THE GATE CITY is on sale at the following news stands: Hotel Keokuk, cor. Third and Johnson

Keokuk, Iowa, September 20, 1909. It is still a race between the banquet and the president's throat and digestion.

No matter how partisans feel about it, there is some gain in having a new trail added to the Cook tours.

Henry Watterson and his "star-eyed goddess" are touching elbows with dukes and duchesses in London, and doesn't care who knows it.

Tourists bound for Alaska might as well leave their small change. Nothing less than two bits is recognized in that fringe of the continent.

Jersey justice again vindicate itself. For one woman to call another "rubber-neck" does not constitute ground for legal action in New Jersey.

President Taft's remarks on postal savings banks make the deliverance of the Bankers' association look like a mermaid—without a leg to stand on.

A polar controversy between two men and a mountain climbing controversy between two women promises to keep the country awake for awhile.

Governor Colton of Porto Rico has been a real cowboy in Nebraska and a dividend-paying banker in Manila.

Senator Tillman is thundering with uncommon fervor on the southern chautauque circuit—at the usual rates. Box office returns do not indicate a howling success.

Peary drew the color line against the whites. He let Hanson go alone and a few Eskimos, but no white man needed to apply. Peary's Cookophobia was never missing.

It is announced that another outbreak of foot phantrophy is due. Is it because so many people are going to the aviation show this fall that they forget to feed the horses?

Shortage of timber for ties stirs the souls of railroad managers. The white oaks of the Appalachian range need as much attention as the water power of Montana or the coal of Alaska.

The man who struck Billy Patterson has been identified and Mrs. Anne Beasant declares that Ann is 12,000 years old. That seems to solve all the mysteries except the disappearance of former Senator Foraker.

Assurances are given out with the usual solemnity in New York that hotel rates will be stationary for the crowd expected at the Hudson-Fulton festivities. All you have to do is to take the elevator to reach them.

Among the fall publications is announced the "Confession of a Bandit." The name of the author is not important, but his residence is supposed to be on the Congressional limited, between Washington and New York.

Kansas, ever earnest over the upward and onward, is yet struggling with the hygienic drinking cup. Are there more left of those old beer bottles and mugs which used to decorate the streets of Leavenworth, Topeka and Wichita?

If the newspaper men of the country could cut loose from party ties and boost just once for the profession, Governor Johnson of Minnesota would have a walk-over for city office in sight. Besides himself there are fourteen members of the "fourth estate" quartered in the state house at St. Paul.

A group of monuments in the Kenosha (Wis.) city cemetery, erected by an agnostic three years ago, each of which bore inscriptions flouting religion and immortality, are to be taken down and destroyed. Surviving members of the agnostic's family are not in sympathy with his graven sentiments.

WHY LEAVE THE FARMS?

James J. Hill's sobering belief that there will soon be a shortage of wheat in America and his appeal to people to apply their energies to renewing the fertility of the farms direct attention once more to the rapid change from farming to urban life in our country, says the Omaha Bee.

Comfort is a stronger attraction than money to the family. It is not certain that the average man might not prefer farm life to town life.

Henry Watterson and his "star-eyed goddess" are touching elbows with dukes and duchesses in London, and doesn't care who knows it.

Tourists bound for Alaska might as well leave their small change. Nothing less than two bits is recognized in that fringe of the continent.
