

Uneeda Biscuit never disappoint!

You have never heard anyone say—"The Uneeda Biscuit in that last package were not as good as usual."

You have never said it yourself.

It is one thing to make soda crackers that are occasionally good.

It is quite another thing to make them so that they are not only always better than all other soda crackers, but always of unvarying goodness.

The name "Uneeda"—stamped on every one of them—means that if a million packages of Uneeda Biscuit were placed before you, you could choose any one of them, confident that every soda cracker in that package would be as good as the best Uneeda Biscuit ever baked.

5c a package—never sold in bulk.

NATIONAL BISCUIT COMPANY

BOARD PROVIDES BOYS CHAPERON

Dr. Reid, Principal of High School, Will Accompany Athletes on Their Future Trips.

MONTHLY BOARD MEET

Only Matters of Minor Routine Nature Were Transacted—Teachers Can Attend State Meeting.

The Keokuk high school athletic teams hereafter will not be without plenty of chaperoning. Following requests from parents to Principal Reid that he accompany the football team, the school board at its regular monthly meeting last night passed a motion, allowing the principal his expenses for the Saturday trips. In the future he will go along with the youthful athletes to "keep them straight."

The meeting was a very quiet one and only minor matters of a routine nature were transacted. Superintendent Aldrich read a request from nine teachers for permission to attend the state meeting at Des Moines in November and from three teachers to attend a meeting in Hannibal, Mo., about the same time. Superintendent Aldrich said he believed it worth while to grant permission to teachers in this regard. On motion of Director Lutz the request was granted. Last year nearly 8,000 teachers from over the state attended the Iowa meeting. From Keokuk about forty were present.

The superintendent introduced a chart which he believed was advisable to purchase for the high school. The chart deals exhaustively in questions asked concerning young men by employees seeking positions. The chart was ordered purchased. It was ordered to purchase certain music for the grammar school. The superintendent was granted the usual sums for the manual training and domestic science departments. The matter of purchasing new desks for the commercial department was referred to the committee on supplies with power to act.

A report from the state inspector of buildings, who visited Keokuk schools last week was read. A few minor orders were included in the report. The board ordered they be complied with. Generally the inspector found the schools in good shape. Much better than those in any of the river towns.

President Hughes reported that interest on floating indebtedness had been paid and the tax time warrants taken up.

The matter of a chaperon for athletic teams on their Saturday trips was brought up by President Hughes in behalf of Principal Reid. It seems that Principal Reid has received requests from several parents that he accompany the football team. Feeling that the question was one for the board to recognize, it was voted that Principal Reid's expenses on these trips be met by the board. He will be the "spiritual advisor," while Mr. Wright will accompany the team as athletic advisor.

The board, through the thoughtfulness of Director Roberts, took proper recognition of the recovery of Secretary Barr, who has been indisposed during the past few weeks.

The superintendent's report on attendance and banking for the month of September follows:

Table with columns: Schools, Total, Avg., No. Enroll., Cases De-ment, Ing. Tardy, posts. Rows include High, Geo. W., Garfield, Wells, Carey, Torrence, Lincoln, Hilton, Price's Ck., and Totals.

Convention in Hannibal, HANNIBAL, Mo., Oct. 27.—From the eighth to the eleventh of next month there will probably be more strangers in Hannibal than ever before in its history and they will be of the educated and intelligent class—the school teachers of Missouri. On the eighth, ninth and tenth the colored State Teachers' Association will hold its twenty-seventh annual convention

If Your Head Aches You Should Take the Sure Remedy Hicks' CAPUDINE

There's a cause for every headache—Capudine reaches that cause quickly, whether it be heat, cold, gripp, or stomach troubles—and cures, even though it be sick or nervous headache. Capudine is the surest remedy for Colds and Gripp. Feverishness, Aches and Nervousness disappear and normal conditions are restored. Capudine is liquid—easy and pleasant to take—acts immediately. 10c, 25c and 50c at drug stores.

here and many of the leading educators of the race will be present and presidents of several negro colleges and schools are on the program. The colored people of Hannibal will entertain these visitors at their homes without asking any assistance from the white people. It is estimated that about one thousand will be here on this occasion and an excellent program has been arranged for the three days' session.

On the same dates the Missouri State Teachers' association will hold its fiftieth annual meeting here, when it is estimated that there will be three thousand teachers in attendance, including the general officers and committees. For the entertainment of these visitors the citizens are working untidily, for they realize that it will be a herculean task to entertain and accommodate such a vast multitude. The various churches have been assigned to furnish meals for the visitors and the citizens will open their homes to afford them shelter. Nothing will be spared to make the educators of our youth feel at home while they are our guests. For several days past committees have been out securing rooms and other accommodations for the visitors and they have met with gratifying success, although much work is yet to be done. More rooms are needed and it may be that many who have offered rooms will be obliged to still offer more and make some sacrifices. The teachers expect to pay for their rooms and board and they should be well accommodated for the three or four days they are here.

GREEN BAY FARMERS WILL FIGHT IT

Decide to Stick Together and Protest to Board in Drainage District Matter.

After a heated session in the Hotel Anthes at Fort Madison yesterday afternoon, a half hundred farmers of Green Bay township resolved to stick together and resist legal efforts of the Mississippi River Power Company to have the board of supervisors of Lee and Des Moines counties establish a drainage district and assess their farm lands for the same.

The farmers were behind closed doors in conference with Attorney Felix T. Hughes for several hours, during which no statement from the irate land owners could be obtained. Today, however, it was learned that the action will be contested and in addition, another injunction suit will be brought in the United States court at Springfield in which every farmer in the township will be named as plaintiff.

Judge Hughes said today that there are no statutory grounds for establishment of the drainage district.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying its foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for lists of testimonials.

RIVER MEETING TO KEOKUK IN 1913

Alton Convention Ended Yesterday and Meeting Next Year Will be in Burlington, Home of President.

DISCUSS WATER FRONTS

It Was Generally Admitted That They Were in Disgrace—Recommend Steel Barges and Improvements.

The Upper Mississippi River Improvement Association ended its annual convention at Alton yesterday after a spirited contest for the next convention, in which Burlington, Ia., the home of President Thomas Wilkinson, won over Hannibal, Mo. As Keokuk will demand the convention in 1913, when the great water power dam will be opened, Hannibal insisted upon recognition for next year rather than to wait until 1914. The association re-elected Wilkinson president, L. B. Boswell of Quincy, Ill., secretary and J. P. Eckert of Guttenberg, Iowa, treasurer.

The association declared its undying hostility to the roustabout for the loading and unloading of steamboats, and went on record as in favor of his being superseded in the steamboat business by mechanical contrivances which, it was said, would reduce the cost of handling freight and the uncertainties of getting labor at the big wharves.

When the roll of cities was called for reports as to the condition of the water fronts at the ninety communities along the river from the mouth

STRANGE POWER OF NEW LIQUID IS ASTONISHING

Entire City of Davenport is Aroused Over Miraculous Cures Effected by Scientist's Discovery. Some Say Results From its Use Seem Almost Like Miracles.

A news message from Davenport, Iowa, says that city is still in a turmoil of enthusiasm over the strange and wonderful cures that are being reported by scores of people after using the new Root Juice treatment, which was recently given to the world of sufferers by an Indiana scientist.

So quickly and marvelously have some severe cases been cured, that stories have been circulated to the effect that the medicine possesses some miraculous power, but this of course is ridiculous and untrue.

Many of those who have used it, however, say that the good effect is felt so quickly that it does seem almost a miracle. The rapidity with which the curative power of the juice exerts itself seems demonstrated in the case of Mrs. L. Pedersen, residing at 1122 W. 2nd St., Davenport, who tells of a truly remarkable experience. In an interview on the subject she said: "I suffered from kidney trouble and severe backaches for three years and although I have used but half a bottle of the Root Juice the pain seems to have disappeared. I have had no backaches or pains in the kidneys since I began the new treatment."

The case of Mrs. J. Schondell, whom the medicine cured of a severe attack of rheumatism is another example of the many that are being brought to light. In a signed statement she says: "I suffered for years with a severe attack of rheumatism and after trying numerous doctors without success I made up my mind to see what the Root Juice medicine would do for me. Before taking the medicine I was unable to move and had to be carried from one place to another, but when I had taken only two bottles I was able to

walk without assistance and can now take care of my household duties. Root Juice saved my life."

Hundreds of similar statements have been issued by persons who have tested the discovery and many of them are prominent and influential people whose words cannot be doubted. Among those who recently reported cures are: Mr. J. Thomas Hayes, Mrs. C. H. Davis, Mr. Charles Cunningham, Mr. C. O. Neff, Mr. W. R. Lutzinger, Mrs. Statia Warning and Mr. Fred Wormly.

It seems that the Root Juice works very quickly in most cases and particularly so in stomach trouble. The first few doses are said to produce noticeable benefit. It exerts a soothing, healing influence upon the stomach and wonderfully improves digestion. Another remarkable effect of the medicine is the manner in which it seems to sharpen the appetite. Persons who have not known what it is to sit down and enjoy a hearty meal say that after taking the Juice for a few days they are always hungry at meal time and their digestion seems perfect.

In cases of rheumatism and kidney trouble the medicine does not seem to take effect quite so rapidly and sometimes several days elapse before relief is felt. Most people however, say that in a comparatively short time the most remarkable results are accomplished and that the pain and soreness and swelling soon disappear. Inquiry at one of the leading drug stores of Davenport brought forth the statement that the demand for the medicine has reached unheard of proportions and that those who were first to obtain it are now coming back with glowing reports of the most astonishing cures.

of the Missouri to the headwaters, the name of East St. Louis was included, and the suggestion was made, when no voice answered for East St. Louis, that that city was not on the river, but was bounded by the St. Louis Terminal Railroad Association, the Wiggins Ferry Company and Cahokia creek.

Water Fronts Discussed.

Mayor George Parsons of Cairo, Ill., as vice president of the Ohio Valley Association, was called on for an address. Mayor Parsons spoke of the Cairo water front, which is controlled by private interests, of which he is the representative. Mr. Parsons had said Cairo could control her water front any time she saw fit to do so. O. C. Macy, superintendent of the Alton, Granite and St. Louis Traction Company, of Alton, asked Mr. Parsons to explain how the City of Cairo could gain control of the Cairo water front when Mr. Parsons represented the interests controlling it. Mr. Parsons replied he felt responsible for what he had said. He explained the only method Cairo could adopt would be by condemnation proceedings.

C. F. Perry of Quincy said unless the cities along the river adopt means of reclaiming their water fronts and make them convenient for handling large volumes of freight, congress would soon be asking why should the government continue to pour millions into the river when the people along the way did not take enough interest to use what they did have.

Steel barge lines and improved types of river steamers were advocated. Secretary Boswell said the

WOMAN PAST HELP

Chandler, Okla.—In a letter from this place, Mrs. Ella Flowers says "I hardly know how to thank you for the good that Cardui has done me. Before I tried Cardui, I thought I was past help, but after taking it, I was relieved at once, and gained at least 10 pounds. Everybody says I look so much better. I am still improving greatly." Many women are completely worn-out and discouraged, on account of womanly weakness. Are you? Have you tried Cardui? It only needs a few doses to convince you that Cardui is just what you need. Try it today. It will cure your pains.

present type of freight-carrying boats on the Mississippi is archaic, and that the condition of wharves and steamboats is a disgrace.

Call Government Stingy.

Congressman H. T. Rainey had criticised the course of the government engineers in constructing wing dams and dikes in the river and demanded some better system of improvements. Representatives of the river improvement department stated the cause of inefficient work was illustrated from Hannibal to the mouth of the Missouri river, where the government allowed only \$1,000 a mile, both for upkeep and new work, which is less than the railroads allow a mile for maintaining or improving their roadbeds on land.

Always Somewhere Near. Misery never had to look far for the company that it loves.

A Bargain In Fuel Is what you get when you use fuel gas—the fuel that is delivered at the stove—clean, quick, convenient. Just light a match and the fire is ready. Keokuk Gas & Electric Co.
