SIX MONTHS USE OF CARBINES (Continued from page 1.)

busy, issued orders that Villa was to march south and protect the line of the National railway. This takes Villa away from the neighborhood of El Paso, an arrangement highly satisfactory to the citizens of the American city.

Madero tonight issued this statement to the United Press:

"I wish to make my proposition clear before the American public. I shall resign the provisional presidency of Mexico when Diaz resigns. I will then go to Mexico City, not as an official, but as a private citizen and as such I shall co-operate with Senor De La Barra. The story that a double regency will be established for Senor De La Barra and myself comes from enemies in Mexico City and has no foundation whatever. Such an arrangement would be against the constitution and would not be tolerated by any Mexican citizen."

It is learned that two days ago Madero secretly sent Alfonso Robles Dominguez to Mexico City to confer with De La Barra regarding the preliminaries for the peace conference. A telegram was sent to De La Barra by Madero tonight congratulating him on having been selected for the presidency pro tem.

Madero has sent a telegram to the Diaz government that Navarro, who was defeated at Juarez, and 450 federal soldiers would be released as soon as Diaz quits the presidency.

It will take six days to complete repairs on the railway, and it is not probable that Madero will leave or the capital before the last of next week.

Pino Suarez, provisional governor of Yucatan, where the peonage system exists, said today: "The first thing the new governors are going to do in their states is to change the criminal laws at once, so that the peonage systems will be abolished. I have talked with three other men who are going to be governors of states in southern Mexico, where slavery exists and we have all agreed to make an end of slavery immediately."

Raol Madero, son of the insurrecto leader, has been ordered to remain in Juarez and take charge of the small insurrecto force which will guard the town. General Orozco will be in command of 1,500 insurrectos who start Sunday for Casas Grandes. The Diaz government looks upon Orozco's march as a threat by Madero to attack Chihuahua. Madero says it is not a threat, but that he hopes to disband at Casas Grandes.

He is having trouble in notifying his forces in the interior that the armistice is in force. Notice of the armistice reached the insurrectos at Nogales, Sonora, today, just as they were about to take the town.

POLICE FORCE GETS SHAKE-UP

So Much Easy Graft in Sight That New Men Are Given a Chance.

[Gate City Leased Wire Service.] CHICAGO, Ill. May 20.—Charges that Chicago's police force was corrupt, that gambling and crime flourished under police protection, and that bribe money, amounting to immense sums, was paid by the keepers of the notorious resorts are said to have been behind an order issued tonight which gave the Chicago police force the greatest "shake-up" in its history.

Six of eight inspectors are shifted, eight captains and 28 lieutenants are given different precincts. The south side "levee" district will be commanded in the future by Capt. Patrick J. Harding.

BIG PRIZE FIGHT IS PLANNED

Sam Langford and Tony Caponi May Meet on Next Decoration Day.

[Gate City Leased Wire Service.] CHICAGO, May 20.—Local fight fans will have an opportunity to see Sam Langford, the light heavyweight, in action on May 29, if present plans carry. The Boston fighter has agreed to meet Tony Caponi, the local Italian boxer, before the Kenosha Athletic club on the evening before Decoration day. Jacob A. Geis, acting for the Wis-

consin club today received telegrams from managers of Caponi and Langford, practically closing the match. Langford announced his willingness to meet Caponi or any other man that the Kenosha club could get. The bout will be of the ten round no decision variety.

WANT CLARK AND NOT WILSON

Republicans Would Rather See the Missourian Elected if Worst Must Come.

[Gate City Leased Wire Service.] WASHINGTON, May 20.—"More 'republican support' for Champ Clark as the democratic candidate for president in 1912, loomed up on the floor of the house today. Representative Olmstead, in a speech on the Arizona-New Mexico constitution resolution, remarked: "Some people tell me that two-thirds of the democrats in the south are for Woodrow Wilson for president in 1912. I believe that four-fifths of the democrats are for our speaker for president. If we must have a democrat for president in 1912, which God forbid, I am sure we all would prefer to see Champ Clark in the white house."

Graham (dem. Illinois), interrupted the applause with: "If you wanted this side of the house to applaud that, you should have omitted the 'God forbid.'"

Minority Leader Mann of the house republicans continued the "republican boom" for Clark tonight at the banquet of the local chapter of the Delta Tau Delta college fraternity.

MAN WHO KILLED HIS TWO BABES

Has Stood Trial Four Times For Murder and Likely Will Be Dismissed.

[Gate City Leased Wire Service.] CHICAGO, May 20.—After standing trial four times for murder, William M. Meutsch, a wagon maker, was released from jail today on a \$5,000 bond. Meutsch on June 30, 1908, shot and instantly killed his two children, Jennie, two years old, and Gertrude, three years old; also wounded his son John, aged one. It is probable the charges against him will be dismissed. On his first trial, Meutsch was declared insane and sent to the asylum. Two years later he was pronounced well, was placed on trial and sentenced to be hanged. He was saved on the very gallows by an order for a new trial, at which he was found guilty of killing Jennie. On his fourth trial he was ordered sent to prison for life for killing Gertrude, but was granted a new trial.

Ten days before the murder Meutsch was injured in a street car accident and lost his reason. He is in possession of all his faculties now.

BACK TO FARM FOR THE DOGS

No Use for Them in the Cities Says Assistant Chief of Chicago Police.

[Gate City Leased Wire Service.] CHICAGO, May 20.—The epidemic of mad dogs in Chicago during the present hot wave has caused a police crusade against dogs in Chicago. "Constantinople has little on Chicago in the matter of dogs," said Assistant Police Chief Schuetzler tonight, "and every one of the 100,000 dogs here represents that number of follies which endanger life."

More than 20 persons have been bitten in Chicago this week by dogs suffering from hydrophobia. "The dog," added Schuetzler, "has no more usefulness in city life. He is needed on the farm but there ought to be a law prohibiting the keeping of one in a great city."

USE OF TOBACCO GETS OFFICIAL SANCTION

Judge Landis Says There is no Wrong in Either Smoking or Chewing.

[Gate City Leased Wire Service.] CHICAGO, May 20.—Indulgence in tobacco is not such a moral crime, according to Judge K. M. Landis, who today sentenced John Brook, 20, mail clerk, to 14 months in the Leavenworth prison for robbing the mails. "I never had any bad habits," pleaded Brooks. "I didn't chew or smoke." "Never tell anybody you are a good man simply because you don't use tobacco," said Judge Landis, "for that is about the cheapest virtue I know. It is not wrong to smoke or chew, and it would have been better for you to have used tobacco; maybe that would have kept you from stealing."

NOTHING TOO GOOD FOR THE IRISH

Tributes Paid to the Race By Rev. McCabe in Address to Club.

[Gate City Leased Wire Service.] CHICAGO, May 20.—"Without the Irish, this old world would be a great pessimist."

This was the tribute paid to the sons of Erin by Rev. Francis Xavier McCabe, president of De Pan University, in an address this evening before the Irish fellowship club. Here are some of his other remarks: "There are fewer Irish millionaires than there are of any other race. Irish generosity is a bar to Irish wealth. 'The Irish are optimists. They never see anything but the bright side of life. They have taught the world how to smile. 'They have assisted in building up civilization with Christian education. 'Why is the Chicago police force so full of Irish policemen? Because no one but an Irishman can be a good policeman in a town like Chicago.'"

CONSTITUTION WAS THE TOPIC

Mann Only Talked For Two Hours and Others Also Had Their Say.

[Gate City Leased Wire Service.] WASHINGTON, May 22.—"Why is a constitution," and "if so, when?" were some of the questions disposed of by the sweltering membership on the Arizona-New Mexico constitution resolution.

Representative Hardy of Texas, led the democrats. Minority leader Mann next entered the ring, armed with a typewritten speech of several hundred pages. He only lasted about two hours.

The venerable document then withstood attacks by Representatives Olmstead of Pennsylvania and McDowell of Wyoming. Delegate Cameron of Arizona talked about what splendid states Arizona and New Mexico will make. Allen, of Ohio, wound up the day with a discussion of the rights of the various branches of the government and took exceptions to "the usurpation of the rights of the legislative branch by the judiciary," referring to the supreme court decision in the Standard Oil case.

PRESS AGENT STUNT WAS PARTY

Coal Heaving Act in Alaska Said to Merely Have Been Grand Stand Play.

PORTLAND, Ore. May 20.—That the "coal party" at Cordova, Alaska on May 4, was not a "spontaneous uprising of citizens" but a carefully arranged press agent stunt to direct the attention of the American people to the situation confronting the Guggenheim interests in that territory, was the statement made here tonight by persons just arrived from Alaska. They assert that instead of 300 tons of Canadian coal being shored into the sea by the participants in the "tea party" not more than 500 pounds were destroyed. The citizens of Cordova are pro-Guggenheim. Feeling that the failure of the United States government to open up the Alaskan coal lands was working to their detriment, they determined to make a demonstration. The Boston tea party was seized upon as an historic precedent. It is asserted that the telegrams were then filed and the party of citizens proceeded quietly to the docks of the Alaskan steamship company, a Guggenheim concern, and shoveled off about five hundred pounds of fuel. Later when United States Marshal Sullivan reached the scene, Agent Barry of the steamship company declined to swear out warrants for the arrest of participants in the "coal party" while President Young of the steamship company at Seattle, issued a statement declaring his company could scarcely blame the Alaskans for their anger.

Beginning to Hedge

[Gate City Leased Wire Service.] WASHINGTON, May 20.—Seeking a means of escape from the danger of too much revenue reduction in their tariff revision, several leading house democrats today took up a proposition of increasing from the corporation tax law. Headed by Representative Ansberry of Ohio, they are working on an amendment which contemplates a graduated scale of taxes on the net profits of corporations of varying an interstate business, beginning with the present rate and gradually increasing until the tax on the greater corporations and monopolies would be practically prohibitive.

John A. Cunnane of Baltimore, was so large it had to be placed in the pursers cabin in a special safe.
