The United Press, received by The Gate City, contained the very latest details of the failure and the report was read with avidity in this city and sections affected. Special Showing of Solid Gold Ladies' Watches Very High Grade Small Size \$35.00 to \$50.00 LeBron's

A magnificent assemblage of fashion's freshest ideas for fall

The collection of epic-and-span new garment creations which you are invited to inspect is the largest and finest array of stylish models SULLIVAN & AUWERDA ever brought together.

There is a generous variety here, but each garment was carefully chosen for its style, distinction and its service-giving qualities. They represent the artistic work of the famous WORKSHOP OF WORTH style designers and tailors so that you can make your selection with absolute surety of correctness in each detail.

The styles have been developed with unusual artistic skill. Wonderful beautiful effects are seen in the plain tailored types as well as the elaborately trimmed models.

If you are undecided as to what you wish to wear the coming season this display will help you to arrive at a conclusion. By coming early you see the splendid assortment in something like its entirety, and you will be able to secure a good selection. Many of these models will not remain with us long.

The new garments are developed along the semi-fitting lines, so to give the now desirable small hip effect. This shape, happily, is becoming to all figures and is developed in scores of different effects. Trim, jaunty tailored coat suits in finger tip length with longer and shorter models for supremacy. Cloaks are beautifully trimmed with Hercules and Radium braids and large buttons.

Some Cloak models have the raised waist-line suggestive of the Empire vogue; others have pretty Greek shoulder trimming. The Directorate Influence--not in its exaggerated form, but as a revival of the Greek and Roman art--may be noted in both cloaks and suits. The Napoleon collar, Directorate reverses, large pockets, and slashed seams are some of the novel features of these charmingly original models.

There is a wealth of distinctive weaves and shades in the new fabrics. Altogether it is the most interesting showing of Ladies' Apparel we have ever shown. COME AND SEE FOR YOURSELF.
