CARTER HEAD OF THE ENGINEMEN

Charges Against Hannahan but They Were Not Sustained, and Reports Were Private.

COLUMBUS, Ohio, Oct. 9.—W. S. Carter has been secretary a number of years. Hannahan has been an officer in the brotherhood for twenty-three years. He was vice grand master in 1888, and grand master six years ago.

Opposition to Hannahan developed as soon as the delegates began to gather. Charges were preferred against him and they were referred to a committee for investigation. Majority and minority reports were filed, but no recommendations were made. Neither charges nor reports were made public, but it was stated they did not in any way affect the integrity of Hannahan, but related to his personal conduct.

JONES GREETED WITH BIG CROWD

Dodge's Theater Well Filled With People Who Listen to the Senator —Elected From Washington.

ABOUT WATER POWER

Confident That Taft Will Be Elected and Small Audiences Indicated People Were Satisfied.

This afternoon at Dodge's theater, Hon. Wesley L. Jones of Washington state completed his address. The audience was not a large one but all were interested and gave the speaker the most earnest attention from the time he was introduced by Hazen I. Sawyer until he concluded.

The speaker began by saying that a small crowd bade good for the party, for it shows that the people are satisfied and do not want a change. Conditions have changed since the campaign of 1896 when everybody was excited and campaign meetings were big and exciting.

The Water Power.

I want to congratulate you people of Keokuk upon the prospects of the wonderful development of the water power in the river here. If the election turns out right, I have no doubt that the water power will be developed and that the great dam in the river will be constructed in the near future, making this a great manufacturing city. If nothing is thrown in the way of this project, this power will no doubt be constructed.

The party and man, mostly responsible for the awakening of this proposed conservation of water power, not only here, but in the streams all over the country, are the republican party and President Theodore Roosevelt.

No Fear of Result.

When we find the people of the country talking over political matters, calmly, carefully and thoughtfully, I have no fear of the result. We all want good government in this country. This government is founded on the principle that every man is entitled to his own opinion. The times of bitter political feelings is passing away.

What we want in this country is that the best policies that will bring the greatest good to us, be put into operation. We want the party in power which will bring the most happiness and contentment. Let us consider the record of the two parties. If we do that, there can be no comparison as to which is the best. In the last twelve years we have found out which party is the one we need.

Prior to 1892, every time we have had democratic rule, we have had disaster, business depression and hard times. What we predicted in 1892 came true. From 1892 to 1896, was the only period since the civil war that democratic policies were enforced. All over the country, there were business failures, banks broken and people out of work. What better illustration could be given than this. We had twenty men then asking for every job.

The Republicans said if you will put us in your power we will start prosperity at work again, start the mills of the country instead of the mills, Bryan said we must have free silver at 16 to 1 as the only remedy.

McKinley was elected, the Wilson law was repealed, the Dingley law was passed and prosperity came as we had promised. There were no more Coxey's armies, no more cheap grain and live stock. We have prosperity today and have had it since 1896. The only thing to continue prosperity is to continue the policies of the Republican party.

I like conditions when labor can stand its own independence and wage and that condition exists under Republican administration. The continuance of the policy of a protective tariff is the most vital question before the working man today.

Protective Tariff

The so called panic of last year began in the great financial centers and not with the laboring men and the farmers. The interests of capital, labor and the farmer are bound together and what is good for one class will be good to a great extent the other classes. The protective tariff principal is primarily for the interest of the laboring man. Its purpose is to protect the

and eliminates impurities.

laboring man from competition from abroad. If I buy an English suit of clothes, I employ English labor to just that extent and American labor is idle. When the clothes are worn out, I've got the rags and the Englishman has the money. Keep the rags and the money home by employing American labor, protected by the protective tariff.

This illustrates the whole protective tariff policy. Do you want this or the other side? It is not a question for the Republicans only, but for all people.

Risk a Change.

Do not say that if the Democrats come into power that the country will go back as it did in 1892,—but I think it might be stronger. We had better keep on with the policies which we have had. Things can be a great deal worse than they are today; are you going to risk a change? Republican policies have been tested and tried and have brought the greatest prosperity ever known.

"Put us in power and we'll destroy the trusts" shouts the Democrats, as they would destroy not only the trusts, but everything else with them. Do you want that kind of trust busting? Trusts are the result of prosperity and not the result of any legislation.

The Trusts.

Take the tariff off of steel and it would not weaken the great steel trust but would strengthen it. The independent and weaker manufacturers would go to the wall first, then the trust would have the whole field to itself.

The Republican party believes in controlling and regulating, and curbing the trusts, but it does not believe in crushing the business of the country. It can point to a record of enforcement of law in the regulating and controlling of trusts. We leave the record with the people. We come with a record of promises made and promises fulfilled. Its a wonderful record.

The Philippines.

We confronted the greatest problem ever before a nation, in the Philippines. Under the leadership of a republican party, we have solved the problem and the work in the Philippine Islands is one of the greatest monuments to any nation. Our flag has never yet been unfurled in an unjust cause. We solved the problem so well that Mr. Bryan himself is satisfied. He sleeps no more with nightmares of imperialism and militarism.

Each party presents its candidate. Which interest and which candidate do you want? There is not a word to be said against the personal character of Mr. Bryan. He would make a great Fourth of July orator. Isn't that about as far as you could go? Has he ever shown himself fitted for any other line?

Every panacea which he has proposed has proven to be fruitless.

EVANGELIST GETS WARM RECEPTION

Monmouth, Ill., Crowd is Angered When His Promised "Disclosures" Are Not Made.

MONMOUTH, Ill., Oct. 9.—William Thompson, said to have been a Catholic priest at one time, who has been conducting a series of evangelistic meetings here, advertised to deliver a lecture last night on "Priests, Women, Confessionals, or Why Priests Should Wed." The announcement caused considerable excitement and the evening previous to his lecture, it is alleged, an effort was made to kidnap the evangelist. He, however, eluded his would-be captors.

The news increased the interest in the lecture and Thursday night an immense audience greeted the man. However, sensational features were omitted. Mr. Thompson was guarded to his boarding place by the police, but a large number of men and boys followed and hurled eggs at him. One of the leaders was arrested and probably other arrests will follow.

CITY NEWS

The fire department answered an alarm from Sixth and Exchange this afternoon at 2:30 where a barn across from the uptown freight house had caught fire probably from the sparks from a switch engine. Prompt arrival of the department saved the place which contained some hay. The chemical engine was used to extinguish the blaze. On account of the plantation show at Sixth and Main the department had to make a round about run from Sixth street to the scene of the fire.

BRYAN WILL VISIT NEW YORK

His Election Will Bring Prosperity to the Country, No Relief Without it.

STREATOR, Ill., Oct. 9.—Declaring he was the real advance agent of prosperity Bryan insisted the country was suffering from the worst financial panic than at any time in the past ascribed to the democratic party. Until a change of administration comes, he declared, there could be no relief. A wide spread demand was declared for a reduction of the tariff. The republicans promise revision and the democrats promise reduction.

THE BODY OF MISS ORA LEE

Found by the Roadside Near Wadsworth, Ohio, With Bullet Hole in Temple.

WADSWORTH, Ohio, Oct. 9.—Miss Ora Lee, aged 20 years, was found dead beside the road near here, a bullet hole through her temple. Guy Razor, aged 24 years, her fiancé, was arrested this morning by Sheriff Hutchinson. The girl left boarding house last night. When found a suit case was beside her. There was no evidence of a struggle. Her limbs had been straightened out as though the body had been carefully arranged after death.

CLARK SOUGHT BY THE SHARPS

The Story That \$20,000 is Demanded of Senator's Son is Being Probed.

LOS ANGELES, Cal., Oct. 9.—The reported operations of a roulette wheel in a fashionable apartment house in the western district of the city, the alleged attempt to fleece Charles M. Clark, son of Senator Clark of Montana of \$20,000 and the alleged attempt of officials of the police department to coerce him into paying money to a ring of sharps are features of an investigation to be made by City Prosecutor Woolwine. Detectives and policemen and officials "higher up" are to be implicated.

According to Woolwine, Clark was inveigled by a ring of gamblers to an apartment house on Burlington avenue, where was introduced the roulette wheel. Clark did not have a large sum of money, it is claimed, so the gamblers were compelled to wait until the end of the game for Clark to give them a check in settlement.

By the time Clark's losses had reached \$20,000 it is said he came to a conclusion that the roulette wheel was not operated honestly. When informed of the amount of the losses he refused to pay it is said.

According to information that has been placed before Prosecutor Woolwine Clark was arrested by the sharps and certain city officials in an effort to make him pay the \$20,000. It is said that he was even threatened with arrest.

The pressure was so strong that Clark was compelled to place the matter in the hands of an attorney, who, it is said, made a proposition for a settlement of the claim, but this proposition was refused.
