

ITALY HOLDS TEUTONS BACK ALONG ENTIRE LINE OF FRONT

Fresh Troops Launch Attack For Austro-Germans In Trentino Sector But All Assaults Successfully Repulsed

BRITONS GAIN VICTORY OVER TURKISH FORCES

Intense Naval Activity Is Reported In Gulf of Trieste and Allied Fleets Open Bombardment Along Coast of Turkey

NEW YORK, November 5—(Associated Press)—Attacks in force by the Teuton armies on the Trentino front, artillery duels on the Tagliamento River, intense naval activity in the Trieste Gulf, an important victory for the English over Turkish forces in the East and a bombardment of the Turkish coast by vessels of the Allied fleet were the outstanding facts of importance in the news received from official sources of war operations in the various war zones. Operations in Flanders were reported to have been of minor interest.

NEW ATTACK OPENED

It is evident that the troops reported last week to have been hurried toward Trent by a doubling of the number of troop trains have gone into action for reports from Rome yesterday told of heavy attacks launched by the German-Austrian armies on the Trentino front. These were successfully met and repelled by General Cadorna, Rome reported. The report further said that on the Tagliamento River artillery duels were being continued. To the Teuton fire the Italians replied heavily. On the left wing of the Italian army the pressure of the Austro-Germans intensified but no important advances were made.

TRIESTE ACTIVITY

Intense activity in the Gulf of Trieste was a bulletin sent by the Italian navy to the Italian headquarters in Northern Italy. The bulletin did not say whether the activity was occasioned by intended movement of the Austrian fleet or by the appearance of additional allied squadrons off the port.

In Flanders anticipated assaults by the Allies did not appear but there may be announcements today or tomorrow of further important drives by the British, the French or both.

TURKS DEFEATED

Northwest of Bagdad British armies drove a sharp salient into the Turkish front, won a victory and forced the Turks to retire a distance of twenty miles. In this victory thousands of prisoners have been taken and many guns. Bombardment by the Allied fleets of the Turkish coast was reported by Constantinople in a despatch which said that the shore batteries replied. The attacking fleets came in from the Mediterranean and for several hours the bombardment was carried on heavily.

MUCH EXTRA BUSINESS IS DONE BY RAILROADS

NEW YORK, November 5—(Associated Press)—The immensity of the work the railroads are now called upon to do was shown in a statement by the Railroad's War Board of which Fairfax Harrison is head, when it announced that approximately 2500 carloads of food and other supplies are being delivered to military camps in this country daily. "Five pounds of food a day is required for each soldier," the statement said. "In addition to this, clothing, fuel and other supplies are required."

HOTTEST MUNICIPAL CAMPAIGN WILL END IN GOTHAM TONIGHT

NEW YORK, November 5—(Associated Press)—Tonight will see the close of one of the hottest campaigns that Greater New York has ever witnessed in the course of a municipal election. Friends of all of the three leading candidates are claiming victories, but shrewd political observers insist that the result will probably be very close.

The campaign which closes tonight and in which the ballots will be cast tomorrow, has been a triangular affair, with a fourth candidate, a Socialist, at no time considered an important factor. John Parroy Mitchell, the present mayor, has made a battle for reelection which commands the respect of even his opponents and his enemies.

Mayor Mitchell was beaten at the primaries although on the face of the returns he was nominated. Charges of fraud were made and Mitchell demanded a recount which, although unofficial, went against him. William Mason Bennett then became the regular Republican nominee and Mitchell accepted an independent nomination and has made his race as an independent candidate.

SAMMIES IN FRANCE WILL ENJOY GENUINE CHRISTMAS-TIDE FARE

WASHINGTON, November 5—(Associated Press)—American soldiers in France are to enjoy good old-fashioned Christmas dinners even if they be across the ocean from their homeland, their families and their relatives. These dinners will be served in the Y. M. C. A. huts, announcements from the American Training Camp in France received yesterday said. The menu will include turkey, stuffing, cranberry sauce, vegetables, plum pudding and mince pie and other Christmas Day dishes. There will be Christmas trees, too, and gifts will be distributed to all. Plans for the amusement and entertainment of the National Army in training at home are going forward. There is to be a chain of sixteen theaters in the various camps, with the exception of Camp Lewis. These theaters will be self-sustaining and there will be a regular vaudeville circuit to supply the entertainers. There will also be dramatic productions from time to time to relieve the sameness of programs.

MOST DEADLY GAS IS USED BY FRENCH

Returned Ambulance Drivers Tell of Gas Causing Thousands to Drop Dead

AN ATLANTIC PORT, November 5—(Associated Press)—A gas infinitely more deadly than the German mustard gas has been perfected by the French and is killing entire regiments of the Kaiser's forces at a time, according to a report brought by two American ambulance drivers, who arrived aboard an American steamer here. "When the Germans started using their most recently discovered gas, which makes breathing, even through masks, very hard, the French brought themselves of some retaliatory measure, and they hit upon a gas, compared to which the German mustard gas is harmless as a delicate perfume. The French gas defies masks altogether and is entirely odorless, and has the characteristic of causing an instantaneous hemorrhage of the lungs. In one instance it was used to such good advantage that 500 Prussians dropped dead in their tracks. They were shielded by masks."

"LIBERTY MARCH" IS COMPOSED BY SOUSA

Lieutenant John Philip Sousa, now at the Great Lakes Naval Training Station, has written the music for a great war song. Who will write the words? Lieutenant Sousa pulled down the blinds and went to bed at five o'clock in the morning after having worked all night on the finishing touches to his musical masterpiece, "The Liberty March." The air was an inspiration, and music critics believe the "March King" has written the greatest marching tune of the war.

READY TO STRIKE

PARIS, November 5—(Associated Press)—Because their demand for an increase in pay had been refused the employes of the automobile omnibus and tramway lines have voted a twenty-four hour strike to begin immediately.

Belgian Girls Made To Dig Hun Dugouts

Even Young Girls Forced To Work Under Fire By Their Inhuman Captors

BRITISH HEADQUARTERS IN BELGIUM, November 5—(Associated Press)—Women and even young girls of Belgium are compelled to do the work of strong men and forced to go under fire in the performance of such work, is the hideous condition that has been disclosed by papers taken from German prisoners in the recent successful drives of the British forces. Conditions of unbelievable barbarity are disclosed from sources which leave no doubt of their existence.

In the face of death and danger of bodily injury Belgian women and girls are being led or driven by the Huns to points close to the fighting front and there, subjected to the artillery fire of the Allies, they are compelled to dig dugouts and otherwise to assist in the construction of concrete entrenchments.

CANADA TO KEEP ON WITH SPLENDID AID

Laurier Outlines Plans For Dominion in Program For His Party; Submit Draft

OTTAWA, November 5—(Associated Press)—Policies of the Canadian government were outlined by Premier Laurier in a manifesto which he issued yesterday outlining in general the party program and its hopes. These include the prosecution of the war with unabated vigor on the part of Canada.

As outlined by Laurier the program provides for the supplying of men, the money and the other resources to enable the Dominion to continue to the very end the splendid part it has played and hopes to play in the winning of the war.

BRAZIL PREPARES TO EXACT REPRISALS

RIO JANEIRO, November 5—(Associated Press)—Brazil is going steadily ahead in preparations for reprisals against German aggressions despite the pro-German uprisings, strikes and other seditious means that have been taken to deter the government.

GIVEN UP FOR DEAD BUT RETURN SAFE

White Bear and Four Men Brought Back To Nome

NOME, Alaska, November 5—(Associated Press)—Driven out to sea in a storm, given up for dead, but brought home safely to port is the fate of four men who reached here yesterday. It is a week ago that a tug was commandeered to go out and search for the White Bear which, with four men aboard of her had been driven out to sea. As the time went on and the tug did not return hope diminished and it came to be believed that the men had died of hunger and exposure. Yesterday, however, the tug returned with the White Bear in tow. She was undamaged and all four of the men who had taken their involuntary voyage aboard her were safe and in good health.

REACHES VIENNA

AMSTERDAM, November 5—(Associated Press)—Abbas Hilmi, formerly Khedive of Egypt, who recently left Switzerland for Vienna, has reached the Austrian capital, says a Vienna despatch, and has been received by Emperor Charles.

LINER TENYO MARU GOES ON ROCKS IN FAR EAST WATERS

Passengers All Saved, According To Cabled Information Received Here Last Night

HOPE EXPRESSED SHIP WOULD BE FLOATED SOON

Accident Occurred Four Days Out of Yokohama; Extent of Damage Is Not Known

The big liner Tenyo Maru struck on the rocks four days out of Yokohama, according to a cable message received last night by the Hawaii Shiping. No lives were lost and the ship has probably by this time been pulled off the rocks, according to the brief cable which told of the accident. The message read:

"Tenyo Maru struck rocks four days out of Yokohama. Passengers safe. Hope off rocks today."

In view of the fact that all cable messages from the Orient are subject to about three days delay, the message would indicate that, if the hopes expressed were realized, the Tenyo is by this time out of her dangerous position. Will Delay Arrival.

The accident will in all probability disarrange the Tenyo's schedule and delay her arrival at Honolulu, as she would undoubtedly be placed in dry-dock for a complete survey of the damage done to her before being allowed to proceed across the Pacific.

It is believed to have occurred somewhere between Kobe and Nagasaki. Or it is possible that it was on the dangerous rocks of Wosung, China, that the liner struck, where many other vessels have been wrecked during the past few years. This place is about four days from Yokohama on the inward voyage.

The Tenyo Maru, Capt. H. S. Smith, is one of the finest vessels operating under the Toyo Kisen Kaisha house flag and maintains an average speed of about seventeen knots. Up to the time the Great Northern was placed on the Island-Coast run, this vessel held the record passage between here and San Francisco. There was only a few hours difference between the times of the two liners.

AUTOMOBILE STOLEN BUT IS RECOVERED

Found By Some Person Unknown To Police

An unregistered Ford roadster was stolen at nine o'clock Saturday night from the garage of J. Nagano, near the junction of South Baretina and King Streets and was found by a person known to the police on the Young Street extension at two-fifteen o'clock yesterday afternoon. The car was undamaged, and was driven by the finder to the owner's garage.

A message was received at the police station about seven o'clock yesterday morning to the effect that the car, which bore the number 1778 had been stolen the previous night. The voice at the phone was that of a woman, and the same woman notified the police yesterday afternoon of the finding of the automobile.

Nagano formerly owned a Saxon car but recently purchased a Ford and put the Saxon's number on his new car. The police say, without having taken the trouble to register it, which in itself constitutes a violation of the law. Motorcycle Officer Stappeler reports that he saw the stolen car about eleven o'clock on Saturday night at the corner of King and Alapai Streets, but was unaware at the time that it had been stolen.

SEEKS TO LAY IN SUPPLY OF STAMPS AS POSTAGES RISE

A funny thing happened at the Waiuku postoffice yesterday morning, says the Maui News of Friday last. A Japanese came in and wanted to purchase a hundred dollars' worth of two-cent stamps. A sale of that size was never heard of on Maui and the postmaster was curious to know why the man wanted so many stamps. The would-be purchaser explained that he had seen in the paper that postage would go up to three cents today, and he wanted to save money by buying stamps in advance.

CALL FOR HAWAII DRAF QUOTA MAY AWAIT NEW PLAN

Exemption Boards Will Probably Have To Mark Time Until Method of Selection Is Approved

INDUSTRIAL VALUE OF MEN TO BE CONSIDERED

Sugar Industry of Territory Liable To Be Affected By Increased List of Rejections and Exemptions

Until President Wilson has fully approved his own plan for a change in the method of selecting men from draft quotas for the National Army the exemption boards in Hawaii may have to mark time for a few weeks after all, and, in all probability, Maj. Francis Green, chairman of the draft board, will not receive early notification from Washington as to the number of men required from Hawaii for its first contingent.

In selecting men who have been given on new registry numbers throughout the Islands, the local exemption boards will follow the new plan for drafting men into the army in December or early in January, by taking only those absolutely physically fit, having neither dependents nor value in essential war industries.

This plan is followed to the letter in all cases, and it is probable that the actual number of men who Hawaii may eventually send to the front, for undoubtedly there will be a much larger list of eliminations and rejections from the lists as compiled through the capsule drawing of last Thursday than previously planned.

This comprehensive and entirely new plan for applying the selective draft, as proposed by the President, would take first, only men without dependents, and establish various grades of dependency and industrial value from which future drafts would be made on a purely selective basis. The plans have been worked out in the provost marshal's office in Washington and discussed in detail with the President.

The plan was submitted to a conference of civilians who directed exemption board activities in a number of States and received the endorsement of many of them, and these in turn have taken up a similar discussion with the state governors.

It is proposed to formulate in each draft district, a table of all registrants placing each in a column denoting his dependents and industrial value in the war's prosecution.

Industrial classes under consideration in this connection are farmers, shipyard employes, motion workers, railway and transportation employes, miners, steel plant and motor industry workmen, and certain other individual plants or industry branches to be designated from time to time by the President or war department as temporarily essential.

No class would be exempted as such, but the valuable men would be placed so that they would not be called until the need for soldiers became more urgent, and all the less essential classes were exhausted.

When the plan involves a determination by the government of what industries are the most valuable, and this list may include the production of sugar in the Islands, as an absolute food necessity, Farmers' organizations, shipping board officials and shipbuilders on the mainland, as well as munition makers, are insisting on the prime importance of their own employes in civil work.

The entire program will be made known from Washington as soon as it is completed and fully approved by the President to allay the anxiety prevailing throughout many industries over the next draft, which had been planned for early in December before the new plan was proposed which may delay proceedings for one month, or early in January.

The proposed plan is expected to meet President Wilson's objections to class exemptions.

LIVES ARE LOST AS MISSION IS BURNED

PATTERSON, New Jersey, November 5—(Associated Press)—Up to an early hour this morning eighteen bodies had been recovered from the ruins of the Salvation Army mission which was destroyed by fire yesterday. It is believed that there are a number more of bodies that have not yet been reached.

EARLY COLDS

Be careful of the colds you take at this time of the year. They are particularly dangerous. A neglected cold may mean a winter-long cold. Take Chamberlain's Cough Remedy at once. For sale by all dealers. Benson, Smith & Co., Ltd. Agts. for Hawaii.—Advertisement.

GREAT BRITAIN'S RULER FACES GERMAN GUNNERS ON JOURNEY TO ITALY

Monarch Carries Personal Assurance To Italians of Support In Time of Peril After Conference With Army Staff

GUNS AND REINFORCEMENTS LEAVE

WASHINGTON, November 5—(Associated Press)—King George of Great Britain and Premier Painleve of France faced a rain of German artillery and visited the American sector at the French front yesterday. King George is going to Italy to assure his Ally that it may count on all possible aid and assistance from Great Britain in its hour of peril.

While the German artillery was raining high explosives upon the sector actively occupied by American forces on the Western front, with shrapnel bursting all about the King of Great Britain and Ireland and emperor of India and the French Premier went into the American trenches and saw their latest active Ally facing the fire of the common enemy, an active participant in the actualities of the great war.

Taking advantage of the occasion of his journey to Italy the British king made the opportunity, in the face of real peril, to visit the American fighters. He had seen troops of the United States in training in England but he had not previously seen them in actual war service.

LEAVES FOR ITALY AFTER CONFERENCE

Advices from London yesterday told of the departure of King George for Italy and Paris despatches said that Premier Painleve had accompanied him to the American front and of the heavy fire directed against that sector by the German big guns at the time.

The departure of the King for Italy followed a conference with Generals Smuts, Robertson, Maurice, Willson and other staff officers. He will carry personally to stricken Italy that Great Britain is squarely behind her with needed support and that every aid that is possible will be extended. The danger of discouragement at home following defeat at the front is thus clearly recognized and steps are taken to prevent or alleviate it.

SUPPORT ALREADY EXTENDED

Meanwhile both England and France are otherwise showing Italy that they are united with her to oppose further advances upon her territory by their common enemy. Already men, guns, munitions and supplies have been sent and some of the best "war brains" of the two countries are enroute to some point in Italy for a conference. They will join King George in assuring the Italians that they will give what goods are necessary and to reassure them if that shall be found to be needed.

VATICAN WARNED AGAINST PROPOSALS

Leaders of the Italian Catholic party held a conference yesterday at which they extended to the government a pledge that it would be given the undivided support of the party and at the same time informed the Vatican that any proposals that ran counter to the national aspirations would be most unwelcome.

In the war review which was issued yesterday by the United States war department stress was laid upon the fact that already France and Great Britain had gone to the aid of Italy and that large numbers of reinforcements had been sent. The review said those two countries and Italy were firmly united for the defense of the Italian border and that assurance of the fact had already been received by Rome.

The review made very little mention of the American army and none as to its movements.

EXTEND FOOD PLEDGE WEEK Campaign Will Continue On

WASHINGTON, November 5—(Associated Press)—Food Pledge Week has become food pledge fortnight for it was announced yesterday that the splendid campaign of last week will be continued through this week.

It was not because the food administration is not satisfied with the results of the food pledge campaign but it has been found that the task which was undertaken by the half million volunteers was too fast to be properly accomplished in a single week. It is desired that the request to enroll with the food administration and support the government in the conservation of the food supplies of the nation shall be presented to the women of twenty millions of families before the campaign is ended. This could not be done in a single week.

Thus far, it was reported last night, there have been turned in 6,469,467 pledges and there are still many outstanding reports. On the totals now in California leads all other states of the Union with 446,562 pledges.

By continuing the campaign for another week it is expected that more than ten million families will have been secured for membership in the national association and to live in accordance with the desires of the food administration so far as table dishes and management are concerned.

WAIAKEA HOUSE LOTS TO BE READVISED

HILO, October 27—A letter from the Commissioner of Public Lands, B. G. Hivesburg, received yesterday, states that it has been found necessary to re-advertise the notice for the drawing of the Waiakea house lots, and to return all applications which have been filed. The drawing in question will take place Friday, December 21st, 1917, and all applications for participation in the drawing must be in the office at Honolulu not later than Thursday, December 20th, at 4 p. m. The selections of lots will be held Monday, December 21st, at the Court House, Hilo, Hawaii, beginning at 9 o'clock a. m.

NEW CHANCELLOR IS SEEKING FOR ADVICE

LONDON, November 5—(Associated Press)—Conferences were held by von Hertling, the new German chancellor, yesterday with von Ludendorff and von Hindenburg at which policies were discussed at length and in which he sought and received advice from both of them.

It is announced that von Hindenburg will make his first official appearance before the Reichstag on November 22. The speech which he will then deliver is awaited with the deepest interest and concern by all parties and it is expected that it will have the widest effect on his possibilities of success in the office to which he has been called.
