It was Miss Hilda's second birthday.

A Keokuk hunter was out after rabbits one day this week, using a small dog to flush out the rabbits. While he was walking along, a rabbit jumped up and scampered away and the hunter raised his gun and fired. The little dog made a lunge at the rabbit just then and the one shot killed both the rabbit and the dog, the wild and the tame animals lying side by side on the ground, dead.

The Gate City exclusive water power story last night was the all absorbing topic of conversation last night and today. It was good news, reliable news, and as stated clearly indicates the energy that Messrs. Cooper and Powelson are putting into the project and with reasonable assurance of success. That the Keokuk water power proposition has merit in it is admitted, which is the cap sheet of local faith. No enterprise of such a magnitude without merit could attract such eminent hydraulic authority as Mr. Cooper and the enlistment of capital indicates the plan is feasible, practical and as Mr. Cooper said sometime ago if the panic had not struck this country he would have been at work now on the dam.

# A WOOLTEX SUIT GIVES CONFIDENCE AND SATISFACTION

You needn't waste two minutes trying to decide what to wear if you have a WOOLTEX suit like this one. Get a silk blouse to match (or a lacey one) and a plain tailored shirt-waist and there you are—ready for anything except, of course, balls and parties. Especially when you remember that it's a WOOLTEX suit and so will be as serviceable next year. If you want a WOOLTEX suit, come soon. The entire product of the WOOLTEX factory would provide garment for only one out of every 250 women in the United States. The styles are dependable for newness and good taste. A fashion authority stationed in Paris makes that point certain. WOOLTEX tailors make the garments with such painstaking care that the style stays in them as long as they last. Come in and see these WOOLTEX suits—come soon for we can't always get all we want.

## STEEL RANGES OF QUALITY

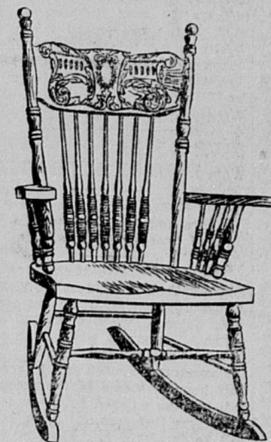

### "Quick Meal" Steel Ranges

Steel Ranges are made in many different ways by a numerous lot of Stove and Range manufacturers throughout the United States. Some of these manufacturers make these Ranges for the jobbing houses under any name desired, and some for the catalogue houses, while others try to see how cheap they can make them thinking that price and not quality is what the people are looking for.

In this age of sharp competition only a very few of the Range manufacturers have upheld the quality of their Ranges. Most of them have allowed themselves to cater to the cry of the cheap bargain hunter, forgetting the old maxim "that Quality lives long after the price is forgotten."

"Quick Meal" Steel Ranges are in a class by themselves, being built with the view of making the best that skill and money combined can produce.

- A Range built with but few Rivets.
- A Range with Automatic Expansion Tubes and cannot warp.
- A Range that takes more brains than hammers to make.
- A Range that cuts your fuel bill in half.
- A Range that will do the work as represented, wear as represented, and is as represented—first-class in every respect. Ask for a circular when you come to our store or let us send you one.

- Fine Rockers,
- Dining Chairs,
- Center Tables,
- Parlor Suites,
- Bed Room Suites,
- Blankets,
- Comforters,
