

BRING OLD LADY OF 94 TO COURT

Mrs. Amanda M. Boatman of Farmington in Well Known Litigation, Served With Bench Warrant Today.

SON WANTS MOTHER

E. H. Smith of Keokuk Acting as Best of Father, It is Said, Seeks to Take Elderly Woman From Daughter.

A bench warrant, the legal use of which is liable to impair the health and menace the advanced years of Mrs. Amanda M. Boatman of Farmington, was issued by Judge W. L. McNamara of the superior court Tuesday afternoon, at the instigation of Frank M. Hallinger, attorney for the plaintiff, Elmer H. Smith, grandson of the elderly woman, in the case of the E. H. Smith vs. Mrs. Tip Swisher, the court issuing a bench order for the bringing of Mrs. Boatman from her home to Keokuk this afternoon.

Chief of Police H. M. Schevers, accompanied by a trained nurse, left this morning for Farmington to determine the physical condition of Mrs. Boatman who is past ninety-four years of age.

Continuance of the trial, which was commenced yesterday afternoon at 2:45 in the superior court was taken today at 2:00 o'clock. The appearance of Mrs. Boatman, who is unable, on account of her advanced years, to be moved, was demanded by attorney for the plaintiff, the grandson, who has become involved in the litigation with his father, H. H. Smith.

Unable to Walk.

Remarkably well preserved in mentality for one of her advanced years, Mrs. Boatman, the elderly lady whose condition is pitiable because of the manner in which she is being bobbed about by court action, is unable to walk in her own room at the home of her daughter, Mrs. Tip Swisher at Farmington, without the assistance of some one.

As exhibit "A," attorney for the defense, John P. Hornish, presented a certificate from Dr. W. H. Mott of Farmington, in court yesterday, in which the physician states that Mrs. Boatman, in his opinion, is not physically able to attend court unless special arrangements can be made for her transportation. It is necessary for Mrs. Boatman to lie down and she is unable to walk unless assisted.

A wheel chair was provided for her coming here today.

About the Case.

A brief knowledge of the case follows: Suit has been filed in the superior court by Elmer H. Smith of Keokuk, grandson of Mrs. Amanda M. Boatman vs. Mrs. Tip Swisher of Farmington, daughter of Mrs. Boatman, in which the plaintiff states that the elderly lady is being unlawfully restrained at the home of the

BOYHOOD AND ALCOHOL

There are some things too awful to contemplate—one is the giving of alcohol in the guise of medicine to boys.

We believe Scott's Emulsion is the only preparation of Cod Liver Oil that contains absolutely no alcohol, drug or harmful ingredient of any sort.

defendant and that she is dissatisfied with her environments.

Recently, a deposition was taken by the attorneys on both sides from Mrs. Boatman at her daughter's home in Farmington in which the elderly lady sets forth that she is entirely satisfied with her place of abode.

J. H. Taylor of Farmington, testifying in behalf of the witness yesterday in court, stated that he has been at the home of the defendant in the case on a number of occasions and from observations firmly believes that Mrs. Boatman is being well cared for and in a comfortable condition.

Recovery of Money.

As well as can be understood about the matter, Mrs. Boatman recovered through a court decree something like three thousand dollars which were invested in lands by her son, H. H. Smith, in Oklahoma some time ago. At one time Mrs. Boatman lived with this son, who is her off-spring by a previous marriage, in Oklahoma.

The son purchased a life membership in the Birge Benevolent Home in this city for the sum of \$250 some time later and Mrs. Boatman lived there for a time.

Attorneys for the defense claims that the old mother was taken ill and that Mrs. Swisher, the daughter, coming from Farmington to nurse her for several weeks, upon returning home, took Mrs. Boatman with her.

It is for the purpose of obtaining the removal of the mother from the home of the daughter that habeas corpus proceedings have been begun, the first writ having been served in February.

The weight of the entire litigation rests upon the testimony of the elderly woman who is nearing rapidly the century mark.

Had Hard Trip.

Mrs. Boatman arrived in Keokuk this afternoon on the Rock Island at 1 o'clock accompanied by the nurse and Chief Schevers. The trip was one which fatigued the elderly woman greatly and she was removed immediately to Graham hospital where it is possible she will remain and not be taken to the court room until she has recuperated from the tension of her ride, which though only thirty miles was a hard one for an elderly woman of her advanced years.

When first asked if she wanted to come to Keokuk, by the police chief, Mrs. Boatman answered no, saying she was tired. A little persuasion sufficed, however, to get her to come to Keokuk.

Ever-Ready 12 Bladed Safety Razor \$1

AMUSEMENTS.

For the Fans.

At Dodge's—A story of the north woods, is always interesting and too much cannot be said of the Kalem subject for tonight, entitled, "When The Dead Return," or "A Tragedy of the Lumber Camp."

Jacques and Antoine are both in love with the same girl, but Jacques is the winner and marries Marcelle. Three years after the wedding an accident deprives Jacques of his memory. Not knowing where or who he is, he wanders far from home and takes up a new life all memory of the old having forsaken him. Years later Marcelle convinced that Jacques is dead marries Antoine. After ten years of happiness with Antoine Marcelle dies, leaving a little daughter. About this time through an accident Jacques' memory is restored and he arrives back at his old home just as his daughter is about to marry. Not realizing the lapse of years he attempts to stop the wedding, believing that his daughter is his wife Marcelle.

A Vitagraph comedy, "Soldiers Three," contains one long hearty laugh. Three long, lean and lanky Scotch laddies try to win three lassies. Off duty they go in swimming, get in "hot water," lose their uniforms, unable to find barrels, they try to get home in their "altogether," borrow female attire, are court-martialed, and do a whole lot of things that create volumes of laughter.

The Old Mill, an Urban Eclipse, completes another one of those all feature bills for tonight.

The Airdome.

The Airdome theatre has secured a noted violinist and director for its orchestra, Mr. Irene Reese, who has become well known the country over because of his unusual ability as leader and violinist, will be here this summer in charge of the Airdome orchestra. At one time he was a concert violinist but finding himself adapted to popular music he entered vaudeville. He can make you think you're listening to grand opera when he plays into a classical rendition but you imagine you're at a barn dance when he goes off into rags and breakdowns. With him will be Miss Addie Hull at the piano. She held that position very capably last year. Mr.

Harry Reynolds, the Grand opera house drummer, will play the drums. As announced before our Citizens' Band, formerly the 60th Iowa Regimental, will play two opening nights, Thursday and Friday, making a parade down Main street from 12th to Second Thursday night at 7:30. They receive 25 per cent of the box office receipts to buy uniforms. Everyone should come help the band and see a good show.

Tomorrow Evening's Musical. The Monday Music Club will give the closing musical event of the season tomorrow evening, when Mrs. Albert Hilberg, late of Gothenburg, Sweden, will give a piano recital in the Y. M. C. A. auditorium. This will be a public recital which everyone is invited to attend.

Tickets, which are fifty cents, may be bought of any club member.

Of Mrs. Hilberg's farewell concert in Sweden, the Gothenburg Morning Post has this to say:

Miss Hultgren proved herself to be a very clever pianist. She played the dreamy Nocturne of Chopin beautifully and intelligently. It was a pleasure to see how easily she overcame the technical difficulties with which Liszt's Concert-Étude abounds. Sibelius Romance and Rubinstein's glittering Valse-Caprice were excellently performed.

Mr. M. M. Risberg, who will assist Mrs. Hilberg tomorrow evening, will sing four numbers. All who have heard him sing have been delighted with the clear musical quality of his voice, and his numbers will add materially to the program. Mrs. Arvilla Erdman Cooper, whose accompaniments are always a delight, will play for Mr. Risberg.

Mrs. Hilberg's program includes a group of compositions by Swedish composers and the interpretation of these masterpieces of her native land will be most interesting.

Following is the program: Ballad, G. Minor.....Chopin Nocturne, No. 8.....Chopin Valse, No. 5.....Chopin

Charity.....McDermid Fulfillment.....McDermid Love's Great Song.....McDermid Mr. Risberg.

Morning Walk.....Sjogren Evening.....Sjogren Swedish Dance.....Anderson Mrs. Hilberg.

Sunset.....Dudley Buck Mr. Risberg.

Romance.....Sibelius Rigoletto Paraphrase.....Verdi-Liszt Staccato-Caprice.....Vogrich Mrs. Hilberg.

Express Robbers Caught. NEW YORK May 10.—Ten central office detectives, disguised as drivers and freight handlers trailed a United States Express company van containing \$20,000 worth of valuables through the streets in a closed delivery wagon and arrested Charles Miller, the driver, who took it to a stable on the east side. Nine others were taken into custody with Miller on charges of grand larceny.

Rate Cases Postponed. DES MOINES, May 10.—At the request of Attorney General Cossom the injunction cases set before Judge McPherson in the federal court to prevent putting into effect lower freight and express rates were postponed until late in the fall. The attorney general said that he wanted to wait until the United States supreme court has passed upon the decisions in rate cases of a similar nature.

ARE BOOSTERS AT MUSCATINE

President Justice Spent Day in Northern City and Comes Back Enthused About Prospects There.

THAT KEWANEE PROTEST

Will Hardly be Allowed Because Umpire Went According to Early Instructions From President.

President M. E. Justice of the Central Association spent yesterday in Muscatine, where he attended the opening game in the infant city of the circuit. Today he is singing the praises of the northern city and of the business men who are making the national game a success there.

President Justice says that Muscatine has the best baseball park in the circuit, and this is certainly putting it strongly, for all of the cities have excellent pastures where the game is played. Justice spoke highly of the interest taken by Muscatine fans and characterized them as the real wild-eyed bugs. The only drawback about the park, however, is the fact that it is six blocks from the end of the car line.

Justice has given his first two protests little consideration yet. It is certain that he will not allow the protest from Kewanee, but the Keokuk one may stand a better show. At Hannibal the question was scoring on a balk. This was long questioned in baseball, but in instructions to his umpires some time ago President Justice told them to interpret the rules as the umpire did at Hannibal.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quick! First application gives relief. Sold by all dealers.

Quincy Interurban.

QUINCY, Ill., May 10.—There is now no doubt that work on the proposed interurban between Quincy and Pittsfield will begin within the next few weeks. At the annual meeting of stockholders of the St. Louis, Terre Haute & Quincy Traction company, held yesterday in the Chamber of Commerce rooms, the capital stock was increased from \$50,000 to \$1,680,000; there was a unanimous vote to authorize the directors to issue bonds to that amount; the name of the corporation was changed to the "Quincy & Terre Haute Railway Co." three directors were elected; and St. Louis capitalists agreed to float almost seventy-five percent of the proposed bond issue.

Inspectors Rifled Mail.

FARGO, N. D., May 10.—Deputy United States marshals left here today for Grand Fork to arrest Post Office Inspectors Gregg and Drake on the charge of tampering with the mails. The men are charged with opening a packet and taking out the charter of the newly organized railway clerk's union.

No Intervention.

WASHINGTON, May 10.—Fears that the United States might be forced into intervention in Mexico by pressure from abroad, was allayed today by assurances from President Taft. England, France and Spain, it is said, have let it be known that they will not insist on intervention.

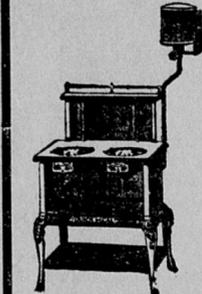

The Dietz Trial.

HAYWARD, Wis., May 10.—Dr. Wm. Doren was on the stand today when the Dietz case opened this morning and was cross examined by Dietz. In the Dietz murder trial today the states attorney wrapped John Dietz up in technicalities and the defender of Cameron Dam who had been having smooth sailing, found himself in rough water. Much testimony which Dietz hoped to have entered, was stricken out.

Deadwood Dick's Captor.

BOZZEMAN, Mont., May 10.—John Charles, aged 72, the man who captured "Deadwood Dick," and got \$5,

LINQUIST BROS. 518 Main Street Keokuk, Iowa

A Great Combination Farm For Sale, Or Exchange

We are offering for sale or exchange a farm of 494 acres, located about 14 miles from the Great Keokuk Dam. One of the greatest engineering feats of any century will be the construction of this great dam across the mighty Father of Waters. Our people can not realize and appreciate the far reaching importance to this part of Iowa, of this mighty power. A population of at least one-half million will throng this vicinity within a few years. Land will become a great desideratum, and the value of it will increase rapidly. About one-half of the farm is fine high bottom, corn and wheat land in cultivation. It is not overflow land and hence no uncertainty about the crops. The other half is upland, timber and brush pasture, with more than sufficient wood to pay for clearing. The house has six rooms, the barn is a basement one and is about 40x60 feet. The location is a station on the Rock Island railroad, called Hinsdale. The farm is 3 1/2 miles from Argyle, a town on the main line of the Santa Fe railroad. At some early date this farm will be very valuable. It is being offered now, for cash, at \$85.00 per acre. Will exchange for larger or smaller farm in southeastern Iowa, but farm must be worth the money.

MORONY & HURLEY Mt. Pleasant, Iowa

GAINED THIRTY POUNDS

Mrs. J. E. Fink suffered from dyspepsia for four years without finding any relief. "I suffered horribly from headaches, heartburn and nervous ailments that came from my stomach," she says. "And what was worse, I began to lose flesh because I couldn't eat. I took box after box of every preparation that my friends advised, but without any result. And I had almost given up hope when I heard of Miller's Dyspepsia Tablets. The best thing I can say is that I eat what I like now, and have gained thirty pounds since I began to take the wonderful tablets." For dyspepsia in any form, there is no better remedy than Miller's Dyspepsia Tablets. One tablet gives instant relief—and a few boxes cure any case. 25c, 50c and \$1 at any druggist's.

Can't Get Away From It

Is it possible to nourish, strengthen and Rebuild the Brain by Food? Every man who thinks uses up part of the brain each day. Why don't it all disappear and leave an empty skull in say a month of brain work? Because the man rebuilds each day. If he builds a little less than he destroys, brain fog and nervous prostration result sure. If he builds back a little more each day, the brain grows stronger and more capable. That also is sure. Where does man get the material to rebuild his brain? Is it from air, sky or the ice of the Arctic sea? When you come to think about it, the rebuilding material must be in the food and drink. That also is sure. Are the brain rebuilding materials found in all food? In a good variety but not in suitable proportion in all. To illustrate: we know bones are made largely of lime and magnesia taken from food; therefore to make healthy bone structure we must have food containing these things. We would hardly feed only sugar and fat to make healthy bone structure in a growing child. Likewise if we would feed in a skillful manner to insure getting what the brain requires for strength and rebuilding, we must first know what the brain is composed of and then select some article or articles (there are more than one) that contain these elements. Analysis of brain by an unquestionable authority, Geoghegan, shows of mineral Salts, Phosphoric Acid and Potash combined (Phosphate of Potash) 2.91 per cent of the total, 5.33 of all mineral Salts. This is over one-half. Beaunis, another authority, shows "Phos-

phoric Acid combined" and Potash 73.44 per cent from a total of 101.107. Considerable more than one-half of Phosphate of Potash. Analysis of Grape-Nuts shows: Potassium and Phosphorus (which join and make Phosphate of Potash) is considerable more than one-half of all the mineral salts in the food. Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumen and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts, and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life." Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of cure." The natural conclusion is that if Phosphate of Potash is the needed mineral element in brain and you use food which does not contain it, you have brain fog because its daily loss is not supplied. On the contrary, if you eat food known to be rich in this element, you place before the life forces that which nature demands for brain building. Mind does not work well on a brain that is broken down by lack of nourishment. A peaceful and evenly poised mind is necessary to good digestion.

Worry, anxiety, fear, hate, etc., etc., directly interfere with or stop the flow of Ptyalin, the digestive juice of the mouth, and also interfere with the flow of the digestive juices of stomach and pancreas. Therefore the mental state of the individual has much to do (more than suspected) with digestion. Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumen and water. Grape-Nuts contain that element as more than one-half of all its mineral salts. A healthy brain is important, if one would "do things" in this world. A man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folks believe links us to the Infinite. Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day. Nature's way to rebuild is by the use of food which supplies the things required. Brain rebuilding material is certainly found in Grape-Nuts. Postum Cereal Company, Ltd. Battle Creek, Mich.

Grape-Nuts "There's a Reason"
