Palatial passenger trains are in operation, freight accepted and everything is moving along as a well regulated and well managed railroad should. The fact that C. M. Levey is second vice president and general manager, and E. L. Lomar the passenger traffic manager, assures the business of the Western Pacific will receive intelligent attention. Both are thorough in their operating departments and it will be a decided pleasure to their many friends in the east and middle west to learn that the railroad with which they are now connected is in operation from one end of the line to the other and on the branch lines. —Regular meeting of Hermann lodge, No. 116, I. Bath Tub Cleanliness

Whether the bath tub be made of porcelain, enamel, iron or zinc, it should be kept bright and smooth. A solution of Gold Dust washing powder and warm water will quickly remove any vestige of dirt and if any rough places or dark spots appear, these can be easily removed by sprinkling a little of the Gold Dust powder on a cloth and rubbing briskly. The water basin and water closets may be kept perfectly white if thoroughly washed with Gold Dust once a week. The use of Gold Dust washing powder is a protection against disease and odors. It cleans the drain pipes thoroughly.
