rived in this city yesterday with the

been in Missouri recently and seen  
Burlington play at Macon, Mo., with  
a strong team. "The new Pathfinders  
are a fine team," he said, "and they  
will show the league something this

saw them going they will make a

—In coming from the baseball park  
after the game yesterday afternoon  
one of the street cars, crowded with  
passengers, was derailed at the turn  
near the front gate of Rand park. A  
delay of ten minutes in bringing the  
people down town was occasioned.

—The Steamer Keokuk is expected  
to arrive here some time next week  
to start in the daily trade from this  
city to Quincy, according to advices  
received from the local offices of the  
White Collar line. Just as soon as

day."

—The first car of strawberries to  
reach Keokuk, was sent here by extra

A Fort Madison automobile party  
at Sixth and Main was surrounded by  
a crowd of twenty-five or thirty per-  
sons last night when the lights of the  
touring machine refused to work and  
a garage man had to be called to  
remedy the grim defects. Persons  
walking along Main street thought  
that some one had been killed, no  
doubt, from the throng which stood  
around watching the futile attempts  
to make the lamps burn.

—Willie Cutwright, son of Richard  
or "Acey" Cutwright, the dog catcher,  
is probably dying or dead, according  
to an Oskaloosa telegraphic dispatch  
which states that a man by the name  
of "William Cutwright of Keokuk" was  
struck by a freight train at that  
place Saturday, and received possibly  
fatal injuries. The father of William  
Cutwright, the colored lad who has  
lived in Keokuk, has received no word  
of his son's being injured, but says  
that the boy is out of the city at pre-  
sent. The Oskaloosa dispatch says:  
William Cutwright of Keokuk, put off  
an Iowa Central passenger train for  
drunkenness, crawled back upon the  
track, laid down and went to sleep.  
The police patrol sent after the man  
was within a half block of the tracks  
when he was hit by a freight train,  
causing injuries which will probably  
result in his death. He is in a local  
hospital.

—Former Senator E. G. Moon, of  
Ottumwa, author of the famous Moon  
law regulating the number of saloons  
according to population, was in Bur-  
lington Saturday, and gave out the fol-  
lowing interview regarding the recent  
supreme court decision: "It means  
in a nutshell, that any saloons that  
went into business after April 15, 1909,  
have no right to existence," Mr. Moon  
stated. "There was some question as  
to whether the law did not go into ef-  
fect on July 4 or that year it appears,  
but the court has decided not. It will  
make some difference in a number  
of cities where there was a rush to  
obtain licenses in that year before  
July 1." Mr. Moon said he was im-  
pelled to draw up the measure from  
his observations as to the conditions  
where a large number of saloons were  
in operation. Even where the license  
was fairly high, he stated, there were  
more saloons starting up, and the reg-  
ulation was not of the best. He  
thought that with fewer saloons the  
right to operate would be worth some-  
thing and would tend to make the  
saloon men strictly observe the law.

his observations as to the conditions  
where a large number of saloons were  
in operation. Even where the license  
was fairly high, he stated, there were  
more saloons starting up, and the reg-  
ulation was not of the best. He  
thought that with fewer saloons the  
right to operate would be worth some-  
thing and would tend to make the  
saloon men strictly observe the law.

—Former Senator E. G. Moon, of  
Ottumwa, author of the famous Moon  
law regulating the number of saloons  
according to population, was in Bur-  
lington Saturday, and gave out the fol-  
lowing interview regarding the recent  
supreme court decision: "It means  
in a nutshell, that any saloons that  
went into business after April 15, 1909,  
have no right to existence," Mr. Moon  
stated. "There was some question as  
to whether the law did not go into ef-  
fect on July 4 or that year it appears,  
but the court has decided not. It will  
make some difference in a number  
of cities where there was a rush to  
obtain licenses in that year before  
July 1." Mr. Moon said he was im-  
pelled to draw up the measure from  
his observations as to the conditions  
where a large number of saloons were  
in operation. Even where the license
