her marriage to Gould in New York five years ago.

"Gould said yesterday that he is planning to build a residence in Honolulu, which he and his family will occupy a portion of each year. During his sojourn there this summer he captured the Kahoia polo team, on which he played number four.

"We have had four teams, but owing to the inexperience of some of my players, the Kaui team finished in third place," said Gould. "Next year we will begin to show some class in polo. I found the fishing in the Islands ideal. It is certainly a sportsman's paradise."

"The following statement shows the financial condition of the Company at the close of August.

INVENTOR OF A WIRELESS PHONE HERE ON MISSION

Eitaro Yokoyama, of Japanese Ministry of Communications, To Visit Local Wireless Plants

ERRAND WILL TAKE HIM ACROSS ATLANTIC

Visit Not Connected With Opening of Hawaii-Japan Wireless System, He Says

Eitaro Yokoyama, radio engineer of the electro-technical laboratory, ministry of communications, Tokio, one of a trio of men who have perfected a wireless telephone system which is in practical operation in Japan, arrived yesterday morning by the steamer Siberia Maru, on a tour of wireless study and research which eventually will take him to Europe.

Though he intends remaining in the Islands three weeks, he denied yesterday that his visit has any official connection with the completion of arrangements for wireless service between Hawaii and Japan.

He declares his mission is strictly one of scientific research. While here he will be the guest of S. Aoki, manager of the local branch of the Yokoyama Specie Bank, to whom he is related.

Famous Technicalist Mr. Yokoyama is one of three inventors who perfected and put into operation the T. Y. K. wireless telephone system in Japan, after six years' study and experiment.

He has received invitations from D. S. P. Pillsbury, general superintendent of the New York office of the Marconi Wireless Company, Ltd. from W. C. S. Hawk, Honolulu manager, to visit and inspect the Kahoia plant, and said yesterday he would remain there several days, examining the big establishment.

He will depart by the Nippon Maru, November 8, proceeding directly to Chicago, and after a three weeks' visit in the Windy City will go to New York, remaining in the vicinity of the metropolis about four months before continuing to Europe.

SPORTS ALL-AMERICANS DUE IN NOVEMBER

Fast Ball Team Coming On Great Northern: First Game With Wreckers Sixteenth

Coaching Staffs Changed: Minnesota Looks Like Winner In 'Big Nine'

A general view of the football situation in the Middle West is well worth while at this time. By the end of this month most of the teams should be playing football.

Paul Withington, who has been one of the assistants under Percy Haughton at Cambridge, has taken the position of chief mentor at Wisconsin this year, succeeding Jensen. Withington will have his hands full, as the Badgers did not land in the first division last year, and there will be much building to do.

Smith, the former Penn. fullback, who has been coaching at Purdue is now with the University of California and O'Donnell has succeeded him at the Middle Western institution.

HALEY GIVEN OFFICIAL PRAISE

Internal Revenue Office Classified As Number One In Report of Department Agent

The internal revenue office here, under the direction of Collector Haley was rated "No. 1" at the last visit of a revenue agent. Announcement to this effect was received by the office yesterday, and from the collector down every member of the staff of workers was jubilant.

"It was but one and a half when I took charge," said Collector Haley yesterday. "That was May 1, 1915, and we have been working hard to get things into the best possible shape ever since then. Number One rating is the very highest given any office of the United States revenue service, and we are proud of it. Only a few offices have that rating."

J. M. Dolde, a special revenue agent made the investigation and report upon which the rating is based. He reached Honolulu September 12 without warning to the local officials, and spent eight days going over every feature of the local work.

On leaving here he paid the highest compliment in his power to Haley's management of the office, and the copy of his report which has been received here bears out his promise to speak well of the work that Haley and his men are doing. The copy of the report and the announcement of the high rating for the Honolulu office was received from Commissioner of Internal Revenue Osborn yesterday. The concluding paragraph says:

"Collector Haley devotes all the business hours of the day to the discharge of his official duties, maintaining a close supervision of the work in the office; proper office hours are observed and the entire force seems to be faithful and efficient in the discharge of their respective duties. Office files were in neat order, and all the records written up to date. It is a pleasure to report that this office is in excellent condition."

SPRECKELS IS SUED FOR SUGAR PROFITS

Stockholder Wants His Share in Commissions Returned To Federal Company

Claus A. Spreckels, president of the Federal Sugar Refining Company, has acknowledged that he was a special partner in the firm of Smith & Schipper, selling agents of the Federal company, and since January 4, 1915, had received a salary of \$25,000 a year as president without the knowledge of Federal stockholders, says an article in the New York Times of October 5. Both admissions, which Mr. Spreckels defended as regular and proper, were made in his answer to a suit brought in the supreme court of New York by John Delahanty, a lawyer and stockholder of the refining company, for an accounting of Mr. Spreckels' profits as a member of the firm of selling agents.

Mr. Delahanty brought his suit in behalf of himself and other stockholders of the company, and declined to take the initiative and after its failure to conform to requests in a letter of last August 21, in which Mr. Delahanty said:

"As a stockholder of your company I hereby request you to get out of the existing contract between Smith & Schipper and your company, and also to compel your president, Mr. C. A. Spreckels, who is also a director of the company, to pay over to the company such sums of money as he has received in the past as a special partner in Smith & Schipper."

Mr. Spreckels, in his answer, says that his partnership in the selling agency is not inimical to his duties as president of the refining company and, on the contrary, by it the refining company has been assured a closer insight into and a more intimate supervision over the company's business coming to that firm. He points out also that Pierre J. Smith, treasurer of the refining company, and Abner H. Platt, the secretary, are also special partners in Smith & Schipper.

As to his salary, Mr. Spreckels says this was voted to him by the directors in his absence and asserts that the payment of a salary to a president is so customary that Mr. Delahanty should be charged with the notice of it, though he admits that no mention was made of it at a June directors' meeting over which he presided.

ATLANTA, Georgia, October 16.—Grand circuit races to be run here beginning October 16 will mark the revival of trotting races in the South. It has been several years since the last southern meeting was held in Memphis.

The track which has been constructed for the meeting is said to be unique. Four projecting arms of a lake have been filled and cut down to complete the mile oval. The constructors have it so arranged that spectators sitting in natural amphitheater will see "every hoof every time it hits the ground."

About \$60,000 has been spent on the track by the Southeastern Fair Association.

Several years ago an artificial lake was left when a waterworks plant was removed from the site at Lakewood. It is around this lake the race track has been constructed. It was necessary to cut away part of a steep hill at the place selected for the track. The remainder of the hill sloped at a proper angle to support the concrete grand stand.

At the first turn an arm of the lake was filled in and just around the first turn it was necessary to take a large slice out of another hill to build the track. Just at the end of the bank stretch and leading into the second turn the track filled all 100 yards long had to be made.

As the horses flash over this fill they immediately will be given another dirt background as they enter another cut and then they will speed upon another fill in the turn for the home stretch. As they straighten out they will be in a short cut and then they will be over a fill about 75 feet long just before they reach the wire.

All of the hills formerly sloped down to the edge of the lake, consequently the spectators will view most of each heat across water and the background will be water and hills for the entire distance.

The entry list is not yet available but it probably will include Napoleon Direct if "Pop" Geers, of Memphis, is able to drive.

NINETEEN-YEAR-OLD GIRL WINS GOLD CHAMPIONSHIP Miss Alexa Stirling of Atlanta, Georgia, won the woman's national golf championship of the United States on the links of the Belmont Springs Country Club, Mass., October 7, by defeating Miss Mildred Caverly of Philadelphia, 2 and 1, in the final match of the annual title tournament.

The winning of the highest golf honor for women by a nineteen-year-old girl was regarded as the most notable achievement in the history of the United States Golf Association. Her handling of iron clubs was phenomenal.

CELLAR OAKS SHUTOUT FIGHTING TIGERS

PACIFIC COAST LEAGUE

Los Angeles W L Pct. Vernon 107 72 601 Portland 90 82 564 San Francisco 90 75 529 Salt Lake 82 85 463 Oakland 70 119 365

Yesterday's results: Salt Lake 11, San Francisco 4. Oakland 1, Vernon 0. Los Angeles 4, Portland 3.

(Associated Press by Federal Wireless.) SAN FRANCISCO, October 19.—Oakland, that lowly ball team that belongs to Del Howard, played a tight game yesterday, the Tigers going down in defeat by one to nothing, which is the first one to nothing game which has appeared in the scorebook of the Pacific Coast League for some little time.

The Beavers gave the crew of Frank Chance a little trouble, but the latter was out. Salt Lake evidently enjoyed the offerings of the Seal albatross yesterday for they hung eleven large counts.

AMERICAN SETS NEW RECORD IN HURDLES

STOCKHOLM, Sweden, October 17.—Twelve thousand spectators witnessed the second day's program of the big dual field and track meet yesterday between the American and Scandinavian athletes.

The Americans made a somewhat better showing than in the events of the opening day, one of the features being the new world's record for the 120-yard hurdles, set by Simpson, of the western team.

Simpson covered the high hurdles in 14 4/5 seconds, which is a 5/8 of a second faster than the time made in the event by F. C. Smithson, of the United States, on July 22, 1908.

The westerners also won the relay, and Meredith finished third in the one thousand meter event.

SUGAR PLANTERS TO MEET DECEMBER 5 The annual convention of the Hawaiian Sugar Planters' Association will begin on Tuesday, December 5. The convention will last three days at least and will wind up with the usual annual banquet. The managers of all the Hawaiian sugar plantations, in addition to officers of the association and other prominent sugar men, will attend. Many valuable reports will be presented and things sugar will be gone over in a most systematic and thorough manner.
