

STEAMER KEOKUK TO STOP RUNNING

Orders From Captain Walter Blair of the Carnival Packet Co., Will End Boat Season November 14.

INCLUDES ALL CO. BOATS

Eloise Will Stop Running the Same Time as the Keokuk as Will the Other Line Boats.

It has been officially announced that the steamer Keokuk will stop running a week from tomorrow, the 14th of November and will go to Rock Island for the winter.

Since entering the Keokuk-Quincy trade in the spring the boat has done a business both in passenger and freight line and has been running steady the season through.

The steamer Eloise will stop running between here and Burlington for the season as soon as the canal closes for the winter, which will be about the middle of the month and when the boat comes out in the spring she will be an entirely new craft and her name will be changed to that of Madison on the pilot house.

The crews of the Keokuk and Eloise will leave for Davenport and Rock Island where the most of them live and will spend the winter. Captain Wm. Dipple of the Keokuk will spend the winter in Warsaw in all probability although his family is temporarily located here, but will probably make the little Illinois city their home until the river opens up in the spring.

Clerk Swanson will spend the winter in Rock Island. Joe McKenzie, the pilot of the craft, makes his home in Keokuk, and P. H. Hutchison will make his home in Davenport for the winter. With the closing of the Eloise and Keokuk's trade for the winter this will mark the end of the steamboat season for this port until next spring.

A recent order from Captain Walter Blair of the Carnival Packet Co. includes the following boats which stop running for the season on November 14th:

The Keokuk, in the Quincy-Keokuk trade; the Eloise, in the Keokuk-Burlington trade; and the Helen Blair and Columbia in the Burlington-Davenport trade. The Silver Crescent, the other steamer of the fleet, is already in winter quarters. All the crafts will go into quarters at Davenport, the headquarters of the fleet. Extensive improvements will be made on the Eloise, recently purchased by Capt. Blair, and she will be hauled out on the ways at Rock Island and completely overhauled.

The crew of the steamer Dubuque left this morning for St. Louis where the most of them will spend the winter. Captain Burke stated this morning that he had made no plans for spending the winter anywhere but St. Louis and will assume command of the steamer Dubuque again in the spring about the first of April and will take the St. Louis-Burlington run as she did before the water got too low to do so this season.

A watchman has been stationed on the big boat and reports of the season have been made out, leaving everything quite in the Dimond Jo boat line for the winter.

The river continues to rise slightly at this point and the small water crafts are experiencing no trouble at present in the navigation of their boats. The bars are fast being covered with water, and no reports of craft being grounded has been made of late.

Watched Fifteen Years. "For fifteen years I have watched the working of Bucken's Arnica Salve, and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. JACKSONVILLE, Ill., Nov. 6.—Five thousand people paraded the streets of Jacksonville last night at 7 o'clock in honor of Evangelist "Bill" Sunday. The procession was headed by Jeffries' band playing "Onward Christian Soldiers," "Billy" and his helpers rode in a "Red Devil" automobile and red fire illuminated the line of march. It was the greatest religious demonstration ever witnessed in central Illinois.

Sunday says it surpasses any demonstration ever given in his honor. The evangelist came in from the country, where he has been resting, and as a farewell word preached his famous sermon on the "Twenty-third Psalm."

Fight For Seats. The jam at the tabernacle was awful, and men, women and children were knocked down in the effort to gain seats. After all the seats were taken men climbed to the roof of the tabernacle and stuck their heads through the ventilating windows. Seven thousand people heard Sunday preach and 4,000 failed to even get inside the doors.

Farmers drove twenty-five miles to the meeting. The 3,000 converts wore a white flower as a mark of their conversion and had special seats. Sunday left for C. tumwa this morning.

SOCIETY MAN PLAYED A JOKE Baltimore Clubman Shifts Crape to Another Door, Reporting Girl Dead.

BALTIMORE, Nov. 5.—Grafton Dulaney, son of Mrs. Walter Dulaney, and one of the best known young men in fashionable life, confessed to Captain of Detectives Humphrey last night that it was he who removed the funeral crape from the door of the home of the late John M. Denison, a wealthy merchant, to the door knob of the residence of Mrs. Nelson Perin, widow of a social leader, and spread the report that Miss Gladys Perin, then in New York with her mother, was dead.

While Mr. Duker talked freely of the affair, he said that it was a most unfortunate escapade and one which he deeply regretted.

"I had been with the boys," he said, "I was returning home early in the morning, and when I reached the Denison residence and saw the crape on the door, it suddenly struck me that it would be a good joke to place it on the residence of someone else. Acting on the impulse of the moment, I called a newsboy and told him to get the crape. I walked up to the Perin residence, which is just two doors above, and placed it on the front door."

Keep Baby Healthy; Free

No child can be well and strong unless its bowels move regularly every day at the same hour. Such regularity promotes good health. One passage is absolutely necessary, while two are not too many.

There is one remedy that is especially adapted to the needs of children, and which thousands of American mothers are using today, and that is Dr. Caldwell's Syrup Pepsin, the great herb laxative compound. Its gentle action, so free from griping, its tonic effects, and its perfect purity, vouches for to the United States Government, makes it an ideal children's laxative tonic.

Mrs. M. F. Cash, of Webb, Okla., is an old-time friend of this wonderful child's remedy and she says she could scarcely keep house without it. She became acquainted with it through Dr. Caldwell's offer of a free trial bottle, which she found so effective on her baby that she now always keeps it in the house. Mrs. K. L. Stout, of Louisville, Ky., also first used it in a free sample, then bought it of her druggist at the regular price, which is only 50 cents or \$1 a bottle. It gave her little girl a splendid appetite and a vigorous stomach. Where Dr. Caldwell's Syrup Pepsin once finds its way into the home it makes a life-long friend. They soon discard salts, pills and powders. Those who have never yet used Dr. Caldwell's Syrup Pepsin should begin to do so, for they are missing a valuable self with its merits at no expense to yourself. The doctor will send you a free trial bottle on receipt of name and address. It has been justly called the nation's safeguard to health in the cure of constipation, dyspepsia, indigestion, liver trouble, sick headache, sour stomach and similar digestive ailments.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. E. Caldwell, 503 Caldwell bldg., Monticello, Ill.

ST. LOUIS CENTRAL TO PLAY A GAME

Crack Y. M. C. A. Team Will be in Keokuk During Christmas Week for Basket Ball Game With Y. M. C. A.

BIGGEST GAME OF YEAR Also the LaHarpe Meteors and Burlington Association Team Would Like a Game During Coming Season.

What promises to be the biggest basket ball game ever played in Keokuk will probably be pulled off in this city during Christmas week when the St. Louis Central Y. M. C. A. team comes to the local Y. M. C. A. gymnasium for battle. Physical Director Chamberlain received word from the manager of the St. Louis Central team in which the latter desires a game some time during the week above mentioned. The game looks extremely good to the physical director and he will probably accept at once, although no date will be set until later. This game will be the biggest Keokuk has ever had and St. Louis Central will no doubt bring to the city one of the best teams in the middle-west.

Physical Director Chamberlain has also received letters from the managers of the LaHarpe Meteors and the Burlington Y. M. C. A. team and he also will likely accept games with those two teams.

Basket ball practice will not start until after Thanksgiving but before that time it is expected that a captain will be selected and a large squad ready for work. Should return games be played with St. Louis, LaHarpe and Burlington there will be great rivalry for a place on the team by the many basket ball players of the local association.

The retirement of Mr. Mitchell from the Burlington's board, after serving two years, occasioned some speculation in railroad circles. The rumor that there had been a misunderstanding between the banker and James J. Hill was strenuously denied by both Mr. Mitchell and by officials and directors of the company. It is understood that it is Mr. Mitchell's purpose to retire from all of the directorates which require his journeying out of the city to attend meetings. It is also an understanding of the members of the Burlington board that Mr. Mitchell desires to rid himself of all of the business cares possible without endangering his large financial interests and those of his bank. NURSE TELLS OF BABY'S SUFFERING

Raw with Eczema from Birth—Fearful Itching Lasted for Months—Treatment Futile—Walked the Floor with Him Night and Day—Wasted Away and Got Little Rest.

PERMANENTLY CURED BY CUTICURA REMEDIES

"The first time I went out as a nurse was when a baby boy was born. He was perfectly raw all over with humor. The doctor gave us some ointment to use, but he got no better. The baby seemed to be suffering terribly, and at times I had to walk the floor with him night and day, sending for my husband to carry him when I could not. His poor little head became covered with crusts and the doctor decided it was eczema. The fearful itching went on for months, and the little fellow was wasted to a skeleton and could get almost no rest. At last I decided to try Cuticura Remedies, bathing him with Cuticura Soap, using just as little water as possible; then I applied the Cuticura Ointment, and gave him small doses of Cuticura Resolvent. This relieved him almost at once and in a comparatively short time the baby was quite well. Now, thirteen years after, he is a fine boy, in the High School, and has never had any return of the disease. I have since known of a number of cases of eczema, which have been cured by Cuticura, but none, perhaps, as severe as this one. I have always recommended Cuticura most highly for skin troubles, and shall continue to do so. Mrs. Elizabeth Howie, Nurse, 70 Grove St., Chelsea, Mass., Nov. 15, '07."

DISFIGURING Humors, Eczemas, and Itchings Cured by Cuticure

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head, demand a remedy of extraordinary potency to successfully cope with them. Home Treatment for Skin Diseases

The recent discovery that the drug citrox is a cure for eczema, tetter, salt rheum and other skin diseases has been of unestimable value to those suffering from all forms of skin diseases. The treatment is simple indeed—as it generally is when the right remedy is at last discovered. Purchase a small sealed package of pure citrox, just as it comes from the chemical works.

Dissolve a teaspoonful of citrox in two tablespoonfuls of warm water and bathe the affected skin twice daily, using a fresh solution each time for the treatment.

The discovery that citrox would cure skin diseases is claimed by several scientists, but in all probability Dr. J. E. Currier, of London, England, is the person to whom the credit of the discovery should be given. As it is with most important discoveries, there are many ready to claim the credit now that citrox is proving of such value.
