For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. Wilkinson & Co., and J. F. INVESTIGATION AT FT. MADISON

Reports Being Circulated in Des Moines That the Management of the Penitentiary is to be Investigated.

NO ACTION UP TO DATE

Naming to Clerkship Positions of Members of the Immediate Families is Meeting With Opposition.

[Gate City Special Service.] DES MOINES, Jan. 15.—Opposition is growing among the members to the custom which has been followed hitherto by a number in both houses of naming members of their immediate families to clerkships and other positions in the legislature. In some instances hitherto a senator or member has named his wife or his daughter as his clerk and she has held down the position to the extent of drawing the salary attached thereto, while in fact she has been more successful in representing the legislative head of the family at social functions than doing the duties usually prescribed for the clerk to a member.

This sort of thing was carried to such an extent that in the last house a resolution was adopted providing that all committee clerks should be expert stenographers. The same sort of resolution has at this time been adopted in both houses. If it should happen, however, that the members of either body are each given personal clerks in case of falling to be appointed chairman of committees, it is probable that this resolution will be considered as effective only with respect to committee clerks. However, the newspapers have taken the matter up and public opinion seems disposed to criticize any member who by reason of securing a clerkship for his wife or daughter is thus enabled in reality to draw two salaries. It is probable there will be less of this "loyalty to family" in this than in some prior sessions.

Minority Clerks. In the senate of the last general assembly each senator was allowed a clerk whether he was chairman of the committee or not. At this session, however, there seems to be a sentiment favoring more economy in the matter of clerkship and it is probable that with five clerkships going to the minority as committee clerks, not more than three or four extra clerks for 16 democratic senators and with each of these clerks experienced stenographers the supporters of economy say that no more are absolutely necessary.

The democrats on the other hand, claim that they are entitled to a clerk apiece. They raise the point that all the more populous districts with a very few exceptions are represented by democrats and that in order to give proper attention to the needs of their constituents they should each be given a clerk. They say that their constituents pay taxes as well as the constituents of the republican senators and while they have more correspondence on account of larger number of people in their districts it is proposed to require them to hire the same work done for which others will be provided with clerks. Several of the democratic senators are very positive in their statements that it is but a simple act of justice that each senator should be given a clerk.

Investigation at Ft. Madison. There are beginning to be circulated reports regarding the possibility of the demand for investigating committee to hear all charges in regard to the management of the penitentiary at Ft. Madison. Thus far however, the charges are exceedingly vague and it is possible that no legislative action may follow. The publication in the newspapers of criticisms in regard to the discipline at the institution has attracted some attention and created some talk, but whether anything will come of it or not remains to be seen.

A prominent member of the senate from the first district in discussing the matter said, "I was perhaps prejudiced against the new warden because of my friendliness for Warden Jones and my belief in his ability and his management of the institution. I know there are complaints made that the new warden is too lenient with the convicts. I know he has a theory that no one is all bad, but that in every man there is a spark of goodness left which may possibly be awakened. Of course if sympathy and kindness to the fallen will assist in putting them on their feet again, no one should criticize the head of an institution like that for trying to do what he could along those lines. However, of course leniency should not be carried to the extent that it affects discipline or gives the convict an opportunity to endanger others or to escape from custody themselves."

PUT MONEY IN FARMS NOT BATTLESHIPS

Theme of W. C. Brown at a Banquet in Davenport, Iowa Last Night

DAVENPORT, Iowa, Jan. 17.—Speaking at the annual banquet of the Davenport Commercial Club to 250 business men of eastern Iowa and western Illinois, W. C. Brown, president of the New York Central lines last night lauded the pioneer railroad builders of the west. He said the obstacles in the way of building the Rock Island, Burlington and Northwestern roads across Iowa would have daunted men of less perseverance or less courage. He declared the government should put millions into experimental farms, instead of battleships, and that the faithful following up of such a plan of education of the nation's farmers for ten years would add to the value of each year's crops enough to pay for every battleship in the most powerful navy in the world.

His argument that freight rates are not high enough was responded to by J. C. Lincoln, of the St. Louis National Industrial Traffic League. Lincoln said more co-operation and being honest with each other were cardinal points to be maintained between shippers and the railroads.

The Best Family Newspaper. An ideal newspaper for the American home must be habitually clean and high-minded, it must offer something of interest to every member of the family, and it must present daily the news of the whole world in authentic and readable form. A large contract, you will say. Well, the newspaper that comes nearest to filling it in the West is the Chicago Record-Herald. Its motto is: "It is always high, its news service is unsurpassed, and probably no other paper in the United States" as so brilliant an array of special features suited to the taste and needs of every member of the family.

Business and professional men have long regarded the Record-Herald as the best paper for their own reading because of its unequalled faculty for getting all the news of the world and putting it into the briefest possible form for the busy man. They also esteem it for the reliability of its financial, agricultural and market reports. Young men perhaps, find its greatest attraction in the excellent sporting department which fills four entire pages on Sunday and a page or more on other days. "Wives and mothers emphatically prefer the Record-Herald on account of its well-conducted feminine department. Its daily recipes and menus, its daily fashion news and hints for home dressmaking, Mme. Qui Vive's pungent and sensible beauty talks, Marion Harland's famous page and the rest of the good things that make up the handsome Woman's Section in the Sunday paper. Children enjoy the Little Nemo and other Com. Section pictures, with the bright stories of boys and girls every Sunday. And all the fam-

ily together can enjoy the interesting travels and special articles of William E. Curtis. Mr. Kiser's humor and verse, the serial stories and many similar features outside the news columns.

The Chicago Record-Herald is every evening the best all-around family newspaper in the west.

Former Candidate's Pitiabie Plight. Hiram Wheeler, From Iowa gubernatorial Candidate, Once Wealthy, is Now Dependent.

FORT DODGE, Jan. 15.—Judge W. S. Kenyon, attorney general for the Illinois Central, has discovered in Chicago Hiram Wheeler, a former republican candidate for governor of Iowa, a man broken in spirit and dependent upon the scanty bounty of his daughter. Once he owned about 3,000 acres of Iowa farming land and was a prosperous and well liked man, popular enough to receive very hearty support for the candidacy of Iowa's greatest office. Now he is unkempt, ragged, a pathetic figure who exists and is swallowed up in the great tide of humanity that calls Chicago home.

Hiram Wheeler converted his farms into money many years ago and went southwest where he lost everything. Since then he has drifted back to his daughter, and his discovery by Kenyon was occasioned by his appearance in a big legal case of the Illinois Central recently in regard to lake front land. Wheeler claimed to have a title to it, but it was found that he must have been 7 years old when he bought it if his assertions were true, and the claim was so tangled and uncertain that nothing came of it.
