BOWLING

BALL MEN WILL SOON BE HERE

Belt Will Send Forth Transportation to His Trusty Stars and They Will Report on Next Tuesday.

FEVER IS BEING FELT

Baseball Bug is Hovering About and Present Weather is Ideal for Spring Training in Keokuk.

Central Association ball players will begin to roll into their berths from all quarters of the United States this week. Several of the managers have requested their men to report early, while others are inclined to wait until the first week in April.

Catchers—S. W. Draher, Saginaw; Jack Reardon, Detroit.

Pitchers—James Jerrell, Novinger, Mo.; Lyman S. Burch, Keokuk; James Blue Jacket, Adair, Okla.; Charles Jaeger, Ottawa, Ill.; Fred Bramble, Hickman Mills, Mo.; Eugene Broadwell, Patriot, Ind.; William Leitfeld, St. Louis, Mo.; Bert Sweeley, Mason City, Iowa.

Infielders—Hughie Miller, St. Louis, Mo.; C. M. Bresnahan, Toledo, Ohio; Walter Thomas, Altoona, Penn.; Fred Sensenbach, St. Louis, Mo.; Albert Fick, Century Station, Mo.; Gus Wenzel, Owensville, Mo.; J. E. Edbeck, East St. Louis, Ill.

Outfielders—Ed. Reichle, Craig, Neb.; Ward E. Vashinder, Dallas, South Dakota; Ferest Mooris, Evansville, Ind.; Ralph Hildebrand, Lincoln, Neb.

Corriden for Utility.

The St. Louis Post-Dispatch Sunday contained the news that "Red" Corriden may be retained by the Browns as utility man. He is now playing regularly with the second squad and his work is being closely watched. Truesdale, the other candidate for second base besides Olson, has shown great form during the past few days and may be the regular man.

Manager Prout of Hannibal has ordered his first squad to report tomorrow. The list includes nearly all of the try outs and the call for regular men will be issued next week. The men to report tomorrow are the following:

William B. Forney, catcher, Valparaiso, Ind.

Fred H. Gross, infielder, Beardstown, Ill.

Otto H. Hauser, outfielder, Dayton, Ohio.

Glen H. Clark, infielder, Toledo, Ohio.

Clifford Webster, first base, Bay City, Michigan.

Don Foley, infielder, Kalida, Ohio.

O. H. Barklage, outfielder, St. Charles, Mo.

B. F. Green, outfielder, St. Louis, Mo.

W. J. Harrihill, catcher, St. Louis, Mo.

J. H. Early, catcher, Hannibal.

Leslie Vandiver, outfielder, Hannibal.

A. A. Waldhaus, infielder, Brookfield, Mo.

James A. Tonjes, pitcher, Glen Roy, Ohio.

Merrill B. Rudes, pitcher, Genoa, Ohio.

Ollie Platke, pitcher, Toledo, Ohio.

Lee M. Inglinger, pitcher, DeFrance, Mo.

C. H. Donnelley, pitcher, Newport, Ky.

W. W. Brumfield, infielder, Wayne, West Virginia.

Complete Loss.

A woman who loses her pride in her children has lost pride in herself.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Sporting Views

By the Editor

The bowling season will come to a conclusion this week. The games are as follows:

Monday—Keokuk Club vs. Selberts, on Keokuk Club alleys.

Tuesday—Grand Leaders vs. Seal Skins, Drexel alleys; Drexel vs. Wells, Olympia alleys.

Little interest has attended the bowling games during the past few weeks, the Olympian team having clinched the pennant. The only interest attached to this week's games is that connected with the Keokuk Club-Selbert go, which means second place for either of the teams. The Drexel team, it is understood, has declined to finish the season, and thus forfeit a postponed game to the cigar men, giving them a chance for second place.

The first ball players to arrive in Burlington are Pembroke and Elholz, said to be a promising battery from South Bend, Ind. Manager Geler will arrive in Burlington from St. Paul next Monday.

More than ordinary interest is centered in the pool match this evening between the Power City and Drexel teams which will be played on the Drexel tables. The clubs are now tied for first place.

On the Fire

Bob Bescher is touted as the real star among the Cincinnati Reds.

The Virginia league will start the season April 21, play 130 games, and close on September 18.

Reports from New Orleans have it that "Nap" Lajole is playing great ball at first base for Cleveland.

New York scribes with the Highlanders say that Harry Wolters will be the successor of Willie Keeler.

On account of his salary being cut from \$5,000 to \$3,500 George Stone refuses to report to the St. Louis Browns.

Manager Dahlen of Brooklyn contemplates making an outfielder out of George Hunter, his "southpaw" pitcher, this season.

Honus Wagner seldom talks baseball, but when it comes to spouting automobile dope, Honus is there every time—like a duck.

Fred Tenney of the Giants is taking no chances with his bad legs in training and will try to round out into condition by slow degrees.

The East Carolina league has adopted a schedule which calls for ninety-three games, opening the season on May 23, and closing on September 5.

The Indianapolis team has quite a bunch of ex-big leaguers, including Carr, Glaze, Hayden, Bowerman, Delehanty and Lewis.

Jack Thoney of the Boston Red Sox has injured his arm again and the chances are that the "Bullet" will be out of the game for several months.

The Cotton States league has been reorganized with teams in Jackson, Hattiesburg, Meridan, Vicksburg, Yazoo City and Greenwood, Miss. The season will consist of 110 games, opening April 28 and closing September 5.

Fully nine out of every ten cases of rheumatism is simply rheumatism of the mucus due to cold or damp, or chronic rheumatism, neither of which require any internal treatment.

All that is needed to afford relief is the free application of Chamberlain's Liniment. Give it a trial. You are certain to be pleased with the quick relief which it affords. Sold by Wilkinson & Co. Pharmacy and J. F. Kie, dalsch & Son.

BASEBALL MEN AT IOWA CITY

Davenport Team will Go to State University on April 6 for a Series of Eight Games.

[Special to The Gate City.] IOWA CITY, March 28.—When the Davenport baseball team comes to Iowa City April 6 for its series of eight practice games with the State University of Iowa baseball team, it will probably face the following lineup: Catcher, Hook; pitcher, Burrell; first base, Hanson; second base, Stewart; third base, Schmidt; short stop, Bryant; outfield, Wright, McQuirter, Miracle, Benson and Thompson. Substitute pitchers will probably consist of West, Hanlon, Jans and Becker; substitute catchers will be Comly, Williams, Gunderson and Hughes. Wright and McQuirter will also hold out for the third sack.

Cheer Up!

The world may be a long time in rolling to the brighter side, but you'll enjoy it all the more when you land there.—Frank L. Stanton.

WORK TO REVISE GOLF CLUB LINK

Jenkins, Man Who Takes Care of Greens, Following Plans Outlined by President of Country Club

CHANGES LOOK GOOD

Course Will be Greatly Lengthened and Many Players are Well Pleased With the Longer Holes.

Work on the revision of three holes in the Keokuk Country club links started this morning and will be hurried through in about three days. The changes, as previously outlined, will serve to greatly lengthen the course and no longer will a player with his future iron shot predominate, for in the future the course will be an incentive to development of long drives and brassie shots.

Possibly the hole more effected than any is No. 4. The tee is being moved back about forty yards, thus lengthening the hole that distance and making the big ditch in front more of a hazard. In order to reach the green on his second shot a player must make two perfect shots of well over 200 yards, so that the hole will be a difficult 5, in fact many think it will be harder than No. 3.

The tee of No. 6 is also being brought back some distance, just enough to make the bunker catch a fair shot. With this change the bunker will serve as an advantage to the player capable of the long drive as against his weaker opponent who will fall short.

The other change is lengthening No. 8. This may not prove to the liking of many players, especially the beginners, for it will take about a 175 yard carry to reach the other side of the big ditches, and the farther ravine will likely catch many of the elusive white balls.

In the past the local link has been especially fitted to a player who had developed a good iron shot of average distance; but in the future players of the ability of Sheldon and Matless, with 220-yard drives, will come into their own for the course will be suited to their play. Early activities are bespeaking themselves at the club and already the golfers are numerous. In the number are several youngsters, who seem to be improving as they play. A strong team is looked to during the coming season, in fact, much stronger than the club has boasted of for several years past, or even in the history of the organization. In addition to the two mentioned above, there will be three members capable of playing almost as good a game, with any number of average players.

"Generally debilitated for years, had sick headaches, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well man."—Mrs. Chas. Frettoy, Moosup, Mont.

New Discoveries of Radium. Valuable deposits of radium-bearing pitchblende are said to have been discovered on the McCloud river in California. Similar discoveries are also reported in the Cripple Creek district in Colorado. Pitchblende is a rock, tons and tons of which must be ground up, treated chemically, washed, precipitated and filtered, over and over again to obtain a few grains of the precious radium-bearing salts.

A Handsome Woman

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangements, blood impurities and other irregularities exist, good complexion, bright eyes and sprightly movements cannot exist. Internal derangements reveal themselves sooner or later on the surface. Headache, dark rings around the eyes, sallow skin, a constant tired feeling—mean that the liver and digestive organs are needing help and correction. Chamberlain's Stomach and Liver Tablets give this necessary help. They work in nature's own way. They do not merely flush the bowels but tone up the liver and stomach to fulfill their proper functions. So mild and gentle do they act that one hardly realizes that they have taken medicine. Chamberlain's Tablets can be relied upon to relieve biliousness, indigestion, constipation and dizziness. Sold everywhere. Price 25 cents.

STOMACH MISERY WILL VANISH

Dyspepsia, Heartburn, Gas, Headache, and Other Misery From a Disordered Stomach Goes in Five Minutes

MAKES YOU FEEL FINE

Take a Little Diapepsin Now and End All Stomach Trouble Forever so You Can Eat Your Favorite.

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis, or Catarrh of Stomach, it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; there is lack of gastric juice; your food is only half digested and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, dizziness, or many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

Farmers, mechanics, railroaders, laborers rely on Dr. Thomas' Electric Oil. Takes the sting out of cuts, burns or bruises at once. Pain cannot stay where it is used.

MEMPHIS WILL REBUILD AFTER FIRE

Loss Estimated at Over \$25,000 in the Blaze of Early Saturday Morning.

[Special to The Gate City.] MEMPHIS, Mo., March 28.—About 2 o'clock Saturday morning this city was visited by one of the most destructive conflagrations in the history of Memphis. The Minnie E. Bence School of Music, a two-story brick structure, 80x100 feet in size; W. C. Chew's music store, S. P. Pond & Co.'s poultry house and George Bratz's shoe shop were totally destroyed and but little of the contents of the building were saved. The public school, which had been occupying Mrs. Bence's building while the new school house is being built, was a heavy loser in the blaze, as the school library, laboratory, school fixtures and books were consumed, as well as a handsome new piano, lately purchased by the High school pupils.

The blaze started in Mr. Chew's barn at the rear of his store, and is supposed to have been of incendiary origin.

The losses, conservatively estimated, are as follows:

Mrs. Bence\$12,000
Joseph Myers 2,000
W. C. Chew 5,000
School district 2,500
S. P. Pond & Co. 3,000
G. M. Bratz 1,000

The insurance in sum total amounts to about \$8,000, making the losses very heavy to all affected.

S. P. Pond & Co. have rented the old Central hotel building and resumed business operations.

The burned district will in all probability be rebuilt.

Capt. Bogardus Again Hits the Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines: all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and oftentimes a cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and once more feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers."—Wilkinson & Co.

COBDELIA: Gold Medal Flour is cheapest—it's best, too—more loaves to the sack. EXPERTS.

DRESSINESS

NOW, while the assortment is complete, is the time to supply your needs for Spring. It is just as easy to be a Nobby Dresser—Clothes rightly designed cost no more than the other kind. It is just a matter of choice with you. We have received a wonderful assortment of Spring Styles, and We'll show you some Artistic Garments at \$20.

\$20.00

Other Qualities at \$12, \$15 and \$18

Peterson Bros

602-604 MAIN

Redrawn from the St. Paul Pioneer Press

"Speak up, boy; where does your daddy live?"

Why the Cost of Living Increases. Allan Benson has investigated the question for months. He tells in PEARSON'S MAGAZINE for April why does the manipulating of food prices and why.

How Missionary Money is Wasted. Richard Barry, who has spent four of the last six years travelling in the Far East, and knows missionaries, tells about them. The United States gives more money to foreign missions than any other country and this year is asked for even a greater sum. All other countries are decreasing their gifts. Barry explains forcibly and simply just how the foreign mission money is wasted.

Why Mr. Taft is With the Bosses. Alfred Henry Lewis tells in the second of his series on "The Betrayal of a Nation." It is not a pleasant story about the President of the United States, but it is the truth. It is a frank and free explanation of Taft, the man; and Taft, the President, by one who knows both. It explains things.

How a Ship Subsidy will Affect the Nation. Senator Burton and Representative Humphrey, from both points of view, explain why the nation needs a ship subsidy and why the nation does not need a ship subsidy. It is the first thoroughly informative study on the whole ship subsidy idea, and what it means to the people in dollars and cents.

Why Miscegenation Flourishes in the North. A woman shows why a thoroughbred negro is seldom seen north of the Mason and Dixon line, and why miscegenation, usually thought to be a Southern question, is really proportionately much greater in the North, where certain white men, whom she names, actually encourage the union of black and white.

How Trees are Saved by Surgery. An exposition of the new science of tree surgery; how knowledge and cement inexpensively preserve trees.

Why the Small Investor has an Advantage. John B. Stanton, in his series of investment articles, shows how the small stockholder may increase his holdings.

How False Hair is Made, and What Effect It Has on the Wearer, is set forth in an article by Sterling Heilig. An article that every woman should read and ponder.

The Fiction Includes Nine Stories. The beginning of a splendid new series by P. C. Macfarlane, another of the adventures of Mr. Peter Ruff by E. Phillips Oppenheim, and seven other stories of love, adventure and mystery.

Pearson's Magazine for April
