Neither Will it Cure it Because the Lack of Gastric Juices Prohibit Relief.

The stomach is a strong, powerful organ, which is composed of muscles of great strength. It is filled during digestion with gastric juices which, when the stomach, extending and compressing the food, dissolves it and separate the nourishment from the waste matter.

Stuart's Dyspepsia Tablets corrects such a condition at once. If the gastric juices are lacking and imperfect these tablets do their work just the same.
