THE CARE OF ASPARAGUS BEDS

Now is the Time to Clean up the Garden and Get it Ready for Next Spring.

John Carrs, the veteran and successful gardener, has the following to say about the asparagus bed: As the asparagus has about stopped growing, it is time to cut off the tops close to the ground and clean off and burn all trash from the beds to prevent it from harboring insects and to prevent asparagus next summer.

DECEIVED MOTHER

Thought She Was Drinking Coffee.

It is surprising how many persons have thought they were drinking coffee, when in fact it was Postum.

The secret of "good Postum" is in boiling it until it is dark and rich. This brings out all the food value and with good cream one can scarcely tell it from coffee.

And yet there's no coffee in Postum. It is made of clean, hard wheat and a trace of molasses. But the way the wheat is roasted brings out a flavour similar to coffee.

"My mother was troubled with indigestion," writes a Ky. woman, "She made her coffee so strong that no one else would drink it. I knew it was killing her by degrees.

"She would make one pot of coffee to suit the family and then another for herself—much stronger. When she came to visit me I made her coffee while we drank Postum.

"One morning the pots containing coffee and Postum being alike, got mixed. She drank Postum and said it was 'fine coffee,' had a better taste than hers, so rich and good. Then she began the use of Postum and found she began to get better. Now she is entirely well."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pgs.

ATTRACTED BY WOMAN'S FIGURE

Are Most Men in Spite of Their Dignity and Denials.

BECOME PLUMP AND PRETTY

Beautiful Society Woman Reveals the Secret to Her Sex—"Become Attractive—Then Happy."

"Yes, I claim that no woman can be happy who is continually slighted and overlooked by the opposite sex, and often contemptuously ignored by her own. It is enough to wring one's heart with pity to see many young ladies and matrons who are lacking in all that goes to make a woman attractive and magnetic, through some defect in nutrition or flesh-making element which nature ought to have supplied them with. The human skin is a huge gland, richly endowed with nerves and a net work of minute blood vessels.

Some defect in these nerves and blood vessels prevents their absorbing the blood and thinness, abnormal thinness is the result. Now let me tell just how to fool Mother Nature. If she won't absorb fleshy tissues from the blood, we can feed the nerves and cells through the skin until they develop and retain the fleshy elements necessary to promote a pretty bust and graceful arms and neck. Mix and apply this powerful, harmless and rich nerve stimulant, and quick development with increased measurements will follow as certain as night follows day—and I speak unblushingly, but modestly, from experience.

"Mix together two ounces of glycerine and one ounce tincture codomine compound; let stand two hours; then add three ounces of rosewater and a teaspoonful of borax. Shake and apply morning and night, rubbing until absorbed. Then wash with hot water and soap and dry. Treat the arms, bust, neck and shoulders, and in a few days you can notice the feeling of plumpness and firmness rewarding your efforts."

GENERAL BUCKNER IS OUT FOR TAFT

Palmer's Former Running Mate Declares William J. Bryan is Not a Democrat.

BALTIMORE, Md., Oct. 14.—Gen. Simon Buckner, who ran with Palmer on the gold democratic presidential ticket in an interview here Monday night, said that Bryan was not a democrat, and that he intended to vote for Taft. "Bryan is a populist and a socialist," said the general.

The St. Louis Post-Dispatch of Sunday last contains the following which will be of special interest to the friends of Dr. Philip B. Newcomb, and his parents, Rev. and Mrs. E. B. Newcomb, of Westminster Presbyterian church. Dr. Newcomb graduated a two years ago from the medical department of Washington University, and is engaged in the practice of his profession in St. Louis. "An engagement of much interest announced Sunday was that of Miss Marie Adele Carman and Dr. Philip Butler Newcomb. The announcement was made at a luncheon given at the Southern hotel by the bride-elect's mother, Mrs. Marie Carman. The announcement does not come as a complete surprise to the friends of Miss Carman and Dr. Newcomb, as the rumor was most decided before Miss Carman and her mother departed for Europe some months ago. They returned last week and are at the Southern, where they will remain until they go to one of the uptown hotels, or to housekeeping. The wedding will be an early November affair and will be very quietly celebrated with only the relatives and most intimate friends bidden to the ceremony. Miss Carman has never been formally presented to society, but has been popular in her circle of friends. Mrs. Carman and her daughter have usually spent their summers at their summer home in Ocean Grove. The engagement announcement was made by Mrs. Carman. The table was laid in one of the private dining rooms and was beautifully decorated with white roses and tulle, the table strewed with silver confetti in appropriate designs. Pretty favors in water color cards marked each guest's place."

He came to America when he was twenty years of age and resided in New Orleans and other southern cities until 1852 when he came to Keokuk and made it his home for many years. He engaged in the stone cutting business and monumental work. The plain and ornamental cut stone fronts of business buildings and residences erected here in early times were his work. E. M. TIERNEY, Manager

three keystones over the front door and windows in the Weber building corner of Sixth and Main street were carved by him. He was a skilled mechanic, an architect ranking among the best. Our cemeteries here contains many of his artistic models of monumental architecture, among them is the one erected to the memory of the late Hugh W. Sample which was made from a design emanating from his skill. He made and placed in many fashionable home here marble mantels that were attractive ornaments in those days.

In music, too, was an artist. Citizens of "auld lang syne" will well remember the sweet tones he brought forth from the flute and the stirring notes from the piccolo, upon which instrument he was a master. When the clouds of civil war gathered over us he helped to enliven and stir the patriotic blood of the enlisting soldiers by the grand war music of the martial band. He was among the original members of the Old City Rifles, an organization that did much local service during the early part of the war. His motto in life was the golden rule, by it he closely lived in all his associations with his fellow man. On December 20, 1862, he was united in marriage with Miss Fanny Braidedwood, a bright intellectual rose-cheeked Scotch girl. To their household came nine children, seven boys and two girls, all of which lived to grow to manhood and womanhood, except the youngest boy who died in infancy. His wife and eight children survive him, all of whom were at the bedside when he passed into his last sleep. One brother Benjamin Bawden Sr. of West Keokuk survives him; four grandchildren were fondled by their grandfather. Mr. Bawden moved from Keokuk in 1889 to Calhoun county, Iowa, and has lived there most of the time since in restful retirement. He laid his life's burden down at the age of seventy-nine years and twenty-five days. He did not die from any physical affliction but merely from a waning womanhood. Nearly all his old-time associates and acquaintances here have gone before him, and only the minor portion of them remain to call before them the honest kind-hearted John Bawden.
